Power to throw overboard dangerous goods.

26. Where any dangerous goods, as defined in this Act, or any goods which, in the judgment of the master or owner of the vessel, are of a dangerous nature, have been sent or brought aboard any vessel, British or Foreign, without being marked as aforesaid, or without such notice having been given as aforesaid, the master or owner of the vessel may cause such goods to be thrown overboard, together with any package or receptacle in which they are contained; and neither the master nor the owner of the vessel shall, in respect of such throwing overboard, be subject to any liability, civil or criminal in any court.

Forfeiture of dangerous goods improperly sent.

27. Where any dangerous goods have been sent or carried, or attempted to be sent or carried, on board any vessel, British or Foreign, without being marked as aforesaid, or without such notice having been given as aforesaid, and where any such goods have been sent or carried, or attempted to be sent or carried, under a false description, or the sender or carrier thereof has been falsely described, it shall be lawful for any court having Admiralty jurisdiction to declare such goods, and any package or receptacle in which they are contained to be, and they shall thereupon be forfeited, and when forfeited shall be disposed of as the court directs.

The court shall have and may exercise the aforesaid powers of forfeiture and disposal, notwithstanding that the owner of the goods have not committed any offence under the provisions of this Act relating to dangerous goods, and be not before the court, and have not notice of the proceedings, and notwithstanding that there be no evidence to show to whom the goods belong; nevertheless, the court may, in its discretion, require such notice as it may direct to be given to the owner or shipper of the goods before the same are forfeited.

Saving as to Dangerous Goods Acts.

28. The provisions of this Act relating to the carriage of dangerous goods shall be deemed to be in addition to, and not in substitution for, or in restraint of, any other enactment for the like object, so nevertheless that nothing in the said provisions shall be deemed to authorise that any person be sued or prosecuted twice in the same matter.

Miscellaneous and Repeal.

Her Majesty may, by order in Council, declare certain foreign ports, ports of registry.

29. Where, in accordance with the Foreign Jurisdiction Acts, Her Majesty exercises jurisdiction within any port out of Her Majesty's dominions, it shall be lawful for Her Majesty, by order in Council, to declare such port a port of registry (in this Act referred to as a foreign port of registry), and by the same or any subsequent order in Council to declare the description of persons who are to be the registrars of British ships at such foreign port of registry, and to make regulations with respect to the registry of British ships thereat.

Upon such order coming into operation it shall have effect as if it were enacted in the Merchant Shipping Acts, 1854 to 1873, and shall, subject to any exceptions and regulations contained in the order, apply in the same manner as near as may be, as if the port mentioned in the order were an ordinary port of registry.

Fees in respect of surveys, &c.

30. There shall be paid in respect of the several measurements, inspections, and surveys mentioned in the third schedule hereto, such fees not exceeding those specified in that behalf in the said schedule, as the Board of Trade may from time to time determine.

Board of Trade may sue in name of its officers.

31. In any legal proceedings under the Merchant Shipping Acts, 1854 to 1873, the Board of Trade may take proceedings in the name of any of their officers.

Certain sections not to come into force until 1st November 1873.

32. The following sections of this Act, that is to say, sections sixteen, eighteen, nineteen twenty, twenty-one, twenty-two, twenty-three, twenty-four, twenty-five, twenty-six, twenty-seven, twenty-eight, shall not come into operation until the first day of November one thousand eight hundred and seventy-three.

Repeal of certain sections of the Merchant Shipping Acts, 1862 and 1871; and of certain other sections of Merchant Shipping Acts, 1854, 1862, and 1871.

33. Section twenty-nine of the Merchant Shipping Act Amendment Act, 1862, and sections four and ten of the Merchant Shipping Act, 1871, are hereby repealed; and on and after the first day of November one thousand eight hundred and seventy-three, sections three hundred and twenty-seven and three hundred and twenty-nine of the Merchant Shipping Act, 1854, sections thirty-three and thirty-eight of the Merchant Shipping Act Amendment Act, 1862, and section nine of the Merchant Shipping Act, 1871, shall be repealed; but this repeal shall not affect—

(1.) Anything duly done before this Act comes into operation.

(2.) Any right acquired or liability accrued before this Act comes into operation.

(3.) Any penalty, forfeiture, or other punishment incurred or to be incurred in respect of any offence committed before this Act comes into operation; or,

(4.) The institution of any legal proceeding or any other remedy for ascertaining, enforcing, or recovering any such liability, penalty, forfeiture or punishment as aforesaid.

36 and 37 VICTORIA, CAP. 88.

An Act for consolidating with Amendments the Acts for carrying into effect Treaties for the more effectual suppression of the Slave Trade, and for other purposes connected with the Slave Trade.

[*5th August* 1873.]

WHEREAS divers treaties for the more effectual suppression of the slave trade have been made by or on behalf of Her Majesty and Her Royal predecessors with foreign States, and the Acts mentioned in the second schedule to this Act have been passed for carrying into effect the said treaties or some of them :

And whereas it is expedient to consolidate the said Acts into one Act, and to make provision for carrying into effect the said treaties, and any treaty which may hereafter be made by or on behalf of Her Majesty with any foreign State for the more effectual suppression of the slave trade :

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Preliminary.

Short title. 1. This Act may be cited as the Slave Trade Act, 1873.

Interpretation. 2. In this Act—

The term "the Treasury" means the Commissioners of Her Majesty's Treasury :

The term "the Admiralty" means the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral :

The term "vessel" means any vessel used in navigation :

The term "British Possession" means any plantation, territory, settlement, or place situate within Her Majesty's dominions, and not forming part of the United Kingdom :

The term "Governor" includes the officer, for the time being, administering the government of any colony ; and where there is a local governor or Lieutenant-Governor under a Governor-General, means the local governor or Lieutenant-Governor :

The term "the Slave Trade Act, 1824," means the Act of the session of the fifth year of the reign of King George the Fourth, chapter one hundred and thirteen, intituled "An Act to amend and consolidate the laws relating to the abolition of the slave trade :"

The term "Foreign State" includes any foreign nation, people, tribe, sovereign, prince, chief, or headman:

The term "vessel of a Foreign State" means a vessel which is justly entitled to claim the protection of the flag of a foreign state, or which would be so entitled if she did not lose such protection by being engaged in the slave trade:

The term "Treaty" includes any convention, agreement, engagement, or arrangement:

The term "Slave Trade," when used in relation to any particular treaty, does not include anything declared by such treaty not to be comprised in the term or in such treaty:

The term "Vice-Admiralty Court" does not include any Vice-Admiralty Court which for the time being has under its commission a limited jurisdiction only in matters relating to the slave trade:

The term "British Slave Court" means the High Court of Admiralty of England, every Vice-Admiralty Court in Her Majesty's dominions out of the United Kingdom, and every East African Court for the time being within the meaning of the Slave Trade (East African Courts) Act, 1873:

The term "Slave Court" means every British Slave Court, every mixed commission or court established under any existing slave trade treaty, and the court of any foreign State having jurisdiction to try and condemn a vessel engaged in the slave trade:

The term "existing Slave Trade Treaty" means a treaty made by or on behalf of Her Majesty or Her Royal predecessors with any foreign State for the more effectual suppression of the slave trade and in force at the passing of this Act.

Seizure of slave ships.

Visitation and seizure by cruisers, &c., of suspected slave ships.

3. Where a vessel is, on reasonable grounds, suspected of being engaged in or fitted out for the slave trade, it shall (subject in the case either of the vessel of a foreign State, or of the commander or officer of a cruiser of a foreign State to the limitations, restrictions, and regulations, if any, applicable thereto contained in any existing slave trade treaty made with such State) be lawful:—

(*a.*) If the vessel is a British vessel, or is engaged in the slave trade within British jurisdiction, or is not a vessel of a foreign State, for any commander or officer of any of Her Majesty's ships, for any officer bearing Her Majesty's commission in the army or navy, for any officer of Her Majesty's Customs in the United Kingdom, Channel Islands, or Isle of Man, for the governer of a British possession, or any person authorised by any such governor, and for any commander or officer of any cruiser of a foreign State authorised in pursuance of any existing slave trade treaty: and

(*b.*) If the vessel is the vessel of a foreign State, for any commander or officer of any of Her Majesty's ships, when duly authorised in that behalf, in pursuance of any treaty with that State, and for any commander or officer of any cruiser of that foreign State,

to visit and seize and detain such vessel, and to seize and detain any person found detained or reasonably suspected of having been detained as a slave, for the purpose of the slave trade, on board any such vessel, and to carry away such vessel and person, together with the master and all persons, goods, and effects on board any such vessel, for the purpose of bringing in such vessel, person, goods and effects for adjudication.

All vessels, slaves, persons, goods, and effects which may be forfeited under the enactments with which this Act is to be construed as one as hereinafter mentioned, may be visited, seized, and detained by any commander, officer, governor, or person authorised by this section to seize a British vessel.

Vessels equipped for traffic in slaves to be deemed engaged in the slave trade.

4. Where any of the particulars mentioned in the first schedule to this Act are found in the equipment or on board of any vessel visited, seized, or detained in pursuance of this Act, such vessel shall, unless the contrary be proved, be deemed to be fitted out for the purposes of and engaged in the slave trade, and in such case, even though the vessel is restored no damages shall be awarded against the seizor under this Act in respect of such visitation, seizure, or detention, or otherwise upon such restoration.

Provided that this section shall not extend to the vessel of any foreign State except so far as may be consistent with the treaty made with such State.

Courts.

Jurisdiction of courts in regard to slave vessels, slaves, goods, and effects.

5. The High Court of Admiralty of England and every Vice-Admiralty Court in Her Majesty's dominions out of the United Kingdom shall have jurisdiction to try and condemn or restore any vessels, slaves, goods, and effects alleged to be seized, detained, or forfeited, in pursuance of this Act, and on restoring the same to award such damages in respect of the visitation, seizure, and detention, of such vessels, goods and effects, and of any person on board such vessel, and in respect of any act or thing done in relation to such visitation, seizure, or detention, or in respect of any such matters, and in any case to make such order as to costs as, subject to the provisions of this Act and of any existing slave trade treaty, the court may think just.

Provided that nothing in this section shall give to any court any jurisdiction inconsistent with any existing slave trade treaty over a vessel which is shown to such court to be the vessel of any foreign State, and which has not been engaged within British jurisdiction in the slave trade, but where any vessel of a foreign State is liable to be condemned by a British slave court, such court shall have the same jurisdiction as if she were a British vessel.

Each of the said courts shall have the same jurisdiction in regard to any person who has been seized, either at sea or on land, on the ground that he has or is suspected to have been detained as a slave, for the purpose of the slave trade, as the court would have under this section if he had been so detained on board a vessel that was seized and brought in for adjudication.

Proceedings upon seizure by a foreigner.

6. Where any vessel or slave seized by the commander or officer of the cruiser of any foreign State is brought in for adjudication in a British slave court, all proceedings for the condemnation of such vessel and slave, and the goods and effects on board such vessel shall be taken in the name of Her Majesty by some person duly authorized in that behalf.

Mixed Courts.

Appointment of judges, arbitrators, secretary, &c., to mixed courts and commissions.

7. Where any existing slave trade treaty contains provisions, for the time being in force, for the appointment of any mixed court or commission for deciding cases under such treaty, it shall be lawful for Her Majesty from time to time to appoint such commissioners, judges, arbitrators, secretary, registrar, and other officers as are mentioned in such provisions.

There shall be paid to every commissioner, judge, arbitrator, secretary, registrar, and other officer so appointed, such salary as the Treasury may from time to time direct.

In case of the death, or sickness, or absence, either on leave or from any other lawful impediment of any such commissioner, judge, arbitrator, secretary, registrar, or other officer, whether British or not, the vacancy shall be temporarily filled in the manner provided by the treaty.

Regulations as to powers of mixed courts.

8. The regulations contained in any existing slave trade treaty for the time being in force, with respect to any mixed court or commission, shall have effect as if they were enacted in this Act, and such court or commision shall have all necessary jurisdiction for the purpose of carrying into effect any treaty referring to them, and in particular shall have jurisdiction to try, condemn, and restore British vessels seized in pursuance of such treaty, on suspicion of being engaged in the slave trade, and shall for the purpose of their jurisdiction have the same power as any Vice-Admiralty Court in Her Majesty's dominions has, and may accordingly take evidence, administer oaths, summon and enforce the attendance of witnesses, and require and enforce the production of documents in like manner as any such court.

Disposal of Vessels and Slaves.

Disposal of condemned vessels.

9. A vessel seized in pursuance of this Act, when condemned by a slave court, may be taken into Her Majesty's service upon payment of such sum as the Admiralty deem to be a proper price for the same (which sum is in this Act called the appraised value of such vessel), or if not so taken, shall be broken up, and the materials thereof shall be publicly sold in separate parts.

Provided that nothing herein shall prejudice the right of the government of any foreign State, under any treaty, to require such vessel to be broken up, or to take such vessel into its service upon payment of a sum fixed in accordance with such treaty, and any sum paid by the government of a foreign State for a vessel taken into its service after condemnation by a slave court shall be deemed for the purposes of this Act to be the appraised value of the vessel.

Disposal of slaves.

10. Where any slaves are seized in pursuance of this Act, they shall, for the purpose only of seizure, prosecution, and condemnation, be deemed to be property, and shall be condemned as forfeited to the sole use of Her Majesty for the purpose only of divesting all other right or interest therein, and shall not be treated as slaves, but shall be provided for, pending the proceedings for their condemnation, in such manner, and shall on condemnation be disposed of in such manner, or delivered over to such persons, as the court having cognizance of the case may adjudge, subject to the regulations (if any) which are from time to time made by the Treasury; and the Treasury may, from time to time, make, alter, and revoke regulations for this purpose so that they be consistent with any provisions in this behalf contained in any existing slave trade treaty.

Bounties.

Bounty and other payments to seizors when British cruisers.

11. Where a vessel (whether British or not), or slave, goods or effects, seized in pursuance of this Act by any commander or officer of any of Her Majesty's ships have been condemned by a slave court, there shall be paid to the commander, officers, and crew of such ship the following sums :—

(1.) A slave bounty of five pounds for every slave so condemned who is delivered over, or, if the commander of the ship so elect, a tonnage bounty of four pounds for every ton of the tonnage of the vessel condemned.

(2.) That part to which Her Majesty is entitled of the appraised value of the vessel condemned, or, if such vessel was broken up and the materials thereof publicly sold in separate parts, of the net proceeds of such sale after deducting the charges of prosecution.

(3.) Where the condemned vessel

(a) was brought into port, and was broken up in pursuance of the order of the slave court, and the materials thereof publicly sold in separate parts; or

(b.) was abandoned or destroyed prior to condemnation, and the slave court by the decree of condemnation declared that, after full consideration by the court of the circumstances of the case, the seizors had satisfied the court that such abandonment or destruction was inevitable, or otherwise under the circumstances proper and justifiable;

a further tonnage bounty at the rate of thirty shillings for every ton of the tonnage of the vessel; and

(4.) The net proceeds to which Her Majesty is entitled (after deducting the charges of prosecution) of any such goods and effects which the slave court ordered to be sold.

Where any slave so condemned is not delivered over in consequence of death, sickness, or other inevitable circumstances, the Treasury may, if they think fit, pay to the seizors of such slave one moiety of the slave bounty which would have been due in respect of such slave if he had been delivered over.

Bounty and other payments where vessel, slave, or goods not seized by cruisers.

12. Where any vessel, slave, goods, or effects seized in pursuance of this Act otherwise than by the commander or officer of one of Her Majesty's Ships, or of the cruiser of a foreign State, have been condemned by a slave court, there shall be paid the following sums:—

(1.) Two-thirds of the appraised value of the vessel or (if the vessel was broken up and the materials thereof publicly sold in separate parts) of the net proceeds of such sale, and two-thirds of the net proceeds of such goods and effects (after deducting from such appraised value or net proceeds the charges of prosecution) for the use of Her Majesty, to such persons as the Treasury may from time to time appoint, to be carried to the Consolidated Fund.

(2.) The remaining third part of the said appraised value or net proceeds of the vessel, and of the net proceeds of such goods and effects to the person who lawfully seized and prosecuted the ship, goods, and effects respectively to condemnation.

(3.)—For every slave so condemned who is delivered over, a slave bounty of five pounds to the person who prosecuted the same to condemnation.

Where any slave so condemned is not delivered over in consequence of death, sickness, or other inevitable circumstances, the Treasury may, if they think fit, pay in respect of such slave one moiety of the slave bounty which would have been due in respect of such slave if he had been delivered over.

Payment of proceeds of vessels, &c., when seized by a foreign cruiser.

13. Where any vessel, goods or effects have been seized in pursuance of this Act by the commander or officer of a cruiser of any foreign State and been condemned by a British slave court, such portion of the appraised value of the vessel, or (if the vessel was broken up and the materials thereof publicly sold in separate parts) of the net proceeds of such sale, and of the net proceeds of the goods and effects, as is, under any treaty with such state, payable to the seizors, shall be paid to such person as the Treasury may direct, to be disposed of in accordance with such treaty.

Regulations as to payment of bounty.

14. In order to obtain payment of the bounty, there shall be produced to the Treasury the following evidence, or such other evidence as the Treasury may deem sufficient; namely:—

(a.) A copy, duly certified, of the decree of condemnation of the vessel or slave.

(b.) If any tonnage bounty is claimed, a certificate from some person authorised for the time being to act as a registrar of British ships of the dimensions and tonnage of the vessel.

(c.) If a slave bounty is claimed, a certificate from the person appointed to receive the slaves of the number of slaves condemned and delivered over.

For the purpose of bounty the tonnage of a vessel shall be calculated and ascertained in the like maner in which, for the time being, the tonnage of a vessel is calculated and ascertained for the purpose of registering the same as a British vessel, or if the same cannot be satisfactorily ascertained in that manner, shall be ascertained in such manner as the Treasury may consider satisfactory.

Payment by Treasury of costs, damages, and expenses.

15. Where any visitation, seizure, detention or prosecution purports to have been made or instituted in pursuance of this Act, the Treasury when required under any treaty shall, and in any other case may, if they think fit, pay the whole or any part of any costs, expenses, compensation, and damages which may have been awarded against the person making or instituting such visitation, seizure, detention, or prosecution, or any costs and expenses which may have been incurred in respect of the same, or on account of any person on board any vessel so visited, seized or detained; but nothing in this section shall exempt the commander or officer of the ship or other person by whom the visitation, seizure, detention, or prosecution was made or instituted from his liability to make good any sum so paid when required by the Treasury so to do and when any such commander or officer, or other person serving under the Admiralty, or any person serving under any other department of the Government, is so required

to make good any sum, that sum shall, if the Treasury so direct, be deducted by the Admiralty or other department of the Government, under whom such person is serving, from any payment to which such commander, officer, or person is entitled on account of salary, pay, prize, or bounty.

Payment and distribution of bounties and other sums.

16. The bounties and all other sums payable by the Treasury in pursuance of this Act shall be paid out of moneys provided by Parliament for the purpose.

27 & 28 Vict., c. 24.

The provisions of "The Naval Agency and Distribution Act, 1864," shall apply to all money payable to the commanders, officers, and crews of Her Majesty's ships in pursuance of this Act.

Miscellaneous.

Protection of persons authorised to seize.

17. All person authorized to make seizures under this Act shall, in making and prosecuting any such seizure, have the benefit of all the protection granted to persons authorized to make seizures under any Act for the time being in force relating to Her Majesty's customs in the United Kingdom, in like manner as if the enactments granting such protection were herein enacted, and in terms made applicable thereto.

Pendency of suit or decree a bar to proceeding for recovery of vessel, damages, &c.

18. In either of the following cases, namely :—

(*a.*) Where any proceding has been instituted in any slave court for the condemnation or restitution of any vessel, slave, goods, or effects purporting to have been seized in pursuance of this Act, and is still pending; or

(*b.*) Where any vessel, slave, goods, or effects purporting to have been seized in pursuance of this Act, have been condemned or restored, or any other final judgment have been pronouced thereon by any slave court,

the pendency, of such proceeding, or the condemnation or restitution, or other final judgment thereon, as the case may be, shall be a complete bar to every legal proceeding whatever for the recovery of such vessel, slave, goods, or effects, or of damages for any costs, expenses, loss, or injury sustained by any person by or in consequence of the visitation, seizure, or detention of such vessel, slave, goods, or effects, or of any person on board such vessel, or by or in consequence of any act or thing done in relation to such visitation, seizure, or detention, or in pursuance of this Act or any existing slave trade treaty, and may be pleaded in bar, or given in evidence under the general issue.

Power of High Court of Admiralty of England as to bounties, reviewing and enforcing decrees, &c.

19. The High Court of Admiralty of England shall have jurisdiction to hear and determine any question arising with respect to the right of any person to any payment in pursuance of this Act in respect of any condemned vessel, slave, goods, or effects, and any question of joint capture or seizure which may arise in respect of any vessel, slave, goods, or effects seized in pursuance of this Act, and also as well to review as to enforce any decree, declaration, or order of any British slave court made in pursuance of this Act.

Review of taxation by registrar of Court of Admiralty.

20. The registrar of the High Court of Admiralty of England may, on the application of any person aggrieved, or of the Treasury, tax or review the taxation of any costs, charges, or expenses incurred or alleged to be incurred in any proceeding taken in any British slave court, or in any mixed commission or court in Her Majesty's dominions, and shall for this purpose have the same jurisdiction and powers as he has in the taxation of any costs, charges, or expenses incurred in any proceeding in the High Court of Admiralty.

Appeal by treasury.

21. The Treasury may appeal from any decree, order, or declaration which is made by any British slave court in pursuance of this Act, and involves the payment by the Treasury of any bounty, costs, expenses, compensation, damages, or other moneys in like manner as if they were parties to the proceeding in which such decree, order or declaration was made.

Prosecution for false evidence.

22. Any person who wilfully gives false evidence in any proceeding taken in pursuance of the Act in any slave court shall be guilty of an offence against this Act, and shall be liable to the like penalty as if he had been guilty of perjury, or in British possession, of the offence by whatever name called, which if committed in England would be perjury.

Returns by registrars.

23. The registrar of every British slave court, and, if appointed by Her Majesty, of every other slave court, shall from time to time make returns of the cases adjudged in such court in pursuance of this Act, at such times and in such form and containing such particulars as may be from time to time directed by any rule established with respect to such court under the Vice-Admiralty Courts Act, 1863, or if there is no such rule by Order in Council.

Slave Trade Act, 1824.

Incorporation with unrepealed portions of 5 Geo. 4, c. 113.

24. This Act shall be construed as one with the enactments of the Slave Trade Act, 1824, and any enactments amending the same, so far as they are in force at the time of the passing of this Act, and are not required by this Act, and the expression "this Act," when used in this Act, shall include those enactments.

Recovery of forfeitures under 5 Geo. 4, c. 113.

25. All pecuniary forfeitures and penalties imposed by the said enactments, with which this Act is to be construed as one, may be sued for, prosecuted, and recovered in any Court of Record or of Vice-Admiralty in any port of Her Majesty's dominions wherein the offence was committed, or where the offender may be, in like manner as any penalty or forfeiture incurred in the United Kingdom under any Act for the time being in force relating to Her Majesty's Customs, or (in the case of the High Court of Admiralty or of a court of Vice-Admiralty) in like manner as any vessel seized in pursuance of this Act.

Such pecuniary penalties and forfeitures shall, subject to the express provisions of the said enactments, be paid and applied in like manner as the net proceeds of a vessel seized otherwise than by the commander or officer of one of Her Majesty's ships, or of the cruiser of a foreign State.

Jurisdiction of court over offences under 5 Geo. 4, c. 113.

26. Any offence against this Act or the said enactments with which this Act is to be construed as one, or otherwise in connection with the slave trade, shall for all purposes of and incidental to the trial and punishment of a person guilty of such offence, and all proceedings and matters preliminary and incidental to and consequential on such trial and punishment, and for all purposes of and incidental to the jurisdiction of any court constable, and officer with reference to such offence, be deemed to have been committed either in the place in which the offence was committed, or in the county of Middlesex or in any place in which the person guilty of the offence may for the time being be, either in Her Majesty's dominions or in any foreign port or place in which Her Majesty has jurisdiction; and the offence may be described in any indictment or other document relating thereto as having been committed at the place where it was wholly or partly committed, or as having been committed on the high seas or out of Her Majesty's dominions, and the venue or local description in the margin may be that of the place in which the trial is held.

Where any such offence is commenced at one place and completed at another, the place at which such offence is to be deemed to have been committed shall be either the place where the offence was commenced or the place where the offence was completed.

Where a person being in one place is accessory to or aids or abets in any such offence committed in another place, the place at which such offence is to be deemed to have been committed shall be either the place in which the offence was actually committed or the place where the offender was at the time of his being so accessory, aiding, or abetting.

17 and 18 Vict., c. 104.

Where it appears to any court or the judge of any court having jurisdiction to try any such offence that the removal of an offender charged with such offence to some other place in Her Majesty's dominions for trial would be conducive to the interests of justice, such court or judge may by warrant, or instrument in the nature of a warrant, direct such removal, and such offender may be removed and tried accordingly; and section two hundred and sixty-eight of the Merchant Shipping Act, 1854, shall apply to the removal of an offender under this section in the same manner as if the term "consular officer" in that section included the court or judge making such warrant or instrument.

Extension of 33 & 34 Vict., c. 52, to slave trade offences.

27. Offences committed against this Act or the enactments with which this Act is to be construed as one or otherwise in connection with the slave trade, whether committed on the high seas or on land, or partly on the high seas or partly on land, shall be deemed to be inserted in the first schedule to the Extradition Act, 1870, and that Act, and any Act amending the same, shall be construed accordingly.

Application of Act.

Application of Act to cases already adjudicated.

28. This Act shall apply to all cases of vessels, slaves, goods, and effects, seized and adjudicated upon by any slave court, whether before or after the passing of this Act.

Extension of Act to future treaties.

29. Where any treaty in relation to the slave trade is made after the passing of this Act, by or on behalf of Her Majesty, with any foreign State, Her Majesty may by Order in Council direct that as from such date, not being earlier than the date of the treaty, as may be specified in the order, such treaty shall be deemed, and thereupon (as from the said date, or if no date is specified as from the date of such order) such treaty shall be deemed to be an existing slave trade treaty within the meaning of this Act, and all the provisions of this Act shall apply and be construed accordingly.

Her Majesty may, by the same or any subsequent order referring to the same treaty, render the application of this Act subject to such conditions, exceptions, and qualifications as may be deemed expedient.

Every such order shall recite or embody the terms of the treaty so far as they relate to the slave trade, and shall be laid before both Houses of Parliament within six weeks after it is made, or, if Parliament be not then sitting, within six weeks after the then next meeting of Parliament, and shall also be published in the *London Gazette*.

A treaty, whether made before or after the passing of this Act, which ceases to be in force, shall cease to be an existing slave trave treaty within the meaning of this Act.

Repeal.

Repeal of Acts in schedule.

30. The Acts specified in the second schedule to this Act are hereby repealed.

Provided that—

(1.) All bounties and other sums purporting to have been paid in pursuance of any enactment hereby repealed before the passing of this Act, shall be deemed to have been duly paid.

(2.) This repeal shall not affect—

(*a.*) Anything duly done or suffered under any enactment hereby repealed; or

(*b.*) Any right, privilege, obligation, liability, or forfeiture acquired, accrued, or incurred under any enactment hereby repealed; or

(*c.*) Any investigation, legal proceeding, or remedy in respect of any such right, privilege, obligation, liability, or forfeiture as aforesaid, or any legal proceeding, taken or commenced under any enactment hereby repealed; and any such investigation, legal proceeding, and remedy may be carried on, and all acts consequential thereon done, as if it had been commenced under this Act.

FIRST SCHEDULE.

Equipments which are *primâ facie* evidence of a vessel being engaged in the slave trade.

First.—Hatches with open gratings, instead of the close hatches which are usual in merchant vessels.

Secondly.—Divisions or bulkheads in the hold or on deck more numerous than are necessary for vessels engaged in lawful trade.

Thirdly.—Spare plank fitted for being laid down as a second or slave deck.

Fourthly.—Shackles, bolts, or handcuffs.

Fifthly.—A larger quantity of water in casks or in tanks than is requisite for the consumption of the crew of the vessel as a merchant vessel.

Sixthly.—An extraodinary number of water casks or of other vessels for holding liquid, unless the master shall produce a certificate from the custom-house at the place from which he cleared outwards, stating that a sufficient security had been given by the owners of such vessel that such extra quantity of casks or of other vessels should only be used for the reception of palm-oil, or for other purposes of lawful commerce.

Seventhly.—A greater quantity of mess tubs or kids than are requisite for the use of the crew of the vessel as a merchant vessel.

Eighthly.—A boiler or other cooking apparatus of an unusual size, and larger or fitted for being or capable of being made larger than requisite for the use of the crew of the vessel as a merchant vessel, or more than one boiler or other cooking apparatus of the ordinary size.

Ninthly.—An extraordinary quantity either of rice or of the flour of Brazil, manioc, or cassada, commonly called farinha, of maize, or of Indian-corn, or of any other article of food whatever, beyond what might probably be requisite for the use of the crew, such rice, flour, maize, Indian-corn, or other article of food not being entered on the manifest as part of the cargo for trade.

Tenthly.—A quantity of mats or matting larger than is necessary for the use of the crew of vessel as a merchant vessel.

Eleventhly.—Any other equipment, article, or thing which is declared by any existing slave trade treaty to be *primâ facie* evidence of a vessel being engaged in the slave trade.

,, British Burmah	13
,, Political Treasuries, Government of India	7
,, Bombay	43
,, Madras	75
,, Berar	1
,, Mysore	7
TOTAL ...	[illegible]

5. The number of Offices closed during the year was—

L. P., Bengal	43	Bombay	...
N. W. Provinces	1	Madras	...
Punjab	3	Mysore	...
		TOTAL ...	

This large reduction is mainly owing to the abolition in February of agencies at many places where there are no Revenue Treasuries.

6. The number of Offices open at the close of the year was—

In Lower Provinces of Bengal	58
„ North-Western Provinces	38
„ Oudh	12
„ Punjab	35
„ Central Provinces	19
„ British Burmah	13

„ Bombay	36
„ Madras	65
„ Berar	11
„ Mysore	8
TOTAL	300

7. Offices open, but in which there were no transactions during the year, have been omitted, and those which were only closed temporarily for the winter or rainy season have been included. The Offices of the first description, eleven in number, are—

Sasseeram, Lower Provinces, Bengal		1
Mussoorie, North-Western Provinces		1
Sukkur, Bombay		1
Alleppy	Madras	8
Collegal (closed, circular No. 168, dated 2nd April 1873)		
Ellore		
Jamalmadoogoo		
Nagarcoil		
Porto Novo		
Trichoor		
Vaniembody		
TOTAL		11

The names of the second are the following:—

Nynee Tal, North-Western Provinces		1
Murree, Dalhousie	Punjab	2
Mahableshwar, Bombay		1
Ootacamund, Kundapoor	Madras	2
TOTAL		6

The transactions of the year may be summarized as follows:—

	In 1871-72.	In 1872-73.
Offices open	*355	366
Number of orders issued	2,51,213	2,69,435
Amount of orders issued	1,25,14,115	1,29,21,632
Number of orders paid	2,50,741	2,68,268
Amount of orders paid	1,25,57,487	1,29,37,545
Commission	1,41,287	1,46,547
Lapsed orders	7,813	8,784
Charges	82,954	87,719
Profit	66,180	67,612

* Including Sasseeram, in which there were no transactions.

The result of the year's operation is, on the whole, satisfactory.

The following detailed statement shows in each province an increase in the number of Orders and it is satisfactory to find, that with the exception of Bombay and Berar, this increase is concurrent with a decrease in the aggregate amount of the orders.

In Bombay the result is also favourable, the moderate increase in the total amount of Orders being accompanied by a marked increase in the number.

In Berar alone that the Department appears to have been availed of for purposes foreign to the proper object, the safe remittance, namely, of small sums of money.

13. The reasons for the increase in Bengal Presidency under heads—

1*st*, Establishment,
2*nd*, Service Postage,
3*rd*, Printing, and
4*th*, Stationery,

are—

1*st*.—Annual increments of salaries.

2*nd*.—Purchase of postage stamps under the new Postal Rules for twelve months agai months last year.

3*rd*.—Breaking up of type. The appendices to the 5th annual report of this De were put up in type, but the printing of them was subsequently cancelled. was the case with the manual for the guidance of Money Order Agents under the time of the introduction of the new system.

4*th*.—The use of larger forms since the new system came into operation for the w of issues and payments and the supply to Bombay of their forms for the first

14. Under the head Miscellaneous Contingencies there is also an increase attributable to the removal of this Office from the Treasury buildings, the making of a new counter, &c., and cost of new furniture.

15. The increases in Bombay are attributable to an addition of two permanent and one temporary clerks, postal charges paid in cash, and the introduction of overland money orders.

16. Those in Madras are owing to the same causes.

17. In the Berar the commission paid to agents is more in this than in the previous year, owing to the transactions being larger; the other increased charges are apparently owing to the causes mentioned above and to the transfer of half share of net profits to Mysore from 1867-68 to 1871-72.

18. The charges in the Mysore Circle are somewhat more in 1872-73 than in 1871-72 for the following reasons: Increase of head clerk's pay from Rs. 50 to 60, the entertainment of two clerks on Rs. 25 and 10 respectively, and purchase of furniture for the Bangalore and Chituldroog Treasuries.

19. The following statement shows general results provincially and in the aggregate.

20. The number of Orders issued was as follows:—

These figures compared with those of 1871-72 show an increase both in receipts and charges of Rs. 6,197 and Rs. 4,765 respectively.

33. There has been one item of loss written off during the year under the orders of Government, *viz.*, the unadjusted irrecoverable balance against the Chief Office, Calcutta, of Rs. 1,560, which properly appertains to 1870-71, the year in which the fraud took place.

34. Only one case of embezzlement has occurred during the year, *viz.*, at Nagpore, which was reported to Government in this Office No. 58, dated 7th March 1873. As far as is at present known, the amount embezzled is Rs. 6,498-4. A balance sheet, with statements of the double and false entries, was duly forwarded to the Deputy Commissioner, Nagpore, with this Office No. 1281, dated 28th June last, and copies were also sent to the Deputy Accountant-General for comparison with the late Agent's Journal and for a full report of the result of his examination. This report has not yet been received. The final examination of the late Agent's accounts, *i. e.*, of the issue side of the accounts with the paid vouchers, has not been finally closed. Nor is the Rangoon defalcation referred to in the 37th paragraph of last year's report yet finally disposed of, although the balance has been reduced to Rs. 376-10. A balance sheet and statements showing the result of the examination of the Agent's accounts in this Office were forwarded to the Assistant Commissioner, and copies of them to the Deputy Commissioner for information with this Office Nos. 2578 and 2580, dated respectively 25th January last; as in the Nagpore case, the examination of the issue sides of the accounts with the paid orders has not been finally closed.

35. The sanction of Government will now be solicited to write off the irrecoverable balance of Rs. 4,791-11 standing against the Sylhet Agency, as the Collector reports "that no further realizations were made up to date, 22nd March 1873, to meet the "defalcation of the late Agent, and it is not likely that anything more will be realized." This case was reported to Government in my No. 281 of the 18th May 1870.

36. On the 1st February 1873, the change of system advocated by Mr. Sandeman, by which the business of the Department is carried on by the District Treasury Establishments under the supervision of the Treasury Officers as Agents, came into operation. The results of the change will be reported on at the close of the current year.

37. The remarks of District Officers on this change are mostly confined to complaints of the extra work thrown on their establishment without any corresponding remuneration. During the current year 14 extra clerks have been allowed by Government to the treasuries noted in the margin, the Money Order work entailed on the establishment having been shown in each case to be considerable.

38. With reference to Appendix No. XI, it will be observed that this statement of orders outstanding on the 31st March last does not, as it should, confirm the book balance of the department; the further examination of this question, and the consideration of the course of business in the Money Order Office, shall have my earliest attention; the check upon the transactions of the Agents not being so immediate or consequently so effective as it might be.

39. The Overland Money Order system came into operation on the 1st October 1872. The following statement, based on the returns received in my office, will give some idea of the transactions under this head that date up to the 31st March 1873 :—

RESOLUTION.—At the close of the year 1871-72 there were 354 active offices open. At the close of the year 1872-73 there were only 300 such offices. The decrease is due to a number of offices having been closed at which the transactions were insignificant in amount.

The number of orders issued (269,135) exceeded the number issued in 1871-72 (251,213) by 18,222 (7·25 per cent). The amount of orders issued (Rs. 1,29,31,632) exceeded the amount (Rs. 1,25,14,115) issued in 1871-72 by Rs. 4,07,515 (3·25 per cent).

The number of orders paid (268,268) exceeded the number paid in 1871-72 (250,741) by 17,527 (7· per cent).

The amount of orders paid (Rs. 1,29,37,545) exceeded the amount paid in 1871-72 (Rs. 1,25,57,487) by Rs. 3,80,058 (3· per cent).

The revenue of the Department was Rs. 1,55,331, being in excess of the revenue of the previous year (Rs. 1,49,100) by Rs. 6,231 (4·18 per cent). The charges were Rs. 87,719, being more than the charges in 1871-72 (Rs. 82,954) by Rs. 4,765 (5·74 per cent), and the net profit was Rs. 67,612, being more than the net profit in 1871-72 (Rs. 66,180) by Rs. 1,432 (2·16 per cent).

These facts are generally satisfactory. They show a smaller average amount for each order and an increased activity in the Department.

The larger proportionate increase of charges is explained to be due to sundry exceptional causes.

The amount paid again exceeded the amount received by a small sum (Rs. 15,913). But the total amount received from the beginning (Rs. 7,50,63,093) exceeds the total amount paid (Rs. 7,46,05,101) by a considerable sum (Rs. 4,57,992). This amount does not correspond, as it should do, with the grand total of orders shown as outstanding in Appendix XI (Rs. 4,22,220), and the President in Council trusts that every endeavour will be made to clear up the discrepancy. It is so far satisfactory that it is on the right side.

The average amount of an order in the Berars (Rs. 76) is very much larger than the general average of Rs. 48. Moreover, the average in the Berars has increased year by year since 1870-71. Some enquiry should be made into the causes of this.

The charges debited to the Department are clearly not exhaustive. They do not include rent of Government buildings, interest on capital employed, superintendence, cost of moving funds, or leave allowances and pensions.

In future returns twenty-five per cent. upon the cost of superior establishments and twelve per cent. upon that of inferior establishments should be added to cover the last item, and this adjustment should, next year, be made retrospectively in the 9th column of the table in para. 25 if it can be done without very much trouble.

It is not worth while to attempt to put the other items into figures, but if they are borne in mind, it will appear very doubtful whether it would be worth while to keep up the Department for the net revenue that it yields. The surplus in 10½ years without reckoning any of the omitted items is only Rs. 3,93,400, which is but a small set-off against the not inconsiderable risks involved in the operations of the Department. The annual profit is, however, constantly, though slowly, increasing.

The table in para. 25 shows in abstract the whole history of the Department in a small space; it exhibits a fairly steady rate of progress, which has only been checked owing to the increasing use of Currency Notes for remittances.

The Government of India regrets to observe that embezzlements still occur in the Department, and is prepared to authorise any additional expense which, by improving the efficiency of the Central Office, may tend to prevent such occurrences.

The amount of overland money orders issued in 1872-73 (six months) was Rs. 3,04,676; the amount paid was Rs. 11,368. It should be generally understood that the object of the Government in arranging for such orders, as for the inland money orders, is not to compete with bankers and agents for the profit upon exchange operations, but only to afford facilities for the safe remittance of small sums. Accordingly, the rate will be found, as a rule, slightly more expensive than bankers' rates.

The 5th December 1873.

No. 3461.—The following Resolution is published for general information:—

RESOLUTION.—On the 31st May 1861, the Government of India by an order in this Department, No. 6890,* directed that every Accountant-General and Deputy Accountant-General in independent charge should inspect every District Treasury within his circle of superintendence once at least in every three years.

* Page 1734 of the *Calcutta Gazette* of 29th June 1861.

The duty thus imposed upon Accountants-General has been found incompatible wit[illegible] the demands upon their personal attention made by the duties of their own offices.

The Hon'ble the President in Council further observes that the duty of making effic[illegible] arrangements for the custody of the public money held at district treasuries, for provi[illegible] due accommodation to the public, for regulating the action of district officers under [illegible] Indian Coinage Act, 1270, and the Notifications of the Government of India affe[illegible] Coinage and Currency for securing the efficiency of the Account Branch of each d[illegible] treasury, including the strictest compliance with the demands made under the autho[illegible] the Government of India by Accountants-General for punctual submission on fixed [illegible] all periodical returns, for due maintenance, in prescribed form, of registers of depo[illegible]

for observance of checks on repayment of deposits, for inspection of accounts kept with officers of the Department of Public Works and others authorised to draw on district treasuries, and generally as to those matters that ordinarily engage the attention of Accountants-General in the course of their periodical inspections, rests primarily with the Superintending Officers of the local Governments.

It is believed that in all these respects Commissioners of Divisions and other Superintending Officers can effectively provide for all those objects that the Government of India has in view in the inspections of the Accountants-General.

The President in Council accordingly desires that the local Governments will arrange for the periodical inspection of all Revenue Treasuries by Commissioners of Divisions or other Superintending Officers, and that their observations on all matters connected with the accounts, and Treasury branches of Revenue Treasuries may be communicated to the Accountant-General of the province, together with any orders which on the occasion of such inspections they may give to the officers in charge of the Treasuries.

The Accountants-General will forward these reports with their remarks to the Comptroller-General, who will report to the Government of India in this Department the inspections made, with any remarks or suggestions which the circumstances may call for.

The periodical inspections by Accountants-General will be discontinued, but such officers may, with the approval of the local Government, either personally or by their Deputy, make a general inspection of particular Treasuries, or may, with the like approval, should circumstances make it desirable, depute a qualified officer of their establishment to examine and report on special matters requiring local and detailed investigation, either singly or in subordination to an officer of the local administration.

NOTIFICATION.

Under the provisions of Section 2 of Act V (B. C.) of 1873, *the following plan for the future lighting of that area of the town of Howrah which is at present lighted with gas is hereby published for general information by order of the Lieutenant-Governor of Bengal.*

PLAN.

1. The portion of the Town which is lighted is bounded as follows:—

On the North by Hurrogunge Road, on the South by Ramkistopore Ghaut Road, on the East by the River Hooghly, and on the West by the Grand Trunk Road. A map of this portion is herewith submitted, on which is shown in blue lines the streets which are lighted, and in red lines those which the Commissioners propose to light on receipt of His Honor's sanction.

2. The following are the names of the streets and the number of lamps in each at present lighted, as also the names of the streets proposed to be lighted and the number of lamps in each.

Names of the Streets and the Number of Lamps in each at present lighted.

Howrah Ghaut Road	3
Total ...	201

Names of the Streets and the Number of Lamps in each proposed to be lighted.

Khelter Mitter's Lane	..	..	10
Watkins' Lane	..	..	5
Dobson's Lane	..	..	15
Strand Road	..	..	3
Carried over		..	33
Brought forward		..	33
Mackenzie's Lane	..	..	2
Ticoaparrah and Jelleaparrah Lane		..	4
Total		..	39

3. It will be observed from the map* that when the last named streets are lighted, *all* the public roads within the portion of the town described in para. 2 will be lighted; that is to say, all the highways which are vested in the Commissioners, and over which they have control.

* *Vide* note deposited in the Bengal Office.

4. The outlay in erecting the lamps at present lighted, numbering 201, was Rs. 10,628 and the estimated cost of erecting the 39 lamps, which are required to complete the lighted area, is Rs. 2,437-8.

5. The cost of erecting the existing lamps was met from general funds, and th Commissioners propose to pay for the erection of the extra lamps from the saving which w be effected in the allotment for lighting charges for the months of January, February, a March next. This of course is calculated on the principle that His Honor the Lieutena Governor will be pleased to authorize the Commissioners to levy the rate from the 4th quar of the current year 1873-74, viz. January to March 1874, the Commissioners, on their pa undertaking that the extra lamps shall be ready for lighting from 1st January.

6. The cost of lighting the 240 lamps will be Rs. 24,000 per annum. To this cost Commissioners are bound by the existing contract with the Gas Company from which t have no escape. The contract has still 18 years to run. To this is to be added a sur Rs. 1,200 for contingent charges of repairs to lamps, making a total of Rs. 25,200 per annum

7. The total valuation of buildings and lands situated within the area is Rs. 8,72,86 A rate of 3 per cent. on this valuation would yield Rs. 26,186 per annum, and if from th sum a deduction is made of, say, Rs. 486 on account of collection charges, there would rema a net income of Rs. 25,700, which would cover the expenses of lighting and maintaining th lamps within the portion of the town in which it is proposed to levy the rate for the present.

NOTIFICATION.—As there is reason to believe that the orders of this Department, dated the 15th June 1869, warning public officers to be careful in granting certificates to their subordinates, are not generally known or acted upon, those orders are here below republished for general information; and all officers of Government are required carefully to observe them:—

Circular to Local Governments and Administrations, dated the 15th June 1869.

"The Governor-General in Council has recently had under consideration a case in which a public officer, the Head of a Department, in granting a certificate to one of his subordinat suppressed the true reason for which the subordinate had been removed from his appoin ment. Such an omission may obviously be injurious to the interests of the public servi I am therefore directed to draw attention to the subject, and to request the issue of ord to all public officers, warning them to be careful in giving certificates to their subordinat to state the whole truth in respect of character and cause of dismissal or resignation appointment."

The following are the conditions of Sale :—

1. The Opium will be sold for exportation by sea only, and no certificate will granted except to cover such export.

2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per ches and sold to the highest bidder above that price, except under the circumstances for which pro vision is made by Clause 12 of these Conditions of Sale. The bids must advance by Rs. at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous no fication, and shall not be continued after the hour of 5 P.M.; but if at that hour any of t lots advertized for sale shall remain unsold, the sale may, at the discretion of the Memb in charge, be resumed on the next day following (not being Sunday or a public holiday) the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, the whole quantity advertized shall not be sold on the day appointed, the Member in charg may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale noted in the margi shall be taken as a deposit on each lot from the purchaser i the sale-room, and before the lot is registered in the sale book and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Govern ment of India, on or before 4 o'clock in the afternoon of th fifth day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Member in charge shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth Condition or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale book or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

11. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bona fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue. No. 1, certificate of the Opium advertized for sale; No. 2, report of the examination of such Opium.

16. The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1872-73, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March, 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1874, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided however that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 45,000 chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in Opium, it is agreed between the high contracting parties that at each of the periodical sales of that article, there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christain Majesty, or by the persons duly appointed by them, the number of chests so supplied for provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christain Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for Opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."—By order of the Member in charge.

Admission of Stock other than for competition.—By special permission of the Managing Committee, persons desirous of exhibiting horse stock (not intended to compete for prizes) will be permitted to do so on a payment of Rs. 16 per head, provided stabling can be found for them.

4. Intending Exhibitors must apply for stalls by post in an envelope addressed—

"TO THE JOINT SECRETARIES,
Calcutta Horse Show, 1874."

so as to be received by them not later than the 15th December 1873. On receipt of such applications printed forms will be furnished to the Owners or Exhibitors, to be filled in by them and returned at once to the Joint Secretaries, who will then allot stalls or boxes for the horses described.

5. *Superintendent.*—A Superintendent and four European Assistants will be appointed by the Managing Committee to undertake the stable management of the Show-yard. It will be his duty to point out the stalls allotted to the Exhibitors, and to see that all orders issued by the Committee are thoroughly and promptly carried out.

6. *Date of receipt of Horses.*—Horses sent for exhibition will be received by a Veterinary Surgeon and the Superintendent of the Horse Show on Wednesday, the 7th of January 1874, any time before *noon* of that day.

7. *Health Certificate.*—A health certificate, signed by a Veterinary Surgeon, must accompany every horse when first brought to the Horse Show lines. The Veterinary Surgeon attending on the part of Government will also inspect each horse before being finally admitted.

8. *Grooms.*—Exhibitors are required to engage a reliable groom (syce) for each horse, and it is expected that either the attendant or a substitute will remain night and day at his post.

9. *Attention to Regulations.*—All attendants must conform to the rules and regulations issued by the Managing Committee; copies will be furnished to the Exhibitors, and will also be posted on the walls of the stables.

10. *Complaints.*—Complaints may be lodged at any time at the office of the Superintendent, either verbally or in writing, in a book to be kept for the purpose.

11. *Complaint Book.*—Persons able to read and write will have to enter their complaints in the book; minor complaints will be settled by the Superintendent on the spot; those of a more serious nature will be treated by the Managing Committee.

12. *Illness of Horses.*—In case of illness of any horse the Owner or Exhibitor must provide medical attendance.

13. All the horses will be daily inspected by a Veterinary Surgeon.

14. All possible care will be taken of horses exhibited, but the Superintendent cannot be held responsible for any injury or accident which may occur.

15. *Forage and Grain.*—Forage, grain, and water for the stock will be provided by the Exhibitors.

16. *Smoking prohibited.*—Smoking is strictly prohibited in the stables; particular attention is requested to this rule, which is considered imperatively necessary for the safety of the cattle.

17. *Stabling.*—A loose stall or box will be provided for each animal so exhibited.

18. *Location of Mares.*—Every lot of six mares will be stabled close to each other.

19. *Inspection by Judges.*—The Judges will inspect and examine horses entered for prize competition on Thursday 8th, Friday 9th, and Saturday 10th, of January 1874.

20. *Exclusion of Visitors during inspection by Judges.*—Under no circumstances will any person be permitted to be within the precincts of the premises at the time of inspection, except grooms (syces) who will be appointed by the Judges to bring up each horse for examination.

21. *Owners and Exhibitors similarly excluded.*—Owners and Exhibitors are debarred from the privilege of being present as much as the public generally.

22. *Horses how to be inspected.*—The horses will be brought up without clothing, so that they may not be recognized by any initials or distinctive marks.

23. *Judges how guided in arriving at decision.*—Exhibitors are informed that Judges in arriving at their decision will be guided by the following points:—

1st.—That under the terms of Military Department Government Notification of the 4th of February last, no prize will be given unless the horses exhibited come up to a high standard of excellence. Importers and competitors are informed that the Judges will be considerably guided by good measurement of girth and leg and blood, combined with power; animals wanting in such essential points will have no chance of obtaining a prize.

2nd.—The horses will be judged as to their merits under the several heads of:—

A. Soundness.
B. Blood and power.
C. General conformation.
D. Action.
E. Condition.

The maximum number of marks being 100.

3rd.—"*The best horse*" must be perfectly sound, but any serious blemish, the result of accident, will be weighed by the Judges.

4th.—Each mare of every lot must be sound for all working and brood purposes.

5th.—If any mis-information is furnished by an Exhibitor in respect of the animals owned or exhibited by him, the whole of his stock will be disqualified for prizes, and will be at once removed from the Show premises. Admission to the Show will be refused to any person coming within the terms of this rule.

6th.—The decision of Judges to be final.

24. *Judges' Report.*—The Judges' report of their inspection will be prepared and printed by Saturday evening, the 10th of January 1874, but will be confidential until read to His Excellency the Viceroy on the formal opening of the Show.

25. *Necessity of Exhibitors' servants attending to Rules.*—Particular attention must be given by all Exhibitors to the necessity of their servants carrying out all the rules which may be laid down for efficient sanitary arrangements.

26. *Fire Engine.*—A fire engine, and a party to work it, will be on the premises during the Exhibition.

27. *Police arrangements.*—The Commissioner of Police will arrange with the Managing Committee (Judges) for such number of Police as may be requisite for the protection of property and the preservation of order.

28. *Lights other than those supplied by Committee prohibited.*—Stable lanterns will be provided by the Committee and placed under the orders of the Superintendent. Other lights or lanterns or fire of any kind will not be permitted within the stabling.

29. *Removal of horses if attacked with disease.*—The Managing Committee are empowered, if they deem it necessary, to direct the removal of a horse attacked with any contagious disease.

30. *Removal of horses when prohibited.*—No horse brought for exhibition, even in the event of its having been sold, will be allowed to be removed until the Exhibition is closed.

31. *Final removal from Show.*—Horses must be removed the day following the closing of the Exhibition.

32. *Objections.*—Any objection to horses exhibited must be made and proved to the satisfaction of the Stewards the day before the prizes are awarded.

33. *Objection made after award of prize.*—Objections made after the award of prizes will not be attended to during the present Show, but will be recorded against future exhibition of the horses objected to.

34. *Onus of proving objection.*—The onus of proving an objection will be wholly and entirely on the person making it. All objections must be made in writing.

By Order of the Committee,

1st December 1873.

M. J. TURNBULL, *Colonel*,
J. A. CRAWFORD, } *Joint Secretaries.*

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Fourth Publication.]

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations, and was referred to a Select Committee who are to report thereon in a month.

A Bill to provide for the Voluntary Registration of Mahomedan Marriages and Divorces.

WHEREAS it is expedient to make provision for the voluntary registration of Mahomedan marriages and divorces within the provinces under the control of the Lieutenant-Governor of Bengal; and whereas it is expedient that Registrars of such marriages and divorces should be recognised and licensed by the Local Government, it is enacted as follows:—

1. It shall be lawful for the Lieutenant-Governor of Bengal to issue a license to any person being a Mahomedan, either by name or as holding any office for the time being, authorising him to act as Registrar of Mahomedan marriages and divorces.

2. Such licenses may be given on the recommendation of the Magistrate of the district, or in Calcutta, of the Commissioner of Police, to any member of any Mahomedan sect who can show that he is usually resorted to as a professional witness in such cases by his co-religionists, or that he has practised the duties of Kazi, and that he is well versed in Mahomedan law, provided always that satisfactory evidence is produced of his being a person of good moral character.

3. No Mahomedan marriage or divorce which would otherwise be valid shall be held to be invalid merely by reason of its not having been registered before a Registrar licensed under this Act.

4. Each licensed Registrar under this Act shall keep a Register Book in a form to be laid down by the Local Government in which he shall enter all marriages and divorces,—the parties to which shall desire to have them so registered. He shall also, if requested at the time, give an extract of any entry affecting them to either of the parties to such entry.

5. The entry of any marriage or divorce in the Register Book shall be signed by the Registrar, and signed, sealed, or marked by the persons married or divorced, and shall be attested by at least two credible witnesses who were present at the ceremony, and every such entry shall be made in order from the beginning to the end of the book, and any extract of any entry given to the parties shall be numbered to correspond with the number of the entry in the Register Book, and shall be authenticated by signature of the Registrar.

6. The Registrar shall keep safely the said Register Book until the same shall be filled, and shall then, or if he shall leave the district, make over the same to the District Registrar of Assurances for safe custody.

7. Any Registrar who shall discover any error to have been committed in the form or substance of any such entry may, within one month next after the discovery of such error, in the presence of the parties married, or divorced, or in case of their death or absence, in the presence of two other credible witnesses, who shall respectively

[illegible] the same, correct the erroneous entry according to the truth of the case by entry in the margin without any alteration of the original entry, and shall sign the marginal entry, and add thereunto the day of the month and year when such correction shall be made, and shall if possible give or cause to be delivered a corrected copy of the extract to the parties to the original entry.

8. Every Registrar shall at all reasonable times, and on the payment of such fees as may be agreed upon, search or permit search to be made in any such Register Books, and shall give a copy under his hand of any entry or entries in the same.

9. Every certified extract of any entry in any Register Book purporting to be signed by the licensed Registrar, shall be received as evidence of the marriage or divorce purporting to be so entered or of the facts purporting to be so certified therein, without further proof of such Register Book or extract, unless and until the genuineness of such entry or extract or the truth of the facts set out in it be disproved.

10. Whoever shall wilfully destroy or injure or cause to be destroyed or injured any such Register Book or any part thereof, or any such authenticated extract as aforesaid, or shall wilfully insert or cause to be inserted any false entry in any such Register Book or authenticated extract, shall be punished with imprisonment of either description, as defined in the Indian Penal Code, for a term which may extend to seven years, and shall also be liable to fine.

11. It shall be lawful for the Lieutenant-Governor to draw up rules and prescribe forms for giving effect to the provisions of this Act, and to charge a fee not exceeding Rs. 2 for each license granted under the Act, provided always that no rule shall be laid down to interfere with the taking by any licensed Registrar from the parties to any marriage or divorce of any fee, which custom or his position may entitle him to demand.

STATEMENT OF OBJECTS AND REASONS.

The attention of the Government has for some time past been drawn to the increasing number of offences against marriage shown in the criminal returns, especially in the eastern and Mahomedan districts. The remarkably small number of convictions obtained in such cases taken together with their increasing numbers, seemed to indicate the existence of a grievance which the Criminal Courts are at present unable to redress. Inquiry has proved that this is in fact the case. The loose notions regarding the marriage tie prevalent among the lower orders of Mahomedans lead to the frequent institution of criminal charges, while the absence of any authorized system of registration of marriage and divorce (since the office of Kazi ceased to be recognized by law) makes it difficult to furnish the amount of proof which the Criminal Courts require to warrant their taking action.

It appears to the Government that the legal recognition of an authorized system of registering Mahomedan marriages and divorces will go far to supply the existing want, and this Bill provides such a system. The Registrar will, as regards such registration, take the place which was filled by the old Kazis, and certified copies of extracts from his register are made *primâ facie* proof of the facts recited therein. But the registration of marriages and divorces is left optional with the parties concerned, and all questions of remuneration are left to be settled between the Registrar and the parties who avail themselves of his services.

Acts of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th November 1873, and is hereby promulgated for general information:—

ACT No. XVII OF 1873.

An Act to provide for the liquidation of the debts of the Nawáb Názim of Bengal, and for his protection against legal process.

Preamble.

Whereas divers large pecuniary claims have been made against Sayyid Mansur Alí, the present Nawáb Názim of Bengal, Behar, and Orissa, commonly called the Nawáb Názim, which he has not the means of satisfying, and for the purpose of recovering such claims divers suits have been brought against him, and divers attachments have been issued against his property in India:

And whereas, with respect to certain jewels and immoveable property, it is disputed whether they belong absolutely to the said Nawáb Názim or are held by the Government of India for the purpose of upholding the dignity of the Náwab Názim for the time being, and litigation has consequently arisen between the creditors of the present Nawáb Názim and the Government of India:

And whereas the Government of India is desirous of freeing the said Nawáb Názim and his property respectively from such suits and attachments, and of discharging such portions of the said claims as are proper to be paid: and of settling the said dispute as to the said jewels and immoveable property:

And whereas in the meantime and for the future, it is expedient to exempt the said Nawáb Názim, except as hereinafter mentioned, from the jurisdiction of the Civil Courts, and to render him incapable of contracting further pecuniary obligations;

It is hereby enacted as follows:—

Short title.

1. This Act may be called "The Nawáb Nazim's Debts Act, 1873:"

Local extent.

It extends to all persons and places for whom and for which the Governor-General in Council has power to make laws;

Commencement.

And it shall come into force at once.

Power to appoint Commission.

2. The Governor-General in Council may, from time to time, nominate and appoint such persons as he thinks fit to be a Commission for the purposes hereinafter mentioned.

All persons so nominated and appointed (hereinafter called "the Commissioners") shall continue to be members of the said Commission during the pleasure of the Governor-General in Council, and shall hold their sittings at such place or places and time or times as they think fit.

Notice to claimants.

3. The Commissioners shall publish thrice in the *Gazette of India* in English, and in the *Calcutta Gazette* in English, Urdú, and Bengálí, and in such other mode and languages as they think fit, a notice calling upon all persons having claims against the said Nawáb Názim or his property, whether moveable or immoveable, to notify the same in writing to the Commissioners within six months from the date of the earliest of such publications.

Bar of debts not duly notified.

4. Every debt or liability to which the said Nawáb Názim is subject, or with which his property, or any part thereof, is charged, and which is not duly notified to the Commissioners within the time and in the manner hereinbefore mentioned, shall be barred:

Proviso.

Provided that, on sufficient cause being shown to the Commissioners, they may admit such claim within the further period of six months from the expiration of the said period of six months.

Particulars of claim.

5. Every such claimant shall along with his claim present full particulars thereof.

Every document on which he founds his claim, or on which he relies in support thereof, shall be delivered to the Commissioners along with the claim.

Entries in books.

If the document be an entry in any book, the claimant shall produce the book to the Commissioners, together with a copy of the entry on which he relies. The Commissioners shall mark the book for the purpose of identification, and after examining and comparing the copy with the original, shall return the book to the claimant.

Exclusion of documents not produced.

If any document in the possession or under the control of the claimant is not delivered or produced by him to the Commissioners along with the claim, the Commissioners may refuse to receive such document in evidence on the claimant's behalf at the investigation of the case.

May call for or admit any further evidence.

The Commissioners may from, time to time, call for further and more detailed particulars of any claim preferred before them under this Act, and may, at their discretion, refuse to proceed with the investigation of the claim until such particulars are supplied.

Power of Commissioners to summon witnesses.

6. For the purposes of this Act, the Commissioners may summon and enforce the attendance of witnesses, and compel them to give evidence, and compel the production of documents by the same means, and, as far as possible, in the same manner as is provided in the case of a Civil Court by the Code of Civil Procedure.

Investigation to be a Judicial proceeding.

7. Every investigation conducted by the Commissioners, with reference to any claim preferred before them under this Act, or to any matter connected with any such claim, shall be deemed a judicial proceeding within the meaning of the Indian Penal Code.

And every statement made by any person examined by or before the Commissioners with reference to such investigation, whether upon oath or otherwise, shall be deemed to be evidence within the meaning of the same Code.

Expenses of witnesses.

8. Every witness required by the Commissioners, except at the instance of a claimant, to attend and give evidence under the provisions of this Act, shall be entitled to a reasonable sum (to be allowed by the Commissioners) for his expenses in travelling to and from, and remaining at, the place at which he is required to attend.

Commissioners to determine amount due to each claimant.

9. The Commissioners shall, by agreement with the claimant, or, in default of such agreement, after due and full enquiry, determine the amount which, on the consideration of all the circumstances, they may consider each claimant ought in fairness and justice to receive. And in coming to such determination, they shall not be bound by any previous agreement or judicial proceeding.

Sum found due to be certified to Government.

10. The Commissioners shall certify in each case the amount so determined, and upon the Governor-General in Council, within six months from the date of the certificate, paying or tendering to any claimant the amount so certified, all claims of such claimant against the Nawáb Názim or his property shall be satisfied and extinguished.

Bar of suits against Nawáb Názim.

11. No suit shall be commenced or prosecuted and no writ or process shall at any time be sued for, against the person or property of the said Nawáb Názim, unless such suit be commenced, or such writ or process be sued for, with the consent of the Governor-General in Council first had and obtained.

Such consent shall be certified by the signature of one of the Secretaries to the Government of India, and every such signature shall be judicially noticed.

And any suit which at any time shall have been, or shall be, commenced, and any writ or process which at any time shall have been, or shall be, sued for, against the person or property of the said Nawáb Názim shall be of no effect unless and until the consent of the Governor-General in Council, certified in manner aforesaid, is obtained.

Commissioners to ascertain the property held by Government for upholding the dignity of the Náwáb Nazim's family.

12. The Commissioners shall ascertain what jewels and immoveable property are held by the Government of India for the purpose of upholding the dignity of the Nawáb Názim for the time being, and shall certify the particulars of such jewels and property; and their finding thereon shall be binding and conclusive on all persons whomsoever.

Power to refer questions of law to High Court.

13. If any question of law, or as to the construction of a document, arises in any case under this Act, and the Commissioners think it necessary for the purposes of fairness and justice to obtain a judicial opinion thereon, they may draw up a statement of the case and refer it for the decision of the High Court of Judicature at Fort William; and the provisions of sections twenty-four and twenty-five and of the first sentence of section twenty-six of Act No. XI of 1865 shall apply as if, in section twenty-six, for the word "Court," the word "Commissioners" were substituted.

And if, in the opinion of the High Court, the statement is imperfectly framed, the High Court may return it for amendment; and the costs (if any) consequent on any such reference shall be dealt with as the Commissioners shall in each case direct.

Nawáb Názim to be incapable of contracting.

14. The said Nawáb Názim shall be incapable of entering into any contract which may give rise to any pecuniary obligation on his part.

Saving of Secretary of State in Council.

15. Nothing herein contained shall be deemed to render the Secretary of State for India in Council, or the Government of India, liable for any debt heretofore contracted by, or on behalf of, the said Nawáb Názim, or in respect of any claim to be reimbursed, which may be made by any person supplying him with necessaries.

Bar of suits for acts done *bonâ fide*.

16. No suit or other proceeding shall be maintained against any person in respect of anything done by him in good faith under this Act.

EMIGRATION TO THE LABOR DISTRICTS.

THE HON'BLE THE ADVOCATE-GENERAL moved that the report of the Select Committee on the Bill to amend the law relating to the emigration of laborers to the districts of Assam, Cachar, and Sylhet, and to regulate contract labor and service, be taken into consideration in order to the settlement of the clauses of the Bill.

The motion was put and agreed to.

THE HONOURABLE THE ADVOCATE-GENERAL also moved that the clauses of the Bill be taken into consideration in the form recommended by the Select Committee.

The motion was put and agreed to.

HIS HONOR THE PRESIDENT said that the first amendment on the paper stood in his own name. He said one, because, although the amendments were put in a tripartite form, they were really one. Before coming to the specific amendment, he might say one or two words as regarded the general position of the question. On the last occasion he had explained to the Council why it was desirable that this Council should deal with this Bill, and not leave it to be afterwards dealt with by another Council. He might add that the unfortunate scarcity which now prevailed, and the probability that many people would seek relief by emigration, rendered it peculiarly desirable that this Bill should be settled as soon as possible; and, therefore, he was quite sure that he should carry them with him when he asked the Council to apply to it their best energies. We should do what we could to make it a Bill that would really subserve the purposes for which it was intended. Perhaps he was going a little beyond the amendment before the Council; but he should like to allude to another amendment which was at one time upon the paper, but had since been removed. The Bill had now been for a very considerable time before the Council, and we owed to a committee of the Council, who were good enough to bestow upon it great care and great labor, that it had been put into mature shape; it would be, he believed, a great improvement upon the previous law, and also a great improvement upon the Bill as it was originally placed by the Government before the Council. The state of matters was this:—At our last meeting the question of the further amendment of the Bill was narrowed to two or three questions, which he had then submitted to the Council. The first of the proposals, which was then put upon the paper in his name, was that which no longer appeared upon the paper, namely this, that the districts of Cachar and Sylhet should be removed from the list of labor districts, and taken out of the operation of this Bill. Well, he would explain to the Council why we thought it right to give up that amendment. We had consulted the officials, the planters, the coolies, and other persons interested in the matter, and we found that opinions were far from being unanimous. So far as Cachar was concerned, he might say that a great majority of the planting interest were opposed to the entire excision of that district from the operation of the Bill. As regarded Sylhet, he thought the result of our enquiries was that the majority of the limited number of planters interested in that district were favorable to its being removed from the Bill. Still there were planters connected with that district, whose gardens were at remote and difficult situations, who were not in favor of the omission of Sylhet. The Commissioner of the Division, on considering the whole question, had thought fit to recommend that Sylhet should not be removed from the operation of this Bill. Taking, then, into consideration that it would not be possible to give a more prolonged consideration to this part of the question, and that it would be rash to act in this matter in a hurry, the Government had come to the conclusion that the time had not arrived to ask this Council to remove Cachar and Sylhet altogether from the operation of this Bill. His Honor was inclined to believe that things were tending that way. He was inclined to think that, sooner or later, that result might be attained. But in the meantime we did not propose to ask the Council to remove these districts from the operation of the Bill.

HIS HONOR now came to the amendments which still stood in his name. If the Council would allow him, he would take them in somewhat the reverse order in which they stood with regard to the numbering of the sections upon the notice paper. He proposed that Sections 15, 16, and 17, which rendered a penal offence the recruiting of laborers otherwise than under this Act, should be expunged from this Bill. We propose to say—We will no longer send you to jail for recruiting in the ordinary manner and under the ordinary law, and not under the special Act. That was a proposal which he thought no one would object to. The gentlemen of the tea interest would no doubt be content that

they would not be liable to punishment for recruiting outside the law. The result of the simple excision of these clauses would be to render lawful ordinary contracts for labor otherwise than under the Act. But we had considered that, seeing the caution that was necessary before people could be bound down to serve for long periods in countries and under conditions that were unknown to them, it would not be desirable to go so far as that. On a former occasion he had indicated to the Council that we might take for example the plan that had been adopted by the Government of India with regard to a Bill before the Legislative Council of India, with respect to British Burmah. The proposal that was made by the Hon'ble Member in charge of that Bill was that there should be no penal clauses to interfere with free emigration, but simply a clause to provide that no contract shall be binding upon a laborer unless it was made in accordance with the Act. Well, so the matter stood when the question was last before them; but since he had last addressed the Council regarding this Bill, a considerable change had taken place in consequence of the unhappy scarcity which afflicts the country at present, and which threatens to afflict it in the future. As he had said, the Government thought it probable that emigration might take place largely in consequence, and the Government had also indicated a desire to assist emigration as far as possible.

The Government had further suggested that persons who might be assisted to emigrate under this Bill, might fairly be expected to contract for one year, one year being the term for free labor contracts usual in the tea districts.

Accordingly the Members of the Government had decided to propose for the consideration of this Council the clause which stood in his name, and which was as follows:—"No contract to labor in the labor districts for more than one year shall be binding upon an emigrant, unless it is made in accordance with this Act; and no emigrant shall be bound to fulfil any contract of labor upon any estate or portion of an estate which has been declared unfit for the residence of laborers under the provisions of sections 119 and 120." He might explain that the latter part of this section was one which had been added for a reason which he thought the Council would consider very sufficient, namely this, inasmuch as these contracts were made by an emigrant before he reached the labor districts, it would not be fair and just that he should be forced to perform that contract in an estate which had been declared unfit for residence. Therefore, he had no doubt the Council would consider that we had justly inserted this clause.

Well, then, the only question which really required the full consideration of the Council was this, whether a system of free labor contract outside the provisions of the Act shall be allowed in these labor districts, or not. On that subject we were in the possession of a number of valuable opinions. He thought he might say the great majority of these opinions was in favor of the proposal which he had now submitted to the Council. He admitted, however, that there were some variations in the opinions we had received direct. First, there was the opinion which was received from Messrs. Young, Grey & Co., who looked upon the proposals of the Government as admirable, and would like to see them carried out entirely; then another from Balmer, Lawrie and Co., who took another view, and said—"We think it is desirable to let well alone;" then another gentleman, Mr. S. H. Robinson, who was strongly in favor of the free system of recruiting; then we came to another gentleman, Dr. C. W. Turner, who was of an opposite opinion, and did not think the free system was good. His Honor now came to more important documents, namely, the reports of the Commissioner of the Dacca Division and the Deputy Commissioner of Cachar, and the Magistrate of Sylhet, who had fairly collected and reported the opinions of the planters consulted, the opinions of the coolies consulted, and their own opinions. The result of these enquiries seemed to show that there was a very great majority of opinion in favor of permitting free recruiting. The Deputy Commissioner of Cachar tells us that he finds that in that district "the possibility of carrying out free recruiting side by side with the Coolies' Act is maintained by a large majority of the planters. Very few only have doubts about it."

9. In the matter of free emigration side by side with an Act, the general opinion of the planters, as far as expressed, is quite in favor of it; and the possibility of carrying it out side by side with the Coolies' Act is maintained by a large majority; a very few only have doubts on the subject.

Many planters characterize it as a great boon, whilst one gentleman of well-known influence informs me that he has always been averse to any special Acts, and is glad that signs are being now shown that before many years we shall see the last of them.

They say of course that certain remote gardens will not be able to use it for the present to any extent, but that others will avail themselves of the permission largely.

10. At the present moment there are free-recruited men working on many of the gardens; some of them, as the managers state, come up of their own free-will, paying their own expenses; others come up at the instigation of old garden coolies, who, when visiting their homes, and in some cases managers, have recruited outside the Act.

I visited a garden lately where, according to the manager's statement, there was hardly a coolie who had been imported by the garden. * * * *

"Now, these men are as healthy-looking and contented a set of coolies as I have seen, and their lines were a model of cleanliness. * * * *

In another flourishing and well-managed garden employing over 600 coolies, I found about 360 coolies recruited or re-engaged under the Act, about 140 under civil contract, and over 100 without any contract at all.

11. In a letter this instant received, the manager of a concern with more than 300 coolies under the Act alone, says: 'I would heartily welcome a system of free recruiting, and further, I believe that free labor is possible working alongside the contract plan, and on this garden as well as on many others *there are both kinds.*' * * *

12. One gentleman alone in alluding to this subject pronounced free recruiting to be (in his case) a failure; he got up some coolies who absconded one by one, he never being able to get an agreement from any of them. Now, this exactly bears out what has been stated by me, for the garden is placed in a comparatively remote part of the district, and not far from Monierkhall, which has had an unfortunate notoriety.

Even this gentleman 'as an experienced planter,' sees no reason why the system, (*i e.*, allowing free recruiting), should not work side by side and be tried for a time at least.

13. On this point the coolies also were generally of one opinion, viz., that 'free recruiting' should be allowed. One or two individuals said that men could not be brought from Calcutta without an agreement being obtained from them before they started, but almost all who gave an opinion alleged that a large number would come up if the movement once began; and some sirdars stated that if such permissions were granted, they would go down of their own accord, and bring up coolies at their own entire risk, and not for remuneration, only for such coolies as they furnished willing to work on the garden. * * * * *

14. My own views suggesting the propriety of free emigration being allowed side by side with the Act, have been expressed before, and the present inquiries fully confirm them, and I have little to add beyond pointing out that transit of coolies under the Act is necessarily more expensive and tedious than that which would result from free recruiting. Under the latter system also men of better physique would be selected, as the present contractors have not that amount of interest in obtaining healthy and strong laborers which a garden or other recruiter would have. Men who were not robust would seldom undertake the journey of their own motion. * * * * *

Some have proposed as a modification of the above that the agreement should be taken from the coolie on arrival here before the local Magistrate, who would compel its execution unless the garden was unfit for habitation."

Now that was exactly what we proposed to give, and something more. We proposed to say that local contracts made with coolies who had arrived in the district were lawful; and further, that up to the limit of one year the contract may be considered as binding, though made with an emigrant before he reaches the labor districts.

In Sylhet the tendency of opinion was still more favorable to the free system; and as regarded the coolies, His Honor found that the majority of the coolies also wanted to be free, and expressed a decided opinion to that effect, always excepting one especially intelligent cooly who made this sage remark—"What does it matter to us whether there be an Act, or no Act, so long as our bellies are filled." But it was reported that it was perfectly clear that to those gardens where free labor prevailed, the coolies went much more readily.

He thought then that he might say that the opinions of officials, non-officials, planters, and coolies, were such as to show a very large balance of argument in favor the optional free system. He thought the circumstances under which we were placed by the scarcity rendered it greatly desirable to assist laborers to proceed to the labor districts. And feeling that on the one hand,

it would not be fair to bind them down for too long a term, and on the other hand that if planters were to import coolies they must have some kind of contract to make a fair start. He trusted the Council would consider the amendment he had proposed as a fair compromise. He was sure they would give it a fair consideration, and would decide what they thought best. He would begin, then, by moving to omit sections, 15, 16, and 17, that was to say, the penal clauses of the Act.

THE HON'BLE MR. COLVIN said that, as he took occasion when the Labor Transport Bill was introduced to offer a few remarks on its general scope and some of its particular provisions, and as he had since had the opportunity in respect to the greater portion of the Bill of urging in Select Committee such alterations and amendments as appeared to him expedient or essential, he need not now occupy the time of the Council for more than a few minutes. But there were one or two general considerations to which he was anxious to draw attention before referring specially to the amendments of the Hon'ble President. He thought the Council would hear him out in believing that the anticipation which he ventured to express when the measure was first brought forward, that it would be found to involve important changes in the existing law, and to re-open the whole subject in the minds of those interested, to produce a good deal of comment and provoke a certain amount of criticism, had been fulfilled; and if at that time he had been somewhat distrustful of the effect of fresh legislation, he was now ready to admit that it had been attended with certain distinct advantages in addition to those which had been then adduced in its favor. For it had brought to bear upon the whole question a quantity of practical information and a number of valuable opinions, which had been of great service in enabling the Select Committee to frame the Bill in the form in which it was now submitted to the Council for consideration; it had also made public the declared purpose of the Bengal Government to aid and assist emigration to the tea districts, rather than to place difficulties and delays in the way; to encourage the great and growing industry of tea cultivation, rather than to burden it with any new restrictions; and further, it had placed beyond doubt that which had previously been imperfectly understood or believed, that in the great majority of instances, the relations between employers and laborers in the tea districts were consistent with the well being of the latter, and that both on the higher ground of humanity as well as on the lower one of self interest, the care of the cooly was not neglected by the planter, and that the present body of owners of gardens and planters generally might claim credit, not only for energy and enterprise in pushing their trade to its present state of prosperity through many difficulties and disappointments, but also for the strict and honorable observance of the conditions under which it had seemed good to the Government to favor the establishment and extension of the trade.

Passing on to the amendments proposed by the Hon'ble President, Mr. Colvin would say that although he had previously expressed an opinion which had then been shared in by all his hon'ble colleagues on the Select Committee, that complications were likely to arise from carrying out two separate systems of recruiting side by side, he had become on further consideration of the matter and of the opinions submitted upon it, less apprehensive of the effect of omitting the penal clauses of the Act, for he doubted whether the two systems would thereby be brought in practice into such close competition as to produce results inequitable to those who had previously been compelled to recruit solely within the provisions of the Act; that apprehension being thus to a great extent removed, he was quite ready to relinquish the ground of objection and to support the amendments of His Honor; and further he felt that being as they were almost within the shadow cast before the coming of a dreaded event in parts of the province, he could not but acquiesce in an arrangement to facilitate emigration from districts where there was likely to be lack of labor and scarcity of food supplies to places where employment and the means of subsistence were comparatively easy to obtain.

The Hon'ble President had explained to the Council why the suggestion for exempting a portion of the labor districts from the operation of the Act had been withdrawn. Mr. Colvin considered from his own knowledge of the

manner, and from the testimony of others that the experiment would have been in Sylhet desirable, in Cachar doubtful, and in Assam dangerous, and he was quite content that it should be left to some future time to decide when and where such exemption, if any, should take effect.

His Honor the President said, before he proceeded further, he might notice that the motion went further than it was intended to go. He had described it as removing the penal clauses of the Act. He found, however, that Section 17 went further than that. If the Council would allow him to change the motion, he would so far change it as to move the omission of Sections 15 and 16 only, leaving Section 17 for a separate motion.

The motion was put and agreed to.

His Honor the President said, if the Council would allow him he would put the motion with regard to Section 17 in a somewhat altered form, namely this—Omit the first six lines of Section 17, and the words "period which," and substitute these words:—"A contract registered under this Act." Section 17 would then read in this wise:—"A contract registered under this Act shall in no case exceed the term of three years from the date of the arrival of the emigrant in the estate of his employer in any labor district. Every such contract shall be in the form in Schedule (A) annexed to this Act, and shall be reduced to writing, and shall specify the monthly amount of wages in money, the period of service, the name of the district in which the service is to be performed, and the price at which rice is to be supplied to the laborer."

The motion was put and agreed to.

His Honor the President said, he would now put the question that after Section 8, the new section, of which notice had been given, be inserted. He would read it again:—"No contract to labor in the labor districts for more than one year shall be binding upon an emigrant, unless it is made in accordance with this Act, and no emigrant shall be bound to fulfil any contract of labor upon any estate or portion of an estate which has been declared unfit for the residence of laborers under the provisions of Sections 119 and 120."

The motion was put and agreed to.

His Honor the President said he would next propose the first clause of the amendment which stood in his name, which was a necessary sequence of the amendment which had just been passed, inasmuch as it was now possible for free laborers contracting under the ordinary law to be conveyed to the labor districts. And as it was at the same time necessary that those emigrants when proceeding to the labor districts should be subjected to certain sanitary regulations, it was proposed to alter the term "emigrants" so that it would include both emigrants under the law and ordinary emigrants proceeding under the ordinary law. If the Council accepted this proposal, it would be necessary to revise the section of the law relating to transport. When coolies proceeded in large numbers in crowded vessels, it would be necessary to subject them to certain sanitary regulations. If the principle of our present proposal was passed by the Council, we would then proceed to deal with the transport at the next meeting of the Council. The question was—In Section 3, clause 6, definition of "Emigrant," add after the word "recruiter" the words "or other person," and omit the words "and has been registered as hereinafter provided."

The motion was put and agreed to.

The Hon'ble the Advocate General said he had the honor to move that clauses 1 and 2 of Section 125 be omitted, and that the following be inserted after the present third clause:—"Upon complaint made to a Magistrate by an employer, or any person acting on his behalf, that a laborer has deserted from his employer's service, such Magistrate may issue a summons for the attendance of such laborer, or a warrant for his arrest, and appoint a day for the hearing of the complaint without previously examining the complainant." He understood that the Hon'ble Mr. Robinson wanted further time for the consideration of this amendment.

The Hon'ble Mr. Robinson begged to say that he received the notice of this amendment only yesterday evening, and it involved an alteration which

was of very considerable importance to planters. He recollected on a previous occasion His Honor having expressed an opinion adverse to the section as it stood; but his memory did not serve him to lead him to suppose that there was any proposal made to alter it. He thought it would be more convenient if the Council would allow the consideration of this change to be postponed.

His Honor the President said he was quite ready to accede to the proposition that had been made, as it seemed to be perfectly reasonable. He might say at once that it was a change in regard to which there was no doubt a great deal of difference of opinion. He found that the great majority of the planters were against a change of this kind, but the great majority of the coolies were in favor of it.

The consideration of the amendment was accordingly postponed.

POWERS OF MAGISTRATES.

The Hon'ble Mr. Dampier moved that the report of the Select Committee on the Bill to amend Act XXI of 1856 of the Council of the Governor-General and Act II of 1866 of the Council of the Lieutenant-Governor of Bengal, be taken into consideration in order to the settlement of the clauses of the Bill.

The motion was put and agreed to.

The Hon'ble Mr. Dampier said as this Bill was a very short one, and had been some days in the hands of hon'ble members, and as the object of it was so pressing, that is to relieve the Magistrates of districts at this time of urgency from certain work which could be well done by others, he hoped the Hon'ble President would suspend the rules, and allow him to move that the clauses be considered for settlement in the form recommended by the Select Committee.

His Honor the President said he might mention to the Council that this Bill had its origin in a case in which a Magistrate, being desired to go out into the district to do what he could to assist the people to promote irrigation with a view of saving the crops, represented that he was very much tied down by the fact that petty cases of this kind could be disposed of by him only, and that he could not refer them to any subordinate Magistrate. On looking to this case, we found that it was really so. The Magistrates were very much tied in trying such petty cases, and we thought they should be relieved, and also on general principle that Magistrates of the second class should be entrusted with these cases. Seeing then the pressing nature of this small Bill, he thought he would not be wrong in suspending the rules, and allowing the hon'ble member to proceed with his motion. If any member should suggest any reason for delay he would be ready to give that reason full consideration. In the meantime he would suspend the rules.

The Hon'ble Mr. Dampier said he had now the honor to move that the clauses be considered for settlement in the form recommended by the Select Committee. He had simply to repeat what he had said in introducing this Bill to the Council, that in the two laws which were now amended, certain special restrictions were imposed in the trial of offences against the Abkaree law and offences against the Suburban Police law as regards the grades of officers who could deal with them. Really, there was no reason whatever why the powers of Magistrates of different classes should be differently restricted with regard to those particular offences than they were under the general law of the land in regard to offences in general. His hon'ble friend on the left (the Advocate General), was very anxious that professional character should be saved by explaining that both the members of the Select Committee were of opinion that section 2 of the Bill was absolutely unnecessary. They thought that when by section 1 the Council had repealed the two sections of the existing laws which placed special restrictions on the powers of Magistrates as regards these particular offences, they would as a matter of course fall under section 8 of the Code of Criminal Procedure.

Still some might raise the objection that section 8 of the Criminal Procedure Code would only apply to offences punishable under such special laws as at the time when the Criminal Procedure Code was passed contained no distinct provision as to the Court before which the offences were to be tried. It was in order to prevent any objection being raised on this head that the Select Committee

added the second clause of the Bill, which they themselves believed to be nothing more than declaratory of what the law would be if the Bill were to consist of the first section only.

His Honor the President said he was quite sure that the opinions of the members who had been good enough to put this Bill in shape in Committee would be quite enough for us; yet he dared say we would not be worse for having assurance doubly sure. He might mention that the effect of the alteration in the form of the Bill which the Hon'ble members of the Committee were good enough to undertake, was to make the scope of the Bill a little wider than the Government had originally intended. The proposal of the Government was to give certain powers to second-class Magistrates, whereas under the general form of the Bill as now put, third-class Magistrates would also have some powers. Still the Government felt that the proposal that was now made was in entire accordance with the spirit of the Code of Criminal Procedure, and as such we should not be wrong in adopting it.

The motion was put and agreed to.

The Hon'ble Mr. Dampier said it was strictly according to rule, as no Hon'ble member appeared to have any objection, to ask that this Bill should now be passed in the form in which it was presented by the Select Committee.

The motion was put and agreed to.

The Council was adjourned to Saturday the 13th December next.

REPORT ON THE STATE OF THE SALT MARKET FOR THE SECOND QUARTER OF 1873-74.

No. 558B.—Dated Fort William, the 22nd November 1873.

From—T. B. LANE, Esq., Secretary to the Board of Revenue, Lower Provinces,
To—The Secretary to the Government of Bengal, in the Revenue Department.

A. MONEY, Esq., C.B.

I AM directed by the Member in Charge to submit the following report on the state of the salt market for the second quarter of 1873-74, comprising the months of July, August, and September last.

2. The quantity of salt consumed (*i.e.*, the quantity of total clearances of salt of all descriptions) in the quarter under report amounted to 2,579,340 maunds, against 1,714,507 maunds in the previous quarter, and 2,601,085 maunds in the corresponding quarter of the previous year; and the total amount of duty levied was Rs. 83,82,855, against Rs. 55,72,148 and Rs. 84,53,526 in the previous and corresponding quarters, respectively.

3. The quantity of Government salt sold at the Presidency and Hidgellee under wholesale rowannahs amounted to 4,000 maunds, as shown in the margin, giving a monthly average of 1,333⅓ maunds, against 795 maunds in the previous quarter and 1,133⅓ maunds in the corresponding quarter of the previous year.

4. The quantity of excise salt sold in Cuttack, Balasore, Pooree and the 24-Pergunnahs during the present quarter, from the stock of the different seasons, and the quantity which remained in store at the close of the quarter, are shown in the following table I:—

It will be seen from the above that the total clearances, or sales, of excise salt during the quarter under review amounted to 99,946 maunds, against 115,797 maunds in the previous quarter, and 101,438 in the corresponding quarter of the previous year.

* This includes 451 maunds of Pooree-made salt in Futtehmookah Golah.

† The difference of 420 maunds between this and the figures shown in the Report for the 1st quarter 1873-74, is owing to revised figures submitted by Collector.

‡ These represent surplus ascertained on clearance of Golahs.

§ Of this 16,948 maunds is the difference between the quantity estimated as manufactured and the quantity actually stored.

5. The subjoined Table II shows, comparatively, the total importations into the port of Calcutta, and the total clearances of sea-imported salt during the quarter under notice, and the corresponding quarters of the previous two years:—

INSTRUCTIONS FOR THE GUIDANCE OF OFFICERS ENGAGED IN THE CARRYING OUT OF RELIEF WORKS.

No. 428.—*The 6th December* 1873.—*Notification.*—The following is published for general information :—

No. 5718.

***Resolution by the Hon'ble the Lieutenant-Governor of Bengal in the Public Works Department,—(General) Establishments,—under date the 3rd December* 1873.**

Read again the orders of the Government of India Nos. 248 to 259*I.* dated 24th September 1868 with annexures, relating to anticipated scarcity in Upper India, and to measures approved for adoption in time of Famine, which were circulated by endorsements of this Office Nos. 850 to 857*I.* of 6th October 1868,—being recorded in Proceedings A. of Bengal Government in Public Works Department, Irrigation Branch, for October 1868, Nos. 1 to 3.

Read again Notification No. 173 of May 1872, being Rules "*for guidance* of District Magis-"trates and Heads of Departments, District Committees, and Engineers entrusted with "Local Works constructed from Local, Provincial or Imperial Funds," recorded in Proceedings A. of Bengal Government in Public Works Department, Establishments, for May 1872, Nos. 1 and 2.

Read Chapter XIII.-*A.* of the Public Works Code relating to "measures to be adopted in time of Famine."

Read Resolution by the Government of India in Public Works Department, No. 431 B. C. dated 28th October 1873, received in this Office, relative to the undertaking of Relief Works where urgently required in regard to the impending scarcity in parts of Bengal, and also referring to the above mentioned orders of 24th September 1868, and Chapter of the Public Works Department Code.

Read orders of the Lieutenant-Governor of Bengal in the Financial Department (Scarcity and Relief,) contained in Resolution dated 3rd, Circular No. 80 dated 17th and Resolution dated 25th November 1873, relating to the works and measures to be carried out in the Civil and Public Works Departments of this Government for affording relief to people who may suffer from failure of crops in certain Districts.

RESOLUTION.—With reference to Chapter XIII.-*A.* of the Public Works Code and the instructions issued by the Government of India in September 1868, by which local Officers are now to be guided, subject to difference of practice which local circumstances may render necessary; and in reference to and continuation of the above mentioned Resolution dated 25th November 1873 by this Government in the Financial (Scarcity and Relief) Department, the Lieutenant-Governor is pleased to record the following observations and instructions for the information and guidance of all Officers concerned in carrying out Relief Works in the districts, which have been, or may be designated, Distressed Districts.

1. *General organization.*—The Commissioner of the Division has general control of all relief measures and works. He must be cognizant of all matters connected with relief, and, unless in instances specially excepted, all communications on the subject of relief from local Officers of every Department, as well as from Civil Officers, should be submitted through him.

(*a.*) The Magistrate is the local head of all relief measures and works, and will, subject to the Commissioner's orders, decide when works are to be undertaken or discontinued; how they are to be carried out; and whether wages are to be paid in coin or kind, or both. He will also have a general control in regard to the rate of wages, and other such matters. He will, in short, direct all relief operations.

(*b.*) Relief Works are to be considered District Works and dealt with under the rules published in the Notification No. 173 of May 1872, according to which they will be carried out, subject to any modifications ordered in this Resolution; and all District Works in distressed districts are to be considered Relief Works.

2. *Execution and control of works.*—The professional control of Relief Works will remain with the Superintending and District Engineers; and under the special circumstances of necessity and want of proper estimates,

which may possibly exist in many instances, it is necessary that these officers should be more than ever active in their supervision. The number of Superintending Engineers will be increased, and large and liberal assistance in Engineers is being granted to districts. The Lieutenant-Governor will expect that the Relief Works will be very efficiently carried on in every respect.

3. *Employment, classification, and tasking of Laborers.*—It is to be considered as a condition of employment on Public Works that every person shall give some labor in exchange for the wages given.

(*a.*) The work-people should be divided primarily into two classes—

I.—Those who can perform a full day's work at the usual rates.
II.—Those who cannot do so.

(*b.*) Class I. should receive full wages, or payment for full work, and if necessary should be retrenched for short work as usual; but not so as to bring them below the wages of Class II., which they should join if found habitually unable to give the proper amount of work.

(*c.*) Work-people of Class I. should be drafted off to the more important works which it is desired to carry out in the ordinary manner, where they can be under proper supervision, and where the proper amount of work can be ensured from them. This should only be done to the extent to which required for such works, and if there are more laborers in Class I. than there is proper work for, the surplus should be put into Class II.

(*d.*) Class II. will receive mere subsistence wages; but those who can render a tolerable return of work may be tasked, and paid according to the amount of work done. Such tasks must be fixed according to circumstances by the District Engineer, subject to approval by the Magistrate. The amount of the subsistence wages should be determined by the local Officer subject to the approval of the Commissioner with reference to local circumstances, and the result reported to Government in this Department.

(*e.*) Officers in charge of work-people must consider it a part of their duty to watch the condition of their work-people, and to bring it to the Magistrate's notice as necessary.

4. *Rate and payment of wages.*—The Lieutenant-Governor desires that, as a rule, there shall be but one rate of daily wage in each district or tract for each class of work-people, as already defined. This rate to be fixed, for Class I., at the ordinary rates of the district as at present prevailing. The rates for Class II. will be determined as above explained, but will generally be lower than those for Class I. and can never be higher.

(*a.*) These rates are to remain fixed; but when the market price of rice rises above 10 seers per rupee, the Government will sell rice or other food to the *work-people* at not less than 10 seers per rupee whatever may be the current district rate of food. The food will be sold under the rules contained in Appendix A. of this Resolution.

(*b.*) Ordinarily the payments on Relief Works should be made daily, especially in regard to Class II. But an interval of two days may be allowable or necessary; and when the times are not very bad, a longer time might, perhaps, be allowed, especially to Class I. On these matters the Magistrate will be the judge, and decide what may be done.

(*c.*) The payments must be made in the presence of a trustworthy person, and the working parties must be frequently visited by the supervising officers. This matter of payment must receive special attention.

5. *Payment of wages in kind and distribution of cooked food to the laborers.*—It is not anticipated that, with the arrangements for selling rice, which have been laid down in the preceding paragraph, there will be any necessity of payment of wages in kind, or of distribution of cooked food. Should this be necessary in special instances, special arrangements must be made under the orders of the Magistrate, and reported in due course. Should there seem likely to be any general necessity for payment in kind as time progresses, the matter will receive the attention of the Lieutenant-Governor, and special orders will be issued.

6. When large bodies of workmen are collected, or likely to be collected at a distance from markets, the Magistrate can sanction the Engineer's arranging for establishing one or more petty dealers at each work, who will sell food and firewood to the laborers. The cost of housing and establishing such dealers would be chargeable to the works; and the men could, when necessity arose, be employed as "Moodees" or depôt-holders under Appendix A.

7. *Hutting of laborers, &c.*—On any work where a large number of laborers will be for any number of weeks employed, it will be very necessary to provide for shelter, sanitation and water-supply; where jungle wood, bamboos and grass may be abundant the coolies may be left to build their own huts; where materials may be less abundant some small head money or allowance may have to be made; and where the country is all thoroughly open and cultivated it may be necessary for the Engineer to arrange shelter for the laborers. In any case the hutting space will have to be chosen and marked out with some regard to ventilation and sanitation. Attempt must be made to make the coolies of each camp foul the ground near their huts as little as possible, and the huts should be of light moveable materials. As one embankment or work is finished and the coolies move on to another, they would carry the bamboos or posts of their huts with them; and the necessity for such periodical moves will constitute a valuable security against the breaking out of epidemics. In most parts of Bengal water for drinking purposes will be available; but the places of supply will have to be fenced in or in some way guarded from pollution. In Behar it will often be necessary to dig temporary* wells for the supply of the laborers; where water is scarce this very important requirement will have to be provided for. The Magistrate will have full discretion to permit charges of the kind adverted to in this paragraph to be debited to the works.

* NOTE.—Even where kutcha wells may be insufficient, wells lined with matting or earthen cylinders would suffice. Masonry wells should not be sunk if it can possibly be helped.

8. *Progress of relief.*—In order to show clearly the amount of relief afforded by works, a daily report of the number of work-people employed will be submitted either in English or Vernacular by the person in charge of each work to the District or Sub-Divisional Engineer, who will submit a weekly report to the Magistrate showing the number of work-people employed and the wages paid them. From these returns, fortnightly returns for each principal work, and as regards petty works, for each Sub-Division of each district, will be submitted by the Magistrate to the Commissioner, and to the Public Works Department of this Secretariat.

(*a.*) Rules and forms for the preparation of these returns are contained in Appendix B. of this Resolution.

(*b.*) The Lieutenant-Governor will expect great care in the preparation of these returns, and the utmost exactness in their submission. To ensure this, and to avoid hampering the executive efficiency of officers by these returns, the rules contain provision for their being prepared and submitted by the Office Establishments of the Magistrate and District Engineer.

9. *Establishments.*—It seems undesirable in several respects, and also unnecessary, to carry on ordinary Relief Works under the ordinary Public Works system of Sub-Divisions and Sections, under Upper and Lower Subordinates. An efficient establishment of this nature could not be extemporized, and the ordinary Relief Works will probably be of such a simple nature that in general professionally trained men will not be indispensable. General laying out of work and instructions, with frequent inspection by the Engineer and his Assistant, will probably be all that will be professionally required in regard to the mass of work, which the Lieutenant-Governor thinks may be properly carried on by Mohurirs or Sircars, superintended by persons of intelligence and good character, under the general superintendence of the Engineer, as already noticed.

(*a.*) It is understood that in some districts planters, and other gentlemen of local influence and interest, will undertake a good deal of the minor Relief Works. The Lieutenant-Governor considers this an excellent arrangement which it is desirable to extend as far as possible, and he trusts that in districts

where they have not done so, gentlemen of local position will come forward and take a share in carrying out Relief Works for the benefit of their tenantry and poorer neighbours.

(*b.*) In furtherance of the views already expressed, the Lieutenant-Governor will provide an Engineer for the charge of each district, in cases where two districts are at present under one Engineer. The districts which will thus obtain a separate Engineer will be—

Chumparun	In the Patna	Division.
Purneah	„ Bhaugulpore	„
Bogra	„ Rajshahye	„
Pubna		
Maldah		
Bancoorah	„ Burdwan	„

(*c.*) An Assistant Engineer will also be given to each of the districts in the Patna and Bhaugulpore Commissionerships, an additional Assistant Engineer to the Patna, and for the present three additional Assistant Engineers to the Purneah District, in consequence of the heavy works in those districts. The bridges on the Ganges and Darjeeling Road will then be taken from the Purneah District, and made into a separate charge. Should this amount of assistance be considered likely to be insufficient, Commissioners will give early intimation thereof, and what additional assistance they will require. If at any time it should prove possible to give up any portion of these extra establishments, an immediate report should be made.

(*d.*) The Relief Works in the Rajshahye Commissionership will be partly cared for by Major Lindsay, R. E., and the staff of the Northern Bengal State Railway: the requirements of the remaining portion of the Division are not at present known, but will be disposed of as soon as the reports are received.

(*e.*) In the Circular No. 80 (read above) authority has been given to the local entertainment of extra establishments as required. As far as Relief Works are concerned, these establishments will be for the purposes indicated in paragraphs 4 and 9; and the Lieutenant-Governor will look to the local Officers to arrange for all establishments subordinate to the Engineers, except for really important professional works, when application may be made to Government for additional assistance, after the most has been made of the subordinates attached to districts. These applications must show clearly how existing Public Works Establishments are employed, and how it is proposed to employ those applied for.

10. *Tools.*—It is customary in many districts for the work-people to bring their own tools. The Lieutenant-Governor would wish this custom to be upheld as far as possible. Not only will the Government be thereby relieved of the necessity of providing a large number of tools; but the laborers will not part with their implements, and will have the tools ready to resume their ordinary occupations on leaving the Relief Works.

(*a.*) At the same time, it must be realized that destitute people are not to be refused work for want of tools. It will, in some instances, be a difficult and delicate duty to require tools from the people, and at the same time not to withhold them in cases where they cannot be brought. The Lieutenant-Governor must look to the tact and arrangements of the Commissioners, Magistrates and those engaged in the work to give the best effect possible to his wishes.

(*b.*) A depôt of tools will be formed at the Head-Quarters of each Commissioner, and the tools will be distributed under his orders to the different districts.

(*c.*) Commissioners will report what number of tools in excess of those available and procurable locally must be sent to the depots, in order to enable them to meet the cases in which it may be necessary to supply tools. In this report baskets should not be overlooked.

11. *Accounts.*—In order to keep the Government properly informed of the progress of the expenditure during the present emergency, it is necessary that the district accounts of expenditure should be submitted monthly. This has been already ordered in a separate Circular No. 5716 dated 3rd current; but it is again repeated here that Relief Work accounts must be submitted

in the form and under the procedure laid down for District Works accounts. It is extremely desirable that these accounts should be sent in punctually, as arrear accounts will greatly impair the executive efficiency of Engineer Officers: the District Engineer may, therefore, with the Commissioner's sanction, entertain extra Accountants and Clerks chargeable to Relief Works within reasonable limits.

(a.) In order to mark distinctly the extra establishments due to Relief Works, additional sub-heads should be entered in the extract from Register of Monthly Receipts and Expenditure, which is furnished to the Controller. These sub-heads should show separately—

a.—Superior Executive Establishment.
b.—Inferior ditto, such as Sircars and Mohurirs.
c.—Office Establishments.

(b.) The monthly accounts must be submitted punctually by the 20th of each month, as ordered.

ORDERS.—Ordered that a copy of this Resolution with its Appendices, of the Resolution by the Government of India in Public Works Department dated 28th October 1873, (with copy of their previous Resolution of 24th September 1868), and of the Orders of the Lieutenant-Governor in the Financial Department (Scarcity and Relief) of 3rd, 17th and 25th November 1873 *read* above, be forwarded to the Superintending Engineers of all Public Works Circles in Bengal, to the Superintending Engineer of Northern Bengal State Railway, and to the Controller of Public Works Accounts in Bengal, for information and guidance.

ORDERED ALSO that a copy of this Resolution with its Appendices be forwarded to the Commissioners of all Divisions in Bengal and to the Officiating Joint Secretary to the Government of Bengal in Public Works Department, Irrigation Branch, for information and guidance; and to the Secretary to the Government of Bengal in Financial Department (Scarcity and Relief) for information.

Rainfall, Weather and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 6th December 1873.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.				
		Western Districts.		
BURDWAN DIVISION.	1	Burdwan ...	.....	Return not received.
	2	Bancoorah, 6th Dec. 1873	Nil	Rather cloudy, but cold. The rice crop is still being reaped. In parts an eight-anna crop is hoped for, but in others not more than three or four annas can be expected. The cultivation of the cold weather crops is not trifling.
	3	Beerbhoom, 6th „ „	Nil	Cool and occasionally cloudy. Harvest of the late rice still in progress; cold weather crops being put in wherever water is procurable. Sugarcane promises fairly. Export by rail of week ending 29th November 7,212 maunds chiefly to Patna Division. Corrected return of the preceding week 15,130 maunds. Considerable export to Raneegunge by road. Prices slightly falling.
	4	Midnapore, 6th „ „	Nil	Seasonable weather; cold and clear, with a north breeze. The rice is being everywhere harvested a little earlier than the usual time for cutting. The little rain there was last week has done rather injury than good to what few mustard and radish crops there are.
	5	Hooghly, 6th „ „	Nil	Cloudy, otherwise clear throughout; wind from the north and north-east. The rice crop varies in different parts of the district from a three-anna to a twelve-anna crop; it is said that only a quarter of the usual area is under cold weather crop cultivation.
		Howrah, 6th „ „	0·13	More seasonably cold than hitherto. The nights cloudy, but no rain worth mentioning has fallen. The late rice is fast ripening, some is ripe already, and the harvest will begin at once. Now that the crop is nearly mature, it is admitted very generally that it is fuller than could have been hoped for; an eight-anna crop is confidently expected; a half crop would support all the inhabitants fairly for a year. Fever fast disappearing out of the town.
		Central Districts.		
PRESIDENCY DIVISION.	6	24-Pergunnahs, 9th* Dec. 1873.	Nil	Cloudy in the morning during the early part of the week; weather still warm for the time of the year. Such of the crop on high lands as has survived the drought is being harvested; that on the beel lands is not yet ripe. The outturn is poor. Prospects of cold weather crops very gloomy; sowings have only been made in patches and only where water was procurable. Fever still continues in portions of south Suburban Town and Baraset; in Bareepore it is not increasing, while in Baseerhat and Satkhirah it is reported to be abating.
	7	Nuddea, 6th „ „	Nil	Generally cloudy and extremely slight drizzling rain in several parts of the district on the 28th and 29th November. The state of things is very little changed. The late rice is still being cut. Prices are still moderate, though they are rising. The average price for the coarsest rice throughout the district, does not exceed two rupees eight annas per maund. Much distress is apprehended for want of drinking water this season.
	8	Jessore, 6th „ „	·02	Cloudy, with slight drizzling rain all over the district, not enough however to do any good. The late rice crop is being got in. The *chotan* paddy is scanty; the *baran* is promising well so far. The prospects of the winter crops have not improved. The attacks of insects on them have been favoured by the cloudy weather. The price of rice is generally rising, and exportation is going on from the Sudder, Jhenidah, and Magoorah sub-divisions.
RAJSHAHYE DIVISION.	9	Moorshedabad, 6th Dec. 1873.	Nil	Thick clouds occasionally, but no rain. Rather cool and pleasant weather. The harvest of late rice is going on in all parts of the district, but no exact estimate of the general outturn can as yet be formed. It will probably be better than at first expected. The cold weather crops are however suffering very badly from the drought and insects. Mashkalai (pulse) and sesamum (oil-seed) are in a fair condition in the north; but mustard, wheat and barley are backward. The crops look well on the low lands only.
	10	Dinagepore, 6th „ „	Nil	Clear days; fresh cold nights and mornings. Paddy is being cut throughout the district. All signs of rain gone; a fall of rain just now would injure what there is of rice ready for cutting; it would also damage the mustard in flower. Sugarcane reported a fair crop. Prices are stationary.

* Report of the 9th December received on the same day. Shows rainfall during the seven days immediately preceding.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)				
		Central Districts.—(Contd.)		
RAJSHAHYE DIVN.—(*Contd.*)	11	Maldah, 6th Dec. 1873	Nil	The heavy clouds of last week dispersed without any rain. The weather this week is fair and cold; direction of wind north-westerly. The prospect of rain seems as far off as ever. The amun or low land late rice crop in the north-west of the district is being reaped, but prices still continue very high there. The reaping of the hymnut (winter) crop on the high lands to the east of the district has also commenced, but prices generally have not lowered. The cold weather crops require rain. The health of the district is good. Work going on on district roads and new works being projected. It is noticed that the demand for work by local laborers is increasing.
	12	Rajshahye 6th „ „	Nil	There have been some cloudy days during the week, but no rains throughout the district. The late rice harvest is being carried on. More than half the crop is still standing, principally in the beels and on the lowest ground. The yield is of course poor in comparison with the crops of ordinary years, in consequence of the drought, even in the south-eastern corner of the district where the paddy has germinated and grown better than in other parts. New rice (present season's late rice) is in the market in many parts of the district. The state of the cold weather crops varies a good deal according to locality. Where sown on low lands, chur lands, or lands from which water has recently dried off, or where irrigation is practicable, the prospects of wheat, barley, pulses, and oil-seeds are not unfavorable. On high lands and where artificial watering is not practicable, the plants, which have grown to twelve or eighteen inches, are fast withering away, and unless rain falls soon will come to little or nothing. The mulberry crop is as good as in ordinary years, and there is a sugarcane crop quite as good as is usually seen. Mashkalai (pulse) is at present a fairly good crop, considering the absence of moisture, but must have rain to give good results. The cloudy weather has caused the appearance, in some parts, of insects which attack wheat and barley. On the 1st December rice was sold in Doorgapur hât (north of Bogra jurisdiction) for about ten seers for the rupee. This high price was more probably owing to there being an exceptionally small supply in the hât on that particular day, than to any other cause. Elsewhere prices have not varied except in Bagmara and its neighbourhood, where rice is dearer than it was. Cases of cholera continued to be reported chiefly from the neighbourhood of Charghat.
	13	Rungpore, 6th „ „	Nil	Fine; warm in the middle of the day. The late rice crop is being cut; the produce varies from one anna to four annas all near and about the station. In Dimlah and Fornbari the produce will be five to six annas: potatoes and winter crops generally are fair, and tobacco is in good condition, but it is somewhat backward from the dry state of the ground. Spring rice cut. Millet is being more largely sown than usual in hopes of rain. The demand for labor is more active as the harvest operations are on. No severe distress anywhere at present. Prices continue much the same. Rs. 3-8 to 4 for a maund of rice.
	14	Bograh, 6th „ „	Nil	Still dry. The late rice crops are being cut; a poor outturn is to be expected, though a certain amount of good has been done by irrigation. Sugarcane will yield a good outturn. Cold weather crops in parts are unfavorably reported upon. Price of ordinary rice at the Bograh market on the 6th December, 15 seers of 80 tolahs per rupee.
	15	Pubna, 6th „ „	Nil	Cool and somewhat cloudy, with heavy fogs. The diggah paddy is being reaped, and a seven anna crop is expected. The boro is still on the ground. Winter crops, except sugarcane and turmeric, becoming worse for want of rain. Here and there mashkalai and moog (pulses) doing fairly. Boro paddy is being sown but to a limited extent, the beels being too dry. Fever prevails throughout the district, and a considerable portion of the population has been invalided.
COOCH BEHAR DIVN.	16	Darjeeling, 6th „ „	Nil	No rain, a bright sun, but a hazy atmosphere; clear nights and frosty mornings. In the plains and in the hills also a ten-anna crop all round may, it is hoped, be reckoned upon. Bugrah or common rice has fallen in price throughout the district owing to the new rice having been partially gathered.
	17	Julpigoree, 6th „ „	Nil	The appearance of rain passed off, and the weather has been bright and clear, and sun unusually powerful. There is little to notice in the way of change. Prospects are as before. The late rice crop is now being cut and prices falling as new paddy comes into the markets. Cold weather crops generally promise well.
		Cooch Behar, 6th „ „	Nil	Mornings generally foggy. There are no signs of rain now. There is no change in the prospects of the crops since last report. Exportation to Rungpore and other districts still going on.
		Eastern Districts.		
DACCA DIVISION.	18	Dacca, 9th* Dec. 1873	Nil	Weather warm for the season; heavy dew. Winter crops very fair. A good deal of boro paddy planted. Fever slightly decreasing.
	19	Furreedpore, 6th „ „	0·02	At Furreedpore, mostly cloudy during the week, but on Monday and Tuesday bright sunshine at Goalundo; the clouds were heavy on Tuesday, but no rain. At Pangsha, cloudy on Thursday, but no rain. The cloudy weather is not perhaps on the whole injurious to the cold weather crops which are very stunted and want rain badly. By day the clouds shield them from the sun, but again by night they tend to moderate the dew. The cloudy weather has led people to hope for rain, and some ploughing has been going on. Reaping the late rice still continues, and the present weather is good for getting in the harvest.

* Telegram of the 9th December received on the same day. Shows the rainfall during the seven days immediately preceding.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)				
		Eastern Districts.—(*Contd.*)		
DACCA DIVN.—(*Contd.*)	20	Backergunge, 6th Dec. 1873.	1·10	Cloudy and rainy in the beginning of the week. It cleared up somewhat in the latter part. State and prospects of the crops have improved. The rain has dispelled the fears which were entertained of destruction by insects, though not before some damage was done in Dukhin Shabazpore. In Patuakhali the crops are good, and in the jurisdiction of Chalitabania, in the extreme south of the sub-division, the late rice is better than it was last year, and will yield 8 to 10 maunds a beegah. The Collector has seen the crops in portions of the Perozepore sub-division and of the Jhalokatti thannah. The former were good, and he was told that all over the Perozepore sub-division the crops were tolerably good. Near Jhalokatti some very fine crops were seen, but along side the road from Jhalokatti to Burisal the crops are bad, and will not yield more than eight or ten annas. The new rice is coming into the markets and prices have fallen. On the whole, it seems almost certain that there will be a twelve-anna crop all over the district, and that there will be no distress among the ryots if they have the self-restraint to keep sufficient paddy for their own consumption throughout the year. Many boats have come to take away rice, and probably prices will rise considerably, and thus persons with fixed incomes and the non-agricultural classes generally will suffer no small amount of distress.
	21	Mymensing, 6th „ „	Nil	The first three days of the week cloudy, since then clear and cold; there has probably been rain somewhere. No change in the state and prospects of the crops.
	22	Sylhet, 29th Nov. „	Nil	Very cloudy since Thursday. Barometer has fallen. Rain expected. The recent blight at Baniachung has done a great deal of damage to the crops which promised so well before. The large exportations lately have made the non-agricultural classes very uneasy. Upwards of 3,000 maunds of rice have been exported from Balagunge from 19th to 26th November, 2,706 maunds to Calcutta, 625 maunds to Naraingunge, and 702 maunds of paddy to Calcutta. From Bahadurgunge during the same time 100 maunds of rice and over 7,000 maunds of paddy have been exported. 100 maunds of rice and 1,100 maunds of paddy to Patna, and the rest to Calcutta, Dacca, and Naraingunge. There was a marked fall in the sudder bazar on the 28th November, and a slight fall in all the bazars in the district. This will probably check exportation for the present.
	23	Cachar, „ „	Nil	Cooler, but very cloudy; rain still keeps off. Smart shock of earth-quake at 2-30 on the 29th November. The state of the crops is much the same as last week. The late rice crop is being cut.
CHITTAGONG DIVISION.	24	Chittagong, „ „	Few drops.	Since Wednesday, the 26th November, the weather has been dull and unseasonably warm. On the night of the 28th and morning of the 29th idem, a few drops of rain fell. No special change in the state of the crops. Paddy-cutting has commenced all over the district. Cholera cases are reported from Meerkaserai, Seetacoond, Sudder and Juidee Stations.
	25	Noakhally, „ „	Nil	Warm during the week; cloudy and cool, with a little rain, in the interior on the 29th November. Reports of the late rice crops not yet reaped are favorable, except from Hatra, where injuries done by the "Mayah" and "Sani" insects are still reported.
	26	Tipperah, 6th Dec. „	1·14	Very gloomy and oppressive up to the night of the 4th December, since when the weather has cleared. Rain fell during Saturday and Wednesday nights. The weather however is still hot for December. Some rain has fallen throughout the district, and heavy rain to the south-west is reported also. The cold weather small crops have on the whole benefited by the rain, but the mustard in flower has been injured. The rice crop has not suffered. The price of rice continues high, but there is no occasion for alarm in this respect.
	27	Chittagong Hill Tracts, 29th Nov. 1873.	Nil	Very cold throughout the whole week. Cloudy on the 29th November. The cotton is now being diligently gathered; mustard and other cold weather crops are being sown. The prospects of the former crop are good. The outturn of the paddy crop has been tolerable. There is no reason to apprehend distress.
		Hill Tipperah, 29th Nov. 1873.	0·02	Cloudy and threatening rain; a few drops fell on the 27th and 28th November at the head-quarters. Reaping has fairly commenced. No change in the prospects of the rice crop. Mustard looks well about Agurtollah.
BEHAR.				
PATNA DIVISION.	28	Patna, 8th* Dec. 1873	Nil	Weather very cold in the mornings and evenings; no rain has fallen, and consequently no change in the prospects of the crops. Insects are still reported to be doing considerable damage to the young plants of the cold weather crops. Health of the district good.
	29	Gya, 6th „ „	Nil	Weather fine and cold; no rain has fallen in any part of the district. The cold weather crop is suffering for want of rain. The opening of Soane Canal has done much good; about 3,000 beegahs of land along its banks have already been irrigated, and it is expected that about 10,000 beegahs more will be irrigated in the course of the next week.

* Telegram of the 8th December received on the 9th. Shows rainfall during the seven days including the 8th idem.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
PATNA DIVISION.—(*Contd.*)			
30	Shahabad, 6th Dec. 1873	Nil	Weather clear and cool, with heavy dews at night. The irrigated rice in the Sasseeram Pergunnah is looking well and will be shortly harvested. The cold weather crop is also promising that had been watered; that part of the crop which has not been watered requires rain to ensure a fair crop, although at present it is growing favorably. In Bhubhooah sub-division the state of the crop is as much the same. Irrigation, wherever possible, is being carried on. In the Buxar and Arrah sub-divisions, the prospects of the cold weather crops that have been sown and come up have not changed for the worse, although they much require rain. In parts of the district the rice crop is beginning to be cut, and the "bajra" millet crop towards the west and south has yielded a good outturn in the few places where it has been sown.
31	Tirhoot, 6th " "	Nil	Weather cold and seasonable, with occasional foggy mornings. The prospects of the crops in the Seetamarhee sub-division have not materially changed during the past week. In some parts the paddy is being cut and stocked. New rice is coming into the market, but is sold at nearly the same rate as old rice, viz. from 11-8 to 12-8 seers per rupee. The prices of all grains have remained almost stationary for the last three weeks. The cold weather crops which have come up still thrive, but without rain in this month it is very doubtful if they will come to much. The Deputy Collector of Durbhangha, who has now been through his sub-division, believes that about two annas of the rice crop have been saved. Mustard is said to be looking not badly; Janera, fair; and rahur (pulse), very fair. The utmost proportion of the cold weather crop lands sown is only one-eighth of the usual area, and even in this limited space the seed has not always germinated, while in some places the young crops are suffering from want of rain. Though the land is not being prepared for the cold weather crops, it is thought that if rain falls before January, large sowings will be made. In the Mudhoobani sub-division the cold weather crops are languishing and dying for want of rain. There is no change in the prospects of the rice crop. In the Tajpore sub-division everything is almost at a standstill except on the Dearah. Four annas of the cold weather crops have still to be sown, and rain is required in the course of fifteen or twenty days to secure even an eight or nine-anna harvest. The root crops are giving a very poor yield, and tobacco is very backward. Prices have fallen slightly. In the Hajeepore sub-division the cold weather crop still holds out well and is in no present danger. Recent inquiries in the sudder sub-division show that cold weather crop has been sown to a greater extent than in ordinary years, and that a four-anna crop will probably be obtained under any circumstances. If rain falls within a fortnight there may be a six-anna crop.
32	Sarun, 6th " "	Nil	Seasonable and cold; west wind prevailing. The rice harvest has begun; the cold weather crop is still doing well, though rain is much wanted. Irrigation is steadily going on where practicable, but in the unirrigated fields the plants are looking sickly and of a yellowish green. Sugarcane is being cut and brought into the mills. People are being largely employed on the district local roads and relief works. Prices of food-grains on the whole steady.
33	Chumparun, 6th " "	Nil	Weather cool; west winds. The prospect of the late rice has changed for the worse rather than for the better. Twelve annas of the cold weather crop land have been cultivated with wheat, barley, gram, pulses, and oil-seeds. The seed on half of the said area has germinated and the plants are looking healthy, but of the rest some have been destroyed by insects and others did not germinate at all. The young plants will die if it does not rain soon. The people have cultivated cucumbers, melons, and other vegetables of the like nature on banks of rivers and khals and on low lands on a larger scale with the object that in case they have no food-grains to live on, they would at last resort to these vegetables for support.
BHAGULPORE DITTO			
34	Monghyr, 6th " "	Nil	The last week's desponding report was written up by hearsay during the Collector's absence in the district and is incorrect. The cold weather crops are looking generally very well, and with a little rain during the month there should be at least a good average crop. The exertions made by the Government to afford food and labor to those who need it is removing the general feeling of despondency which prevailed, and the grain-dealers have discovered that hoarding grain is not so profitable as selling their present stock and getting fresh supplies.
35	Bhaugulpore, 9th* Dec. "	Nil	Weather fine and cold. Rice-cutting becoming general. Probable outturn not yet ascertainable. Cold weather crops still promise well. General health very good.
36	Purneah, 6th " "	Nil	No change in the character of the weather. The cutting of the winter rice crop has commenced all over the district. All along the north the crop has been much better than was expected, and importation has commenced from Nepal. The outturn in the four northern thannahs will not be less than six annas. All down the east, in the land usually flooded by the Mohanudi and Panar, the rice has failed. In Kusbah Amour and Kudbah, parts of the Sudder and Bulrampore, one-anna crop only has been cut. In Kishengunge, parts of Bulrampore and the Sudder, in Manihari and Goudwarah, about four annas. All along the Kosi in thannahs Dhamdaha and Raneegunge the yield has been good. Great loss has been caused here by rats and wild pigs which swarmed here this year; a ten-anna crop may be reaped. The mustard everywhere is fair. In the south of the district it is excellent. This is the great cold weather crop of the district. The koorthi pulse is good, also janera (millet) and arhur (pulse). Estimates of the quantity of wheat sown vary very much. Most has been sown in Goudwarah, Manihari, the sudder thannah, and Raneegunge. The seed has germinated fairly in most parts except Raneegunge, where it is said one-third has failed. The soil is here very sandy; on the whole fourteen annas has germinated; the north-east part of the district, where it is scarcely ever sown, it has been put down this year but in no

Bhaugulpore Div.—(Concld.)			great quantity. The area cultivated with food-grains other than rice is probably half as much again as in ordinary years. Of this, if rain falls, a twelve-anna and, if none falls, a four-anna crop may be expected. The Collector does not consider that more than 100,000 acres have been sown with cold weather food-grains. Prices have fallen slightly since last week in the station, but in the interior rice is daily harder to get. It is brought to the hâts in very small quantities; most people now only take one meal a day. The Kosi crop has been exported both to the other districts and to the east of this. In Kusbah Amour and Kudbah the scarcity is beginning to be scarcely felt.
	37 Sonthal Pergunnahs, 6th Dec. 1873.	Nil	Getting colder; everywhere dew reported very scanty. In Deoghur the weather is normal. Nothing of importance is reported from Rajmehal sub-division. Cold weather crop short. In the Dumka Daman about half the aghanee or late rice has been cut; half is on the ground still, and a best authority, with whom the Deputy Commissioner quite agrees, says that the best half is still to cut. The cold weather crop will be little or nothing except the *kodo* and the bajra, which is very good,—both a much better crop than was expected and a much more valuable addition. Teel (oil-seed) and mustard very bad. Surgooja (oil-seed) worse a good deal than expected. The late Agrahain and Poush crop is a good deal better than hoped.
ORISSA.			
Orissa Division.	38 Cuttack, 9th* Dec. 1873	·28	Slight drizzling rain general but not sufficient to affect crops, prospects of which remain good. Public health good.
	39 Pooree, 29th Nov. „	·32	Cloudy and rainy. Slight rain continued to the 29th November. Nearly three-fourths portion of the loghu or second rice crop has been reaped with fair yield. Late rice crop ripening well and prospects are good. Average outturn expected. Cold weather crops growing and progressing, and will be improved by the light rain which has fallen and still continues, but heavy rain would seriously injure the ripening late rice as well as damage the promising cold weather crops. Purchases of rice for export to Calcutta and the south have commenced, and prices are consequently rising rapidly. Stocks good. Public health generally good. Fever continues to a small extent.
	40 Balasore, 6th Dec. „	·6	Cloudy and cold weather, drizzling rain. A good deal of paddy has already been cut, probably about eight annas. The present weather not considered favorable for cold weather crops at Jellasore and Babapal. Prices rising throughout the district. Bhudruck sub-division.—Harvesting of paddy crop continues; the crop in some places is thin, with the exception of Sosah and parts of Dhammigore; the outturn will be on the whole moderate. Price of coarse rice has risen to Rs. 1-9 per maund.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
	41 Hazareebaugh, 6th Dec. 1873.	Nil	Weather variable; sometimes overcast at other times clear and cold. No rain is reported to have fallen in any part of the district during the past week, notwithstanding the threatening aspect of the clouds. Crops much the same as last week; continued complaints of the want of rain from all parts are being received, and in addition to the fear from the drought, insects are reported to be injuring the young plants in the western portion of the district.
	42 Lohardugga, 6th „ „	Nil	The clouds reported in last week have all dispersed, and it has been bright and clear, but not so cold as usual at this season. About one-fourth of the low land rice crop still remains to be cut; the outturn generally is estimated at from ten to eleven annas. The crops to the west and south have been better than those to the east. In some parts the surgoojah (oil-seed) crop promises very well and in others very badly off, but on the whole there will be a fair crop. The latest reports from Palamow show that the rice crop is now being cut, and it is hoped that a six-anna crop generally may be obtained. The prospects of the cold weather crop are unfavorable; a very inconsiderable portion of land has been sown, and that sown urgently requires rain.
	43 Singbhoom, 29th Nov. 1873.	Nil	Cloudy since the last three days, giving promise of rain; days cool and pleasant, nights cold. Colehan.—The harvest in this portion of the district has now been almost entirely reaped. The uplands all round have given about half a crop, but the outturn from the low lands has been more or less good. The extent of upland cultivation in the Colehan, however, greatly predominates over the low land. In Seraikeyla, Porahat, and Kursewah, the greater part of the paddy has been already cut. In all these places the outturn taken all round will be, it is expected, from 8 to 10 annas; in some few places more, up to 12 annas. In Dhalbhoom also a good deal of the paddy has been cut; the outturn all round is expected to be from 8 to 10 annas; in some parts much less, 4 to 6 annas; whilst in some places it will be up to 12 annas. The cold weather crops in the Colehan have turned out very badly. The mustard and surgoojah (oil-seed) have been very great failures. The reports from Dhalbhoom and Seraikeyla also regarding the cold weather crops are very bad. The yield is not expected to be more than one-fourth. If rain falls now, it will do good to the grain crops.
	44 Maunbhoom, 6th Dec. „	Nil	Cloudy, with every appearance of coming rain, but no rain has fallen; mornings and evenings cold, with a little dew. The late rice has now been about half cut, and the outturn appears to be slightly better than was previously expected, probably a nine-anna crop all round may be housed. Sugarcane and koorthi (pulse) looking well in the western pergunnahs. Barley and potatoes are coming up well.

ASSAM AND ADJACENT HILLS			
45	Goalparah, 20th Nov. 1873	Nil	Cloudy, with cool breeze on the 27th and 29th November; the rest of the week clear, with strong north-easterly wind. No improvement in the state of the late rice crop. The harvest of the paddy in progress, but the outturn on the average is not likely to exceed seven annas. The ploughing of land for the cultivation of Assu or early crops is retarded for want of rain. The state of mustard and other cold weather crops also is not good.
46	Kamroop, 8th* Dec. „	Nil	Mornings raw and misty; days clear, with cool north-east wind; nights clear, with heavy dews. Late rice is being reaped, but owing to the want of rain a full outturn is not expected. Sugarcane and mustard crops progressing favorably. Public health good.
47	Durrung, 29th Nov. „	Nil	No rain. Daily range of temperature very high; strong north-east wind during the first half of the week; calm, cloudy, and threatening rain during the latter part. No change in the state of the crops since last week. Rice crop being reaped; certainly an eight-anna crop all round. Prices little affected as yet. A good deal of fever about.
48	Nowgong, „ „	Nil	Weather warm. Sky clouded over and every indication of approaching rain before full moon. The late rice crop has commenced to be cut and stored. The crop will on the whole be about an average one. Pulse crop poor. Mustard doing fairly. Tea operations nearly over for the season. Two or three cases of small-pox of a mild form.
49	Seebsaugor, „ „	Nil	The weather continues unchanged. The prospects of the rice crop continues the same as before. Harvesting has commenced, and should heavy rain fall, it will not do the rice crop any good, but rather injure it. Mustard is backward for want of rain.
50	Luckimpore, „ „	Nil	No rain during the week; weather much colder. Rain has been threatening for the last three days, but holds off. The late rice crop is being reaped; probable outturn will be about two-thirds of an average year. The crops in the North Luckimpore sub-division are excellent. The cold weather crops continue promising. Public health much the same as last week.
51	Naga Hills, 22nd Nov. 1873.	Nil	Weather delightfully cool and pleasant, although the midday sun is very fierce. The joom crops of the Rengmah Nagas have been cut and gathered in, and the outturn is said to be a very fair one indeed. The joom crops towards "Dwar Dissa" Mekir Hills are said to be as good as in the previous years if not better.
52	Khasi & Jynteah Hills, 29th Nov. 1873.	Nil	Bright sun in the early part of the week and cloudy for the last three days. The whole of the rice crop in the upper hills has been gathered. The people are now busy getting in their Job's tears or corn crop. Murwah—millet, is doing well. It would benefit by a little rain.
53	Garo Hills, 29th Nov. 1873.	Nil	Generally cloudy both night and day since 24th November, and chilly, but no rain has fallen. In the village of Rongdugiri, situated in the valley of the Kalu river, the outturn of both cotton and rice is said to be far below the average; in Cheparagiri the pods, though small, were still numerous. The paddy throughout the hills has been stored. No report of actual scarcity of food in any particular locality has been received. Vegetables seem unaffected by the drought, as large quantities are brought for sale, and those seen in cultivation, especially at Dalmagiri (on the Kalu river) seem thriving well. Price of rice is said to have fallen along the Mymensing and Garo Hills boundary. A greater quantity of rice has been brought to Tura by the inhabitants near the foot of the hills during the week.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

NOTIFICATION.

RELAXATION OF LAND IMPROVEMENT ADVANCE RULES.

IN continuation of notification of the 20th November 1873, it is notified that the relaxation of the above rules therein published will have effect in the districts of the Chota Nagpore Division as well as in the districts mentioned in that notification.

C. BERNARD,
Offg. Secy. to the Govt. of Bengal.

NOTICE.

PURCHASE OF RICE BY GOVERNMENT.

IT has been decided by the Government that 950,000 maunds of Government grain shall be provided in this country before the 31st January next for distribution to relief works in the distressed districts of Bengal. Of this amount it is the wish of Government that 400,000 maunds in all should be obtained from Calcutta and the eastern districts. About 160,000 maunds of rice have already been bought by Government; the Commissioner of Dacca is trying to arrange for 100,000 maunds in the eastern districts; and there remain about 150,000 maunds still to be provided; up to this amount the Lieutenant-Governor invites tenders for the supply of ballam, moonghee, kajla, common ballam, or other kinds of Bengal clean rice of fair quality, sound and fit to keep. Each tender to be in the form below, and to be delivered to Mr. G. Toynbee, No. 39, Strand, with samples, not later than 3 P.M. on Wednesday, the 17th December. Notice of accepted tenders will be given in writing by Mr. Toynbee at the above address at noon on Saturday, the 20th December.

Other things being equal, those tenders will be preferred which agree to deliver the grain at the earliest date.

FORM OF TENDER FOR SUPPLY OF RICE TO GOVERNMENT.

NAME AND ADDRESS OF FIRM OR PERSON TENDERING.	QUANTITY OF EACH KIND TENDERED FOR.		Quality or kind of Rice.	Price per bazaar maund.	Price of the whole amount tendered for, inclusive of bags.
	Bags.	Maunds.			

I make this tender subject to all the conditions published in the Government Notice of the 10th December 1873.

CALCUTTA,
The December 1873.

(Signature.)

CONDITIONS OF TENDER.

1. No tender will be accepted for less than 10,000 maunds; tenders above that amount must be in even thousands.

2. The rice must be delivered in well sewn bags of good quality before noon on Tuesday, the 7th January 1874, at the Howrah or Chitpore Station as Mr. Toynbee may direct; each bag must contain two bazaar maunds net.

3. The price per maund is to include cost of bags and delivery at the railway stations of Howrah, Chitpore and Sealdah.

4. Payment will be made by the Accountant-General on bills countersigned by Mr. Toynbee, on the completion of delivery of the whole amount of each accepted tender. For any portion of such amount not delivered by the latest date, specified in Condition 2, the Government shall be entitled to deduct 25 per cent. of the cost of such undelivered portion from the price of the portion already delivered, and to decide whether it shall take delivery of the overdue portion or not.

5. In case of any dispute as to the quality of any rice tendered for delivery, the Collector of Customs, Calcutta, shall decide whether or not the rice is according to sample; and his decision shall be binding both on Government and on the person tendering.

DECLARATION.

The 4th December 1873.—Whereas it appears to the Government of Bengal that the land, particulars of which are subjoined, is required for a public purpose, viz. the site for the police station of Kumarkhali, it is hereby declared that for the above purpose a plot of land measuring 1 beegah 19 cottahs is required.

The land is situated in the district of Nuddea, Pergunnah Rokunpur, Thannah Kumarkhali, village Elangi; it is bounded on the north by the dwelling-house of Bhagirath Patni; on the east by the Suradoha jola; on the south by the School Street; and on the west by the dwelling-house of Kanie Changa, and is known as the late Peshkar and Hori Lall Chowdhri Mooktar's lodging.

This Declaration is made, under Section 6 of Act X of 1870, to all whom it may concern.

A. MACKENZIE,
Junior Secy. to the Govt. of Bengal.

[Fourth Publication.]
NOTIFICATION.

Under the provisions of Section 2 of Act V (B. C.) of 1873, *the following plan for the future lighting of that area of the Town of Howrah which is at present lighted with gas is hereby published for general information by order of the Lieutenant-Governor of Bengal.*

PLAN.

1. The portion of the Town which is lighted is bounded as follows:—

On the North by Hurrogunge Road, on the South by Ramkistopore Ghaut Road, on the East by the River Hooghly, and on the West by the Grand Trunk Road. A map of this portion is herewith submitted, on which is shown in blue lines the streets which are lighted, and in red lines those which the Commissioners propose to light on receipt of His Honor's sanction.

2. The following are the names of the streets and the number of lamps in each at present lighted, as also the names of the streets proposed to be lighted and the number of lamps in each:—

Names of the Streets and the Number of Lamps in each at present lighted.

Grand Trunk Road	52	Brought forward	114
Ramkistopore Ghaut Road	7	Ghoosery Road	4
Telkul Ghaut Road	12	Golabaree Road	8
Avenue Road	7	Baptist Burial Ground Road	9
Church Road	5	New Street	1
Chandmarree Road	8	Ross Road	4
Tindal Garden Road	9	Seal's New Lane	2
Lall Diggee Road	4	Hurrogunge Road	12
King's Road	4	Howrah Road	44
Rosemarree Lane	3	Howrah Ghaut Road	3
Salt Gola Lane	3		
Carried over	114	Total	201

Names of the Streets and the Number of Lamps in each proposed to be lighted.

Khetter Mittey's Lane	10	Brought forward	33
Watkins' Lane	5	Mackenzie's Lane	2
Dobson's Lane	15	Ticcaparrah and Jelleaparrah Lane	4
Strand Road	3	Total	39
Carried over	33		

3. It will be observed from the map* that when the last named streets are lighted, *all* the public roads within the portion of the town described in para. 2 will be lighted; that is to say, all the highways which are vested in the Commissioners, and over which they have control.

* *Vide* note deposited in the Bengal Office.

4. The outlay in erecting the lamps at present lighted, numbering 201, was Rs. 10,628, and the estimated cost of erecting the 39 lamps, which are required to complete the lighted area, is Rs. 2,437-8.

5. The cost of erecting the existing lamps was met from general funds, and the Commissioners propose to pay for the erection of the extra lamps from the saving which will be effected in the allotment for lighting charges for the months of January, February, and March next. This of course is calculated on the principle that His Honor the Lieutenant-Governor will be pleased to authorize the Commissioners to levy the rate from the 4th quarter of the current year 1873-74, viz. January to March 1874, the Commissioners, on their part, undertaking that the extra lamps shall be ready for lighting from 1st January.

6. The cost of lighting the 240 lamps will be Rs. 24,000 per annum. To this cost the Commissioners are bound by the existing contract with the Gas Company from which they have no escape. The contract has still 18 years to run. To this is to be added a sum of Rs. 1,200 for contingent charges of repairs to lamps, making a total of Rs. 25,200 per annum.

7. The total valuation of buildings and lands situated within the area is Rs. 8,72,867. A rate of 3 per cent. on this valuation would yield Rs. 26,186 per annum, and if from this sum a deduction is made of, say, Rs. 486 on account of collection charges, there would remain a net income of Rs. 25,700, which would cover the expenses of lighting and maintaining the lamps within the portion of the town in which it is proposed to levy the rate for the present.

The following are the conditions of Sale :—

1. The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertized for sale shall remain unsold, the sale may, at the discretion of the Member in charge, be resumed on the next day following (not being Sunday or a public holiday) at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertized shall not be sold on the day appointed, the Member in charge may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Member in charge shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth Condition or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale book or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

11. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue. No. 1, certificate of the Opium advertized for sale; No. 2, report of the examination of such Opium.

16. The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1872-73, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

18. It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March, 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1874, there shall be delivered to them, at the average of the particular sale or sales

to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided however that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 45,000 chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in Opium, it is agreed between the high contracting parties that at each of the periodical sales of that article, there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christain Majesty, or by the persons duly appointed by them, the number of chests so supplied for provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agent of His Most Christain Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for Opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."—By order of the Member in charge.

Admission of Stock other than for competition.—By special permission of the Managing Committee, persons desirous of exhibiting horse stock (not intended to compete for prizes) will be permitted to do so on a payment of Rs. 16 per head, provided stabling can be found for them.

4. Intending Exhibitors must apply for stalls by post in an envelope addressed—

"To the Joint Secretaries,
Calcutta Horse Show, 1874."

so as to be received by them not later than the 15th December 1873. On receipt of such applications printed forms will be furnished to the Owners or Exhibitors, to be filled in by them and returned at once to the Joint Secretaries, who will then allot stalls or boxes for the horses described.

5. *Superintendent.*—A Superintendent and four European Assistants will be appointed by the Managing Committee to undertake the stable management of the Show-yard. It will be his duty to point out the stalls allotted to the Exhibitors, and to see that all orders issued by the Committee are thoroughly and promptly carried out.

6. *Date of receipt of Horses.*—Horses sent for exhibition will be received by a Veterinary Surgeon and the Superintendent of the Horse Show on Wednesday, the 7th of January 1874, any time before *noon* of that day.

7. *Health Certificate.*—A health certificate, signed by a Veterinary Surgeon, must accompany every horse when first brought to the Horse Show lines. The Veterinary Surgeon attending on the part of Government will also inspect each horse before being finally admitted.

8. *Grooms.*—Exhibitors are required to engage a reliable groom (syce) for each horse, and it is expected that either the attendant or a substitute will remain night and day at his post.

9. *Attention to Regulations.*—All attendants must conform to the rules and regulations issued by the Managing Committee; copies will be furnished to the Exhibitors, and will also be posted on the walls of the stables.

10. *Complaints.*—Complaints may be lodged at any time at the office of the Superintendent, either verbally or in writing, in a book to be kept for the purpose.

11. *Complaint Book.*—Persons able to read and write will have to enter their complaints in the book; minor complaints will be settled by the Superintendent on the spot; those of a more serious nature will be treated by the Managing Committee.

12. *Illness of Horses.*—In case of illness of any horse the Owner or Exhibitor must provide medical attendance.

13. All the horses will be daily inspected by a Veterinary Surgeon.

14. All possible care will be taken of horses exhibited, but the Superintendent cannot be held responsible for any injury or accident which may occur.

15. *Forage and Grain.*—Forage, grain, and water for the stock will be provided by the Exhibitors.

16. *Smoking prohibited.*—Smoking is strictly prohibited in the stables; particular attention is requested to this rule, which is considered imperatively necessary for the safety of the cattle.

17. *Stabling.*—A loose stall or box will be provided for each animal so exhibited.

18. *Location of Mares.*—Every lot of six mares will be stabled close to each other.

19. *Inspection by Judges.*—The Judges will inspect and examine horses entered for prize competition on Thursday 8th, Friday 9th, and Saturday 10th, of January 1874.

20. *Exclusion of Visitors during inspection by Judges.*—Under no circumstances will any person be permitted to be within the precincts of the premises at the time of inspection, except grooms (syces) who will be appointed by the Judges to bring up each horse for examination.

21. *Owners and Exhibitors similarly excluded.*—Owners and Exhibitors are debarred from the privilege of being present as much as the public generally.

22. *Horses how to be inspected.*—The horses will be brought up without clothing, so that they may not be recognized by any initials or distinctive marks.

23. *Judges how guided in arriving at decision.*—Exhibitors are informed that Judges in arriving at their decision will be guided by the following points:—

1*st.*—That under the terms of Military Department Government Notification of the 4th of February last, no prize will be given unless the horses exhibited come up to a high standard of excellence. Importers and competitors are informed that the Judges will be considerably guided by good measurement of girth and leg and blood, combined with power; animals wanting in such essential points will have no chance of obtaining a prize.

2*nd.*—The horses will be judged as to their merits under the several heads of:—

A. Soundness.
B. Blood and power.
C. General conformation.
D. Action.
E. Condition.

The maximum number of marks being 100.

3*rd.*—"*The best horse*" must be perfectly sound, but any serious blemish, the result of accident, will be weighed by the Judges.

4*th.*—Each mare of every lot must be sound for all working and brood purposes.

5*th.*—If any mis-information is furnished by an Exhibitor in respect of the animals owned or exhibited by him, the whole of his stock will be disqualified for prizes, and will be at once removed from the Show premises. Admission to the Show will be refused to any person coming within the terms of this rule.

6*th.*—The decision of Judges to be final.

24. *Judges' Report.*—The Judges' report of their inspection will be prepared and printed by Saturday evening, the 10th of January 1874, but will be confidential until read to His Excellency the Viceroy on the formal opening of the Show.

25. *Necessity of Exhibitors' servants attending to Rules.*—Particular attention must be given by all Exhibitors to the necessity of their servants carrying out all the rules which may be laid down for efficient sanitary arrangements.

26. *Fire Engine.*—A fire engine, and a party to work it, will be on the premises during the Exhibition.

27. *Police arrangements.*—The Commissioner of Police will arrange with the Managing Committee (Judges) for such number of Police as may be requisite for the protection of property and the preservation of order.

28. *Lights other than those supplied by Committee prohibited.*—Stable lanterns will be provided by the Committee and placed under the orders of the Superintendent. Other lights or lanterns or fire of any kind will not be permitted within the stabling.

29. *Removal of horses if attacked with disease.*—The Managing Committee are empowered, if they deem it necessary, to direct the removal of a horse attacked with any contagious disease.

30. *Removal of horses when prohibited.*—No horse brought for exhibition, even in the event of its having been sold, will be allowed to be removed until the Exhibition is closed.

31. *Final removal from Show.*—Horses must be removed the day following the closing of the Exhibition.

32. *Objections.*—Any objection to horses exhibited must be made and proved to the satisfaction of the Stewards the day before the prizes are awarded.

33. *Objection made after award of prize.*—Objections made after the award of prizes will not be attended to during the present Show, but will be recorded against future exhibition of the horses objected to.

34. *Onus of proving objection.*—The onus of proving an objection will be wholly entirely on the person making it. All objections must be made in writing.

Notice

Is hereby given that in consequence of the construction of the new road from Giridi on the Kachrarbari Branch of the East Indian Railway to Hazaribaugh, all goods can most conveniently be sent to Hazaribaugh by that route instead of by the railway to Barakar only. The undersigned therefore invites all Government officers, tradesmen and other gentlemen who may not be specially instructed to the contrary by their consignees, and who do not avail themselves of the Government parcel post, to send their consignments and goods to the care of the Station Master, Giridi

This request is made as the transport agency has been removed from the Barakar, and the route by Giridi is shorter and less expensive.

THE Advertisement under which the Meeting was held having been read, it was—

Resolved—"That the Resolutions passed at the Extraordinary General Meeting held on "the 22nd ultimo, be now confirmed, viz.—

"That the Articles of Association of the said Company be amended, by substituting the following Clauses in lieu of the existing Clauses No. XVIII and XXII, viz.—

"CLAUSE XVIII.—The Directors shall in every half-year out of the nett profits of the said Company, before any declaration of Dividend, set apart a percentage of not less than five per cent., and not more than ten per cent., on such nett profits, and place the sum so set apart to the credit of an Account in the Books of the Company, to be styled "The Wear and Tear Account." Such monies shall form a fund to cover all ordinary and extraordinary repairs and replacements of all plant and machinery, and for sinking and opening new pits and shafts, and mines to replace those existing on any portion of the property of the Company, and for making and maintaining proper ways, leads, and approaches thereto; and for improving the ways, leads, and approaches of any shafts or pits; and for otherwise improving the workings and means of communications of any of the Collieries of the said Company, provided always that when and so often as such Wear and Tear Account shall at the close of any half-year exhibit a balance of not less than Rs. 50,000 to credit thereof, the Directors shall not be bound to set apart any sum of money out of such nett profits, anything hereinbefore contained to the contrary notwithstanding.

"CLAUSE XXII.—The Company shall not be obliged to register the transferee under the Regulations mentioned above unless he be approved of by the Directors, nor so long as the transfer or is indebted to the Company, or is under any liability to or engagement with the Company which may eventuate in a debt."

"That the following additions be made to the Articles of Association, viz.—

"CLAUSE XXIIIA.—The Company shall have a lien upon the shares of each Shareholder, and upon the dividends due or accruing due thereon for the amount in which he may be indebted to them, and the said Company may, upon giving three months' notice of their intention so to do, proceed in default of payment to enforce such lien by the sale of the shares of such indebted and defaulting Shareholder, and many apply the sale proceeds thereof, and also the dividends due or accruing due on such shares, in payment or reduction of the debt of such Shareholder, without suit or other proceeding at law.

"CLAUSE XXIIIB.—In the event of any sale being effected under the last preceding clause of these Articles, the Directors shall, if they approve of the purchaser, register his name in the share register of the Company in the place of that of the indebted and defaulting Shareholder, and in respect of the shares purchased by such purchaser shall issue to such purchaser certificates in respect of such shares in cancelment and supersession of those held by the indebted and defaulting Shareholder and bearing the same number."

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Fifth Publication.]

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations, and was referred to a Select Committee who are to report thereon in a month.

A Bill to provide for the Voluntary Registration of Mahomedan Marriages and Divorces.

WHEREAS it is expedient to make provision for the voluntary registration of Mahomedan marriages and divorces within the provinces under the control of the Lieutenant-Governor of Bengal; and whereas it is expedient that Registrars of such marriages and divorces should be recognised and licensed by the Local Government, it is enacted as follows:—

1. It shall be lawful for the Lieutenant-Governor of Bengal to issue a license to any person being a Mahomedan, either by name or as holding any office for the time being, authorising him to act as Registrar of Mahomedan marriages and divorces.

2. Such licenses may be given on the recommendation of the Magistrate of the district, or in Calcutta, of the Commissioner of Police, to any member of any Mahomedan sect who can show that he is usually resorted to as a professional witness in such cases by his co-religionists, or that he has practised the duties of Kazi, and that he is well versed in Mahomedan law, provided always that satisfactory evidence is produced of his being a person of good moral character.

3. No Mahomedan marriage or divorce which would otherwise be valid shall be held to be invalid merely by reason of its not having been registered before a Registrar licensed under this Act.

4. Each licensed Registrar under this Act shall keep a Register Book in a form to be laid down by the Local Government in which he shall enter all marriages and divorces,—the parties to which shall desire to have them so registered. He shall also, if requested at the time, give an extract of any entry affecting them to either of the parties to such entry.

5. The entry of any marriage or divorce in the Register Book shall be signed by the Registrar, and signed, sealed, or marked by the persons married or divorced, and shall be attested by at least two credible witnesses who were present at the ceremony, and every such entry shall be made in order from the beginning to the end of the book, and any extract of any entry given to the parties shall be numbered to correspond with the number of the entry in the Register Book, and shall be authenticated by signature of the Registrar.

6. The Registrar shall keep safely the said Register Book until the same shall be filled, and shall then, or if he shall leave the district, make over the same to the District Registrar of Assurances for safe custody.

7. Any Registrar who shall discover any error to have been committed in the form or substance of any such entry may, within one month next after the discovery of such error, in the presence of the parties married, or divorced, or in case of their death or absence, in the presence of two other credible witnesses, who shall respectively

at least the same, correct the incorrect entry according to the truth of the case by entry in the margin without any alteration of the original entry, and shall sign the marginal entry, and add thereunto the day of the month and year when such correction shall be made, and shall if possible give or cause to be delivered a corrected copy of the extract to the parties to the original entry.

8. Every Registrar shall at all reasonable times, and on the payment of such fees as may be agreed upon, search or permit search to be made in any such Register Books, and shall give a copy under his hand of any entry or entries in the same.

9. Every certified extract of any entry in any Register Book purporting to be signed by the licensed Registrar, shall be received as evidence of the marriage or divorce purporting to be so entered or of the facts purporting to be so certified therein, without further proof of such Register Book or extract, unless and until the genuineness of such entry or extract or the truth of the facts set out in it be disproved.

10. Whoever shall wilfully destroy or injure or cause to be destroyed or injured any such Register Book or any part thereof, or any such authenticated extract as aforesaid, or shall wilfully insert or cause to be inserted any false entry in any such Register Book or authenticated extract, shall be punished with imprisonment of either description, as defined in the Indian Penal Code, for a term which may extend to seven years, and shall also be liable to fine.

11. It shall be lawful for the Lieutenant-Governor to draw up rules and prescribe forms for giving effect to the provisions of this Act, and to charge a fee not exceeding Rs. 2 for each license granted under the Act, provided always that no rule shall be laid down to interfere with the taking by any licensed Registrar from the parties to any marriage or divorce of any fee, which custom or his position may entitle him to demand.

STATEMENT OF OBJECTS AND REASONS.

The attention of the Government has for some time past been drawn to the increasing number of offences against marriage shown in the criminal returns, especially in the eastern and Mahomedan districts. The remarkably small number of convictions obtained in such cases taken together with their increasing numbers, seemed to indicate the existence of a grievance which the Criminal Courts are at present unable to redress. Inquiry has proved that this is in fact the case. The loose notions regarding the marriage tie prevalent among the lower orders of Mahomedans lead to the frequent institution of criminal charges, while the absence of any authorized system of registration of marriage and divorce (since the office of Kazi ceased to be recognized by law) makes it difficult to furnish the amount of proof which the Criminal Courts require to warrant their taking action.

It appears to the Government that the legal recognition of an authorized system of registering Mahomedan marriages and divorces will go far to supply the existing want, and this Bill provides such a system. The Registrar will, as regards such registration, take the place which was filled by the old Kazis, and certified copies of extracts from his register are made *primâ facie* proof of the facts recited therein. But the registration of marriages and divorces is left optional with the parties concerned, and all questions of remuneration are left to be settled between the Registrar and the parties who avail themselves of his services.

[First Publication.]

THE following Bill, as settled by the Council of the Lieutenant-Governor of Bengal on the 13th December 1873, is, by orders of the President, published for general information :—

A Bill to amend the law relating to the emigration of laborers to the districts of Assam, Cachar, and Sylhet, and to regulate contract labor and service.

Preamble.

WHEREAS it is expedient to amend the law regulating the emigration of native inhabitants of India from or through the provinces subject to the Government of Bengal to the districts of Assam, Cachar, and Sylhet, and the manner of engaging and contracting with native inhabitants of the said provinces to proceed to the said districts, and providing for the protection of the persons so proceeding, and for the enforcement of the contracts of service entered into by them; It is hereby enacted as follows :—

PART I.—PRELIMINARY.

Chapter I.—Application and Miscellaneous.

Short title.

1. This Act may be called "The Labor Districts Emigration Act."

Repeal of Act II of 1870.

2. Bengal Act II of 1870 (*to consolidate and amend the law relating to the transport of laborers to the districts of Assam, Cachar, and Sylhet, and their employment therein*) is hereby repealed. All contracts entered into, appointments made, and licenses granted, under the said Act, or any of the Acts thereby repealed, shall be deemed to have been respectively entered into, made, and granted under this Act.

Interpretation clause.

3. In this Act, unless there be something repugnant in the subject or context—

India.

"India" means the territories for the time being vested in Her Majesty by the Statute 21 and 22 Vic., cap. 106, entitled "*An Act for the better government of India,*" other than the settlement of Prince of Wales' Island, Singapore, and Malacca.

Labor Districts.

"The Labor Districts" means the districts of Assam, Cachar, and Sylhet, and "a labor district" means one of those districts.

Magistrate.

"Magistrate" includes a magistrate of a district or of a division of a district, and any magistrate of the first and second class, and any magistrate of police for the town of Calcutta.

Employer.

"Employer" means the chief person for the time being in charge of any lands upon which laborers may be employed.

"Garden Sirdar" means any person authorized by certificate by an employer to engage natives of India to proceed to a labor district under a contract to be made and executed according to the provisions of this Act.

Garden Sirdar.

"Recruiter" means any person licensed under the provisions of this Act as a recruiter.

Recruiter.

"Contractor" means any person licensed under the provisions of this Act as a contractor.

Contractor.

"Emigrant" means any native of India above the age of sixteen years who has engaged with any garden-sirdar or recruiter or any other person to proceed to a labor district for the purpose of laboring men for hire.

Emigrant.

"Laborer" means any emigrant who has been conveyed to a labor district in accordance with a contract made under the provisions of Bengal Act III of 1863, Bengal Act VI of 1865, Bengal Act II of 1870, or this Act, during the duration of such contract.

Laborer.

"Vessel" includes a steamer, a flat, a boat, and anything made for the conveyance by water of human beings or property.

Vessel.

"Master" means the person for the time being in charge of a vessel.

Master.

4. The Lieutenant-Governor may from time to time make rules consistent with this Act, and from time to time alter, vary, and revoke such rules:—

Power of the Lieutenant-Governor to make rules.

(1)—To regulate the subordination of the several officers of emigration to the superintendent.

(2)—To prescribe the periodical returns and reports to be made by the emigration officers, by magistrates, and by the inspectors of laborers.

(3)—To prescribe the amount of the several fees to be paid under the provisions of this Act.

(4)—To provide for the management and regulation of contractors' depôts and of hospital depôts.

(5)—To provide for the medical care of emigrants during their residence at the depôts, and during transport to a labor district.

(6)—To prescribe the nature, quality, and quantity of medical drugs and other stores to be carried on vessels taking emigrants.

(7)—To prescribe the clothing to be supplied to emigrants while proceeding to a labor district.

(8)—To prescribe the description, quantity, and quality of provisions to be taken by vessels carrying emigrants, and the daily allowance to be issued to each emigrant during the journey.

(9)—To provide for the ventilation and cleanliness of vessels during the journey, to prescribe the number of officers, cooks, and other servants, and to provide for their control; and to provide generally for the accommodation of emigrants.

(10)—To provide for the accommodation, support, and medical treatment of all emigrants detained at any place by order of a magistrate on account of sickness.

(11)—To provide for the periodical inspection of laborers, and the books to be kept by inspectors of laborers.

(12)—To provide for the house accommodation, water-supply, sanitary arrangements, and supply of rice to be provided by employers for their laborers.

(13)—To provide for the hospital accommodation and medical care of laborers, and to prescribe the nature, quality, and quantity of medical drugs and other stores to be provided for them.

The Lieutenant-Governor may from time to time fix penalties not inconsistent with any of the provisions of this Act for infringements of any such rules, which may be enforced and recovered as other penalties under this Act on conviction by a magistrate: Provided that no penalty shall exceed five hundred rupees.

All such rules, with the penalties (if any) for their infringement, shall be published in the *Calcutta Gazette*, and shall be separately printed and sold to the public at 4 annas for each copy.

5. Every contract made with an emigrant, and all arrears of wages due under any such contract, and all fines imposed on any employer under the provisions of this Act, shall be a charge upon the lands upon which such laborer has been engaged to work.

Contract made with emigrant is a charge upon the land;

The owner of such lands for the time being shall have all rights and remedies against such laborer, as if such owner had been originally the party executing such contract as employer.

and is transferred with the land.

No person, after he has ceased to be the owner of such lands, nor his property nor effects, shall be in anywise liable or responsible for any breach of such contract which may have occurred after he has ceased to be such owner.

Determination of ownership determines liability.

6. Any engagement or contract made under the provisions of this Act by a native of India, who is above the age of sixteen years, shall be held valid.

Any person above the age of 16 years may contract.

7. No contract to labor in the Labor Districts for more than one year shall be binding upon an emigrant, unless it is made in accordance with this Act; and no emigrant shall be bound to fulfil any contract of labor upon any estate or portion of an estate which has been declared unfit for the residence of laborers under the provisions of Sections 118 and 119.

No contract binding for more than one year, unless under the Act.

No contract binding where estate declared unfit for residence.

8. For every offence against the provisions of this Act, for which no special penalty or amount of fine is prescribed, the offender shall on conviction by a magistrate be punished with a fine not exceeding two hundred rupees. Wherever in this Act no special term of imprisonment is appointed in default of payment of the fine, the offender shall be liable to imprisonment, simple or rigorous, for a term not exceeding one month.

Penalty for any offence not especially provided for.

9. All offences against this Act committed without the town of Calcutta shall be inquired into and tried according to the provisions of the Code of Criminal Procedure, and all offences against this Act committed within the said town shall be inquired into and tried by a police magistrate of the said town according to the provisions of the laws regulating the investigation and trial of offences within the said town, which shall be for the time being in force.

Procedure on trial of offences created by Act.

Agent in Calcutta may procure order from superintendent of emigration cancelling the contract on payment of expense of return.

31. On the arrival in Calcutta of any emigrant whose contract has been executed by a garden-sirdar on behalf of his employer, any person empowered to act as the agent or representative of such employer may require the emigrant to appear before the superintendent of emigration for the purpose of cancelling the contract. The superintendent of emigration shall, on the appearance of such emigrant, declare that the contract is cancelled, if a sum of money sufficient for his support during his return to the place at which he was engaged, be paid to him before himself, and not otherwise, and shall make an endorsement to that effect on the contract, and shall attest it with his signature. Provided that the contract of any husband or wife or parent or child of such emigrant, who may have executed a contract at the same time with the same employer, shall be cancelled at the request of such person, and in such case an equal sum of money shall be paid to such person.

Must report arrival in labor district.

32. As soon as possible after the arrival of the garden-sirdar with emigrants at the place of disembarkation, or at the nearest civil station in the district within which the emigrant has engaged to labor, the garden-sirdar shall report himself to the magistrate of the district or division of the district or to any subordinate magistrate whom the magistrate may depute for that purpose, and such magistrate shall check the number of emigrants landed with the number of those registered, and shall report to the superintendent of emigration any deaths which may have occurred on the journey. Any garden-sirdar who neglects to report himself as aforesaid shall on conviction by a magistrate be punished with imprisonment, simple or rigorous, which may extend to three months.

Chapter 4.—Contractor.

Form of license.

33. The license granted to a contractor under section 14 shall be in the form set forth in the schedule (C) annexed to this Act. For every license there shall be paid to the superintendent of emigration a fee not exceeding one hundred rupees. Every such license shall be in force for one year and no longer; and in case of misconduct or disobedience to, or neglect of, any of the provisions of this Act by a contractor, the superintendent may cancel his license before the expiration of such period.

Fee.

Period.

To give information to superintendent.

34. It shall be the duty of every contractor to afford such information to the superintendent of emigration, and to make such returns and reports to him as the superintendent, with the sanction of the Lieutenant-Governor, may from time to time require.

To establish and maintain depôts.

35. Every contractor shall forthwith, upon obtaining his license, establish a depôt in a place to be approved of by the superintendent of emigration. Every such depôt shall be maintained by such contractor for the reception of natives of India to be supplied or forwarded by or through him. All such natives shall on their arrival at or in the neighbourhood of the depôt so established by the contractor, by, through, to, or for whom they were engaged or forwarded, be forthwith received therein; and shall receive in such depôt, at the expense of such contractor, suitable lodging, food, clothing, and medical attendance, until such native shall be declared by the superintendent to be no longer thereto entitled. Every such depôt as aforesaid shall be under the supervision of the superintendent, and shall be open to his inspection and the inspection of the medical inspector at all times.

May act as recruiter.

36. A contractor may without other license act as a recruiter, and shall in such case be subject to all the provisions hereinafter contained with regard to recruiters.

Establishment of hospital depôt.

37. In addition to the depôts for the reception of emigrants which the contractors are required to establish and maintain, the Lieutenant-Governor may at any time direct that a separate depôt shall be established and maintained at any place for the reception of emigrants who are affected with cholera or other contagious disease. Whenever such hospital depôt is established, every contractor may be required to contribute to the expense of establishing and maintaining it in such proportion as the Lieutenant-Governor may direct. Such hospital depôt shall be under the charge of the medical inspector, who shall be competent at any time to direct the transfer thereto of any emigrants on or after their arrival at any depôt.

Contractor to contribute to expense.

Under charge of medical inspector.

Chapter 5.—Recruiter.

Form of license.

38. The license granted to a recruiter under section 14 shall be in the form set forth in schedule (D) annexed to this Act. For every license there shall be paid to the superintendent of emigration a fee not exceeding sixteen rupees. Every such license shall be in force for one year and no longer; and in case of misconduct or disobedience to, or neglect of, any of the provisions of this Act by a recruiter, the superintendent may cancel his license before the expiration of such period.

Fee.

Period.

Recruiter must hold a pass.

39. Every recruiter shall hold a written pass signed by the contractor on whose behalf he is licensed to act.

No authority till license is countersigned by magistrate of recruiting district.

40. A recruiter shall not have authority in any district under the control of the Lieutenant-Governor of Bengal to engage or attempt to engage a native of India to become an emigrant until his license has been countersigned by the magistrate of the district, or of the division of the district, or in Calcutta, until his license has been countersigned by the commissioner or the deputy commissioner of police in Calcutta; and such magistrate or commissioner or deputy commissioner of police shall, unless it appears to him that the person to whom a license has been granted is unfit to be employed as a recruiter, countersign such license.

Magistrate may withdraw license and suspend recruiting.

The magistrate or commissioner or deputy commissioner of police may at any time for any sufficient reason withdraw such license, provided that in any such case he shall record his reasons in writing, and shall forward a copy thereof without delay to the superintendent of emigration.

Recruiter to provide accommodation for natives before license is countersigned.

41. The magistrate or the commissioner or deputy commissioner of police in Calcutta, to whom any recruiter's license shall have been exhibited for countersignature, shall not countersign the same until he shall be satisfied that sufficient accommodation has been provided and is available for such natives of India as may be engaged by such recruiter pending their removal to a depôt.

Magistrate charged with superintendence of accommodation.

The magistrate of the district, or division of the district, in which there may be any such accommodation provided, shall have, for the supervision, management, and regulation of such accommodation, all such and the same powers and authorities as are vested in the superintendent of emigration for the supervision, management, and regulation of depôts which are subject to the powers and authority of the superintendent.

Native to be taken for examination to medical officer, who may reject.

42. Every native of India who shall, in any place or town within the said provinces, enter into any engagement with any recruiter to proceed to a labor district, for the purpose of laboring for hire, shall be brought by such recruiter before such medical officer as the Lieutenant-Governor may from time to time appoint to examine such natives within such place or town; or, if no such officer has been appointed, before such medical officer as the magistrate may direct. The medical officer shall thereupon examine the native brought by the recruiter, and shall reject him or shall certify in writing that he is in a fit state of health and able, in point of physical condition, to journey to and work for hire in a labor district.

If certified to be fit, native to be taken to magistrate.

43. Every such native who is certified by the medical officer, as required in the last preceding section, to be fit to emigrate to a labor district, shall thereupon appear with the recruiter before the magistrate of the district or division of the district within which the place or town where the engagement was entered into is situate. The recruiter shall at the same time produce his license to the magistrate.

Magistrate to examine native respecting the engagement.

On the appearance of such native the magistrate, after inspecting the medical certificate, shall examine him with reference to his engagement, and if it appears that he understands such engagement as regards the locality, period, and nature of the service, the rate of wages, and the price at which rice is to be supplied, and that he is willing to fulfil the same, the magistrate shall register in a book to be kept for the purpose—

If satisfied, magistrate will register certain particulars

(1.) The name, the name of the father, and the age of such native;

(2.) The name of the village or place of which such native is a resident;

(3.) The contractor's depôt to which it is intended that he shall proceed;

(4.) The labor district to which he is engaged to proceed;

(5.) The period of service;

(6.) The rate of wages, and the price at which rice is to be supplied.

If dissatisfied, will reject.

If the magistrate thinks that such native does not understand the nature of the engagement, or has been induced to enter into the engagement by fraud or misrepresentation, or if the recruiter shall not have produced his license, he shall refuse to register such native.

Copy of registration to be given to emigrant.

44. A certified copy of his registration, written on substantial paper, shall be furnished by the magistrate to each emigrant.

Copy of registration and medical certificate to be sent to superintendent.

45. A certified copy of every such registration and the original certificate of the medical officer shall be forthwith forwarded by the magistrate to the superintendent of emigration.

Fee for registration.

46. For the registration of every such native the recruiter shall pay to the registering officer a fee not exceeding one rupee and eight annas.

Similar provisions for natives recruited in Calcutta.

47. The provisions of the five preceding sections shall be applicable to all natives of India engaged by recruiters within the town of Calcutta, except that they shall be brought for registration before the superintendent of emigration therein.

Natives recruited in districts not in Bengal.

48. Every native of India who shall be brought or induced to come by any recruiter from any province or district not under the control of the Lieutenant-Governor of Bengal, for the purpose of entering into a contract in a district under such control, shall be presented by the recruiter for medical examination and registry under the provisions of this chapter at some place within the district under the control of the Lieutenant-Governor, into which he shall first come, or at Calcutta, if he shall first come there.

Penalty for forwarding natives without registration.

49. Every recruiter, who forwards or accompanies any native of India from the district or division of the district within which the place or town where he has been recruited is situate, or into which, under the last preceding section, he has first come, or who induces any such native to leave such district or division of district for the purpose of proceeding to a labor district, without being duly registered as above required; or who forwards, accompanies, or induces any such native to proceed to any depôt other than the depôt registered under section 35, shall, on conviction by a magistrate, be punished in respect of every such native so forwarded, accompanied, or induced, with a fine which may extend to fifty rupees, or with imprisonment, simple or rigorous, for a term which may extend to one month.

Recruiter must accompany emigrants to depôt, or depute person approved by magistrate.

50. All emigrants proceeding to a depôt shall be accompanied throughout the journey by the recruiter himself, or by a competent person appointed by him with the approval of the magistrate, by whom such

emigrants have been registered. The magistrate shall give to the person so appointed a certificate under his signature stating that he has been appointed for the journey to the depôt.

Recruiter must provide food and lodging for emigrants on journey.

51. Every recruiter, by whom any emigrant is forwarded or accompanied to a depôt, shall, throughout the journey, provide such emigrant with proper and sufficient food and lodging. If it shall appear to a magistrate, on the complaint of any such emigrant at any place on the journey, that the recruiter has failed to provide him with proper and sufficient food and lodging at such place, such recruiter shall, on conviction by such magistrate, be punished with fine which may extend to fifty rupees. The whole or any portion of such fine may be awarded to such emigrant as compensation. If the fine be not paid within twenty-four hours, the recruiter shall be punished with imprisonment, simple or rigorous, which may extend to one month.

Chapter 6.—Depôt.

Contractor to report arrival of emigrants.

52. Within twenty-four hours after the arrival at any depôt of any emigrant, the contractor by whom such depôt is maintained shall give to the superintendent of emigration a notice in writing of such arrival, which notice shall be in such form and shall contain such particulars as the superintendent shall prescribe.

Emigrants to be inspected by medical inspector immediately on arrival.

53. The copy of the registration and the medical certificate of every emigrant received by the superintendent as provided in section 45 shall be shown to the medical inspector; and all emigrants shall be inspected by the medical inspector at the depôt. If he be satisfied that an emigrant is in a fit state of health, and able in point of physical condition to journey to and labor in a labor district, he shall countersign the copy of the registration; if he be not satisfied thereof, he shall give a certificate to that effect to the superintendent.

Medical inspector to examine emigrant if medical certificate not given.

The medical inspector shall examine any emigrant in regard to whom a medical certificate is not forthcoming, and shall certify whether such emigrant is in his opinion in a fit state of health and able in point of physical condition to journey to and work for hire in a labor district; and if satisfied of his fitness, he shall countersign the copy of the registration.

Emigrant rejected by medical inspector to be sent back.

54. If the medical inspector shall certify that any emigrant so examined is in such a state of health that his journey to a labor district would be dangerous to himself or to others, or that he is unfit for labor in a labor district, the superintendent may order the contractor, or the garden-sirdar, if such emigrant has been forwarded or brought to the depôt by a garden-sirdar, to pay to him a sum of money sufficient to enable him to return to the place at which he was engaged. Provided that any such person, who from his state of health is, in the opinion of the medical inspector, unfit to undertake the journey back to the place where he was engaged, shall, until he is reported by the medical inspector fit to undertake such journey, be fed, clothed, lodged, and medically attended at the expense of such contractor, or of such garden-sirdar, as the case may be. If such contractor or garden-sirdar negligently or wilfully omits to provide food, clothing, lodging and medical attendance for such person, the superintendent may order such contractor or garden-sirdar to pay to him a sum of money by way of compensation.

Family of detained emigrant may remain with him.

55. Whenever an emigrant remains behind or is detained under the provisions of the last preceding section, it shall be optional with the wife or husband of such emigrant, as the case may be, to remain with the emigrant so remaining behind or detained. If there are any children, they shall also be allowed to remain behind with the father or mother.

Emigrant ill-treated during journey may obtain compensation.

56. If upon the arrival of any emigrant at the depôt, it shall appear to the superintendent of emigration on the complaint of such emigrant, that he has suffered any ill-treatment on the journey, or that the recruiter or garden-sirdar, as the case may be, has failed to provide him with proper and sufficient food and lodging, the superintendent may cause him to be removed from the depôt, and may order the contractor or garden-sirdar, for or by whom he shall have been taken to such depôt, to pay to him a sum of money by way of compensation, or sufficient to enable him to return to the place at which he was engaged, and in such latter case he shall not be bound to execute any contract.

Contract to be explained by superintendent and executed in duplicate, and abstract to be entered in book to be kept by superintendent.

57. Every emigrant, who is passed by the medical inspector as in a fit state of health and able, in point of physical condition, to journey to and labor in a labor district, shall execute a contract with the employer with whom he intends to contract before he is forwarded from the depôt. Such contract shall, in the presence of the superintendent of emigration, be signed in duplicate both by the emigrant and by the employer with whom he intends to contract or his agent. The contract may be written or printed, or partly written and partly printed, and shall be on substantial paper. Before the emigrant signs the contract, the superintendent shall personally explain it to him, and shall attest such contract and certify at the foot thereof that he has personally explained the same. An abstract of every such contract shall be entered in a register to be kept by the superintendent for the purpose, and after such contract has been so entered, one of the duplicates shall be given to the emigrant, and the other to the person with whom he has contracted or his agent.

The superintendent shall, within seven days after the entry of such abstract, send by post a certified copy of every such abstract to the magistrate of the district in which the service under such contract is agreed to be performed.

Penalty on emigrant refusing to execute contract.

58. Any emigrant who, without reasonable cause, refuses to execute such contract in conformity with the engagement previously registered shall, on conviction by a magistrate, be punished with a fine equal in amount to the entire cost incurred by, or on behalf of, the contractor, or the

garden-sirdar, as the case may be, in engaging, registering, and bringing or forwarding him to the depôt, and shall forthwith be discharged from such depôt. Every fine levied under the provisions of this section shall be paid to the contractor or garden-sirdar on whose behalf or by whom the person from whom such fine shall have been levied was originally registered.

Penalty on contractor failing to provide contract.

59. If within thirty days after the arrival of any emigrant at a depôt, the contractor or, if he has been engaged by a garden-sirdar, the garden-sirdar on whose behalf or by whom such emigrant has been registered, shall not tender to him for execution such contract as under the provisions of the preceding sections he would be bound to execute, the superintendent may order the contractor or the garden-sirdar, as the case may be, to pay to him a sum of money sufficient to enable him to return to the place where he was engaged, and in such case such emigrant shall not be bound to execute any contract.

Money ordered to be paid by superintendent may be advanced by him and recovered.

60. If any contractor or garden-sirdar who may be ordered, under the provisions of sections 54, 56, and 59, to pay any sum of money, shall for twenty-four hours omit to comply with such order, it shall be lawful for the superintendent to advance the amount so ordered to be paid to the person named in such order, and to recover from such contractor or garden-sirdar or his employer the sum so advanced, with interest at the rate of twelve per centum per annum from the date of such advance.

Chapter 7.—Transport.

Emigrant to be forwarded to labor district with permission of superintendent.

61. When the contract of any emigrant has been executed under the provisions of this Act he may, with the permission of the superintendent of emigration, be forwarded to the labor district in which he has engaged to labor by the contractor in whose depôt he is residing, or by the employer with whom he has made the contract or his agent.

To be furnished with a pass.

Every such emigrant shall be furnished with a pass in the form set forth in schedule (E) annexed to this Act, signed by the contractor or garden-sirdar, as the case may be, and countersigned by the superintendent of emigration and by the embarkation agent at the place at which the laborer embarks, specifying his name and age, the name of his father, the place of his destination, and the name of his employer. Every such pass shall be entered in a book to be kept by the embarkation agent, and shall be dated and numbered in a consecutive series.

Vessel must be licensed to carry emigrants.

62. It shall not be lawful for the master of any vessel, without a license granted by the embarkation agent within the local limits of whose authority any emigrant may embark, to convey more than twenty emigrants at any one time to or towards any labor district.

Fee for license.

A fee not exceeding four annas for every emigrant shall be paid for every such license, and it shall be in the discretion of the embarkation agent to whom application is made to grant or withhold any such license. Such license shall be in force for only one voyage to one or more of the labor districts, and shall specify the number of emigrants which the vessel is licensed to carry and the number of persons (including the crew) other than emigrants whom such vessel is licensed to carry.

Penalty for carrying without license.

The master of any vessel, in which at one time more than twenty emigrants are conveyed without a license having been obtained as aforesaid, shall, on conviction by a magistrate, be punished with fine.

Penalty for delay in despatching vessel.

63. Such license shall state the date on which the vessel shall leave the place at which the emigrants are to embark. If the vessel does not leave such place and proceed on its voyage within 24 hours of the day fixed, the master thereof shall, on conviction by a magistrate, be punished with fine for each day during which the vessel remains at or within five miles of the place of embarkation. Provided that such penalty shall not be incurred if the delay is caused by or with the sanction of the embarkation agent or by any casualty incidental to or attending navigation, or is due to other reasonable and sufficient cause.

Fraudulent alteration of vessel after grant of certificate.

64. If the master of any vessel, after having obtained a license as aforesaid, fraudulently does or suffers to be done any act or thing whereby the state of the vessel is altered, so that such vessel is unfit for the accommodation of the number of emigrants mentioned in such license, such master shall, on conviction by a magistrate, be punished with fine.

Penalty for receiving on board more passengers than number specified in license.

65. The master of any vessel licensed to carry emigrants, who receives on board his vessel a greater number of emigrants or other persons than the number specified in his license shall, on conviction by a magistrate, be punished with a fine for every emigrant or other person so received in excess of the licensed number.

Two children under ten to be counted as one person.

66. In computing under this Act the number of persons on board of any vessel, two children under the age of ten years shall be reckoned as one person only.

Master not to embark emigrants, on vessel carrying more than 20 emigrants, without a pass.

67. It shall not be lawful for the master of any vessel, whether licensed or not, to embark any emigrants on board his vessel for conveyance to, or towards a labor district, if the total number of persons to be carried by such vessel (exclusive of the crew, and of any garden sirdar or other person accompanying the emigrants,) exceeds twenty, unless the emigrants are furnished with a pass by the embarkation agent in the form set out in Schedule (E) of this Act.

Punishment.

The master shall, on conviction by a magistrate, be punished with a fine not exceeding ten rupees for every emigrant illegally taken on board.

No pass without certificate of medical inspector.

The embarkation agent shall not grant any such pass without a certificate from the medical inspector that such emigrants may be allowed to embark without danger to the health of other persons on board the vessel.

Embarkation agent to furnish the master with a list of emigrants on board.

68. The master of a licensed vessel carrying emigrants shall not proceed on the voyage towards a labor district until he has received from the embarkation agent a list of all the emigrants on board.

List shall contain all the particulars noted in the pass of each such emigrant; but if all the emigrants whose names are entered in any one pass embark on board the same vessel, it shall be sufficient if the number and date of such pass are noted in the list. The embarkation agent and the master of the vessel shall together personally ascertain that the number of emigrants on board corresponds with the number entered in such list.

List shall to contain.

To be compared with emigrants by agent and master.

If the master of such vessel allows any emigrant not entered in such list to proceed in the vessel, he shall, on conviction by a magistrate, be punished with fine.

Penalty for admitting emigrants not in list.

The embarkation agent shall send a copy of the said list or an extract from it to the magistrate of the labor district to which any of the emigrants are proceeding.

Copy of list to be sent to magistrate.

69. There shall be laden under the supervision of the embarkation agent on board of any licensed vessel carrying emigrants to or towards any labor district, at the time of the embarkation of such emigrants, such supplies of provisions, clothing, medical drugs, and other stores, and such medical and other officers, and such cooks and other attendants, as may be required under the rules made by the Lieutenant-Governor under the authority of this Act.

Provisions, medical and other stores, medical officers, cooks, &c.

The master of any such vessel who shall commence the voyage without having on board such supplies of provisions, clothing, medical drugs, and other stores, and such medical and other officers, and such cooks and other attendants, as may be required as aforesaid, shall, on conviction by a magistrate, be punished with imprisonment, simple or rigorous, for a term which may extend to three months, or with fine which may extend to five hundred rupees.

Penalty if master proceeds without.

70. No vessel carrying two hundred emigrants shall be allowed to proceed on the voyage unless a medical officer, who is a licentiate in medicine, or who is declared to be qualified for such charge by order of the Lieutenant-Governor, has been appointed to the charge of such emigrants. And any master who shall commence the voyage without having on board such medical officer as aforesaid shall, on conviction by a magistrate, be punished with fine not exceeding five hundred rupees, and, in default of payment, imprisonment for a term not exceeding three months.

Vessel carrying 200 emigrants must carry a qualified medical officer.

71. If the master of any licensed vessel carrying emigrants shall, save as hereinafter is provided, cause or permit any emigrant, whose contract has been executed under the provisions of this Act, finally to leave such vessel at any place other than that named as the destination of such emigrant in his pass, such master shall, on conviction by a magistrate, be punished with fine for each such offence. Provided always that this section shall not be deemed to prevent the master of any vessel from permitting emigrants to disembark at any place or places on the voyage so long as such disembarkation is not intended or known to be likely to be final; nor to prevent the final disembarkation of any emigrants in case of accident or other unavoidable necessity, if such accident or necessity be forthwith reported to the embarkation agent by whom the license of such vessel was granted, and to the nearest magistrate in the district within which such accident may occur or necessity arise.

Emigrant not allowed finally to leave vessel at any place other than that mentioned in pass.

72. Every licensed vessel carrying emigrants shall stop at every place in which a magistrate is stationed, intermediate between the places of embarkation and disembarkation of such emigrants, and shall remain during not less than six hours of daylight. The master of every such vessel shall immediately on arrival report to the magistrate, or such officer as may have been deputed by the magistrate in that behalf under the provisions of section 89, the number of emigrants on board, the general state of their health, and the number of deaths (if any) which have occurred among the persons who embarked on such vessel.

Master to report arrival of emigrants at every intermediate station where there is a magistrate.

Any master who wilfully omits to comply with the provisions of this section shall on conviction be punished with fine.

73. A magistrate may at any time go on board of any licensed vessel carrying emigrants while within the limits of his jurisdiction, and may inspect the vessel, the emigrants, and all persons on board. The master and officers of such vessel shall be bound to afford to such magistrate all reasonable facility for such inspection, and to give him all such information respecting the emigrants or other persons on board as may be reasonably required, and respecting any deaths which may have occurred on board, and respecting any other facts which may affect the health of the emigrants.

Magistrate may at any time inspect vessel.

Master bound to give all information required.

Any master or other officer, who wilfully omits to give any such information to such magistrate, shall on conviction be punished with fine.

Penalty for omission.

74. On the arrival of any licensed vessel, or at any time while it is within the limits of his jurisdiction, the magistrate may regulate the communication between such vessel and the land, and may prohibit all persons from leaving the vessel and all persons on land from proceeding on board. And any person not complying with any order made under this section shall on conviction be punished with fine.

Magistrate may regulate communication between vessel and land.

75. A magistrate may, if he has reason to believe that any emigrants on board any licensed vessel within the limits of his jurisdiction are or are likely to be affected with any infectious or contagious disease, detain such vessel, and require the civil medical officer of the district or other qualified medical officer to inspect the emigrants on board such vessel, and to report on their health, and whether any or what measures are requisite for the removal or prevention of such disease. After the submission of such report the magistrate may detain the vessel for a further period not exceeding five days for the purpose of carrying out such measures, if any, recommended by the medical officer in his report, and he may further detain at such station for medical treatment any emigrant who is affected with any infectious or contagious disease.

Magistrate may detain vessel for inspection and for removal of disease, and may detain sick emigrants.

Magistrate may detain sick emigrants,

76. If it appears to a magistrate expedient that any emigrant, whose contract has been executed under the provisions of this Act, should not be allowed to proceed towards a labor district, in consequence of ill health, he may order the detention of such emigrant; and in such case he shall cause all necessary arrangements to be made for the accommodation, support, and medical treatment of such emigrant.

and shall arrange for their accommodation and treatment.

Expenses how to be recovered.

77. All expenses incurred under Section 76 by a magistrate or other officer deputed by him under the provisions of section 89, in respect of any emigrant so detained, shall, with interest at six per centum per annum, be recoverable by him from the contractor by whom the emigrant has been engaged or forwarded; or in the case of an emigrant engaged by a garden-sirdar, from the employer from whom such garden-sirdar received his certificate.

Detention of emigrants having infectious diseases.

78. If it appears to a Magistrate that the health of any emigrant (other than an emigrant mentioned in the last preceding section) is such, that he cannot proceed without endangering the health of those on board, he may order the detention of such emigrant.

Measures to be taken if excess number of emigrants is found on board.

79. If it appears to a magistrate making an inspection of any licensed vessel that the number of emigrants on board is larger than the number specified in the license, he may remove the excess number and detain them until another opportunity of forwarding them to their destination is found. The necessary expense of maintaining such emigrants, and of conveying them to their destination, shall be recoverable by such magistrate or other officer who may have been deputed as aforesaid from the master of such vessel.

Infraction of the Act and rules to be reported.

80. In any case in which, on making an inspection of a licensed vessel, a magistrate shall find that any of the provisions of this Act or of any rule made by the Lieutenant-Governor under the authority of this Act have not been complied with, he shall report the same to the embarkation agent by whom the license to carry the emigrants was granted to such vessel; and, if the circumstances of the case are such as in such magistrate's opinion make it necessary so to do, he may detain the vessel until the provisions of this Act, or any rule made by the Lieutenant-Governor as aforesaid, have been complied with, so far as to make it possible for the voyage to be further prosecuted with safety and reasonable comfort to the emigrants.

Vessel may be detained.

On arrival of licensed vessel at the place of disembarkation, the master shall give information to the magistrate.

81. Whenever any licensed vessel carrying emigrants arrives at a civil station at which it is intended that any of such emigrants shall disembark, the master shall immediately give notice of the arrival to the magistrate or such officer as may have been deputed by the magistrate in that behalf under the provisions of section 89, and shall forward to him at the same time the list furnished to him by the embarkation agent under the provisions of section 68, or a copy of so much of the said list as relates to the emigrants who are to disembark. The master shall not permit any emigrants, whose contracts have been executed under the provisions of this Act, to leave the vessel without the order of the magistrate.

Magistrate shall send information to employer or agent.

Immediately on the receipt of such notice the magistrate shall send information of the arrival of the emigrants to the employers with whom they have contracted, or to the agents of such persons. And he shall at the same time direct the civil medical officer of the station, or other qualified medical officer, to go on board such vessel and to inspect such emigrants.

And direct medical inspection.

Report of medical inspection.

Such medical officer shall, without delay, make a careful inspection of all such emigrants; and, after making such inspection, shall prepare and sign a report, in which he shall certify the state of health and general condition of each emigrant so inspected.

Sick emigrants to be detained at station.

82. The magistrate shall detain at the station for medical treatment any emigrant, whose contract has been executed under the provisions of this Act, who is, in the opinion of the medical officer, in such a state of health as to be unfit to proceed to the place at which he has contracted to labor. In such case he shall cause all necessary arrangements to be made for the accommodation, support, and medical treatment of such emigrant, and all expenses so incurred by the magistrate in respect of any emigrant so detained shall, with interest at six per centum per annum, be recoverable by him from the employer with whom such emigrant has contracted.

If necessary provision has been made for the support and lodging of the emigrants, they shall be made over to employer or agent.

83. The magistrate shall also ascertain whether reasonable provision has been made for the support and lodging of emigrants, whose contracts have been executed under the provisions of this Act, from the time of their disembarkation till they reach their final destination. If he is satisfied that such reasonable provision has been made, the employer with whom such emigrants have contracted or his agent shall forthwith take charge of such emigrants except those, if any, detained under the provisions of the last preceding section. But if such reasonable provision has not been made, or if the employer or his agent shall not be present at the place of disembarkation, the magistrate shall order such arrangements to be made, and incur such expenses as under the circumstances may seem to him necessary; and the amount of expenses so incurred by him in the disembarkation, or in respect of the food, lodging, medicines, hospital attendance, or clothing of the laborers, shall, with interest at the rate of twelve per centum per annum, be recoverable by him from the employer with whom such emigrants have contracted.

If not made, or if employer or agent not present, magistrate to make arrangements.

Expenses recoverable from employers.

If emigrants are to disembark at a place other than a civil station, medical inspection to be made at the civil station last preceding.

84. It is intended that emigrants, whose contracts have been executed under the provisions of this Act, on board of any licensed vessel shall disembark at a place which is not a civil station, the master of such vessel shall report the arrival, as required in section 81, to the magistrate or such officer as may have been deputed by the magistrate in that behalf under the provisions of section 89, at the last civil station which such vessel shall pass before arriving at the said place of disembarkation, and shall not proceed on his voyage until the medical inspection of such emigrants has been made as provided in the said section. The master shall not permit any such emigrants to leave the vessel without the order of the magistrate. Immediately on the receipt of such notice, the magistrate shall send information of the arrival of the emigrants to the employers with whom they have contracted, or to the agents of such persons. When such inspection has been made, the magistrate shall, without delay, authorize the master to proceed on his voyage, provided that he may, if he thinks fit, detain any emigrant who is unfit to proceed under the provisions of section 76.

Disembarkation at such place.

85. On the arrival of any licensed vessel at a place of disembarkation which is not a civil station, emigrants, whose contracts have been executed under the provisions of this Act, who are to disembark at such place shall, in case the employers with whom they have contracted to labor, or the agents of such persons, be present, be disembarked and given in charge to such employers or agents. Provided that in case the medical officer in charge of such emigrants, if there be any such medical officer, and if there be not, then the master of the vessel in which such emigrants have been conveyed, shall be of opinion that any of such emigrants are in such a state of health as to be unfit to proceed to the places where they have respectively contracted to labor, or that reasonable provision for the support and lodging of such emigrants from the time of their disembarkation till they reach their final destination has not been made, or in case the employers with whom such emigrants have contracted to labor, or the agents of such persons, shall not be present at the place of disembarkation, then and in every such case the emigrants so unfit to proceed, or for whose support reasonable provision has not been made, or whose employers may not be present personally or by their agents, shall be further conveyed in the vessel to the next civil station, and shall be there disembarked, and the place at which they shall be so disembarked shall, for the purposes of this Act, be deemed to be their place of disembarkation.

If necessary provision not made, emigrants to be carried on to next station.

86. Whenever an emigrant is detained under the provisions of sections 76, 82, or 84, or is further conveyed under the provisions of section 85, it shall be optional with the wife or husband of such emigrant, as the case may be, to remain with the emigrant so detained, or to be taken forward along with the emigrant so further conveyed. If there are any children, they shall also be allowed to remain, or be taken forward with the father or mother.

Family of detained emigrant may remain with him.

87. Every medical officer who is required to make a report under the provisions of this chapter, shall submit such report to the magistrate, and shall enter therein the name and age of each emigrant, the name of his father, the place of his destination, and the name of his employer, as set forth in the list prepared by the embarkation agent under the provisions of section 68.

Particulars to be entered in the reports of medical officers.

88. The magistrate or other officer deputed by him under the provisions of section 89, shall make a detailed report to the superintendent of emigration, of the arrival of all emigrants carried in a licensed vessel, and of all proceedings taken and orders passed by him under the provisions of this chapter, and shall forward with such report a copy of every report made to him by a medical officer relating to emigrants proceeding to a labor district. He shall also forward to the superintendent any observations which he or the medical officer may think fit to make in regard to the state of health and general condition of the emigrants. Whenever such reports or observations relate to emigrants carried in a licensed vessel, he shall forward them to the embarkation agent by whom such emigrants were despatched, and the agent shall transmit them to the superintendent with any remarks which he may desire to record.

Magistrate to report arrival of all emigrants, and all proceedings, to the superintendent of emigration; in certain cases through the embarkation agent.

89. The magistrate of a district, or of a division of a district, may depute any subordinate magistrate to exercise the powers and authorities conferred, and perform the duties imposed on a magistrate under the provisions of sections 72, 73, 74, 75, 76, 79, 80, 81, 82, 84, and 88.

Magistrate may depute a subordinate magistrate to discharge the functions of the magistrate.

90. Every master of a vessel, or medical officer in charge of emigrants on board of any vessel carrying emigrants, who shall wilfully and knowingly neglect or refuse to obey or to enforce on board of such vessel any rule which may from time to time be prescribed by the Lieutenant-Governor under the authority of this Act shall, on conviction by a magistrate, be punished with fine.

Penalty, if master or medical officer neglects to enforce rules.

91. Any offence against any of the provisions of this chapter, or of any rule made by the Lieutenant-Governor under the authority of this Act, committed on board of any vessel, may be tried by any magistrate exercising jurisdiction in any place at which emigrants may have embarked on board such vessel, or may have disembarked from such vessel, or in any place in which such vessel may be detained under the provisions of this Act.

Jurisdiction, if offence created by this Act is committed on board.

92. Any emigrant, whose contract has been executed under the provisions of this Act, who deserts while in transit from the district in which he has been registered to the district in which he has engaged to labor may, on conviction by a magistrate, be punished with imprisonment, simple or rigorous, for a period which may extend to three months. Such offence may be inquired into and tried in the district in

Punishment of emigrant for desertion.

which such emigrant is apprehended, or in the district in which the desertion took place, or in the district in which he was registered.

Provisions of sections 27, 29, 30, 31, 51, 54, 56, 69, 75, 76, 80, 82, 83, and 84 to apply to children, &c., accompanying emigrants.

93. The provisions with regard to engaged natives of India and emigrants contained in sections 27, 29, 30, 31, 51, 54, 56, 69, 75, 76, 80, 82, 83, and 84 of this Act, shall be applicable to such women, children, and aged relatives of such natives and emigrants as may, with the consent of a contractor, recruiter, or garden-sirdar, as the case may be, and with the written permission of the registering magistrate or superintendent, accompany them without having entered into an engagement.

Provisions of this Chapter not to apply to domestic servants, &c.

94. The provisions of this Chapter shall not apply to domestic servants, or to any person proceeding alone or accompanied by his wife and family only.

PART III.—LABOR DISTRICTS.

Chapter 8.—Inland Labor Transport Fund.

Annual rate payable by employers.

95. The Lieutenant-Governor may from time to time, by order published in the *Calcutta Gazette*, fix a yearly rate, not exceeding one rupee and eight annas per laborer, for the purpose of defraying the expense of carrying out the purposes of this Act; and the sum or rate so fixed shall be paid half-yearly by each employer on the last day of July and the last day of January in each year for each laborer entered in the last return of laborers furnished (as is hereinafter provided) by such employer before such date.

Payment of rate how to be enforced.

96. If any employer shall fail to comply with the provisions of the last preceding section, it shall be the duty of the magistrate to notify such default to him; and if within one month from the receipt of such notification, or such longer period as it may, under special circumstances, appear to the magistrate reasonable, such employer shall not so comply, the magistrate shall, by distress and sale of any moveable property which may be found in the possession or under the charge of such employer, levy the sum so payable.

If there shall be no such moveable property, or insufficient moveable property so found, the amount shall be recoverable by a civil regular suit from the person for whose benefit the laborers in respect of whom the same may be payable shall have been employed. In every such suit the Government shall be named as plaintiff, and the cause of action shall be taken to have arisen within the limits of the jurisdiction of any court having jurisdiction at any place where any such laborers may have been employed by such employer.

Fines, fees, and rates to be credited to "Inland Labor Transport Fund."

97. Subject to the powers conferred on a magistrate by this Act or by the Code of Criminal Procedure, of awarding fines in whole or in part as compensation to or for the benefit of any complainant or other person, all fines, fees, and rates levied and paid under this Act shall be credited to a fund which shall be called the "Inland Labor Transport Fund," and such fund shall be at the disposal of the Lieutenant-Governor for defraying the expenses of carrying out the purposes of this Act.

Chapter 9.—Inspector's Returns and Magistrates' Inspections.

Appointment of inspectors and assistant inspectors.

98. The Lieutenant-Governor may appoint in any labor district so many inspectors and assistant inspectors of laborers as he may think proper, and may define, by notification in the *Calcutta Gazette*, the local limits within which each such inspector and assistant inspector shall exercise the powers and authorities conferred, and perform the duties imposed on him by this Act. Such inspectors and assistant inspectors may be by the said Lieutenant-Governor vested with all or any of the powers of a magistrate.

Establishment.

99. The Lieutenant-Governor may authorize inspectors and assistant inspectors to entertain such establishment as he may think fit.

Duty of assistant inspector.

An assistant inspector shall perform all such duties and exercise all such powers of an inspector as he is authorized in writing by the inspector to perform or exercise.

Half-yearly report of laborers employed, of their state of health, and of mortality.

100. Every employer shall, on or before the last day of January and the last day of July in each and every year, make out in writing, and deliver to the inspector of laborers, a return of the number of all laborers (as well laborers defined by this Act as others) employed by such employer on the last day of the preceding month, and return of the sickness and mortality among the laborers during the preceding six months.

Separate returns of each class of laborers to be kept.

Such returns shall be kept separate with regard to each class of laborers as above mentioned, and, in the case of laborers as defined by this Act, the return of laborers employed shall specify the date on which the contract of each laborer commenced, and the period of service contracted for.

Copies to be kept.

Copies of such returns shall be entered in a book to be kept by the employer at his place of business or on his estate.

Entry to be made of death, desertion, &c.

101. If any laborer shall die, desert, complete his contract, or obtain a release therefrom during the six months preceding any such return as in the last preceding section is mentioned, the fact of such death, desertion, completion of contract, or release, shall be entered in the book to be kept as aforesaid by the employer, opposite the name of such laborer.

Entry to be made of name and description of laborer.

102. On the arrival of any laborer, as defined by this Act, on the estate of his employer, the name and description of such laborer shall be entered in the book to be kept as aforesaid by the employer, and in like manner the name and description of every person, who shall contract to labor otherwise than under the provisions of this Act, shall be so entered. Such book shall be open to the inspector of laborers, who shall have power to muster all laborers and other persons lastly hereinbefore mentioned, and to verify the accuracy of the entries in such book.

Penalty for omission to transmit such report, or for submitting false report.

103. If any employer shall refuse or wilfully omit duly to send in any such return, or shall knowingly send in an incorrect return, such employer shall, on conviction by a magistrate, be punished with fine.

Periodical inspection of laborers to be made by inspector.

104. Every inspector of laborers shall once within each of such periods as may be fixed for such purpose by the Lieutenant-Governor, visit all lands within the limits of his authority on which there shall be employed any laborers, and inspect every hospital, tent, camp, or building in any way used by any such laborers, and investigate the condition of the laborers employed; and for such purpose the inspector may require that any laborer shall be brought before him with his contract, and may make such inquiries as may to him seem proper. Every such inspector shall keep books, in which from time to time shall be entered the number of laborers then under contract with each employer, the number who shall then be sick or missing, or who shall have complained of ill-treatment, the particulars of such complaints, and such other particulars regarding the laborers as the Lieutenant-Governor shall from time to time direct. Each inspector shall annually make a written report to the Lieutenant-Governor through the Commissioner of the division of the aforesaid particulars; and every such report, as regards the laborers under any particular employer, shall, at all reasonable times, be open to the inspection of such employer or any person by him appointed in writing in that behalf, and the person so inspecting shall be entitled to take a copy of the report so far as it relates to such laborers.

Books to be kept by inspector.

Annual report.

Such report open to inspection by employer.

105. It shall be lawful for any magistrate exercising jurisdiction in the district, or any person authorized by him in writing in that behalf, at any time to enter and inspect any hospital, tent, camp, or building, wholly or partially used by or for laborers, and to require that any laborer shall be brought before him with his contract, and to make any inquiries which he may think proper touching the condition or treatment of any laborer.

Magistrate may at any time inspect laborers' buildings used by them, &c.

If any employer, or other person acting for or under such employer, wilfully obstructs or impedes any entry, inspection, or inquiry, made under either of the two preceding sections, such employer or other person as aforesaid shall, on conviction by a magistrate, be punished with fine not exceeding five hundred rupees for each such offence.

Penalty for obstructing inspection or inquiry.

Chapter 10.—*Regulation of Labor.*

106. Every employer shall from time to time, with the sanction of the inspector previously obtained, fix the daily tasks to be executed by the laborers employed by such employer, and shall frame a schedule of such daily tasks, and publish the same by posting a copy thereof in the Bengali language upon the door of each place of payment of the laborers employed by such employer, and by sending a copy thereof in the English language to the inspector.

Schedule of daily tasks to be framed.

107. No laborer shall be bound to work under his contract more than six days in one week, or more than six hours consecutively, or more than nine hours on any one day.

Maximum amount of labor.

108. If at any time the inspector considers such schedule of daily tasks or any part thereof to be unreasonable, he shall refer the consideration of such schedule to a committee consisting of the inspector, of some employer to be nominated by him, and of some person to be nominated by the employer whose schedule is to be considered, or on his default by the inspector.

Inspector may submit schedule to a committee.

109. In case the said committee or the majority in number thereof are of opinion that the daily tasks in such schedule contained, or any of them, unreasonable, they shall modify and reduce such daily tasks in such manner as they shall deem reasonable, and such schedule so modified shall be published in manner aforesaid, and every schedule published as aforesaid shall have effect as between the employer and laborers in substitution for any former schedule.

Committee to revise schedule.

Chapter 11.—*Incapacity for Labor.*

110. It shall be lawful for the inspector of laborers within the local limits of whose authority any laborer may be employed, to suspend, for such period as he shall consider advisable, the contract of such laborer, or any particular term thereof, if such laborer shall be, in the judgment of such inspector, temporarily unfitted for the performance thereof by reason of sickness, pregnancy, or other sufficient cause. Provided that every such suspension shall be endorsed by the inspector on the contract. Provided also that every such laborer shall, during such incapacity, receive such subsistence money from his employer as shall be considered sufficient by the inspector, and that the time during which the suspension continues shall not be reckoned as part of the term for which the laborer is bound to serve.

Inspector may suspend contract of any laborer temporarily unfitted for labor.

111. If it shall be found that any laborer has been compelled to perform any species of labor for which he was at the time unfit, the employer by whom he was so employed shall, on conviction by a magistrate, be punished with fine.

Penalty for compelling laborer to perform work for which he is unfit.

112. If, in the opinion of the inspector of laborers, any laborer shall be permanently incapacitated for the performance of his contract or any material part thereof, the inspector shall certify to that effect in writing, and deliver such certificate to the employer of such laborer or some one on his behalf, and from the date of such certificate the contract of such laborer shall wholly cease and determine. The inspector shall make a return of all such cases of determination of contract in his report under section 103. Every laborer whose contract shall have been determined as aforesaid, shall be entitled to receive from his employer such sum, not exceeding three months' wages, as the inspector may award, and such sum shall be recoverable before a magistrate in the manner hereinafter provided for the recovery of wages.

Discharge of laborers permanently incapacitated.

Chapter 12.—Necessary Provision for Laborers.

Sufficient house accommodation, water-supply, and sanitary arrangements to be provided.

113. Whenever any laborers shall be employed in any labor district, the employer of such laborers shall be bound to provide for them sufficient and proper house accommodation, water-supply, sanitary arrangements, and rice.

Hospital, medicines, &c., to be provided.

114. Every employer shall be bound to provide for his laborers such sufficient hospital accommodation, and such medicines of such quality and description, and according to such scale, as shall from time to time be fixed by the Lieutenant-Governor; and if three hundred or more laborers shall be employed by any employer, it shall be the duty of such employer to place in medical charge of such laborers a medical officer holding a medical diploma as licentiate in medicine, from some Indian or European collegiate institution authorized to grant diplomas, or an officer for the time being licensed by the local Government to act in such medical charge of laborers.

Inquiry whether employer has failed to provide as required by the rules.

115. It shall be lawful for any inspector or assistant inspector who is himself a magistrate, to institute within his jurisdiction, on the lands in charge of any employer, or at some place within his jurisdiction not more than ten miles distant from such lands, an inquiry whether such employer has provided for his laborers sufficient and proper house accommodation, water-supply, sanitary arrangements, or rice. On the complaint of any inspector or assistant inspector a similar inquiry may be made by a magistrate.

Punishment for gross neglect as to house accommodation, &c., and for wilfully omitting to comply with the order of the magistrate in such respect.

116. If the employer is convicted of gross neglect in not having provided sufficient and proper house accommodation, water-supply, sanitary arrangements, or rice, such employer shall be punished with a fine not exceeding five hundred rupees. In any case where a magistrate shall find that proper or sufficient house accommodation, water-supply, sanitary arrangements, or rice, has not been provided, he may order the employer to provide such proper and sufficient house accommodation, water-supply, sanitary arrangements, and rice. If the employer wilfully omits to comply with such order, he shall, on conviction, be punished with a fine not exceeding one hundred rupees a day for every day that such omission continues. In default of payment by the employer of the last mentioned fine, the person on whose account such employer has been acting shall be liable to pay the fine.

Penalty for failure to provide hospital accommodation, &c.

117. Wherever such sufficient hospital accommodation or such medicines of such quality and description, and according to such scale, or such medical officer as aforesaid, shall not have been provided, the employer or other person through whose wilful default the same shall not have been provided shall, on conviction by a magistrate, be punished with fine for every week during which any such default continues.

Chapter 13.—Localities unfit for the Residence of Laborers.

Inspector to report.

118. If an inspector of laborers shall at any time have reason to believe that any estate or portion of an estate situated within the limits of his jurisdiction is by reason of climate, situation, or condition unfit for the residence of laborers, he shall give notice in writing of his opinion to the magistrate of the district, and such magistrate shall forthwith summon a committee to inquire into the fitness of such estate or portion thereof for the residence of laborers. Such committee shall consist of the magistrate, the inspector of laborers, the medical officer of the district, and one or more employers of laborers, when such persons are available. If the magistrate is unable to procure the service on such committee of any employer of laborers he may, with the sanction of the commissioner of the division, appoint one or more persons whom he may deem qualified.

Magistrate to summon committee.

Proceedings of committee.

Such committee shall proceed, with as little delay as possible, to inquire into the healthiness of the estate or portion thereof to which the order appointing the committee has reference, and shall hear such information on the subject as the owner of the estate, or the employer or inspector, may desire to place before it; and if such committee, or the major part in number thereof, shall be of opinion that such estate or any portion thereof be unfit for the residence of laborers, it shall record a finding to that effect; and the contract of every laborer who shall have contracted to serve on such estate shall thereupon be void as regards such estate or portion of estate as may be found unfit for the residence of laborers.

If committee finds unfit, contract to be void as regards such locality.

Proviso as regards other localities.

Provided that every such contract shall continue valid with regard to any other portion of such estate or to any other estate of the same employer in the same district.

Lieutenant-Governor how to proceed if mortality in past year exceeds 7 per cent., or if the average of 3 years exceeds 5 per cent.

119. If it shall at any time appear that the number of laborers (as well laborers defined by this Act as others) who have died on any estate or portion of an estate during the preceding twelve months, bears a larger proportion to the whole number of laborers (as well laborers defined by this Act as others) employed thereon during such period than 7 per centum, or if the average annual number of laborers (as well laborers defined by this Act as others) who have died on such estate or portion thereof during the preceding three years bears a larger proportion to the whole number of laborers (as well laborers defined by this Act as others) employed thereon during such period than 7 per centum, it shall be lawful for the Lieutenant-Governor to direct the civil medical officer of the district or other qualified medical officer to inquire into and report on the following matters:—

Matters to be inquired into.

(1) The cause or causes of such mortality.

(2) The want (if any) of due care or precaution and of the adoption of proper and available sanitary measures, on the part of the owner of

such estate or portion thereof or the employer, causing or contributing to such mortality.

(3) The fitness or otherwise of such estate or portion thereof for the residence of laborers and the reasons thereof.

Medical officer to report.

Such medical officer shall proceed with as little delay as possible, and shall hear and record such information on the subject of the several matters aforesaid as the owner of such estate or portion thereof, or the employer, or inspector may desire to place before him, and shall visit and inspect such estate or portion thereof, and shall make his report expressing the reasons of his opinion and transmit the same with the recorded information and notes of his inspection of such estate or portion thereof to the Lieutenant-Governor.

Lieutenant-Governor may declare estate unfit for residence.

If the Lieutenant-Governor, after perusal and consideration of the said report, information, and notes, shall be of opinion that such mortality was caused by the want of due care or precaution and of the adoption of proper and available sanitary measures on the part of the owner of such estate or the employer, and that such estate or portion thereof is unfit for the residence of laborers by reason of the want of due care or precaution, and of the adoption of proper and available sanitary measures on the part of the owner of such estate or portion thereof or the employer, it shall be lawful for the Lieutenant-Governor to declare in writing that such estate or portion thereof is unfit for the residence of laborers. Such declaration of the Lieutenant-Governor shall have the same effect as the finding of a committee under the last preceding section.

Contracts to be void as regards that estate.

120. Every employer who shall cause or permit any laborer to reside upon any such estate or portion of an estate as under the provisions of either of the two preceding sections may have been found to be unfit for the residence of laborers, shall, on conviction by a magistrate, be punished with fine. Provided always that in case it shall appear to the inspector that any such estate, or portion of an estate, or any part of such portion, has become fit for the residence of laborers, he shall, with the sanction of the magistrate of the district, give under his hand a certificate of such fitness, and no employer shall be liable to fine by reason of his causing or permitting laborers to reside in any place respecting which such certificate of fitness shall have been given.

Penalty on employer permitting laborer to reside in locality declared to be unfit.

Chapter 14.—Offences committed by Laborers.

Penalty on laborer for absenting himself without sufficient cause.

121. Any laborer, who shall absent himself from his labor without sufficient cause, may, on conviction by a magistrate, be sentenced to lose all claims to wages or allowances during the period of such absence, and also to forfeit to his employer a sum not exceeding four annas for each day during which such absence shall be continued; and in case such absence shall have exceeded seven days, or in case such laborer shall have been already convicted of the same offence within a period of three months, such laborer shall be furthermore sentenced to rigorous imprisonment for fourteen days.

Deserting may be apprehended without warrant.

122. If any laborer deserts from his employer's service, and no magistrate is resident within ten miles of the place where such laborer may be found, such employer or any other person acting in his behalf may, without first procuring a warrant, and without the assistance of any police officer (who, nevertheless, shall be bound to give such assistance if called upon to do so), apprehend such laborer. Provided, nevertheless, that if such laborer be found in the service of another employer, he shall not be arrested without a warrant. Provided also that any person, who shall apprehend a laborer under the provisions of this section, shall without delay give the said laborer in charge at the nearest police station, and there enter the charge upon which he shall have apprehended such laborer.

To be taken to nearest magistrate.

Any laborer so given in charge shall be conveyed, without delay, to the nearest magistrate; and, if such magistrate be authorized to deal with the case, he shall himself adjudicate upon the charge; but if not, he shall forward the said laborer, under custody, to the magistrate or bench of magistrates authorized to deal with such case, who shall thereupon adjudicate upon such charge.

Procedure upon complaint of desertion.

Upon complaint made to a magistrate by an employer, or any person acting on his behalf, that a laborer has deserted from his employer's service, such magistrate may issue a summons for the attendance of such laborer, or a warrant for his arrest, and appoint a day for the hearing of the complaint without previously examining the complainant.

Punishment.

Every laborer who deserts from his employer's service shall on conviction be punished with rigorous imprisonment which may extend to one month; and every laborer, who after having been convicted of desertion, shall again desert from his employer's service, shall, on conviction as aforesaid, be punished with rigorous imprisonment for a period which may extend to two months; and every laborer who, after having been twice convicted of desertion shall again desert shall, on conviction as aforesaid, be punished with imprisonment, simple or rigorous, which may extend to three months.

Compensation for wrongful arrest.

If it appears to the magistrate or to the bench of magistrates adjudicating upon such charge, that such laborer has been apprehended without sufficient cause, it shall be lawful for such magistrate or bench of magistrates to impose a fine not exceeding fifty rupees on the employer, at whose instance such laborer has been apprehended, or to award compensation not exceeding fifty rupees to such laborer, and such compensation shall be paid by the employer at whose instance such laborer has been apprehended.

Conviction not to operate as a release.

123. On the expiry of any sentence of imprisonment for any offence under this Act, save as is provided in section 124, it shall be the duty of the magistrate to make over such laborer to any person appointed on the part of his employer to receive charge of him; and no conviction under this Act, or imprisonment under such conviction, shall, save as is provided in section 124, be held to operate as a release to any

laborer from the terms of his contract. Provided, nevertheless, that the period of imprisonment shall in no case be prolonged by reason of their being no person present on the part of the employer to take charge of the laborer at the expiry to his sentence; but such laborer shall in that case be sent to the principal place of business of such employer, and the expense of such conveyance shall be levied from the employer in the manner provided in section 96.

Cancellation of contract by desertion.

124. Whenever any laborer shall have actually suffered imprisonment amounting in the whole to six months for desertion from his employer's service, it shall be lawful for the inspector, and he is hereby required, to cancel the contract of such laborer, and every such cancellation shall be certified by the inspector on the back of the contract.

Portion of sentence may be cancelled on application of employer.

125. The employer, or any person authorized to act for the employer, of any laborer imprisoned for any offence under this Act, may apply to a magistrate, at any time previous to the expiry of such sentence, that such laborer be made over to him for the purpose of completing his contract; and such magistrate may, if he see good cause, make over or forward such laborer to his employer; and in that case such magistrate shall cancel the remainder of the sentence passed on him, and shall endorse on the contract of such laborer a memorandum signed by him of such cancellation.

Expense of restoring deserting laborer to be paid by employer.

126. Every employer who obtains an order for the return or forwarding of any laborer who has deserted, shall pay the expense incurred in such return or forwarding, and shall, before the order is issued, deposit with the magistrate such sum as such magistrate may in his discretion deem to be sufficient for defraying the expense of such return or forwarding.

Time of unlawful absence or imprisonment to be excluded from contract period.

127. The duration of every unlawful absence from labor, of which any laborer may be convicted, and every sentence of imprisonment for any offence under this Act, shall be endorsed on the contract, at the time of its being passed, by the officer passing it; and no such period of imprisonment or unlawful absence so endorsed shall be reckoned as part of the term for which the laborer is bound to serve, but such term shall extend to such further period as shall be equivalent to the aggregate amount of the imprisonment and unlawful absence so endorsed.

Other person enticing away, harbouring, or employing laborer under contract.

128. Any person who knowingly and wilfully entices away, harbours, or employs, or attempts to entice from his employment, any laborer, before such laborer shall have been lawfully released from his contract, shall on conviction by a magistrate be punished with fine, the whole or any portion of which may be awarded to the employer of such laborer.

Chapter 15.—Complaints made by Laborers.

Employer to give notice to inspector if laborer wishes to complain of personal ill-usage or breach of contract.

129. If any laborer states to his employer, or to any person acting for such employer, that he desires to make a complaint to the inspector of laborers of personal ill-usage or breach of any provision of this Act on the part of such employer or other person, the person to whom such statement is made shall, within forty-eight hours send notice thereof in writing to the inspectors and in default of so doing, such person shall, on conviction by a magistrate, be punished with fine.

Inspector how to proceed on receipt of notice, or if complaint is made to him, or if he has reason to believe that there is ground for a complaint.

130. Whenever any inspector of laborer receives such notice in writing as aforesaid, or whenever any complaint of personal ill-usage or breach of any provision of this Act as aforesaid, is made to him by any laborer against his employer or any person acting for such employer, or whenever the inspector has other reasonable grounds for believing that any such personal ill-usage or breach of any provision of this Act as aforesaid has been suffered by a laborer, such inspector shall forthwith, if the place in which such offence has been committed is not situated within the limits of his own authority, give notice thereof in writing to the inspector within the limits of whose authority such place is situated; and if such place be situated within the limits of his own authority, then such inspector shall, so soon as conveniently may be, proceed to some place not more than ten miles from the principal place of business of such employer, and make full inquiry into the matter complained of.

Procedure. Penalty for obstructing service of, or disobedience to, summons.

131. For the purposes of such inquiry the inspector may summon such laborer and any witnesses. If any employer, or other person acting for or under such employer, in any way wilfully obstructs the service of, or obedience to, such summons; or if the laborer or any witness summoned intentionally omits to attend as required in such summons, he shall, on conviction by a magistrate, be punished with fine.

If complaint is untrue or frivolous.

132. If, upon such inquiry made on the complaint of a laborer, the inspector is of opinion that the complaint is untrue or frivolous, he shall enter in his book the particulars of such complaint, and a short statement of the grounds of his opinion respecting it, and shall dismiss the complaint, and in such case shall endorse on the employer's copy of the contract of such complainant the number of days during which such complainant has been absent from work in consequence of such inquiry, and such number of days shall be added to the period of the contract of such complainant.

If complaint is well founded.

133. If, upon inquiry as aforesaid, the inspector is of opinion that the complaint is well-founded, he shall, if himself a magistrate, dispose of the case according to due course of law. If the inspector shall not be a magistrate, he shall without delay send the complainant and his witnesses to the nearest magistrate, and such magistrate shall thereupon dispose of the case according to due course of law.

Recovery of arrears of wages.

134. If, upon the complaint of any laborer, it is proved to the satisfaction of a magistrate that the wages of such laborer are in arrear for two months, it shall be lawful for the magistrate to award to such laborer the amount

unless such appear to be due to him; and also, by way of compensation, such further sum, not exceeding that amount, as shall appear to such magistrate to be just; and in case of default, the magistrate shall levy the entire sum by distress and sale of any moveable property which may be found in the possession or under the charge of such employer.

Compensation may be given if arrear is for two months.

135. If any employer, or any person placed in authority over any laborer by such employer, shall be convicted of any offence causing injury to the person or property of such laborer triable under the Code of Criminal Procedure by the court of session; or if any such employer, or other person as aforesaid, shall be twice convicted of any such offence against such laborer triable under the said Code by a magistrate; or if it shall be proved before a magistrate that the wages of such laborer are in arrear to an amount exceeding the total of such laborer's wages for four months; or if a magistrate shall, on the report of the inspector and after due inquiry, upon oath, in the presence of the parties, be satisfied that any laborer has been compelled to perform any labor while he was unfit for it, or has been subjected to ill-usage by such employer, or any other person placed in authority over the laborer by such employer; it shall be lawful for the magistrate, if he think fit, on the application of the laborer, in each of such cases, to cancel the contract of such laborer, and award to him compensation not exceeding thirty rupees, and every such cancelment shall be certified by the magistrate on the back of such contract.

Contract may be declared cancelled, if employer is convicted of maltreatment by session court, or twice by magistrate;

or if wages are in arrear for four months;

or if ill-usage is proved.

Chapter 16.—Determination of Contract.

136. Every laborer who has completed the term of his contract shall be forthwith entitled to appear before the inspector or assistant inspector in order that the completion of his contract may be registered. If an employer detains such laborer after the completion of his contract, or fails to give notice of such completion to the inspector within one month after the date of such completion, such employer shall, on conviction by a magistrate, be punished with fine.

Laborer may appear before the inspector to register completion of contract.

Penalty if employer detains, or omits to report.

137. If any laborer is able and desirous to redeem the unexpired term of his contract of service by payment of a sum equivalent to the value thereof, such laborer may demand to be taken or allowed to go before the inspector of laborers within the local limits of whose authority he may be employed, and on his depositing such sum in the hands of such inspector, such inspector shall give notice to the employer that such laborer requires him within one week to show cause why the contract of such laborer should not be released; and, in case no sufficient cause should be shown, such inspector shall require the production of the contract of such laborer, and endorse thereon a certificate of release by purchase, and shall hold the sum in deposit on account of the employer of such laborer. If any employer, or other person authorized to act for the employer, shall neglect to comply with such demand as aforesaid, such employer, or other person as aforesaid, shall, on conviction by a magistrate, be punished with fine.

Power to redeem contract.

The value of the unexpired term of contract shall be deemed to be the aggregate amount of one rupee for every month of the unexpired portion of the first year, of three rupees for every such month of the second year, and of five rupees for every such month of the third year, of the original term of the laborer's engagement.

Value of unexpired term of contract.

138. Every laborer the period of whose contract has expired, or whose contract has been rescinded by the mutual consent of the parties thereto, or whose contract has been cancelled or redeemed under the provisions of this Act, shall be entitled to receive forthwith from the inspector a certificate of release in the form set forth in Schedule (F) annexed to this Act.

Certificate to be given of determination of contract.

SCHEDULE A.

(*See Section* 15.)

FORM OF CONTRACT BETWEEN EMIGRANT AND EMPLOYER.

"THIS contract made under Bengal Act of 187 , between (*emigrant's name*) of the one part and (*employer's name*) of the other part. Acts of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

THE following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th November 1873, and is hereby promulgated for general information :—

ACT No. XVII OF 1873.

An Act to provide for the liquidation of the debts of the Nawáb Názim of Bengal, and for his protection against legal process.

Preamble.

Whereas divers large pecuniary claims have been made against Sayyid Mansur Alí, the present Nawáb Názim of Bengal, Behar, and Orissa, commonly called the Nawáb Názim, which he has not the means of satisfying, and for the purpose of recovering such claims divers suits have been brought against him, and divers attachments have been issued against his property in India :

And whereas, with respect to certain jewels and immoveable property, it is disputed whether they belong absolutely to the said Nawáb Názim or are held by the Government of India for the purpose of upholding the dignity of the Náwab Názim for the time being, and litigation has consequently arisen between the creditors of the present Nawáb Názim and the Government of India :

And whereas the Government of India is desirous of freeing the said Nawáb Názim and his property respectively from such suits and attachments, and of discharging such portions of the said claims as are proper to be paid : and of settling the said dispute as to the said jewels and immoveable property :

And whereas in the meantime and for the future, it is expedient to exempt the said Nawáb Názim, except as hereinafter mentioned, from the jurisdiction of the Civil Courts, and to render him incapable of contracting further pecuniary obligations ;

It is hereby enacted as follows:—

Short title.

1. This Act may be called "The Nawáb Názim's Debts Act, 1873 :"

Local extent.

It extends to all persons and places for whom and for which the Governor-General in Council has power to make laws ;

Commencement.

And it shall come into force at once.

Power to appoint Commission.

2. The Governor-General in Council may, from time to time, nominate and appoint such persons as he thinks fit to be a Commission for the purposes hereinafter mentioned.

All persons so nominated and appointed (hereinafter called "the Commissioners") shall continue to be members of the said Commission during the pleasure of the Governor-General in Council, and shall hold their sittings at such place or places and time or times as they think fit.

Notice to claimants.

3. The Commissioners shall publish thrice in the *Gazette of India* in English, and in the *Calcutta Gazette* in English, Urdú, and Bengálí, and in such other mode and languages as they think fit, a notice calling upon all persons having claims against the said Nawáb Názim or his property, whether moveable or immoveable, to notify the same in writing to the Commissioners within six months from the date of the earliest of such publications.

Bar of debts not duly notified.

4. Every debt or liability to which the said Nawáb Názim is subject, or with which his property, or any part thereof, is charged, and which is not duly notified to the Commissioners within the time and in the manner hereinbefore mentioned, shall be barred :

Proviso.

Provided that, on sufficient cause being shown to the Commissioners, they may admit such claim within the further period of six months from the expiration of the said period of six months.

Particulars of claim.

5. Every such claimant shall along with his claim present full particulars thereof.

Every document on which he founds his claims, or on which he relies in support thereof, shall be delivered to the Commissioners along with the claim.

Entries in books.

If the document be an entry in any book, the claimant shall produce the book to the Commissioners, together with a copy of the entry on which he relies. The Commissioners shall mark the book for the purpose of identification, and after examining and comparing the copy with the original, shall return the book to the claimant.

Exclusion of documents not produced.

If any document in the possession or under the control of the claimant is not delivered or produced by him to the Commissioners along with the claim, the Commissioners may refuse to receive such document in evidence on the claimant's behalf at the investigation of the case.

May call for or admit any further evidence.

The Commissioners may from, time to time, call for further and more detailed particulars of any claim preferred before them under this Act, and may, at their discretion, refuse to proceed with the investigation of the claim until such particulars are supplied.

Power of Commissioners to summon witnesses.

6. For the purposes of this Act, the Commissioners may summon and enforce the attendance of witnesses, and compel them to give evidence, and compel the production of documents by the same means, and, as far as possible, in the same manner as is provided in the case of a Civil Court by the Code of Civil Procedure.

Investigation to be a Judicial proceeding.

7. Every investigation conducted by the Commissioners, with reference to any claim preferred before them under this Act, or to any matter connected with any such claim, shall be deemed a judicial proceeding within the meaning of the Indian Penal Code.

And every statement made by any person examined by or before the Commissioners with reference to such investigation, whether upon oath or otherwise, shall be deemed to be evidence within the meaning of the same Code.

Expenses of witnesses.

8. Every witness required by the Commissioners, except at the instance of a claimant, to attend and give evidence under the provisions of this Act, shall be entitled to a reasonable sum (to be allowed by the Commissioners) for his expenses in travelling to and from, and remaining at, the place at which he is required to attend.

Commissioners to determine amount due to each claimant.

9. The Commissioners shall, by agreement with the claimant, or, in default of such agreement, after due and full enquiry, determine the amount which, on the consideration of all the circumstances, they may consider each claimant ought in fairness and justice to receive. And in coming to such determination, they shall not be bound by any previous agreement or judicial proceeding.

Sum found due to be certified to Government.

10. The Commissioners shall certify in each case the amount so determined, and upon the Governor-General in Council, within six months from the date of the certificate, paying or tendering to any claimant the amount so certified, all claims of such claimant against the Nawáb Názim or his property shall be satisfied and extinguished.

Bar of suits against Nawáb Názim.

11. No suit shall be commenced or prosecuted, and no writ or process shall at any time be sued for, against the person or property of the said Nawáb Názim, unless such suit be commenced, or such writ or process be sued for, with the consent of the Governor-General in Council first had and obtained.

Such consent shall be certified by the signature of one of the Secretaries to the Government of India, and every such signature shall be judicially noticed.

And any suit which at any time shall have been, or shall be, commenced, and any writ or process which at any time shall have been, or shall be, sued for, against the person or property of the said Nawáb Názim shall be of no effect unless and until the consent of the Governor-General in Council, certified in manner aforesaid, is obtained.

Commissioners to ascertain the property held by Government for upholding the dignity of the Náwáb Názim's family.

12. The Commissioners shall ascertain what jewels and immoveable property are held by the Government of India for the purpose of upholding the dignity of the Nawáb Názim for the time being, and shall certify the particulars of such jewels and property; and their finding thereon shall be binding and conclusive on all persons whomsoever.

Power to refer questions of law to High Court.

13. If any question of law, or as to the construction of a document, arises in any case under this Act, and the Commissioners think it necessary for the purposes of fairness and justice to obtain a judicial opinion thereon, they may draw up a statement of the case and refer it for the decision of the High Court of Judicature at Fort William; and the provisions of sections twenty-four and twenty-five and of the first sentence of section twenty-six of Act No. XI of 1865 shall apply as if, in section twenty-six, for the word "Court," the word "Commissioners" were substituted.

And if, in the opinion of the High Court, the statement is imperfectly framed, the High Court may return it for amendment; and the costs (if any) consequent on any such reference shall be dealt with as the Commissioners shall in each case direct.

Nawáb Názim to be incapable of contracting.

14. The said Nawáb Názim shall be incapable of entering into any contract which may give rise to any pecuniary obligation on his part.

Saving of Secretary of State in Council.

15. Nothing herein contained shall be deemed to render the Secretary of State for India in Council, or the Government of India, liable for any debt heretofore contracted by, or on behalf of, the said Nawáb Názim, or in respect of any claim to be reimbursed, which may be made by any person supplying him with necessaries.

Bar of suits for acts done *bonâ fide*.

16. No suit or other proceeding shall be maintained against any person in respect of anything done by him in good faith under this Act.

WHITLEY STOKES,

Secy. to the Govt. of India.

EMIGRATION TO THE LABOUR DISTRICTS.

THE further consideration of the Bill to amend the law relating to the emigration of laborers to the districts of Assam, Cachar, and Sylhet, and to regulate contract labor and service, in order to the settlement of its clauses, was resumed.

THE HON'BLE THE ADVOCATE-GENERAL said, before proceeding with the amendments of which he had given notice, he had one remark to make, namely that the amendments before the Council were necessarily due to

the altered character of the Bill. By reason of the amendments adopted at the last meeting and the omission of the penal clauses against recruiting outside the Act, it became necessary to introduce the Advocate-General's present amendments. Some further amendments were also due to this, that while the Bill allowed recruiting outside the Act, it subjected emigrants above a certain number to the provisions of the transport sections.

THE HON'BLE THE ADVOCATE-GENERAL then moved the insertion of the following definitions after the definition of "employer" in Section 3:—

"'Garden sirdar' means any person authorized by certificate by an employer to engage natives of India to proceed to a labor district under a contract to be made and executed according to the provisions of this Act.

'Recruiter' means any person licensed under the provisions of this Act as a recruiter.

'Contractor' means any person licensed under the provisions of this Act as a contractor."

The motion was agreed to.

The HON'BLE the ADVOCATE-GENERAL moved the omission of Section 4. It would be seen that in lieu of this section another section would be introduced at the end of the chapter on transports; but the section proposed to be re-enacted was not so wide as that proposed to be omitted. Under the transport sections nineteen emigrants travelling by themselves could go without restriction; consequently it was not necessary to restrict emigration in the manner in which it was done by Section 4.

The motion was agreed to.

The HON'BLE the ADVOCATE-GENERAL moved the omission, in Section 10, lines 6 and 7, of the words "for the purpose of becoming laborers," and the substitution for them of the words "for the purpose of laboring." This was a necessary consequence of the definition of "emigrant" now adopted, and the definition of "laborer," which had a technical meaning in the Bill, namely, a man who was conveyed to the labor districts under a contract under the Act. He had also a verbal amendment in line 8 of the same section, to give uniformity to the language, namely to insert the words "of India" after "native."

The motions were severally agreed to.

On the motion of the Advocate-General verbal amendments were made in Section 11.

The HON'BLE the ADVOCATE-GENERAL moved the omission of Section 13 and the substitution of the following:—

"Any employer may by certificate authorise a garden sirdar to engage natives of India to proceed to a labor district for the purpose of laboring therein for hire upon lands of which such employer is in charge, under contracts to be made and executed according to the provisions of this Act."

The section was not necessary, the penal clauses of the Bill having been abolished. But in order to render the Act more easily intelligible, he had thought it better not only to omit Section 13, but to insert the proposed new section. It would be just as well to have a key to the following chapter relating to garden sirdars.

The motion was agreed to.

The HON'BLE the ADVOCATE-GENERAL moved the omission of Sections 34 and 64. He proposed to omit the penalty imposed under Section 34 on a garden sirdar embarking emigrants without a pass on board a vessel carrying more than twenty persons. He thought one penalty on the Master of the vessel sufficient. Section 64 was an analogous section, and should also be omitted.

The motion was agreed to.

On the motion of the Advocate-General the word "duly" in the second line of Section 65, which was considered of dubious import, was omitted, and the words "under the provisions of this Act" were inserted after the word "executed."

In Section 66 the proviso in the first clause, and the words in the third clause relating to the number of persons allowed on board without a pass, were omitted as a necessary consequence of the omission of Section 34.

On the motion of the Advocate-General, Section 71 was recast so as to stand thus :—

"It shall not be lawful for the Master of any vessel, whether licensed or not, to embark any emigrants on board his vessel for conveyance to, or towards a labor district, if the total number of persons to be carried by such vessel (exclusive of the crew, and of any garden sirdar or other person accompanying the emigrants,) exceeds twenty, unless the emigrants are furnished with a pass by the Embarkation Agent in the form set out in Schedule (E) of this Act. The Master shall, on conviction by a Magistrate, be punished with fine not exceeding ten rupees for every emigrant illegally taken on board."

And the following clause, taken from the latter part of Section 64, which had been omitted, was added to the section, so as to enable Embarkation Agents to hold an examination :

"The Embarkation Agent shall not grant any such pass without a certificate from the Medical Inspector that such emigrants may be allowed to embark without danger to the health of other persons on board the vessel."

The Hon'ble the Advocate-General moved the insertion, after the word "emigrant" in line four of Section 75, of the words "whose contract has been executed under the provisions of this Act." It was necessary, in consequence of the enlarged definition of "emigrant," to restrict the meaning of the word "emigrant" in this section.

The motion was agreed to. Verbal amendments were, on the motion of the Advocate-General, made in Sections 77 and 78.

On the motion of the Advocate-General the word "licensed" was inserted before the word "vessel" in the third line of Section 79, so as to restrict the provisions of the section to licensed vessels.

Section 80, which gave the Magistrate power to stop emigrants proceeding by land, was, on the motion of the Advocate-General, omitted.

On the motion of the Advocate-General, the following new section was inserted after Section 97 :—

"The provisions of this chapter shall not apply to domestic servants, or to any person proceeding alone or accompanied by his wife and family only."

His Honor the President said the first of the amendments which he had to propose was a merely verbal one. The section to which the amendment referred, Section 17, was altered at the last meeting, but it was found that the words "said labor districts" were left without meaning. It was therefore proposed to insert the words "for which he is engaged" after the words "labor district" in the 10th line.

The motion was agreed to.

His Honor the President said it was necessary to alter Section 81 in some degree to meet the altered character of the Bill. It was not proposed that power should be given to the Magistrate to interfere with the transit of free laborers who were not proceeding in numbers exceeding twenty. It was therefore proposed to omit from the beginning of the section the words "If in any case whatever it appears to a Magistrate expedient that any emigrant, in consequence of ill-health, should not be allowed to proceed towards a labor district," and to substitute for them the following words :—

"If it appears to a Magistrate expedient that any emigrant, whose contract has been executed under the provisions of this Act, should not be allowed to proceed towards a labor district in consequence of ill-health."

The motion was agreed to.

His Honor the President moved the introduction of the following new section after Section 81 :—

"If it appears to a Magistrate that the health of any emigrant (other than an emigrant mentioned in the last preceding section) is such that he cannot proceed without endangering the health of those on board, he may order the detention of such emigrant."

The effect of this would be that ordinarily the Magistrate would not interfere with emigrants proceeding alone or in small parties by land. But if any free emigrant was proceeding in a crowded vessel, and his health was such that he could not proceed without danger to others, by reason of his having the small-pox or any other infectious or contagious disease, then the

Magistrate might interfere, and if his condition was such as to be dangerous to the health of others, the Magistrate would be bound to detain him.

The motion was agreed to.

His Honor the President moved that in Section 82, the words and figures "Section 81" be substituted for the words and figures "Sections 79, 80, or 81." Section 80had been omtited from the Bill; Section 79 referred only to the detention of vessels, and did not involve any extra expense, and the new section which had been added we did not propose to bring within the purview of Section 82. Accordingly if the Council would accept this amendment, Section 82 would read thus :—

"All expenses incurred under Section 81 by a Magistrate, or other officer deputed by him under the provisions of Section 93, in respect of any emigrant so detained (that is in regard to contract coolies), shall with interest at six per centum per annum be recoverable by him from the contractor by whom the emigrant has been engaged or forwarded, or, in the case of an emigrant engaged by a garden-sirdar, from the employer from whom such garden-sirdar received his certificate."

The motion was agreed to.

His Honor the President said he had now to move a series of small amendments which were merely intended to carry out the object of the amendments already made, and to restrict the operation of certain provisions of the Act to those particular emigrants whose contracts were made under the Act. The following amendments were then agreed to :—

Section 85.—In line 15, omit the word "such," and after "emigrants" insert "whose contracts have been executed under the provisions of this Act."

Section 86.—In the third line, after "emigrant," insert "whose contract has been executed under the provisions of this Act."

Section 87.—In the fourth line omit the word "the," and after "emigrants" insert "whose contracts have been executed under the provisions of this Act."

Section 88.—In the first line omit the word "the," and after "emigrants" insert "whose contracts have been executed under the provisions of this Act."

Section 89.—In the fourth line omit the word "the," and after "emigrants" insert "whose contracts have been executed under the provisions of this Act."

Section 96.—In the first line, after "emigrant," insert "whose contract has been executed under the provisions of this Act."

His Honor the President moved that the following clauses be added to Section 103 :—

"Such returns shall be kept separate with regard to each class of laborers as above mentioned, and, in the case of laborers as defined by this Act, the return of laborers employed shall specify the date on which the contract of each laborer commenced, and the period of service contracted for."

"Copies of such returns shall be entered in a book to be kept by the employer at his place of business or on his estate."

The object of this amendment was that inasmuch as we should in future have two classes of laborers in the tea districts, we should be enabled in the returns to distinguish between laborers bound under the Act, and consequently falling under the special provisions of the Act, from laborers entertained outside the Act.

The motion was agreed to.

On the motion of the President the following fresh sections were inserted after Section 103 :—

"(1.) If any laborer shall die, desert, complete his contract, or obtain a release therefrom during the six months preceding any such return as in the last preceding section is mentioned, the fact of such death, desertion, completion of contract, or release, shall be entered in the book to be kept as aforesaid by the employer, opposite the name of such laborer."

"(2.) On the arrival of any laborer, as defined by this Act, on the estate of his employer, the name and description of such laborer shall be entered in the book to be kept as aforesaid by the employer, and in like manner the name and description of every person who shall contract to labor otherwise than under the provisions of this Act shall be so entered. Such book shall be open to the Inspector of Laborers, who shall have power to muster all laborers and other persons lastly hereinbefore mentioned, and to verify the accuracy of the entries in such book."

His Honor the President said he now came to an amendment of some importance. The Council were aware that two meetings ago a proposition was submitted to the Council to omit what had been called the fugitive slave clause of the Act, that was to say, to take away from the employers of laborers, the planters, the power of seizing a run-away laborer. This subject had given to the Government a great deal of anxious consideration. On the one hand we had felt that the time had come when this power might to some degree be modified; on the other hand we had been inclined to yield in some degree to the representations of the planters that a too sudden change in the procedure in such cases would disturb their relations with the laborers and injuriously affect their interests. Accordingly he had the honor to submit an amendment of the nature of the clauses specified in the amendment paper. Originally it was proposed to take away the power of arrest from the planter, and that a summary proceeding before the Magistrate should be given. But it had been said, and somewhat reasonably said, that the Magistrates in these districts were few and far between; that the power of summary proceeding before the Magistrate would be a somewhat illusory gift; and that until we were prepared to provide Magisterial Officers at reasonable distances, it would not be fair to take away this power and give a practically inoperative remedy. We had in some degree yielded to these representations. We hoped gradually to increase the number of Magistrates, and to form Benches of Magistrates composed of planters and native gentlemen. But until these Benches were established, we were inclined to think that planters had some reason to exclaim against the too sudden withdrawal of the power of arrest. The effect of the amendments would be that where the magisterial power was established within ten miles of a plantation, there the summary power of arrest would cease; but in parts of the country where there was no Magistrate within a reasonable distance, a reasonable power of arrest would be retained in a modified form and subject to certain provisions as to fine and payment of reasonable compensation in cases of arrest without sufficient cause. That was the proposal His Honor had to submit to the Council, and with a view to carry that out he would propose certain amendments which, if accepted by the Council, would make the 1st and 2nd clauses of Section 123 run thus:—

"If any laborer deserts from his employer's service, and no Magistrate is resident within ten miles of the place where such laborer may be found, such employer, or any other person acting in his behalf, may, without first procuring a warrant and without the assistance of any police officer, who nevertheless shall be bound to give such assistance if called upon to do so, apprehend such laborer; provided nevertheless that if such laborer be found in the service of another employer he shall not be arrested without a warrant. Provided also that such employer or other person shall without delay give the said laborer in charge at the nearest Police Station, and there enter the charge upon which he shall have apprehended such laborer.

"Any laborer so given in charge shall be conveyed without delay to the nearest Magistrate, and if such Magistrate be authorized to deal with the case, he shall himself adjudicate upon the charge; but if not, he shall forward the said laborer under custody to the Magistrate or Bench of Magistrates authorized to deal with such cases, who shall thereupon adjudicate upon such charge."

The Hon'ble Mr. Dampier said he had an entirely verbal amendment to suggest. As the last limb of the first clause stood, it required the employer to whose protection the laborer had run away without delay to give the laborer in charge. The words "such employer" referred to the last mentioned employer, not the employer to whose estate the laborer had run away. Therefore he proposed to leave out the words "such employer or other person," and substitute for them the words "the person who shall apprehend the laborer under the provisions of this section."

His Honor the President having agreed to adopt the amendment, the motion as amended was agreed to.

On the motion of the President a verbal amendment was made in the 3rd clause of Section 123.

His Honor the President then moved the introduction of the following clause after Clause 3 of Section 123. It was proposed that if the arrest was unreasonable and unjustifiable it should be competent to the Magistrate to inflict

a fine and award compensation to the party aggrieved. His Honor hoped the Council would not think this an improper proposal:—

"If it appears to the Magistrate, or to the Bench of Magistrates adjudicating upon such charge, that such laborer has been apprehended without sufficient cause, it shall be lawful for such Magistrate or Bench of Magistrates to impose a fine not exceeding fifty rupees on the employer at whose instance such laborer has been apprehended, or to award compensation not exceeding fifty rupees to such laborer, and such compensation shall be paid by the employer at whose instance such laborer has been apprehended."

The motion was agreed to.

His Honor the President said he had an amendment to move in Section 12 which might be of some consequence. He found throughout the Bill that important functions were exercised by the Superintendent of Emigration. The Superintendent referred to could only be the Superintendent at Calcutta. His Honor did not quite understand how the Bill would have worked under these provisions; because although it was not now contemplated that contractors' depôts should be established elsewhere than in Calcutta, he believed garden-sirdars were entitled to enlist emigrants and convey them direct to the labor districts. In that case he did not see how the contracts could be signed before, and be attested by, the Superintendent of Emigration. His Honor was very much desirous that facilities should be given for the emigration of laborers and others from the over-populated districts of the west to the eastern districts. We were engaged in opening out roads and otherwise giving facilities for traffic from the west to the east. He was impressed with the belief that the excessive mortality in transit was due to the cholera infection at Goalundo and in the neighbourhood of Dacca. He had not the statistics before him at that moment, but he had found, as the result of very close investigation, that these outbreaks occurred soon after the vessel left Goalundo, and before it got well into Assam. If, therefore, the transit through these parts of the country could be avoided, great loss of life might be saved. It was desirable to encourage direct emigration from the over-populated districts of the west to the under-populated eastern districts. It might be desirable to give facilities for the establishment of depôts on the direct route. In that case we must either alter the frame-work of the Bill or give some of the authorities in other parts of the country the powers of the Superintendent of Emigration. With that view he would move that in the fourth line of Section 12, after the word "Calcutta," the following words be inserted:—

"and may also appoint any proper person to be Superintendent of Emigration at any other place, with all or any of the powers of a Superintendent of Emigration."

The motion was agreed to.

On the motion of the President verbal amendments were made in Schedules (A) and (E.)

The Hon'ble the Advocate-General said, in consequence of the amendment of the clauses of Section 123, he proposed to withdraw his amendment as to the omission of Clauses 1 and 2, and to proceed with the amendment which he proposed to put as a fourth clause, and which stood as follows:—

"Upon complaint made to a Magistrate by an employer, or any person acting on his behalf, that a laborer has deserted from his employer's service, such Magistrate may issue a summons for the attendance of such laborer, or a warrant for his arrest, and appoint a day for the hearing of the complaint without previously examining the complainant."

That clause was rendered necessary for the purpose of giving summary jurisdiction to Magistrates. Under the Criminal Procedure Code it was provided that whenever in regard to an offence under any law there was no procedure provided, the procedure of the Code of Criminal Procedure should be adopted. The Code of Criminal Procedure provided that in all applications for arrest there should be an examination of the complainant; and as it would be a hardship to require this in all applications for the arrest of deserting laborers, it was proposed to give this summary jurisdiction. It might be that the employer might be more than ten miles from the place of the apprehension of the laborer. If the Magistrate was satisfied of the fact of desertion, he might issue his warrant for detention without an examination of the complainant. No possible harm could arise, because under the third clause of the section, which was

introduced on the motion of His Honor the President, all persons apprehending laborers without sufficient cause were liable to punishment.

His Honor the President said he hoped the Council would accept this amendment. It would merely give a summary and quick mode of proceeding by one instead of two processes.

The motion was agreed to.

His Honor the President said the Council had now gone through all the amendments that had been proposed, and if any hon'ble member had any further amendment he would have an opportunity of bringing it forward at the next meeting. The intention of the Government was that the Bill should be carefully printed and circulated, and that the Bill should be taken on the further stage that day week.

The Council was adjourned to Saturday, the 20th December.

HALF-YEARLY TABLES OF CINCHONA PLANTS.

Rainfall, Weather and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 13th December 1873.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.				
		Western Districts.		
BURDWAN DIVISION.	1	Burdwan, 16th Dec. 1873	1·38	Slight rain in all thannahs of sudder sub-division and of Jehanabad. Rain has done harm to amun crop, good to sugarcane, and winter crop, except mustard. Price of rice little cheaper. Export continues. Fever decreasing.
	2	Bancoorah, 13th „ „	0·07 on the 11th.	Cloudy in the middle of the week. The rest of the week dry. The hymnuti paddy is being reaped. There has been no change in the prospects of the sugarcane and other rubbee crops. The rainfall at the sudder station on the night of the 10th has slightly injured the ripe paddy in the fields, and has done no good to the rubbee crops.
	3	Beerbhoom, 13th „ „	Nil	Unseasonably warm and frequently cloudy. Harvest of late rice still in progress. Cold weather sowings small. Sugarcane declining from continued drought. 6,149 maunds exported by rail to Bhaugulpore and Patna Divisions. Prices slightly fallen.
	4	Midnapore, 13th „ „	·04	From the 9th to the 12th cloudy and close, like August weather; one shower fell on the morning of the 11th. At Garbetta ·5 inches of rain fell. It has generally benefited the sugarcane and the cold weather crops; gardens and grazing grounds are also benefited. Apparently it has done no harm to the rice which is being harvested, whether standing or cut. Water in drinking and bathing reservoirs decreasing very rapidly.
	5	Hooghly, 13th „ „	·76	Clear and cloudy; rain on the morning of the 11th. The rain is of no use except for the potato crop. Prospect of other crops generally as before,—a six-anna crop of late rice and a four-anna crop of pulses, &c.
		Howrah, 13th „ „	·72	Heavy rains on the 11th all over the district. Weather seems again to be settled and fine. The crops remain unchanged. The harvest has begun in many places. No variation to make in last report. There is no noticeable change in the price anywhere; it is believed that the harvest, which has just begun, will bring prices down greatly.
		Central Districts.		
PRESIDENCY DIVISION.	6	24-Pergunnahs, 15th Dec. 1873.	0·41	Cloudy in the morning during the early part of the week. A good fall of rain on the 11th, the weather has since cleared up, but continues warm for the time of the year. No change in the prospects of the late rice crop, the reaping of which is going on rapidly. The rain on the 11th in the Sudder, Barrackpore, Dum-Dum, and Baraset Sub-divisions, has benefited the cold weather crops without, as far as known, injuring to any appreciable extent the rice crop on the ground. In Busseerhat the people are anxious to sow all suitable land with boro dhan. Fever continues unabated in Busseerhat. In Barriepore it is spreading eastwards. In Satkhira and Baraset it is abating.
	7	Nuddea, 13th „ „	0·36	Cloudy until the 11th, when rain fell. Dry and clear since that date. The late crop in the Kushtea Sub-division is expected to yield a six-anna outturn; in Meherpore an eight-anna crop of the principal cold weather food-grains may be expected; prospects have not otherwise altered. The rain of the 11th has probably done more harm than good. A few cases of cholera have been reported from Chooadangah.
	8	Jessore, 13th „ „	·08	Generally clear, with one or two cloudy days. Slight drizzling rain in some places on one or two days. Prospects of cold weather crops much as before. The outturn of the rice crop may be expected on the whole to be an eight-anna one. There has been a general fall in the price of coarse rice since last week.
RAJSHAHYE DIVISION.	9	Moorshedabad, 13th Dec. 1873.	Nil	The weather same as last reported. Heavy clouds at intervals, but no rain. A very slight drizzle at Ramporehat on the 11th. The cutting of the late rice crop continues, and the produce is already being brought into the market. The cold weather crops have not improved, and rain is much needed for them. The only successful crop is kalai, which will be quite up to the average in most parts. Oil-seed (teel) and arhar are also pretty fair and may yield average crops. Boats with unhusked rice (dhan) from the eastern district have arrived at the mouth of the Khariyanadi in Jalangi, and their cargoes are being bought up by the inhabitants of that neighbourhood at the rate of 27½ seers the rupee. Prices are stationary in the bazars. Small-pox has broken out in thannahs Sooty and Kalliangunge and at Kandhee.
	10	Dinagepore, 13th „ „	Nil	Cloudy towards evening for the last two or three days; days clear and bright. Rice is slightly cheaper. A pretty fair rice crop is expected from Thakurgaon, the northern thannah of the district, where some rain fell in October. Wheat, barley, and other cold weather crops are suffering for want of rain.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)			
	Central Districts.—(Contd.)		
RAJSHAHYE DITN.—(*Contd.*) 11	Maldah, 13th Dec. 1873	Nil	Clouds collect and disperse; weather dry and cool; wind northerly. The ryots are busily engaged in reaping and harvesting the winter rice crop. The yield of the winter rice crop varies in places, but all round will not be more than a four-anna crop. The cold weather crops require rain. Pulse (kalai) ripening. Prices stationary. Supply of grain at local markets sufficient for local requirements. Between 2,000 or 3,000 labourers are at work on ordinary district roads and those newly projected, but much of the local labour will be occupied for some days in harvesting the rice crop. A district relief committee has been formed. Subscriptions raised, and small sums placed at the disposal of each police officer at out stations for relief of any casual cases of actual want or distress. No sign of anything like distress or want at present. Arrangements in progress for importing and storing grains for relief works.
12	Rajshahye 13th „ „	Nil	No change in the weather, neither any apparent prospect of rain, the continued want of which is telling considerably on the growing crops (excepting arhar and mashkalai), as well as impairing the chance of successfully completing the sowings still unfinished. The latest sowings are not germinating freely in consequence of the very dry state of the soil. The cultivation of cold weather crops generally is less than usual owing to the unfavorable state of the ground for receiving seed. In some places sugarcane is being cut early for fear of the yield of juice being shortened by the continued drought. Rahar and mashkalai are the best crops in the district and are as yet unaffected by want of rain. Boro dhan cultivation is being pushed on with much energy, especially in the west and north-west (the Bhurind tract), where the preparations for this crop are more extensive than in ordinary years. Young plants are being removed from the nurseries to the banks of tanks and khals, whence they will be finally transplanted to the fields. Mulberry and indigo are thriving, and there is promise of good outturn of silk cocoons. The only change in prices is a slight fall in the north-western and north-eastern portion of the district. Cases of cholera are decreasing in frequency, but they have not altogether ceased.
13	Rungpore, 13th „ „	Nil	Cloudless, with foggy mornings. Cutting of crops going on. Prospects the same as before. Spring crops being sown, but rain is wanted. Rice slightly dearer; Rs. 3-8 to Rs. 5.
14	Bogra, 13th „ „	Nil	Weather dry still, not a drop of rain as yet. Fever is prevailing more or less in almost all the police stations of the district. Reaping of the late amun paddy has commenced throughout the district; a poor outturn is to be expected. In parts where irrigation was carried on, the yield is much less than in previous years. Cold weather crops in low lands are somewhat favorable, but those on high lands are greatly in need of rain. Mulberry is doing pretty well still. Sugarcane promises well. Price of ordinary rice at the Bogra bazar on the 13th is 12 seers and 12 chittacks per rupee.
15	Pubna, 13th „ „	Nil	Weather cold, with chilly winds from the north-west. No rain at all. The amun dhan now being cut; of the winter crops the moog and mashkalai are being reaped, which in some parts are fair. The prospects of sugarcane and turmeric good. The prospect of the rest of the winter crops is daily growing worse for want of rain, which is urgently required for their growth.
COOCH BEHAR DITN. 16	Darjeeling, 13th „ „	Nil	Cloudy, misty weather during half the week, but not a drop of rain. Common rice a little cheaper than during last week. Bhoota has also fallen in price.
17	Julpigoree, 13th „ „	Nil	Bright, clear weather, no signs of rain. The mornings are not as cold as they should be at this time of the year. The sun is unusually powerful, and the middays and evenings are more like early March weather than December. Dews have been rather heavier for the last few days. Hymunti dhan is being cut all over the district, and as far as can be ascertained is some twelve or thirteen annas in the Dooars all round, ten and twelve annas north of Julpigoree, ten annas towards Titalyah, and twelve annas round and immediately south of Julpigoree. Boda six or seven annas all round. Cold weather crops promising well. Sugarcane very good. Old stock of dhan mostly exported from the district, and exportation going on briskly. Prices are falling. New dhan coming into the market. In some of the hâts in the Dooars this week, aus dhan is selling at 14 annas per maund, hymunti at Re. 1. Hymunti rice, coarse, Rs. 1-12; hymunti rice, best, Rs. 2-4; and aus rice Rs. 1-8. The rates, though cheap for the present season, are just double what the rates were at this time last year. At the Fallacota hât old hymunti rice is selling at 20 seers per rupee, new at 26 seers.
	Cooch Behar, 13th „ „	Nil	The mornings are foggy. No change in the prospects of the crops. A shower of rain will now do much good to the cold weather crops.
	Eastern Districts.		
DACCA DIVISION. 18	Dacca, 16th „ „	Nil	Weather still warm. Prospects of crops as before. Oil-seeds will be a short crop. Fever abating.
19	Furreedpore, 13th „ „	Nil	No change in the condition of the rubbee crops. There has not been rain for 11 weeks. Barometer is steadily rising and marks nearly 30 inches, which indicates settled fine weather. The temperature is more that of February. Clouds on the 11th. In most villages there are probably one or two richer ryots or jotedars who keep some little extra grain for exchange purposes, usually to loan out to poorer ryots, returnable in kind after the harvest. There are 2,307 villages, and supposing 50 maunds is estimated all round for each village, this would give 1,15,350 maunds; none of this would be available for export. In a year like the current one this would be doled out to such villages as have none in hand. As this rice is loaned out just before the harvest is due, it is therefore questionable whether any of this remains in stock.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)				
		Eastern Districts.—(*Contd.*)		
DACCA DIVN.—(*Contd.*)	20	Backergunge, ...	.....	Return not received.
	21	Mymensing, 13th Dec. 1873	Nil	Cloudy at the beginning of the week; afterwards bright, clear weather, with occasional morning fogs. Little change in the state of the crops since last report. The price of food has risen somewhat throughout the district. No present sign of rain. Pulses are being harvested in some places. The new amun rice is beginning to come into the market. Fever still prevalent in parts of the Attia sub-division. An outbreak of cholera is reported in the town of Kissengunge.
	22	Sylhet, 6th „ „	Nil	Close all through the week, and very cloudy up to Wednesday. The late rice is being cut, half nearly cut, the outturn will be a good twelve-anna crop.
	23	Cachar, 6th „ „	0·12	Cloudy and too warm. Slight rain followed the earth-quake of last Saturday. The river has risen about two feet since the morning of the 6th December. The crops are doing well, insects having altogether disappeared; outturn may exceed anticipations. Late rice is being cut all over the district.
CHITTAGONG DIVISION.	24	Chittagong, 6th „ „	·95	Up to Thursday night dull, with drizzling rain. Since then the weather has cleared up and is fine and bright. The rain has put a stop to harvest operations. Insects have again appeared in the Chuckerea and Satkanea thannahs.
	25	Noakhally, 6th „ „	1·34	Weather for the most part rainy or cloudy. It is reported that the "sani" insect is attacking the crops in the neighbourhood of Sudharam. Its appearance is attributable to the prevalent close cloudy weather. In Sundeep, Luckhecpore, and other outlying thannahs the prospects are generally good. The late rice is being reaped. Exportation is going on and prices slightly rising. There is cholera both in the interior and the Sudder Station.
	26	Tipperah, 12th „ „	Nil.	Weather seasonable. The amun dhan is being reaped and prospects have not varied since last report. Large exportations to districts, even as far as Benares and Ghazipore, are going on, but in spite of this there has been a slight fall in prices, indicating that the store of aus dhan must be larger than was estimated. The prospects of the winter crops are somewhat better, and the recent rain has done good to so much of the mustard as had not flowered. Cholera has not abated.
	27	Chittagong Hill Tracts, 6th Dec. 1873.	·75	Cloudy from the 1st to the 5th December, with slight and occasional falls of rain. There has been no cold weather throughout the whole week, and the temperature has been most unseasonable. The cotton is now being collected. The seeds of tobacco, mustard, and other cold weather crops are being sown; in some places they have germinated, and the prospects are generally good. There seems no dread of scarcity, but in some of the local markets there has been a rise in the price of rice, which is attributable to a corresponding rise in the Chittagong markets.
		Hill Tipperah, 6th „ „	0·76	Cloudy and showery throughout the greater part of the week; unseasonably warm both day and night. The paddy is being reaped and is generally turning out better than was anticipated. The showery weather, though good for whatever cold weather crops there are, has given rise to apprehensions of damage by insects to the paddy still uncut. Prices have risen probably in consequence of this.
BEHAR.				
PATNA DIVISION.	28	Patna, 15th „ „	Nil	Mornings and evenings very cold. No rain has fallen, but the heavy dews at night do much good to the young rubbee crops which look well where they have germinated. The rice is being cut in Behar and a one-third crop is expected. The health of the district good.
	29	Gya, 13th „ „	Nil	Cool, cloudy on the 10th, but no rain fell. The rice crop is being harvested. A six-anna crop is expected. The rubbee is thriving well wherever water is available, but rain is much wanted. The prices are about stationary. The health of the district is good.
	30	Shahabad, 13th „ „	Nil	Cloudy and threatening on the 10th, clear and cold during the rest of the week. Little change since last week. Prices are stationary. The rice crop, where it has been saved, is being harvested. Land is still being ploughed and sown with cold weather crops wherever possible.
	31	Tirhoot, 13th „ „	Nil	Seasonable, cold and clear. In Seetamarhee sub-division the dhan is being cut and harvested in places where it has not already been cut as fodder for cattle. In Pergunnahs Basotri Mahnid, Laduari, and Nanpore there will be an one to two-anna crop. The time for sowing the rubbee crop is now passed. But if rain falls cheena and moog will be sown at once. The rahur, mustard, and wheat are coming on well where irrigation has been practicable. In the Durbhungah sub-division the rice that has come to maturity is being reaped. The crop will not exceed all round an average of two annas. No change in the rubbee prospects. Rahur and janera still look well. In the Mudhobani sub-division a three-anna rice crop is expected. The rubbee crops which have only been sown over little more than one-fifth of the ordinary area are languishing for want of rain. In the Sudder, Hajeepore, and Tajpore sub-divisions the crops hold out surprisingly. The outturn of the rice crop for the whole district cannot be estimated at more than two to three annas.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
PATNA DIVISION.—(*Contd.*) 32	Sarun, 13th Dec. 1873.	Nil	Seasonable and cold, west wind prevailing. Paddy is being harvested. It is believed that three-fourths of the ordinary rubbee area have been sown, and where sown, the crops have germinated, and with the exception of one-tenth on unfavorable soils, which has since been killed by the long drought, are still doing fairly, and will yield half an average outturn in the event of rain falling within this month. Irrigation is steadily going on where practicable. Poppy has been sown nearly everywhere and has germinated well. Indigo fields are being prepared for the coming season. Prices of food-grains steady.
33	Chumparun, 13th „ „	Nil	Weather cool. West winds. The yield of late rice crop would be at the most about two annas. The rubbee plants are looking healthy on account of the beneficient night dews of the season. If it rains even in the latter end of December there is every hope of the cultivators harvesting ten to twelve-anna crop as then the season of sowing would not be over. To meet the scarcity in the face to some extent, the Koeris have largely planted cucumbers and pumpkins and other little vegetables.
BHAUGULPORE DIVN. 34	Monghyr, 13th „ „	Nil	Little or no change since last week. Rain is much wanted. It is doubtful whether the rubbee can come to maturity without rain. The crop however hitherto sown looks generally fair. No prospect of fresh sowings. Rice crops in Jamui gathered; yield two to six annas.
35	Bhaugulpore, 16th „ „	Nil	Aghani rice being rapidly reaped; about two annas outturn expected in Soopool sub-division; about nine annas in Modhepore; about eight annas in Sudder, and about ten annas in Banka sub-divisions. Rubbee still promising. General health very good.
36	Purneah, 13th „ „	Nil	No change in weather. The mustard still promises well, as also the arhar and janera. The rice crop in the west of Dhurmpore near the Kosi is wonderfully good, but is being exported. The wheat and pulses require rain sadly. Prices, owing to the large importation, have fallen. New rice is coming into the market. No change on last week's report as regards eastern and northern parts.
37	Sonthal Pergunnahs, 13th Dec. 1873.	Nil	Prospect of rain on the 11th and 12th, but only a few drops fell: the weather has now become bright and cold. No change in the state and prospect of the crops since last week.
ORISSA.			
ORISSA DIVISION. 38	Cuttack, 16th „ „	1·29	Weather very cool. Sarud crop is being reaped; outturn a fair average. Cold weather crops promising well. Public health excellent.
39	Pooree, 5th „ „	·88	Weather extremely bad; it is cloudy, with almost incessant rain and keen and chilly wind. The harvest of the loghoo or second rice crop is nearly completed. The recent rains have suspended all agricultural operations. The late rice crop is ripening. Cold weather crops coming on; both these crops are yet in good condition, but the continued bad weather prevailing the past eleven days will damage both the crops if it continues longer, otherwise the produce is expected to be fair. The rain and wind have laid down the paddy in some places and beat out the grains from the ears, while the ripening is retarded for want of sun. Considerable injury to the crops may be expected if the weather continues for some days more.
40	Balasore, 13th „ „	·60	Warm during the middle of the week. Rain on the 11th, since then the weather seasonable. Most of the paddy (quite twelve annas) has been cut. Miscellaneous crops doing well. Prices rather high throughout the district: at Bhadrakh twenty-five seers, and at Jellasore twenty-four per rupee.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
41	Hazareebaugh, 13th Dec. 1873.	Nil	Unsettled. Rain still holds off, though the cloudy weather give every promise of rain. It is now clear, bright, and cold. The greater portion of the rice crop has been harvested, but nowhere has the outturn been a favourable one, ten annas being about the estimated quantity. The prospect of the rubbee is unfavourable, and unless revived by timely rain short crop is inevitable, specially as much land usually cultivated lies fallow from want of moisture. Prices much the same as in last week's report. Imports are being received in the north from Behar district. Rice is selling at Gawan at 15 seers to the rupee; on the east of Hazareebaugh it is selling at 15 and 14½ seers. Pergunnahs Aharee, Datara, Kunda, with part of Kurunpura and Chaie are said to have at least 32,000 maunds stored in mahajun's golahs. Petty thefts of standing crops have increased in frequency. No heinous crime during the last four weeks.
42	Lohardugga, 12th „ „	Nil	Cloudy and warm for the season. There was a sharp shower of rain on the evening of the 10th, but which appears to have been very partial. The whole of the dhan has been cut. The general average outturn in the sudder division is nearly twelve annas; the oil-seeds are not so good and will scarcely give a ten-anna crop on the whole. The prospects of the rubbee crops are very bad owing to the total absence of rain in the district. In Palamow a six-anna crop of dhan is still expected and about an eight-anna crop of oil-seeds. The rubbee crops there are dying for want of rain, and in some parts are suffering from the attacks of insects.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.—(*Contd.*)			
	South-West Frontier Agency.—(Contd.)		
43	Singbhoom, 6th Dec. 1873	Nil	No rain, but weather still threatening. Nothing to add to the last weekly report. The crops have nearly all been cut and matters stand as before. There has been a slight rise in the price of rice since last week.
44	Maunbhoom, 13th " "	0·26	A good shower fell in the Sudder Station on the night of the 10th. No news whether similar rain has fallen in the interior. The state of things same as in last report; only the influx of new rice into the market has caused the price to fall a little, the average price now being 18¼ seers for the rupee. No knowing as to the effect of the rain in the interior.
ASSAM AND ADJACENT HILLS			
45	Goalparah, 6th " "	Nil	Weather cool, nights and mornings foggy. No material change in the state and prospects of the crops.
46	Kamroop, ...	.....	Return not received.
47	Durrung, 5th " "	Nil	Bright weather: easterly breeze, daily range of temperature high. No change in the prospect of the outturn of the rice crop.
48	Nowgong, 5th " "	Nil	Weather clear again and seasonable, with heavy dews at night and dense foggy mornings. The clouds at the beginning of the week passed away and only a few drops of rain fell. The rice crop, ripe and being rapidly cut and gathered in. The crop on the whole will be an average one. Kalai crop poor; mustard and sugarcane doing well. Tea operations over for the season, and pruning of the bushes already commenced on some estates. The general health of the district good.
49	Seebsaugor, 6th " "	Nil	No change in weather. A slight shock of earth-quake was felt at Golaghat on the 2nd instant. The prospect of the rice crop unchanged. Harvesting has commenced. Mustard crop backward for want of rain.
50	Luckimpore, 6th " "	Nil	Heavy fogs every morning. Nights cold. A hot sun during the day. Thermometer, maximum 73°, minimum 53°. Sali rice crop being cut is expected to prove not far short of an average one. Mustard sowing completed; cold weather crops generally continue promising. Public health much the same as before; low fever rather prevalent.
51	Naga Hills, 28th Nov. 1873.	Nil	Weather seasonable, mornings and evenings chilly and cold. Cotton is being gathered and stored, the yield is below the average. A small quantity of rice was brought down to Samagoodting for sale by Nagas from the higher ranges.
52	Khasi & Jynteah Hills, 5th Dec. 1873.	Nil	Morning bright sun, afternoon generally cloudy. There is no rice standing now, the whole of it has been harvested; the murwah is doing well.
53	Garo Hills, 6th Dec. 1873.	Nil	Fair. On some days rather hazy; less clouds this week, and nights clear. There has been no wind to injure the cotton which is still uncollected. The Garos have commenced jooming in some parts. Little to be said regarding the crops in the hills.

Published for general information.

The mean barometer, as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

[First Publication.]

The 17th December 1873.—The following Rules for Native Civil Service Examinations and Civil Service Classes coming into force after the Examination of 1874, are published for general information:—

NATIVE CIVIL SERVICE EXAMINATIONS AND CIVIL SERVICE CLASSES.

[Rules to come into force after the examination of 1874.]

INTRODUCTORY.

1. Now that there have been held two annual examinations for the Native Civil Service, and that a third examination is to take place in February 1874, the Lieutenant-Governor wishes to place the Native Civil Service examinations and the preparatory classes for those examinations on a permanent footing.

2. All appointments in the Subordinate Executive Service, and all posts of Rs. 50 monthly salary and upwards in the sub-divisional establishments, both in Regulation and Non-Regulation Provinces, will ordinarily be reserved for persons who pass the Native Civil Service examination. Gazetted appointments in the Police and Opium Departments will generally be conferred on persons who pass this examination; but candidates will not be eligible for these departments save under a special certificate, which can only be granted under the orders of the Lieutenant-Governor. A list* of the persons who passed the Native Civil Service examinations of 1872 and 1873 showing the appointments they now hold, is appended to these rules. Lists of successful examinees will be published in the Gazette, so that Commissioners, Magistrates, and Educational Committees may select for ministerial or other appointments passed candidates for whom vacancies in the Native Civil Service may not be immediately available.

Appendix A.

ELIGIBILITY AND PRELIMINARIES TO THE EXAMINATION.

3. All candidates eligible for appointments under rules 5 and 6 (below), who satisfy the preliminary requirements, will be admitted to the Native Civil Service Examination. No candidate will be admitted to the special examination for the Police, Non-Regulation Service, or the Opium Department without a special certificate, which can only be granted under the orders of the Lieutenant-Governor.

Admissible to examination.

4. The preliminary requirements which all candidates must satisfy are—

(*a*) *Certificate of Character.*

A certificate will be required from every candidate of his character, respectability and general moral fitness, such certificate being signed by two gentlemen of his own nationality, resident in the district of which he is a native or where he usually resides, and also signed by the Judge or Magistrate of such district. The certificate of the two first named is expected to be based upon personal knowledge, and the certificate of the Judge or Magistrate to indicate that the gentlemen who have signed it are qualified by their position and character to give such a certificate, and that the Judge or Magistrate himself knows nothing to the prejudice of the candidate. In the case of the town of Calcutta, instead of the signature of the Judge or Magistrate, the certificate should bear that of any Judge of the High Court, or the Commissioner of Police, or the Commissioner of the Presidency Division.

(*b*) *Certificate of Sound Health.*

Each candidate will be required to produce a certificate from a Government medical officer, stating that the candidate is generally a man of sound health, that he has expressed his willingness to serve in any district of the Lower Provinces, and that he (the medical officer) believes him to be capable of doing so, so far as can be judged antecedently.

(c) *Certificate of ability to Ride or Walk.*

Every candidate for the higher appointments will also be required to prove that he can ride, and for this purpose he may apply to the Magistrate of the district, who will either satisfy himself on the point, or select some other person he thinks competent for that purpose. The examiner must satisfy himself from his own personal observation that the candidate can ride not less than 12 miles at a rapid pace, and is in this respect competent for all practical purposes of district work; and if such examiner be not the Magistrate himself, the certificate must be countersigned by the Magistrate.

All the candidates who have not been locally examined will be required to appear before some person in Calcutta who will be selected for the purpose.

Every candidate for an appointment of less than Rs. 100 will be required to prove either that he can ride as above, or that he can walk twelve miles within 3½ hours without difficulty or prostration, to be certified in the same manner as the riding.

Persons eligible for all appointments.

5. The following persons having passed the required standard will be eligible to the Native Civil Service in all appointments:—

(a) Persons who have served Government for six years.

(b) Persons who have passed the Entrance Examination and have served Government for three years.

Provided that they have in cases (a) or (b) attained and have held for not less than one year a responsible permanent appointment, above that of copyist, with a salary not less than Rs. 25 in one of the civil departments of the Government service, and can produce a sufficient certificate of ability, good conduct, and fitness for promotion from their official superiors.

(c) Persons who have taken a University degree in arts, law, medicine, or engineering.

(d) Persons who, having passed the First Arts Examination or an examination of corresponding degree in one of the special colleges, attend the Civil Service classes for one year and acquit themselves well at the Native Civil Service examination.

(e) Persons who having passed the Entrance Examination attend the Civil Service classes for two years and acquit themselves well at the Native Civil Service Examination.

(f) Persons who may be specially declared eligible for all appointments by a certificate under the hand of a Secretary to Government.

Persons eligible for appointments of less than Rs. 100 per mensem.

6. The following persons having passed the required standard will be eligible to the Native Civil Service in appointments of less than Rs. per mensem:—

(a) Persons who have served Government with credit and efficiency for not less than three years, whose thorough facility in the use of the vernacular is certified, and who pass a preliminary examination in English.

(b) Natives of Hindustan, Orissa, and Assam, natives of Bengal of Mahommedan families, and natives of any other districts which may be hereafter specially notified, who have served Government with credit and efficiency for not less than three years, and who can show that they have received a thoroughly good education in the vernacular. This privilege is limited to two years from this date, and it must be understood that such persons cannot expect advancement unless they qualify in English, that being the language of official correspondence in Bengal.

(c) Persons who have passed the Entrance Examination.

(d) Persons who may have been specially declared eligible for appointments of the lower grade by a certificate under the hand of a Secretary to Government.

7. Candidates who have not served Government for three years, and one year of whose service has not been passed in a post such as is described in rule 5 (above) are required to pass in—

The Vernacular.	Drawing.
Chemistry.	Engineering.
Botany.	Surveying.
Law.	Gymnastics.

Candidates who have served Government for three years as above, are required to pass in—

The Vernacular.
Law.
Drawing.
Surveying.

With these latter candidates the other subjects will be optional, but will count for a place in the list of successful candidates.

8. Candidates who produce certificates of having passed the undermentioned examinations will be exempted from liability to pass in the following subjects, namely—

(a) Persons, who have passed the University First Arts Examination in chemistry, are exempt from liability to pass in that subject.

(*b*) Persons, who have passed the B. A. Examination, Branch B. group 3 or group 4 (or any corresponding science course to be hereafter notified by Government), will be exempt from liability to pass in chemistry and botany.

(*c*) Persons, who have gained a Civil Engineering College certificate of the overseer's or of any higher grade, will be exempt from liability to examination in drawing, surveying and engineering.

(*d*) Persons, who have taken a degree in Indian law, or who have gained a first grade pleader's certificate, will be exempt from liability to examination in law.

Candidates who are entitled to exemption under this rule will be credited at the examination with two-thirds of full marks for the subject for which such exemption is allowed.

PROCEDURE TO GAIN ADMISSION.

9. Applications for admission to the Native Civil Service examination may be made—

(*a*) By persons who attend Civil Service classes to the Principal of the College where the classes may be held.

(*b*) By persons who have not attended Civil Service classes to the Magistrate of any one of the following districts:—

[illegible]re the medical officers will also examine candidates and grant certificates of sound health [illegible]r Appendix B.

Fees.

[illegible]0. Every candidate when submitting his application for admission to examination should state the subjects in which he desires to be examined, and annex certificates in any subjects in which he is required or permitted by these rul-s to show that he is duly qualified. He must at the same time tender a fee for each subject in which he has to be examined, computed according to the scale given below, if he is a candidate for the higher class of appointments:—

	Rs.
Elementary English examination for European candidates ...	8
Law	8
Surveying and engineering	8
Each vernacular	4
Medical examination	4
Riding or walking examination	4

Candidates for appointments of less than Rs. 100 per mensem will pay fees at half the above rates.

11. The authority receiving the application, if he is satisfied that the candidate is admissible to the examination under these rules, shall receive and credit the fees, will desire the candidate to undergo the required medical and riding or walking examination, if he has not already obtained certificates thereof, and when all certificates are complete, shall forward the application with the certificates of health, character, &c., riding or walking, of payment of fees, and certificates in any subject described in Rule 8, to the Under-Secretary to the Government of Bengal (Examination Department). No fee is required when a certificate is sufficient and is produced.

Preliminary examination of native candidates at outstations.

12. A preliminary examination in English and the vernacular of those candidates who have not already qualified in those subjects, will be held. Persons who have passed the First Arts Examination, or the Entrance Examination in the first division, or who possess a [illegible]niversity degree or certificate in Law or Engineering, will not be liable to the preliminary [illegible]xamination in English. Persons who have gained vernacular scholarships, or who have [illegible]erved with credit in vernacular offices, will not be liable to the preliminary examination in [illegible]he vernacular. The preliminary examinations will be held on some date in December, to be [illegible]cally notified by the Magistrate of the District, at the stations named in Rule 9 (above).

ANNUAL EXAMINATION AT CENTRES.

[illegible]e of examination.

13. The annual examination of candidates for admission into the roll of persons qualified for admission into the Native Civil Service under this Government will be held on some day in the month of [illegible]ary, 1875, not later than the 20th of that month, at Hooghly, Dacca, Patna, Cuttack, and [illegible]atty. There will, if need be, be special examinations for the Police, the Non-Regulation

Provinces, and the Opium Department. For the ordinary branches of the service there will be two standards—one higher, qualifying for all appointments, and another lower, qualifying for appointments of less than Rs. 100 per mensem only.

Preliminary examination of European candidates in English at the centres.

14. Previous to the other examinations, European candidates who have not passed any University examination will be required, besides passing an examination in English, to show that they possess a thorough knowledge of writing and arithmetic. They must be able to write well, quickly, and correctly, from dictation, to compose a report, and to do all ordinary arithmetic correctly and quickly, which must be duly certified by the examiners.

By European is meant any person whose native language is English or any other European tongue.

NOTIFICATION.

The 18th December 1873.—In continuation of the Notification, dated 1st March 1873, regarding the planting and cutting of trees, and the cutting of branches which interfere with telegraph wires, published at pages 335-36 of the *Calcutta Gazette*, the attention of all officers subordinate to the Government of Bengal is drawn to the following orders contained in a Resolution recorded in the Public Works Department, of the Government of India, dated 23rd October 1873, No. 1551—778R, on the subject of cutting trees which interfere with the construction of railway lines:—

"1. The Government of the Punjab has represented that for 5 miles on the west s of the Grand Trunk Road in the Goojrat District the trees planted and reared with t utmost trouble and great expense have been cut down by the orders of the officials of th Railway and Telegraph Departments. The Lieutenant-Governor, believing this wholesal destruction to have been unnecessary, trusts that no trees will in future be destroyed withou the permission of the Deputy Commissioner of the District. On receiving this communication the Government of India ordered that inquiry should be instituted concerning the circumstances under which the trees were injured.

"2. The Telegraph Department explain that their wires were for the use of the railway, and that they believed the trees were in charge of the Railway Officers, whose permission being obtained, only such trees were removed or pruned as obstructed the setting up of the telegraph wires.

"3. The Superintendent of Works on the Chenab Bridge believes that the actual amount of damage caused by the Railway and Telegraph Officers has not been so great as is supposed. He explains that all the trees were young and too close together to permit their proper development, so that the pruning was an improvement. He says that it was absolutely necessary to remove trees which stood on places now occupied by the ballast of the line. He describes the growth near the railway as keekur bushes, and says that in many of the curves drivers of engines could not have obtained a sufficiently clear look-out if they had been allowed to remain, and that the removal of some trees was also desirable to prevent accidents in the case of their being blown down across the railway.

"4. The Chief Engineer of the Punjab Northern (State) Railway states that he is impressed with the importance of protecting trees in the Punjab as much as possible, and he regrets that the Superintendent of Works did not place himself in communication with the Deputy Commissioner. The Chief Engineer also observes that it was clearly wrong to cut the trees before it became absolutely necessary to do so.

"5. The Officiating Chief Engineer of the Punjab Northern (State) Railway has further represented the damage done to trees by the camp followers with troops marching along the road. This matter appears to require the attention of the military authorities.

"6. The Governor-General in Council believing the removal of the trees to have been unnecessary before locomotive engines were placed on the Railway, is of opinion that the Railway Officers must have acted with undue precipitancy when they pruned and cleared away the young trees along the Grand Trunk Road in the vicinity of the Railway without consulting the civil authorities. The Government of India desire to encourage the growth of trees throughout the Punjab in every way possible, and the Governor-General in Council expects that all Railway and other Officials will act in concert with the civil authorities in the preservation of trees. Circular No. 74T on this subject has been issued to the Officers of the Telegraph Department, and His Excellency in Council desires that Officers in charge of Railways will in future consider these orders applicable to themselves in principle and spirit."

AT the Court at *Balmoral*, the 30th day of *September* 1873.

PRESENT :

The QUEEN's Most Excellent Majesty in Council.

WHEREAS by an Act of Parliament made and passed in the Session of Parliament holden in the thirty-third and thirty-fourth years of the reign of Her Present Majesty, intituled "An Act for Amending the Law relating to the Extradition of Criminals," it was, amongst other things, enacted, that where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may, by Order in Council, direct that the said Act shall apply in the case of such foreign State; and that Her Majesty may, by the same or any subsequent order, limit the operation of the order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's dominions specified in the Order and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient :

And whereas a Treaty was concluded on the twenty-sixth day of June last between Her Majesty and the King of Sweden and Norway for the mutual extradition of fugitive criminals, which Treaty is in the terms following :—

HER Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the King of Sweden and Norway, having judged it expedient, with a view to the better administration of justice, and to the more complete prevention of crime within the respective countries, that persons charged with or convicted of the crimes hereinafter enumerated, and being fugitives from justice, should, under certain circumstances, be reciprocally delivered up; their said Majesties have named as their Plenipotentiaries to conclude a Treaty for this purpose; that is to say :—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Honourable Edward Morris Erskine, a Companion of the Most Honourable Order of the Bath, Her Majesty's Envoy Extraordinary and Minister Plenipotentiary to His Majesty the King of Sweden and Norway;

And His Majesty the King of Sweden and Norway, Henrick Wilhelm Bredberg, Grand Cross of the Order of the Polar Star, His Majesty's Councillor of State and Acting Minister for Foreign Affairs;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles :—

ARTICLE I.

The High Contracting Parties engage to deliver up to each other those persons who, being accused or convicted of a crime committed in the territory of the one Party, shall be found within the territory of the other Party, under the circumstances and conditions stated in the present Treaty.

ARTICLE II.

The crimes for which the extradition is to be granted are the following :—

1. Murder (child murder and poisoning included) or attempt to murder.
2. Manslaughter.
3. Counterfeiting or altering money, uttering or bringing into circulation knowingly counterfeit or altered money.

orgery or counterfeiting or altering or uttering what is forged, or counterfeited or
aprehending the crimes designated in the Swedish and Norwegian Penal Codes as
ing or falsification of paper money, bank notes or other securities, forgery or falsi-
other public or private documents, likewise the uttering or bringing into circulation
y using such counterfeited, forged or falsified papers.

Embezzlement or larceny.

Obtaining money or goods by false pretences, except as regards Norway, cases in
he crime is not accompanied by aggravating circumstances according to the law of
ntry.

Crimes by bankrupts against bankruptcy law.

Fraud by a bailee, banker, agent, factor, trustee, or director, or member or public
of any company, made criminal by any law for the time being in force.

9. Rape.

10. Abduction.

11. Child-stealing.

12. Burglary or house-breaking.

13. Arson.

14. Robbery with violence.

15. Threats by letter or otherwise with intent to extort, except as regards Norway, cases in which this crime is not punishable by the laws of that country.

16. Sinking or destroying a vessel at sea, or attempting to do so.

17. Assaults on board a ship on the high seas, with intent to destroy life or to do grievous bodily harm.

18. Revolt, or conspiracy to revolt, by two or more persons on board a ship on the high seas against the authority of the master; except, as regards Norway, conspiracy to revolt.

The extradition is also to take place for participation in any of the aforesaid crimes, provided such participation be punishable by the laws of both the Contracting Parties.

ARTICLE III.

No Swedish or Norwegian subject shall be delivered up to the Government of the United Kingdom; and no subject of the United Kingdom shall be delivered up to the Swedish or Norwegian Government.

ARTICLE IV.

The extradition shall not take place if the person claimed has already been tried and discharged or punished, or is still under trial in the country where he has taken refuge, for the crime for which his extradition is demanded.

If the person claimed should be under examination for any other crime in the country where he has taken refuge, his extradition shall be deferred until the conclusion of the trial, and the full execution of any punishment awarded to him.

ARTICLE V.

The extradition shall not take place if, subsequently to the commission of the crime, or the institution of the penal prosecution, or the conviction thereon, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the country where the criminal has taken refuge.

ARTICLE VI.

A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded, is one of a political character, or if he prove that the requisition for his surrender has in fact been made with a view to try or punish him for an offence of a political character.

ARTICLE VII.

A person surrendered by either of the High Contracting Parties to the other, cannot, until he has been restored or had an opportunity of returning to the country from whence he was surrendered, be triable or tried for any crime committed in the other country other than that on account of which the extradition shall have taken place.

This stipulation does not apply to crimes committed after the extradition.

ARTICLE VIII.

The requisitions for extradition shall be made through the Diplomatic Agents of the High Contracting Parties respectively.

The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent Court of the State that makes the requisition for extradition.

The requisition ought, as far as possible, to be accompanied by a description of the person accused or convicted, in order to identify him.

A requisition for extradition cannot be founded on sentences passed in *contumaciam*.

ARTICLE IX.

If the requisition for extradition be in accordance with the foregoing stipu
competent authorities of the State applied to shall proceed to the arrest of the fugitiv

The prisoner is then to be brought before a competent Magistrate, who is t
him and to conduct the preliminary investigation of the case, just as if the apprehe
taken place for a crime committed in the same country.

The extradition shall not take place before the expiration of fifteen days f
apprehension, and then only if the evidence be found sufficient, according to the law
State applied to, either to justify the committal of the prisoner for trial, or to prove t
prisoner is the identical person convicted by the Courts of the State which mak
requisition.

ARTICLE X.

In the examinations which they have to make, in accordance with the foregoing
pulations, the authorities of the State applied to shall admit as entirely valid evidence
sworn depositions or statements of witnesses taken in the other State, or copies thereof, and
likewise the warrants and sentences issued therein, provided such documents are signed or
certified by a Judge, Magistrate, or Officer of such State, and are authenticated by the oath
of some witness, or by being sealed with the official seal of the Minister of Justice, or some
other Minister of State.

ARTICLE XI.

If sufficient evidence for the extradition be not produced within two months from the
date of the apprehension of the fugitive, he shall be set at liberty.

ARTICLE XII.

All articles seized, which were in the possession of the person to be surrendered at the
time of his apprehension, shall, if the competent authority of the State applied to for the
extradition has ordered the delivery thereof, be given up when the extradition takes place;
and the said delivery shall extend not merely to the stolen articles, but to everything that
may serve as a proof of the crime.

ARTICLE XIII.

Each of the High Contracting Parties shall defray and bear expenses incurred by it in
the arrest, maintenance, and conveyance of the individual to be surrendered till placed on
board ship, as well as in keeping and conveying the articles which are to be delivered up in
conformity with the stipulations of the preceding article.

The individual to be surrendered shall be conveyed to the port specified by the applying
Government, at whose expense he shall be taken on board the ship to convey him away.

If it be necessary to convey the individual claimed through the territories of another
State, the expenses incurred thereby shall be defrayed by the applying State.

ARTICLE XIV.

The stipulations of the present Treaty shall be applicable to the Colonies and Foreign
Possessions of the two High Contracting Parties.

The requisition for the surrender of a fugitive criminal who has taken refuge in a Colony
or Foreign Possession of either Party shall be made to the Governor or Chief Authority of
such Colony or Possession by the Chief Consular Officer of the other in such Colony or Pos-
session; or, if the fugitive has escaped from a Colony or Foreign Possession of the Party on
whose behalf the requisition is made, by the Governor or Chief Authority of such Colony or
Possession.

Such requisitions may be disposed of, subject always, as nearly as may be, to the provi-
sions of this Treaty, by the respective Governors or Chief Authorities, who, however, shall be
at liberty either to grant the surrender, or to refer the matter to their Government.

Her Britannic Majesty shall, however, be at liberty to make special arrangements in the
British Colonies and Foreign Possessions for the surrender of Swedish and Norwegian criminals
who may there take refuge, on the basis, as nearly as may be, of the provisions of the
present Treaty.

ARTICLE XV.

The present Treaty shall come into force ten days after its publication, in conformity with
the forms prescribed by the laws of the High Contracting Parties. It may be terminated by
either of the High Contracting Parties, but shall remain in force for six months after notice
has been given for its termination.

ARTICLE XVI.

The present Treaty shall be ratified, and the ratifications shall be exchanged at Stockholm,
as soon as may be possible.

In witness whereof the respective Plenipotentiaries have signed the same, and have affixed
thereto their seals.

Done at Stockholm, the twenty-sixth day of June in the year of our Lord one thousand
eight hundred and seventy-three.

And whereas the ratifications of the said Treaty were exchanged at Stockholm on the
twenty-eighth ultimo.

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and in virtue of the authority committed to Her by the said recited Act, doth order, and it is hereby ordered, that from and after the seventeenth day of October one thousand eight hundred and seventy-three, the said Act shall apply in the case of the said Treaty with the King of Sweden and Norway.

EDMUND HARRISON.

The following orders, issued by the Government of India in the Financial Department, are re-published for general information :—

LEAVE AND ALLOWANCES.

Fort William, the 16th December 1873.

No. 3735.—The Governor-General in Council directs that the words "and junior furlough under the rules in force before the 8th June 1855" be inserted after "(*a* 5)" in Rule 1 under Section 8 of the Civil Leave Code (second edition), and that the word "are" be substituted for the word "is" in the said Rule.

No. 3751.—*The 17th December* 1873.—The Governor-General in Council directs that the following addition be made to Rule 9 under Section 21 of the Civil Leave Code :—

"But a Military officer who has availed himself in any calendar year of the privilege leave which is admissible to him for that year, under the rules of the Military Department, will not begin to count service for privilege leave in the Civil Department until the first day of the following year."

No. 3801.—*The 18th December* 1873.—The Governor-General in Council directs that the following be added as Rule 4 under Section 12 of Supplement *A* to the Civil Leave Code :—

"4. An officer or seaman attached to a pilot or light vessel at the Sandheads may, in addition to the privilege leave admissible under this section, be allowed one month's leave on shore after four months' continuous duty at the Sandheads."

His Excellency in Council also directs that the following paragraph be added to Rule 9 under Section 27 of the Civil Leave Code :—

"An officer or seaman serving on a pilot or light vessel at the Sandheads is considered to have returned to duty on the day on which he reports himself to the Master-Attendant in Calcutta."

PENSIONS AND GRATUITIES.

The 18th December 1873.

No. 3755.—The following Resolution is published for general information :—

Read the following :—

Letter from the Officiating Accountant-General, Bengal, No. $\frac{P}{311}$, dated 18th October 1873, to the Financial Secretary.

I have the honor to submit the returns of pensioners prescribed in Section 84 of the Civil Pension Code.

2. The returns are in four sets, namely—

1. India pensioners paid in Calcutta.
2. Bengal " " "
3. Bengal " " Mofussil.
4. Marine " " Calcutta, many of whom are females.

3. Headings 2 and 3 are blank in the first year's returns, because they are intended to contain the corrections for age as compared with the previous years, and in this case there are no previous years.

4. In examining them with reference to the rate of mortality to be expected, I would put down the following as the probable rates on *à priori* grounds, being those given by Mr. Brown as the result of statistics affecting Indian Native Army pensioners :—

Age.	Rate of mortality per cent.
51—60	4·5
60—65	6·5
65—70	8·
70—75	10·
75—80	12·
80—85	12·5
85	14·

5. The following shows the total of the "India" pensioners of all age :—

Age.	Total on Roll on March 31, 1871.	Died in 1871-72.	Died in 1872-73.	Total deaths.	Expected deaths in 2 years.
51 ..	111	6	2	8	9·
60 ..	40	..	5	5	5·
66 ..	26	1	2	3	4·
70 ..	12	..	..	..	2·5
76 ..	9	3	1	4	2·
80 ..	5	2	2	4	1·
86 ...	1	1	..	1	...
	204			25	24·5

6. On these no remark appears to be called for, and an inspection of the tables shows that the deaths seem to be very fairly distributed among the three classes of pensioners under Rs. 10, under 50, and over 50.

7. In the next class of pensioners—Bengal pensioners paid in the Mofussil—the separate grades are sufficiently numerous to be examined separately.

The figures of the 1st Grade, those under Rs. 10, are as follows:—

Age.		No. on Roll, 31st March 1871.	Died in 1871-72.	Died in 1872-73.	Total deaths.	Expected in 2 years.
Under	50	79	4	7	11	5
,,	51	155	16	11	27	14
,,	61	94	5	11	16	13
,,	66	70	7	3	10	11
,,	71	60	..	6	6	12
,,	76	23	3	3	6	6
,,	81	13	2	1	3	3
,,	86	6	3	..	3	2
		500			82	66

8. The following are the figures of the 2nd Grade pensions not exceeding Rs. 50:—

Under	50	43	3	..	3	3·
,,	51	145	10	2	12	13·
,,	61	67	7	3	10	9·
,,	66	55	3	2	5	9·
,,	71	27	3	2	5	5·5
,,	76	16	..	1	1	4·
,,	81	3	1	..	1	1·
,,	86	1	..	1	1	..
		357			38	44·5

9. Of pensions exceeding Rs. 50, the following are the figures of two years:—

Under	50	8	2	..	2	·5
,,	51	41	3	2	5	4·
,,	61	22	3	3	6	3·
,,	66	19	4	2	6	3·
,,	71	9	2	2	4	2·
,,	76	4	2	1	3	1·
,,	81	..	..	..	..	..
,,	86	2	1	1	2	·5
		105			28	14·

10. In all these cases the deaths seem to be very fairly up to expectation, and even exceed it in several. It is possible that this is due to the fact that the numbers include people who have gone off through six months' absence, and are not dead, but I have made such allowance, as was possible for this, by taking as the number of deaths, not the whole number under heading 2, but that number diminished by the entries under heading 6.

11. I shall direct the Collector's attention to the 16 persons entered under age 76 to 81 in the list of pensioners exceeding Rs. 10. Their mortality falls exceedingly short of expectation, and it may be well to enquire whether the alleged survivors are beyond doubt the original pensioners, and whether the real pensioners are really all alive.

12. Taking next the Bengal pensioners paid in Calcutta, we get the following statistics:—

Not exceeding Rs. 10.

Under	50	22	1	..	1	1·
,,	51	22	..	2	2	2·
,,	61	19	1	2	3	2·5
,,	66	4	..	..	..	·5
,,	71	7	1	1	2	1·5
,,	76	5	1	..	1	1·
,,	81	2	..	..	..	·5
,,	86	2	..	..	..	·5
		83			9	9·5

Not exceeding Rs. 50.

Under 50	25	...	...	...	1·5
,, 51	86	4	5	9	8·
,, 61	29	2	3	5	3·5
,, 66	20	...	...	...	5·
,, 71	18	1	1	1	4·
,, 76	6	1	...	1	1·5
,, 81	2	...	...	...	·5
,, 86	...	...	...	...	...
	186			16	24·

Exceeding Rs. 50.

Under 50	8	...	...	...	5·
,, 51	56	2	4	6	5·
,, 61	14	...	1	1	2·
,, 66	9	1	1	2	1·5
,, 71	7	1	1	2	1·5
,, 76	5	...	...	...	1·
,, 81	...	...	...	...	1·
,, 86	...	...	...	...	1·
	99			11	13·5

13. There seems to be in all these tables a smaller rate of mortality among the very high ages than should be expected. The pensioners are all people paid in this office, and I shall cause renewed attention to be given to the question of their identification with the original pensioners.

14. The Marine pensioners are the only ones remaining, and the following are the figures for the three classes combined :—

Under 50	20	...	...	...	1·
,, 51	28	1	1	2	2·5
,, 61	10	...	...	...	1·
,, 66	4	...	...	...	·5
,, 71	6	2	...	2	1·
,, 76	...	...	...	...	...
,, 81	...	...	...	...	...
,, 86	1	...	...	...	...
	69			4	6·

15. No remarks appear to be called for, and the cases are too few to permit any deductions from the divergence from expectation, especially as five persons, who are excluded from the list, as their ages are not known, furnish three cases of death, which being added to the above statistics bring the fact still more near to the expectation.

16. The following is a summary of the whole of these statistics :—

Description of Pensioners.		Rate of Pension.	Number.	Actual mortality.	Expected mortality.
INDIA	...	All ...	204	25	24·5
BENGAL—Mofussil		Under 10	500	82	66·
,, ,,		Under 50	357	38	44·5
,, ,,		Over 50	105	28	14·
,, Calcutta		Under 10	83	9	9·5
,, ,,		Under 50	186	16	24·
,, ,,		Over 50	99	11	13·5
MARINE	...	All ...	69	4	6·
TOTAL	...	...	1,603	213	202·

17. It would be wrong rashly to assume that the number of deaths shown in the above figures is the actual number that have taken place, because, on the one hand, the figure may be swelled by mere absences for a prolonged period, and on the other, it may be diminished by substitutions of fictitious pensioners. However, the fewness of the renewals of pension argues the fewness of the lapses included in the above figures, and I think the figures contain intrinsic evidence that there has not been much, if any, substitution. I think, therefore, it is a pretty fair conclusion that, so far as can be judged by information and calculations, so rough in their nature, the mortality rates, with which we above started, are not far from the average applicable to the case.

18. It is worthy of remark that the younger pensioners show a tendency to excessive mortality (compared without initial figures), which is easily accounted for by the fact that

they are, by the nature of the case, mostly invalids; and that, as we might have expected, the pensioners of the class between 10 and 50 seem to be more healthy than those on higher or on lower pensions.

RESOLUTION.—The Governor-General in Council desires that a copy of the above letter be forwarded to the several Officers of Account concerned as indicating the kind of examination to which statements submitted under Section 84, Civil Pension Code (second edition), should be subjected. The table of mortality used by Mr. Westland should be used by the other Officers of Account until further order.

NOTIFICATION.

The 22nd December 1873.—With reference to the Notification of the 11th instant, published at page 1400 of the *Calcutta Gazette* of the 17th idem, and other previous Notifications of the kind, the Lieutenant-Governor desires it to be distinctly understood that the powers thereby vested in Joint-Magistrates or other Senior Assistant Magistrates, of hearing appeals from convictions by Magistrates of the Second and Third Classes, are to last for six months only. His Honor is wholly opposed to giving appellate powers to any but very high and competent officers or Courts, and has always refused to recognize that the hearing of criminal appeals entails undue labor on Magistrates of districts. In the instances above referred to these powers have been given only temporarily, as a very special case, in distressed districts in order that there may be no shadow of reason for supposing that the District Magistrates are tied down by work at Head-Quarters.

A. MACKENZIE,
Junior Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 18th December 1873.—Under the provisions of Section 3, Act III of 1864 of the Bengal Council, the Lieutenant-Governor is pleased to notify that from and after the 1st April 1874 the limits of the Darjeeling Municipality, in supersession of those specified in notification* of the 29th April 1865, shall be as follows:—

* Published in the *Calcutta Gazette* of the 10th May 1865, page 874.

Beginning from the junction of the Rungbee and cart roads the south boundary of the Goompahar forest reserve to a point due south of the south-west angle of the boundary of the municipal grazing ground, thence a line through the reserve joining the two points above mentioned, thence the west and north boundaries of the municipal grazing ground to the cart road; thence the cart road to the boundary of location No. 99 (Rose Bank), with the south and west boundaries of which the municipal boundary will coincide. From the north-west angle of the Rose Bank boundary the municipal boundary will be a straight line to the south-west angle of location No. 121. From here it will coincide with the west boundaries of locations Nos. 121, 98, 100, 139, 77, 80, 79, and 78, to the north-west angle of the last mentioned location. Thence straight line to the south-west angle of No. 107. Thence the west boundary of that location, and the south and west boundaries of No. 122; from the north-west angle of No. 122 a straight line to the south-west angle of No. 142. Thence the boundary of that location to its north-west angle, thence a straight line to a point two hundred yards due west of the north-western angle of location No. 136. Thence a line connecting the above points to the north and east boundaries of that location. From the south-east angle of No. 136 a line to the north-east angle of No. 141; thence the east boundary of that location. From the south-east angle of the boundary of No. 141 a line to the north-east angle of No. 110, then the east boundary of that location, then a line connecting its south-east angle with the north-east angle of location No. 43, then the north-east boundary of that location. Thence a line from its eastern angle in a south direction to the Birch Hill road. Thence that road to its junction with the Lebong road, the Lebong road to its junction with the Runjeet road, and the Runjeet road to the Bundum Jobro. Thence a straight line to the Chowrasta, thence the Calcutta road to its junction with the Cantonment road, and thence a straight line to the point where the Rungbee road cuts the eastern boundary of Harrington Location, thence the east boundary of Harrington Location as far as the north boundary of Graham's Town Location, thence the south and east boundaries of Graham's Town Location and the east boundary of Enfield Location to the cart road. Thence the west boundary of the cart road reverse to the junction of the Rungbee and cart roads.

A. MACKENZIE,
Junior Secy. to the Govt. of Bengal.

[First Publication.]

The 23rd December 1873.—The following Rules framed under Section 69 of the Indian Registration Act, 1871, are published for general information :—

Changes of incumbency to be reported.

1. Registrars and Sub-Registrars, on giving or receiving charge of their respective offices, shall report the fact to the Inspector-General. In the case of Sub-Registrars, such reports shall be made through the District Registrar.

Temporary appointments to be reported.

2. Whenever a District Registrar makes a temporary appointment under section 12, he shall at once report the fact to the Inspector-General.

3. The report referred to in section 13 shall be submitted to Government by the Inspector-General at the end of each month.

4. Head-Quarter Sub-Registrars having been permanently placed in charge of district registry offices, special appointments under section 11 are no longer necessary.

Registrar may assume charge of the office of absent sub-registrar.

5. When a Sub-Registrar is absent, or his office is temporarily vacant, if the District Registrar is unable to appoint a suitable substitute, he may himself assume charge of the sub-registry office, until the return of the Sub-Registrar or appointment of a successor; and, in such cases, the extra or additional fee chargeable for registration by a Registrar under section 30 (a) shall not be charged upon registrations effected during the absence of the Sub-Registrar.

Leave to rural sub-registrars.

6. Rural Sub-Registrars are not subject to the uncovenanted leave rules. Leave should not generally be granted to them. But in cases of urgent necessity, leave may be granted to them and substitutes appointed by the Registrar. But no leave exceeding one month shall be granted without the previous sanction of the Inspector-General. All leave granted to rural Sub-Registrars shall be at once reported to the Inspector-General and included by him in the monthly report submitted under rule 3.

Section 15.

7. The seals of District Registrars and Deputy Registrars made under section 12 of Act XVI of 1864 shall be taken to be seals of Registrars and Sub-Registrars under this Act.

Seals.

8. The seal shall always remain in the personal custody of the registering officer.

Languages commonly used—section 19.

9. The following languages shall be considered to be commonly used in the districts named, viz.—

In the Patna Division and the districts of Bhaugulpore and Monghyr—English, Hindi, and Hindustani.

In the Chota Nagpore and Cooch Behar Divisions, and in the district of Purneah and the Sonthal Pergunnahs—English, Hindi, Hindustani, and Bengali.

In the Burdwan, Presidency, Rajshahye, Dacca, and Chittagong Divisions—English, Bengali, and Hindustani.

In the Orissa Division—English, Bengali, Hindustani, and Uriya.

In the Assam Division—English, Bengali, Hindustani, and Assamese.

Copies of Bengali, Uriya, or Assamese documents sent to other presidencies.

10. When a copy of a Bengali, Uriya, or Assamese document is forwarded under section 65 of the Act to a Registrar in another presidency, it shall be accompanied by information in English respecting the names and additions of all persons executing and claiming under it, and a description of the property situated in the Registrar's district sufficient for its identification.

11. A power of attorney intended for use in another Presidency, if authenticated in Bengali, Uriya, or Assamese, by an officer unacquainted with English, may, if the parties desire it, be forwarded by him to the District Registrar for the endorsement on it of an English translation of the authentication.

12. A power of attorney authenticated in a language unknown to a registering officer, to whom it may be presented, may, if the parties desire it, be by him submitted to the Registrar or Inspector-General of Registration, Bengal, as the case may be, who will procure an English translation of the authentication.

Interlineations, &c.,—section 20.

13. When the executant of any document appears personally, he shall be required to attest all interlineations, &c. When he appears by agent, &c., the attestation of such agent, &c., shall be accepted unless the interlineations, &c., are of an important character. A registering officer shall also be at liberty on due cause being shown to accept the attestation of an agent, &c., in case of important interlineations, &c.

Territorial divisions.

14. The territorial divisions to be recognized under section 21 (b) shall be registration districts, sub-districts, and thanahs; also parganahs and mauzahs, where they are known, and collectorate districts if different from registration districts.

Maps and plans.

15. Copies of maps or plans shall be attested by the signatures of the persons executing the document or their agents; and the original map or plan contained in the document shall at the time of registration be signed and sealed by the registering officer.

16. Whenever under section 30 (b) the Registrar of Calcutta registers a document accompanied by a map relating to property, no part of which lies within his own district, a copy of the map shall be supplied for record in his own office in addition to the number required by section 21 (c).

17. When a document containing a map or plan is presented for re-registration under the proviso to section 23, it shall not be necessary for the parties to deposit fresh copies of the map or plan under section 21 (c). But the registering officer shall certify against the copy in the register book that the map or plan attached to the document is the same as that which was attached to it on its first presentation.

Documents presented or admitted after four months, —sections 24 and 34.

18. When a document is presented or admitted more than four months after execution, the Registrar may either register it himself, in which case an extra fee under heading K, as well as the penalty under heading O, shall be levied, or he may direct its registration (on payment of the penalty under heading O) by any Sub-Registrar in whose office it could have been registered if presented within four months. In such cases the date on which the application was made to the Registrar shall be regarded as the date of presentation.

Daily sittings, holidays, —section 26.

19. Every Sub-Registrar shall sit daily during certain hours which shall be approved by the Registrar, and made known to the public by a notice in some conspicuous place outside the office. The holidays to be observed in registration offices shall be the days on which the Bank of Bengal is closed by notification in the *Calcutta Gazette*.

Commissions, under sections 33 and 38.

20. A commission shall ordinarily be issued by a registering officer to some salaried member of his establishment, and the order shall be briefly endorsed on the document in words to this effect:—

"A commission is hereby issued under section 33 (or 38) of the Indian Registration Act, 1871, to (name and designation of the officer) for the purpose of inquiring whether the within power (or document) has been executed by A B, son of C D of , by whom it purports to have been executed."

21. If the person to be examined under section 38 be not resident within the district or sub-district of the registering officer, a commission shall be directed to the Registrar of the district in which such person resides, who may redirect it to the Sub-Registrar, who may, if he cannot personally attend, redirect it to any officer of his establishment.

22. When the commission has been executed, the commissioner shall return the document to the office from which it was issued, with a report which shall be endorsed upon the document in the following terms:—"Having visited the residence of A B, son of C D, at , I have this day examined the said A B, who has been identified to my satisfaction by E F, son of G H, &c., residents of , and the said A B admitted (or denied) the execution of the within power (or document).

Full signature of executant.
Full signature of witnesses.
Full signature of commissioner.

Sections 33 and 38, and Section 180 of Act VIII of 1859.

23. A commissioner may examine witnesses in the same manner as a registering officer, and persons refusing to give testimony to a commissioner, on being required to do so, shall be subject to the same penalties and punishments which they would incur for the same offence if committed in a registration office.

Idem.

24. It shall be competent to a registering officer to examine the commissioner personally in his office, touching any of the matters referred to by him or mentioned in his report, or the manner in which he may have conducted the investigation.

25. All applications for visits under section 31, 33 or 38, or for the issue of commissions under section 33 or 38, shall be accompanied by the amount of fees chargeable as well as the amount of travelling allowance claimable by the registering officer or commissioner.

26. A separate commission fee shall be charged upon every signature which requires attestation, but travelling allowance shall only be charged for the actual distance travelled. Provided that where two or more persons who execute the same document or documents relating to the same transaction reside together, only one commission fee shall be charged so far as those persons are concerned.

27. The distances for which travelling allowance is charged shall be calculated according to the table which is drawn up in the Collector's office for the service of processes. A copy of this table shall be exhibited in every registration office.

Powers of attorney.

28. The form of authentication of powers of attorney shall be as follows :—

(1)—When the principal executing the power appears at the registration office—

"Executed in my presence on the day of 18 , by A B, son of C D, of , who is personally known to me (or whose identity was proved by the testimony of E F, son of G H, of), and recorded as No. for 18 ."

Full signature of attorney.
Full signature of witness or witnesses.
Seal and signature of registering officer and date.

(2)—When the principal is exempted from appearance—

"Having visited and examined at his (or her) residence the principal A B, who is personally known to me (or whose identity was proved by the evidence of C D, son of E F, of), I am satisfied that this power of attorney has been voluntarily executed by him (or her), and I accordingly authenticate it under section 33 of Act VIII of 1871, and record it as No. for 187 ."

Full signature of attorney.
Full signature of witnesses.
Seal and signature of registering officer.

When the Sub-Registrar himself does not examine the executant, he should make the following endorsement below the report of the commissioner as provided for in Rule 22 :—

"From the above report, I am satisfied, &c." (as above).

29. Interlineations, blanks, erasures, or alterations in powers of attorney authenticated under section 35, should be attested by a note under the Sub-Registrar's signature at the time of authentication. When there are no interlineations, &c., the fact should be noted in the same way.

30. General powers of attorney are available under this Act, if they contain or imply an authority to appear in a registration office, and are executed in accordance with section 33. Powers already executed may be made available by the execution, in accordance with section 33, of an additional clause empowering an attorney to appear in a registry office.

31. If an authority to register be included in a document to be registered, the document must of course bear the additional stamp duty chargeable on the power of attorney.

32. Powers which do not contain or imply an authority to appear in a registration office shall not be authenticated under section 33.

33. Whenever a power of attorney is used in a registration office, an endorsement shall be made upon it in the following form :—

Presented this day.

Date (Sd.) A. B.,

Seal *Registrar or Sub-Registrar of* .

34. All powers of attorney shall be returned when no longer required to the parties by whom they were presented.

Issue of process.

35. The summonses referred to in sections 36 and 37 shall be executed through the revenue authorities, and the peon's fee shall be regulated according to the rules for the service of processes by such authorities. Provided that when, for special reasons, the local Government shall so direct the processes required in any particular office may be executed through the court of the moonsiff within whose jurisdiction such office lies. In such cases the peon's fee shall be regulated by the rules for the service of processes in civil court.

36. If the summons be addressed to a person who is alleged to have executed the document, it shall require him to attend in person, or by agent; if it be addressed to any person whose evidence is required to prove a fact, it shall require him to attend in person.

37. Every application for summons must be accompanied by the amount of expenses payable to the witness, as well as the amount of peon's fees usually chargeable by the revenue authority or civil court through which the summons is to be issued; and in forwarding for compliance an application for summons, the registering officer shall also forward the witnesses' expenses and the peon's fee.

38. In case of a person summoned under section 37 neglecting to appear, or if a summons under that section cannot be served, the registering officer may call upon the revenue officer or civil court through whom his summonses are served to take any further action authorized by the law for the time being in force for the purpose of securing the attendance of the person whose evidence is required, and such a requisition must be accompanied by the proper fee. It rests with the registering officer to specify the form of action to be taken.

39. No Rural Sub-Registrar shall issue a requisition under the preceding rule without the previous sanction of the District Registrar, or (in the case of an additional Sub-Registrar) of the ex-officio Sub-Registrar to whose sub-district he is attached.

40. A will shall not be received for deposit otherwise than in the manner laid down in section 42. A will received through the post office shall be returned to the testator *bearing*.

Wills deposited under section 42.

41. Every entry made in Book V under the provisions of section 43 shall be signed in full and dated by the Registrar.

42. When a sealed cover is withdrawn under section 44, the fact shall be noted in register No. V, and the entry shall be signed by the person by whom the withdrawal is made as well as by the Registrar.

43. When a sealed cover is opened under section 45, the fact shall be noted in register V, and the entry signed by the Registrar. If a cover is opened under order of a civil court, this shall be mentioned in the entry.

44. When a will is forwarded to any court under section 46, it shall be accompanied by a memorandum of the fee for opening the cover and copying charges, and it shall be the duty of the court to levy and remit such fee and charges to the Registrar.

Wills called for by a civil court under section 46.

45. Sealed covers deposited with a Registrar under section 42 shall be examined monthly, and their condition reported to the Inspector-General.

Wills to be examined.

46. On the presentation of a document for registration, the registering officer shall first satisfy himself—

(1) That it has been presented at the proper office (sections 28, 29, and 30);

(2) That it bears the proper stamp;
and if it purport to be, or is known to be, a counterpart—
That it is "available" under the proviso of article 16, Schedule II of the General Stamp Act, 1869.

(3) That it is in the usual language of the district, or is accompanied by a translation and a true copy (section 19);

(4) That in the case of important interlineations section 20 and rule 13 have been complied with;

(5) That (if the document refers to immovable property) the description is sufficient (section 21);

(6) That it has been presented within the proper time (sections 23, 25, and 26);

(7) That it has been presented by a person authorized to do so (section 32).

47. If the requirements of the law have been complied with in all these particulars, the following certificate shall be entered on the face of the deed:—

Certificate of admissibility.

Admissible under rule 46. Correctly stamped under the General Stamp Act, schedule , No. .

48. After entry of the certificate under rule 47, the registering officer shall receive the fee or any fine payable under section 24, and enter the amount on the document close to such certificate, and at the same time the requisite entry shall be made in the fee book.

Levy of fee.—section 78.

49. The document shall now be endorsed to the following effect:—

First endorsement.

"Presented for registration at A.M. (or P.M.) on the day of 187 , at the sub-registry office (or elsewhere), by A B, son of C D, of [attorney for E F, one of the claimants under a power (No. for 187) executed in the presence of Sub-Registrar of]." (Sd.) A. B.

50. The amount of the fee paid shall be entered on the receipt given under section 52.

51. If [rule 46 (1)] the deed has not been presented in the proper office, it shall be simply returned to the presenting party. In this case no entry need be made in Book II.

Documents inadmissible on presentation.

52. If [rule 46 (2)] the stamp is incorrect, the deed shall be impounded and forwarded to the Collector (section 23 of the General Stamp Act).

NOTE.—If the executant of a deed who is in doubt about the proper stamp consults a registering officer on the subject before formal presentation, the required information may be given to him without impounding the deed. But any deed formally presented with an insufficient stamp must be impounded.

53. If Rules 46 (3) to (7) have not been complied with, or if the presenting party refuses to pay the proper fee, the deed must be returned to the presenting party with the endorsement

"Registration refused,"

an entry being made at the same time in Book II.

NOTE.—Orders under this rule may be deferred at the request of the parties in order to enable them to comply with the requirements of the law, or for a reference to the Registrar under section 24. But in such cases an order of refusal shall be passed if the requirements of the law have not been complied with within eight months from the date of execution.

54. When a fine has already been paid under section 24, a second fine shall not be levied under section 34.

Fines under sections 24 and 34.

Final endorsement.

55. The endorsement under section 58 shall be to the following effect :—

"Execution is admitted by A B, son of C D, of , zamindar (or cultivator, &c.,) by caste—

(Sd.) A. B

Identified by E F, son of G H, of , zamindar (or cultivator, &c.,) by caste—
The of 18 (Sd.) E. F.,
Sub-Registrar of .

When execution is admitted by an agent, the following words shall be added :—

"Agent for K L, under a power of attorney (No. for 187) executed in the presence of the Sub-Registrar of ."

When the executant or his agent is personally known to the registering officer, the words "personally known to me," should be substituted for the identification clause.

When receipt of consideration is acknowledged, the following clause should be added :—

"The receipt of rupees as consideration is admitted by the above A B"

56. The endorsement referred to in the preceding rule shall invariably be recorded in the handwriting of the registering officer.

57. When a person who cannot write signs his name by means of a mark, his name shall be recorded at length, and the writer of the name shall also sign his own name in attestation that the said mark was affixed in his presence.

58. Whenever a registering officer administers an oath, he shall separately record the evidence of the witness examined.

59. When a document is presented which has only been executed by some of the parties to it, the other executants may attend and execute the document and admit their execution without the payment of any further fee, so long as the certificate of registration under section 60 has not been endorsed thereon; but if the registration of the document has been completed, it must be presented afresh for re-registration and a second fee shall be payable.

Document to be copied after admission.

60. When all the persons executing a document, or their representatives, assigns or agents, have appeared and admitted its execution, the document shall be copied in the register.

61. When two or more copies of the same document are brought for registration at the same time, it shall not be necessary to enter the document more than once in the register, but all the endorsements shall be written upon each copy.

62. All endorsements shall be made in red ink, excepting signatures, which may be made in black ink.

63. When there is not room on a document for the necessary endorsements, they shall be made on a separate quarter sheet of hand-laid medium paper which should be supplied by the office and attached to the document, a note being at the same time made on the document itself and signed by the registering officer.

Final endorsement.

64. When a document has been copied, the registering officer shall proceed to make in the following form the endorsement required by section 60 :—

"Registered in Book , Volume
Page Being No. for 18 "

Copyist and comparer to sign their name.

65. The register copy of every document shall be compared with the original by some person other than the copyist, and both the copyist and the comparer shall append their signatures. The registering officer shall authenticate by his initials all corrections in the copy and all notes which may be necessary under section 20 of the Act. He shall also affix his initials to each page, and shall certify with his full signature each copy to be a true one.

66. No erasures shall be made with a knife in any register book, but mistakes shall be corrected when necessary with the pen, and shall invariably be attested by the registering officer.

67. The register books shall have two margins. On the left hand margin shall be copied in red ink the value of the stamp and all the endorsements made in the office; in the centre shall be copied the deed itself in black ink, and the right hand margin shall be left vacant for notes under section 20 and rule 13.

68. Several volumes of Books I and IV may, if necessary, be kept in use simultaneously when the documents registered are so numerous as to make this course necessary. Books II, III, and V shall be continued from year to year until they are full, and in small offices where the number of documents registered is inconsiderable, the same volume of Books I and IV may also be used for two or more years.

Certificate of closure.

69. When a book is closed, a certificate to that effect shall be appended at the close of the written portion, and a certificate showing the number of pages written upon shall be entered on the first page.

70. When, owing to omission or error in any document which has been registered, a supplementary document rectifying such mistake or omission is presented for registration, a note of such rectification shall be made in the margin of the register in which the original document is registered.

71. When a document occupies more than one sheet of paper, the seal and the signature of the registering officer shall be attached to every sheet.

Refusal of duly presented documents.

72. The circumstances under which a document should at once be refused on presentation are given in rules 51—53. A document duly presented and accepted for the purpose of enquiry, will not be admitted to registration under the following circumstances :—

(1) If one or more of the executing parties deny execution.
(2) If one or more of the executing parties fail to appear and to admit execution.
(3) If a person by whom the document purports to be executed be dead, and his representative or assign deny execution. (Section 35.)
(4) If a person purporting to have executed the document appear to be a minor, an idiot or a lunatic. (Section 35.)
(5) If the registering officer be not satisfied of the identity of any person appearing before him and alleging that he executed the document. (Section 35.)
(6) If the registering officer be not satisfied as to the truth of the allegation that a person who executed the document is dead. (Section 35.)
(7) If the admitting agent's power of attorney has not been made in accordance with the Act; or if an alleged representative or assign has failed to prove his *status*. (Section 35.)

73. In cases (1) and (4) registration must be at once refused. In cases (2), (3), (5), (6), (7) the order of refusal should ordinarily be deferred till eight months have elapsed from the date of execution. But if the parties declare their inability to comply with the requirements of the law, or for any other reason wish that the document should at once be refused and returned to them, this may be done. The reasons of refusal must be given in Book II.

Reasons of refusal to be clearly stated.

74. In recording the reasons for refusal to register, the particulars should be fully and clearly stated in each particular case. When one out of several executants declines to comply with the requirements of the law, his name should be given; when the registering officer is doubtful as to the identity of a party admitting execution, the grounds of his suspicion should be stated.

Section 70.

75. Applications for the remission of fines under section 70 may be filed with the registering officer, but no such application shall be received until the fine has been paid. The application shall be forwarded to the Inspector-General with any remarks which the registering officer may wish to make.

Copies and memoranda.

76. In addition to the bound volume of Book I, every registering officer shall keep a file in which he will file copies and memoranda of registered documents which have been forwarded to his office under sections 64, 65, 66 or 67 of the Act. This file shall be bound into a volume or volumes of convenient size at the end of the year. The entries in this volume shall be numbered consecutively, but in a series distinct from that of original registrations in Book I.

77. These copies shall be made on paper of the same size and description as the sheets of the bound books. Memoranda shall be drawn up in the prescribed form.

78. Memoranda for sub-districts in another district shall be enclosed to the Registrar of that district, together with the copy for his own office; but no memorandum need make mention of any property other than that which is situated in the sub-district to which the memorandum is to be sent.

79. When a copy of a document is sent to the Registrar of another district under sections 65—67 of the Act, a memorandum need not be sent to any Sub-Registrar whose office has been amalgamated with that of the Registrar of such district.

80. The date on which copies and memoranda are despatched under the last rule, shall be entered in the right-hand margin of the book in which the document has been copied.

Receipts for copies and memoranda.

81. When a memorandum or copy under sections 64—67 is transmitted from one office to another, it shall be accompanied by a receipt in the prescribed printed form, which shall at once be signed and returned by the receiving officer. If delay occurs in the return of the receipt, the despatching officer should takeed for it. All such receipts when returned should be filed separately.

Copies and translations of documents in foreign language.

82. The copies and translations of documents required to be filed under sections 19 and 62 shall be made upon hand-laid medium paper. They shall be kept in a separate file, a reference being made to this in the right-hand margin of the page on which the translation is copied in the register book. The file shall be bound from time to time, when it contains a sufficient number of copies and translations to form a volume. For the purposes of this rule the requisite paper may be sold to the public at one anna per sheet.

Index of persons.

83. The personal index No. 1 shall contain the following headings :—

1. Name of person.
2. Addition.
3. Interest in the transaction, as purchaser, mortgagee, decree-holder, &c.
4. Office of registration.

5. Serial number.
6. Book.
7. Volume.
8. Page.

Index of places.

84. The local index No. II shall contain the following headings:—

1. Name of property or of mauzah; or, in towns, of street.
2. Name of parganah or thanah.
3. Sub-district in which the property is situated.
4. Nature of the transaction, as sale of land, decree for possession of house, &c.
5. Office of registration.
6. Serial number.
7. Book.
8. Volume.
9. Page.

Index III.

85. Index III shall contain the same headings as No. 1.

86. Except in rural offices, all indexes shall be kept in English.

Arrangement of entries.

87. English indexes shall be kept according to the letters of the alphabet, the entries under each letter being arranged according to the vowel of the first syllable, if the word begins with a consonant; or according to the second vowel in the word if it begins with a vowel.

Translation.

88. If the documents to be indexed are written or executed in English, the names of the persons and places shall be spelt in the same way in which they are written in the documents. If the documents are written or executed in a vernacular language, the spelling shall be regulated according to Professor H. H. Wilson's system of transliteration, as modified by the Syndicate of the Calcutta University.

Family name.

89. In the case of Europeans and of those Hindus who have hereditary family names, the surname or family name shall be taken as the index word. In all other cases native names shall be indexed as they stand. A mere title or designation of caste shall not be taken as the index word.

90. When a document is executed on behalf or in favour of Government, the index entry shall be made under G., *Government*, the name of the officer executing the document being entered in the column headed *Addition*; if on behalf or in favour of the Court of Wards, under *W., Wards, Court of*; and in the case of any other Court, under *C.* The names of companies shall be entered as they stand, the article only being omitted; thus—*Land Mortgage Bank of India, Limited*, under *L.*; *Ganges Steam Navigation Company, Limited*, under G.

91. The name of the depositor of a sealed cover shall be entered in index I.

Two or more names in one document to be entered separately.

92. When there are two or more executants or claimants, their names shall be separately entered in index I or III. Similarly, when two or more properties are conveyed by a single document, they shall be separately entered in Index II. But no Sub-Registrar need enter in his Index II any property which does not lie in his own sub-district.

93. Copies and memoranda of documents shall be indexed in the same way as original documents, but the entries relating to them shall be made in red ink.

94. In rural offices, the indexes shall be kept in the vernacular, the names being merely arranged according to their first letters. One copy of indexes I, II, and III, shall be made for office use in a bound volume; and a duplicate of the entries made each month in indexes I and II shall be submitted at its close to the Sub-divisional Sub-Registrar. In the Head Quarters Sub-division, and wherever the Sub-divisional system has not yet been introduced, the duplicate will be sent to the Registrar. Rules 83, 84, 85, 89, 90, and 92, above, apply to the indexes of Rural Sub-Registrars.

95. The Sub-Registrar, on receiving the indexes I and II from the Rural Sub-Registrars, shall translate the same, and incorporate them in his own indexes, noting the place of registration of each document. He shall also, at the end of each year, or at such shorter intervals as the Registrar shall direct, prepare on hand-laid medium paper a copy of the incorporated index, and submit it to the Registrar.

Duplicate indexes of amalgamated offices.

96. Where the office of a Registrar has been amalgamated with that of a Sub-Registrar, the duplicate copy of the Sub-Registrar's indexes shall be sent for safe custody to the office of the Registrar of Calcutta, or to such other place as the Inspector-General may direct.

One office of record in each district.

97. The Registrar's office shall be a central office of record for each district, and the books and papers of subordinate offices (which are not to be destroyed) shall be transferred to it from time to time.

Old records to be permanently preserved.

98. The following records belonging to the period anterior to the enactment of Act XVI of 1864 shall be henceforward permanently preserved in district registry offices:—

All registers of documents and their indexes.

Duplicate copies of documents required to be filed under Regulation XX of 1812.

Registers of powers of attorney.
Original powers required to be filed under Regulation XX of 1812.
Kazis' records.

Books to be kept in all offices.

99. Besides register books I, II, III, and IV, and indexes I, II, and III, the following records shall be kept in all registry offices:—

A register of powers of attorney in the prescribed form.
A register of visits and commissions in the prescribed form.
A fee book in the prescribed form.
A cash book in the form prescribed by the Accountant-General.
A catalogue in the prescribed form.
A chalan book in the prescribed form.
A file of receipts given under section 52 and returned on delivery of registered documents.
A file of receipts for copies and memoranda under rule 81.

Additional books in district offices.

100. The following additional books shall be kept in all district offices:—

Book V.
A register of letters received.
A register of letters despatched.

Transfer of books.

101. In January of each year the following records for the previous year shall be transferred from sub-registry offices to the district office:—

Book I (including the file of copies), and book IV under Act VIII of 1871, and index III.
Copies and translations filed under section 19.

102. Books II and III, and the register of attested powers of attorney, shall be transferred to the district office as soon as they are filled.

103. In the case of all rural offices, and wherever the sub-registry office is not a masonry building, each volume of the register books shall be forwarded to the district office as soon as it has been filled and indexed without waiting till the end of the year.

Records to be preserved in perpetuity.

104. For the period since Act XVI of 1864 came into force the following records shall be preserved in perpetuity in all district offices:—

All register books and their indexes prescribed by Acts XVI of 1864 and XX of 1866 and VIII of 1871, as well those of the district registry offices as those received from the sub-registry offices.
Registers of powers of attorney.
Catalogue.
Cash book.
Fee book.
Reports of the destruction of records, and lists of the papers destroyed.

105. The following records shall be preserved in perpetuity in all sub-registry offices:—

Book III, under Act XVI of 1864, and Book V, under Act XX of 1866.
The rough indexes, under Act XVI of 1864.
Original indexes I and II, under Acts XX of 1866 and VIII of 1871.
Catalogue.
Cash book.
Fee book.

Section 83.

106. When a registered document is destroyed under section 83, a note to that effect shall be made in the book in which it is registered.

Records to be destroyed after three years.

107. The following records may be destroyed after the expiration of three full years from the period to which they relate:—

Registers of visits and commissions.
Chalan books.
The receipts referred to in section 52.
Receipts referred to in rule 81.
All correspondence, whether in English or in the vernacular, which is of an ordinary routine character, and which the Registrar considers may be destroyed.
Monthly returns, petitions, and other records and papers not otherwise specified.

108. No books or papers whatever shall be destroyed at a sub-registry office without the previous sanction of the Inspector-General.

109. The register books and indexes of the general registry offices under Act XVI of 1864 and Act XX of 1866, shall be preserved in the Calcutta Registry Office.

110. All applications for search or for copies should be made to the registering officer himself.

Applications for search or copies.

If an application is made in writing, the registering officer should initial it at once, giving the date. If an application is made *vivâ voce*, the registering officer should write on a slip of paper, "Give copy," or some

such brief order, adding his initials and date. All such applications and orders should be preserved on a separate file, the date on which a search has been made or copy completed being noted. Applications made through Sub-Regsitrars for copies from registers deposited in the district office must be in writing, and should be at once transmitted to the Registrar for compliance. No stamp is required on applications for searches or copies.

111. Registrars shall permit search and grant copies of entries in the registers kept up previous to the enactment of Act VIII of 1871, at the same rate of fees, and to the same extent as in the case of registers under that Act.

112. A call for information from any court or revenue authority shall, if it necessitates search in the registers, be accompanied by the necessary fee for search. Officers of Government shall be permitted to inspect the registers without fee; but if the production of a register book in any court is required, it shall be produced by an officer of the registration establishment deputed for that purpose, who will be entitled to claim payment of his expenses like any other witness.

113. Registering officers shall take care that their clerks have no dealings with the public, except in their presence. They shall themselves receive documents which are tendered for registration; and when they are registered, shall return them with their own hands.

114. The serial number of the last document in each book completed and ready for return shall be daily notified in some conspicuous place outside every office.

Catalogue.

115. A catalogue in the prescribed form shall be kept up and permanently preserved in every registry office. On the occasion of every permanent change in the incumbency, the officer receiving charge should compare his books with the catalogue, and certify therein that he has found them correct.

Table of fees.

116. A printed table of fees in English and the vernacular of the district shall be suspended in some conspicuous place in every registry office.

117. Columns 1, 7, and 13 in the fee book should be filled up as soon as any document is presented, except in the case of documents presented at the wrong office and returned under rule 51; columns 8 and 9 should be filled up as soon as a document is admitted or refused; columns 10 and 11, as soon as registration has been completed; column 12, as soon as the document has been delivered and column 14, as soon as the required copies and memoranda have been despatched.

118. Where the Sub-Registrar is a salaried officer, and only receives commission, in addition to his salary, he should remit the fees to the treasury daily. Remittances to the treasury should be accompanied by the Chalan Book duly filled up in duplicate. One copy of each chalan will then be kept by the treasury officer and the other returned with his signature.

119. Before the 1st of September of each year, every Sub-Registrar shall submit to the Registrar to whom he is subordinate, an indent in the prescribed form for all register books and other registration forms which will be required in his office during the following calendar year.

Indent for register books or other forms.

120. Every Registrar shall submit to the Inspector-General before the 15th September of each year an indent in quadruplicate in the prescribed form for all register books, and other registration forms which will be required for his own office, and those of the Sub-Registrars subordinate to him during the following calendar year. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom he is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such Sub-Registrars should be submitted separately in quadruplicate with the Registrar's endorsement instead of being embodied in the Registrar's indent.

121. When delay occurs in supplying register books and other registration forms, reminders should be addressed, not to the Inspector-General of Registration, but to the Superintendent of the Alipore Jail Press, the number of the Stationery office order being quoted. Reminders are useless without it.

122. Indents for the forms enumerated in the margin which have been prescribed by the Accountant-General should be submitted in triplicate in March of each year direct to the Superintendent of Stationery.

1A. Accountant-General's form indent form.
116. Commission list of Sub-Registrars.
117. Salary list of gazetted officers of the Registration Department.
118. Salary list of sanctioned establishments of the Registration Department.
119. Bill for contingent charges of the Registration Department.
120. Travelling allowance of Registrars.
121. Travelling allowance of ministerial officers of the Registration Department.
126. Refund of registration fees.
127. Bill for refund of registration fees for sudder sub-registry office.
128. Bill for refund of registration fee for sub-divisional and rural sub-registry office.
138. Detailed bill of contingent charges for countersignature.
141. Leave statement.
183. Cash book of registration.
184. Acquittance roll of establishment.
200. Monthly chalan of officers paid by fees only.

123. Rural Sub-Registrars may be supplied with registration ink and other stationery from the district office at cost price, which should be ascertained from the Superintendent of Stationery. The hand-laid medium paper required for copies under sections 64 and 65 will be supplied to them gratis.

ts for stationery.
B.—Patna, Bhaugulpore, and Rajshahye Divisions, except the t of Rajshahye.
Y.—Dacca, Cooch Behar, and Assam Divisions.
of th GUST.—Calcutta offices, viz., those belonging to the Judicial, Reve- Financial, Public Works, Telegraph, and Post Office Departments.
SAN CTEMBER.—Calcutta offices, viz., the Secretariat Offices, and those The ging to the Military, Ecclesiastical, and Marine Departments, all not included in the foregoing.
OCTOBER.—Burmah, Straits Settlements, Tenasserim, Arracan, and e Chittagong Divisions.
NOVEMBER.—Presidency and Burdwan Divisions, and the Rajshahye strict (Rampore Beauleah).
DECEMBER.—Chota Nagp re, Cuttack, and Hyderabad.

124. Before the several dates noted in the margin all District Registrars should send to the Superintendent of Stationery an indent in duplicate in the prescribed form for the stationery (including registration ink) which will be required for the registry offices in their districts during the next twelve months; indents from Sub-Registrars should be submitted to the district office at least 15 days before these dates. The Registrar's indent should include all ink and other stationery likely to be required by rural Sub-Registrars under rule 123 above.

125. All official letters and covers sent by post from any Sub-Registry or District Registry office must be prepaid by service labels. These labels will be supplied to Sub-Registrars (on application) by District Registrars who will disallow unreasonable and excessive demands. A monthly statement of the distribution of service postage labels should be submitted by each District Registrar for the information of the Inspector-General. A permanent advance of Rs. 20 for postal charges is allowed to District Registrars. All bills for bearing covers must be accompanied by the covers on which the payments were made as vouchers. Service labels will be purchased by District Registrars as they require them, the expenditure being included in their monthly postal bill supported by the treasury officer's receipts as vouchers.

126. When an officer is temporarily placed in charge of the office of a special Sub-Registrar during his absence on inspection duty in the interior of his district, he is not entitled to draw commission which the Special Sub-Registrar retains.

127. The security bonds of head-clerks should be examined at the close of each financial year, the result being reported to the Inspector-General.

128. The receipts entered in the fee book need not be entered in detail in the cash book. Their daily totals will be sufficient. But all other receipts and all payments whatever must be entered in full detail in the cash book. All cash received must at once be entered either in the fee book or in the cash book. No money should under any circumstances be kept out of account. The cash book should be balanced every day, and signed after careful examination by the registering officer.

129. All permanent advances must be repaid into the treasury on the 31st of March of each year, and drawn again in the following month.

130. Registrars and Sub-Registrars who are paid by fixed salaries will draw their pay in Accountant-General's form No. 117, and the bill may be paid without the countersignature of superior authority.

131. Salaried Sub-Registrars who are also entitled to a percentage on the fees, will draw their commission at the end of each month in Accountant-General's form No. 116, at such rate as may have been sanctioned by Government, but upon such fees only as shall have been actually paid into the treasury during the month. No commission is payable on fines, or on the extra fees for registration by a Registrar, or on the receipts for the sale of paper. Commission bills require the Registrar's countersignature before payment.

132. Sub-Registrars who are paid by fees only, and receive 50 per cent. and upwards of those fees will retain them until the end of each month, and then remit the Government share of them to the treasury, with an account current in duplicate in the prescribed form A. G. B. No. 200.

133. Salary bills for permanent establishments will be drawn in Accountant-General's form No. 118, by the head of the office. They do not require the countersignature of higher authority.

134. Bills for extra establishments paid by salary may be drawn in the same way as those for fixed establishments, the orders sanctioning their entertainment being always quoted in the bill.

135. Bills for wages of extra writers paid at contract rates require the countersignature of the Inspector-General before payment.

136. Travelling allowances of registering officers and their clerks will be drawn in Accountant-General's form Nos. 120 and 121 respectively; and in both cases they must invariably be submitted to the Inspector-General for countersignature before payment, whatever may be the amount of the bill.

137. When ministerial officers of the department are deputed to give evidence or to produce records before any court, their travelling expenses will be paid by the court.

138. House and office rent sanctioned by Government may be drawn by the head of the office without the countersignature of higher authority, the number and date of the Government order being always quoted in the bill.

139. Office furniture must not be purchased without the sanction of the Inspector-General. An estimate of the probable cost should accompany all applications for such sanction.

140. The salary of sweepers cannot be charged to contingencies. The wages of pankha-pullers may be so charged when their employment has been sanctioned.

141. No charges for printing may be incurred without the special sanction o Inspector-General. Such printed forms as are necessary will be printed at the Alipore Press under the authority of the Inspector-General.

142. English stationery procurable from the Stationery Office may not be purch in the local market, but charges for petty articles, such as sealing-ink, paste, thre country paper, &c., may be included in the monthly contingent bill.

143. Sub-Registrars' contingent bills should be presented for payment at the end of ea month, and if the total charge does not exceed Rs. 10, the Registrar's countersignature sufficient for audit.

144. Registrars' contingent bills not exceeding Rs. 10 in amount, do not require counter-signature.

145. A permanent advance of Rs. 10 is allowed to all Registrars and ex-officio Sub-Registrars for ordinary contingent charges. When the expenditure during any month on account of contingencies in any Registrar's or ex-officio Sub-Registrar's office exceeds the amount of the permanent advance the amount expended may be drawn by an abstract bill or bills (see Accountant-General's form No. 119) submitted during the month under the Registrar's signature or countersignature. But in such cases a detailed bill (see Accountant-General's form No. 138) accompanied by vouchers must also be submitted at the end of the month.

146. A duplicate bill should never be submitted unless the original is lost in transit or otherwise, in which case a certificate should be attached to the effect that the bill has not been cashed at the treasury.

147. Bills, monthly returns, and regular indents, should not be accompanied by covering letters. The envelopes containing them should be marked "Returns." Letters and urgent indents should be separately sent.

The following are the conditions of Sale :—

1. The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertized for sale shall remain unsold, the sale may, at the discretion of the Member in charge, be resumed on the next day following (not being Sunday or a public holiday) at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertized shall not be sold on the day appointed, the Member in charge may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Member in charge shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth Condition or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale book or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

11. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue. No. 1, certificate of the Opium advertized for sale; No. 2, report of the examination of such Opium.

16. The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1872-73, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

18. It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March, 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1874, there shall be delivered to them, at the average of the particular sale or sales

to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided however that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 45,000 chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in Opium, it is agreed between the high contracting parties that at each of the periodical sales of that article, there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christain Majesty, or by the persons duly appointed by them, the number of chests so supplied for provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christain Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for Opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."—By order of the Member in charge.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the undermentioned plots of lands, no longer required by the Government, situated in the district of Bhaugulpore, will be put up for sale at the Collector's Office, at Bhaugulpore, at 12 o'clock on Monday, the 2nd February 1874, corresponding with 21st Maug *B.S.*

The purchasers of these plots will be subject to the following conditions:—

1*st.*—If the amount of purchase money does not exceed Rs. 100, the whole amount to be paid down at once.

2*nd.*—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

3*rd.*—The plots will be sold revenue-free to the highest bidders.

4*th.*—The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings.

Admission of Stock other than for competition.—By special permission of the Managing Committee, persons desirous of exhibiting horse stock (not intended to compete for prizes) will be permitted to do so on a payment of Rs. 16 per head, provided stabling can be found for them.

4. Intending Exhibitors must apply for stalls by post in an envelope addressed—

"To the Joint Secretaries,
Calcutta Horse Show, 1874."

so as to be received by them not later than the 15th December 1873. On receipt of such applications printed forms will be furnished to the Owners or Exhibitors, to be filled in by them and returned at once to the Joint Secretaries, who will then allot stalls or boxes for the horses described.

5. *Superintendent.*—A Superintendent and four European Assistants will be appointed by the Managing Committee to undertake the stable management of the Show yard. It will be his duty to point out the stalls allotted to the Exhibitors, and to see that all orders issued by the Committee are thoroughly and promptly carried out.

6. *Date of receipt of Horses.*—Horses sent for exhibition will be received by a Veterinary Surgeon and the Superintendent of the Horse Show on Wednesday, the 7th of January 1874, any time before *noon* of that day.

7. *Health Certificate.*—A health certificate, signed by a Veterinary Surgeon, must accompany every horse when first brought to the Horse Show lines. The Veterinary Surgeon attending on the part of Government will also inspect each horse before being finally admitted.

8. *Grooms.*—Exhibitors are required to engage a reliable groom (syce) for each horse, and it is expected that either the attendant or a substitute will remain night and day at his post.

9. *Attention to Regulations.*—All attendants must conform to the rules and regulations issued by the Managing Committee; copies will be furnished to the Exhibitors, and will also be posted on the walls of the stables.

10. *Complaints.*—Complaints may be lodged at any time at the office of the Superintendent, either verbally or in writing, in a book to be kept for the purpose.

11. *Complaint Book.*—Persons able to read and write will have to enter their complaints in the book; minor complaints will be settled by the Superintendent on the spot; those of a more serious nature will be treated by the Managing Committee.

12. *Illness of Horses.*—In case of illness of any horse the Owner or Exhibitor must provide medical attendance.

13. All the horses will be daily inspected by a Veterinary Surgeon.

14. All possible care will be taken of horses exhibited, but the Superintendent cannot be held responsible for any injury or accident which may occur.

15. *Forage and Grain.*—Forage, grain, and water for the stock will be provided by the Exhibitors.

16. *Smoking prohibited.*—Smoking is strictly prohibited in the stables; particular attention is requested to this rule, which is considered imperatively necessary for the safety of the cattle.

17. *Stabling.*—A loose stall or box will be provided for each animal so exhibited.

18. *Location of Mares.*—Every lot of six mares will be stabled close to each other.

19. *Inspection by Judges.*—The Judges will inspect and examine horses entered for prize competition on Thursday 8th, Friday 9th, and Saturday 10th, of January 1874.

20. *Exclusion of Visitors during inspection by Judges.*—Under no circumstances will any person be permitted to be within the precincts of the premises at the time of inspection, except grooms (syces) who will be appointed by the Judges to bring up each horse for examination.

21. *Owners and Exhibitors similarly excluded.*—Owners and Exhibitors are debarred from the privilege of being present as much as the public generally.

22. *Horses how to be inspected.*—The horses will be brought up without clothing, so that they may not be recognized by any initials or distinctive marks.

23. *Judges how guided in arriving at decision.*—Exhibitors are informed that Judges in arriving at their decision will be guided by the following points :—

1*st.*—That under the terms of Military Department Government Notification of the 4th of February last, no prize will be given unless the horses exhibited come up to a high standard of excellence. Importers and competitors are informed that the Judges will be considerably guided by good measurement of girth and leg and blood, combined with power; animals wanting in such essential points will have no chance of obtaining a prize.

2*nd.*—The horses will be judged as to their merits under the several heads of :—

A. Soundness.
B. Blood and power.
C. General conformation.
D. Action.
E. Condition.

The maximum number of marks being 100.

3*rd.*—"*The best horse*" must be perfectly sound, but any serious blemish, the result of accident, will be weighed by the Judges.

4*th.*—Each mare of every lot must be sound for all working and brood purposes.

5*th.*—If any mis-information is furnished by an Exhibitor in respect of the animals owned or exhibited by him, the whole of his stock will be disqualified for prizes, and will be at once removed from the Show premises. Admission to the Show will be refused to any person coming within the terms of this rule.

6*th.*—The decision of Judges to be final.

24. *Judges' Report.*—The Judges' report of their inspection will be prepared and printed by Saturday evening, the 10th of January 1874, but will be confidential until read to His Excellency the Viceroy on the formal opening of the Show.

25. *Necessity of Exhibitors' servants attending to Rules.*—Particular attention must be given by all Exhibitors to the necessity of their servants carrying out all the rules which may be laid down for efficient sanitary arrangements.

26. *Fire Engine.*—A fire engine, and a party to work it, will be on the premises during the Exhibition.

27. *Police arrangements.*—The Commissioner of Police will arrange with the Managing Committee (Judges) for such number of Police as may be requisite for the protection of property and the preservation of order.

28. *Lights other than those supplied by Committee prohibited.*—Stable lanterns will be provided by the Committee and placed under the orders of the Superintendent. Other lights or lanterns or fire of any kind will not be permitted within the stabling.

29. *Removal of horses if attacked with disease.*—The Managing Committee are empowered, if they deem it necessary, to direct the removal of a horse attacked with any contagious disease.

30. *Removal of horses when prohibited.*—No horse brought for exhibition, even in the event of its having been sold, will be allowed to be removed until the Exhibition is closed.

31. *Final removal from Show.*—Horses must be removed the day following the closing of the Exhibition.

32. *Objections.*—Any objection to horses exhibited must be made and proved to the satisfaction of the Stewards the day before the prizes are awarded.

33. *Objection made after award of prize.*—Objections made after the award of prizes will not be attended to during the present Show, but will be recorded against future exhibition of the horses objected to.

34. *Onus of proving objection.*—The onus of proving an objection will be wholly and entirely on the person making it. All objections must be made in writing.

By Order of the Committee,

M. J. TURNBULL, *Colonel*,
J. A. CRAWFORD, } *Joint Secretaries.*

1*st December* 1873.

No. 206A.

FROM THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA.

TO THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA.

GENTLEMEN,

WE have the honor to report that we have examined and found correct your cash accounts for the half-year ending the 30th September 1873. We have not examined your store accounts.

The financial results of the half-year may be described as follows:—

DESCRIPTION OF TRANSACTION.	Wharves and Jetties Division.	River Division.	Total.
RECEIPTS.	Rs.	Rs.	Rs.
Net Earnings	1,37,272	21,088	1,58,360

Cash Balance	76,946	*29,484	1,06,430
Total	28,34,010	22,85,179	51,19,189

We would call attention to the change made during the half-year under report in the method of keeping the "Depreciation Account" in the River Division of the Trust. Hitherto the depreciation allowance has been credited to a distinct head, the value of "block" remaining unchanged. Now the depreciation allowance is credited to "block," the value of which, as recorded in the accounts, is reduced *pro tanto*.

We have the honor to be,

GENTLEMEN,

Your most obedient servants.

Notice

Is hereby given that in consequence of the construction of the new road from Giridi on the Karharbari Branch of the East Indian Railway to Hazaribaugh, all goods can most conveniently be sent to Hazaribaugh by that route instead of by the railway to Barakar only. The undersigned therefore invites all Government officers, tradesmen and other gentlemen who may not be specially instructed to the contrary by their consignees, and who do not avail themselves of the Government parcel post, to send their consignments and goods to the care of the Station Master, Giridi.

This request is made as the transport agency has been removed from the Barakar, and the route by Giridi is shorter and less expensive.

HAZARIBAUGH, the 9th December 1873. HENRY BEADON, *Offg. Dy. Commissioner.*

Uncovenanted Service Family Pension Fund.

NOTICE.

THE Thirty-sixth Annual General Meeting of Subscribers to the above Institution will be held in the Town Hall, on Saturday, the 31st January 1874, at 3 P.M., to receive the report of the Directors, and to consider such matters as may then be submitted.

By order of the Directors,

UNCOVENANTED SERVICE FAMILY PENSION FUND OFFICE, W. H. RYLAND, *Secretary.*

The 16th December 1873. (477—1)

PURSUANT to a decree of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction, made in a certain suit No. 262 of one thousand eight hundred and seventy-three, wherein Chotailoll, otherwise called Chotaimull Tambee, is plaintiff, and Bhoyrubdoss Johurry is defendant, and bearing date the twenty-fourth day of July, one thousand eight hundred and seventy-three, the creditors of Dhoomeemull Johurry, late of Burtollah Street, in the town of Calcutta, deceased, who died on or about the fourth day of December, one thousand eight hundred and seventy-three, are, on or before the seventeenth day of January, one thousand eight hundred and seventy-four, to come in and prove their debts or claims before the Honorable William Markby, one of the Judges of the said Court, at the Court House, or in default thereof, they will be peremptorily excluded from the benefit of the said decree. PART III.

Acts of the Bengal Council.

Government of Bengal.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 2nd December 1873, and having been assented to by His Excellency the Governor General on the 20th idem, is hereby promulgated for general information :—

ACT No. VI OF 1873.

An Act to amend the law relating to Embankments and Watercourses.

WHEREAS it is expedient that provision should be made for the better construction, maintenance, and management of embankments and watercourses in the territories subject to the Lieutenant-Governor of Bengal; It is enacted as follows :—

PART I.

Preliminary.

1. This Act may be called "The Bengal Embankment Act, 1873."

It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal, except the province of Orissa and the Soonderbuns as defined under the provisions of Clause 2, Section 13, Regulation III of 1828.

And it shall come into force on the day of the passing thereof.

Repeal of former Acts.

2. From such day Act No. XXXII of 1855 (*relating to embankments*) and Bengal Act No. VII of 1866 (*to make better provision for the acquisition of land for embankments and other matters relating thereto*) shall, except so far as relates to the province of Orissa and the said Soonderbuns, be repealed.

Interpretation.

3. The following words shall, for the purposes of this Act, have the meanings hereby declared, save where, from the context, a contrary intention appears :—

"Estate."

"Estate" means—(1) Any land or share in land subject to the payment to Government of an annual sum, in respect of which the name of a proprietor is entered on the register, known as the general register of all revenue-paying estates, or in respect of which a separate account may, in pursuance of Section 10, or Section 11 of Act XI of 1859, have been opened;

(2) Any land entered in the register of revenue-free tenures;

(3) Any land acquired under any rules issued by or under authority of Government for the sale, grant, or clearance of waste lands.

"Embankment."

"Embankment" includes every bank, dam, wall, and dyke, made or used for excluding water from, or for retaining water upon, any land, and every sluice, spur, groyne, training wall, or other work annexed to or portion of any such embankment, and every bank, dam, dyke, wall, groyne or spur made or erected for the protection of any such embankment or of any land from erosion or overflow by or of rivers, tides, waves, or waters; and also all buildings intended for purposes of inspection and supervision.

"Watercourse."

"Watercourse" includes a line of drainage, weir, culvert, pipe, or other channel for the passage of water, whether natural or artificial.

"Zemindar."

"Zemindar" means all or any of the holders of an estate; and where two or more zemindars are jointly holders thereof, they shall be jointly and severally liable under this Act.

"Tenure." "Tenure" includes all interests in land other than estates as above defined, held permanently at a fixed rental, or held lakhiraj.

"Proprietor." "Proprietor" means the holder of a tenure.

"Public Embankment." "Public Embankment" means an embankment maintained by the officers of Government.

"Public watercourse." "Public watercourse" means any watercourse under the charge of the officers of Government.

"The Engineer." "The Engineer" means the District Engineer or any Engineer specially appointed by the Lieutenant-Governor of Bengal to perform the functions of an Engineer under this Act.

"Collector." "Collector" means any Collector, Deputy Collector or other Revenue Officer in independent charge of any district or portion of a district, or specially appointed by the Lieutenant-Governor of Bengal to perform the functions of a Collector under this Act.

"District." "District" means the portion of territory throughout which any person vested with the powers of a Collector is authorized to exercise such powers.

"Land." "Land" includes interests in land and benefits arising out of land and things attached to the earth or permanently fastened to anything attached to the earth.

PART II.

Powers of Collector and procedure thereon.

Powers of Collector. 4. Under the conditions and in the manner hereinafter provided—

Power to take charge of embankments. (1.) The Collector may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or watercourse which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and maintained by the officers of Government.

Power to remove embankments and obstructions. (2.) The Collector may cause to be removed or altered any embankment which endangers the stability of a public embankment, or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to change line of embankment. (3.) The Collector may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

Power to improve drainage. (4.) The Collector may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health, or for the protection of any village or cultivable land.

Power to alter roads and construct watercourses. (5.) The Collector may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Collector shall prescribe, the said Collector may cause the road to be altered, or a watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road, so far as the same shall have been incurred on account of insufficient provision having been made at the time of the construction of the said road for the natural drainage then existing.

Applications for sluices to be made to Collector. (6.) If any landholder, farmer, or cultivator be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Collector of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Collector to judge of the advantage which may be derived from the work. The Collector shall decide whether it is expedient that such application shall be granted.

Application for new embankment or drainage to be made to Collector. (7.) Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such work is likely to interfere with, counteract, or impede any public embankment or any public watercourse, he shall apply to the Collector, and at the time of making such application shall deposit with him a statement of the proposed work. The Collector shall decide whether it is expedient that such application shall be granted.

Procedure. 5. When it shall appear expedient to the Collector that any of the works specified in the last preceding section should be executed, he shall cause to be prepared plans, specifications, and estimates of the proposed works, together with a copy of the survey map showing the boundaries of the villages of the various estates likely to be affected by the said works, and he shall cause a proclamation to be issued giving notice of his intention to cause such works to be executed. Such proclamation shall be in the form, and state the particulars mentioned in Schedule (A) annexed to this Act; and the plans, specifications, and estimates of the proposed works, together with a copy of the survey map as aforesaid, shall be kept at the office of the Collector and shall be open to the inspection of any interested persons who shall be allowed to take copies thereof. The Collector shall not commence any of such works until final order made in respect thereto under the provisions of Sections 8, 59, and 60 of this Act.

Publication of proclamation. 6. Every such proclamation shall be published by affixing the same at the cutcherry of the Collector, and in the manner provided in the third clause of Section 57.

Proclamation to be published for thirty days. 7. Every such proclamation shall be published not less than thirty days before the day appointed for hearing the persons interested.

Hearing of objections to works.

8. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing shall be adjourned, hear the objections of any persons who may appear, and, after recording any evidence which they may adduce, shall pass an order in regard to the execution of the proposed works. Notice of such order shall be served on such persons as may have appeared in pursuance of the proclamation.

Authority to take proceedings where lands likely to be affected by the works are in different districts;

9. If the lands, which are likely to be affected by any such proposed works, are situated within the limits of different districts, the Collector of any district, within which any portion of such lands is situated, shall apply to the Commissioner of the division for authority to proceed in such matter; and the Commissioner of the division, if all the lands are situated within his division, may give authority to such Collector, or to any other Collector within whose district any portion of such lands is situated, to proceed in respect of all the lands likely to be affected by such works.

or different divisions.

If the districts, within which the lands likely to be affected by any such works are situated, are subject to the Commissioners of different divisions, the Collector shall apply to the Commissioner of the division within which his district is situated, and such Commissioner may, with the concurrence of the Commissioner to whom the other district is subject, give authority to proceed in such matter.

The Collector may delegate certain powers to Engineer.

10. All the powers vested in the Collector by Section 4 of this Act, may be exercised by the Engineer in cases referred to him by the Collector subject to the general orders of the Collector.

PART III.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

11. Whenever the Collector shall be of opinion that the proceedings commenced by notice under Sections 5 to 8 of this Act would cause delay in the exercise of any of the powers conferred upon him by Clauses 2, 3, and 4 of Section 4, likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to commence to exercise such powers. Provided that he shall forthwith cause to be prepared the plans, specifications, and estimates of the proposed works, together with a copy of the survey map as provided in Section 5, and shall cause a proclamation to be issued as provided in that section giving notice that the work mentioned therein has already been commenced, and thereupon such proceedings and inquiries shall be had as in and by Part II of this Act are directed.

Power to take possession of land.

12. Whenever any land, or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of Section 18 in cases where the Collector shall be of opinion that proceedings for the acquisition of such land according to the provisions hereinafter contained in Section 25, would cause delay as aforesaid, the Collector shall cause a proclamation to be issued in form in Schedule (B) annexed to this Act, giving notice thereof at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes.

Compensation for standing crops and trees.

13. The Collector shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of Section 29.

Power to Engineer to act in absence of Collector.

14. The Collector may depute to the Engineer the powers described in Sections 11, 12, and 13 subject to his own general orders, and in that case when the Collector is not present the Engineer may, if he shall be of opinion that delay for the purpose of obtaining the orders of the Collector would be attended with grave and imminent danger to life or property, exercise the powers conferred on him by the Collector.

Power to restore embankments, &c.

15. Whenever, upon an inquiry had under the provisions of this Part, it has been determined in the final order to be passed on such inquiry that anything done by the Collector, or by the Engineer under the last preceding section was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Collector commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed according to the provisions contained in Part V of this Act.

Section 9 to apply to proceedings under this Part.

16. The provisions of Section 9 shall be applicable to proceedings taken under this Part.

PART IV.

Powers of Engineer.

Engineer subject to control of Collector.

17. The power conferred on the Engineer under this Part shall be exercised subject to the general control and orders of the Collector.

Power to make repairs.

18. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to alter railroads or construct watercourses.

19. The Engineer may call upon the manager, or other person in charge of any railroad which interferes with the drainage of any tract of land, to alter such railroad or or to construct any watercourse under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be

altered, or a watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager, or other person in charge of the said railroad, so far as the same shall have been incurred on account of insufficient provision having been made at the time of the construction of the said railroad for the natural drainage then existing.

Power to make temporary roadway, watercourse or dam.

20. Whenever any person is desirous that a temporary roadway should be made over, or that a temporary watercourse should be made through, any public embankment, or that a temporary dam should be constructed in any embanked river or public watercourse, he shall apply to the Engineer, who shall communicate the application to the Collector, and the Collector shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the Engineer to be necessary to defray the expenses of, and incidental to, making and removing such roadway, or of, and incidental to, making and closing or removing such watercourse or dam. If the amount deposited is found insufficient, the Engineer shall recover from the said applicant the further amount required; and if it exceeds the amount required, such excess shall be returned to the said applicant.

Power to remove houses.

21. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings, situated between a public embankment and the river, is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the district in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated; and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, in accordance with the provisions of "The Land Acquisition Act, X of 1870," or other law for the time being for the acquisition of land for public purposes, for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Collector be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Sluices to be opened or shut under authority of the Engineer.

22. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to appropriate land or earth for embanked towpath.

23. In any case where an embanked towpath has heretofore been maintained by Government alongside any canal, river, khal, or channel, the Engineer shall be entitled to appropriate without payment, as heretofore, land or earth for the maintenance, repair, or re-construction of such embanked towpath. If in any case the Engineer shall consider it necessary for the purposes of towing to enlarge an existing towpath, or to construct a new towpath, proceedings shall be taken in accordance with the subsequent provisions of this Act relating thereto.

Power to enter and survey land, &c.

24. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,

to enter upon, and survey, and take levels of any land;

to dig or bore into the sub-soil;

to do all other acts necessary to ascertain whether the land is adapted to the purpose projected by such Engineer; or by the Collector;

Power to mark out line.

to set out the boundaries of the land proposed to be taken, and the intended line of the work proposed to be made thereon;

to mark such levels, boundaries, and line, by placing marks and cutting trenches;

Power to clear land.

and, where otherwise the survey cannot be completed or the levels taken, to cut down and clear away any part of any standing crop, fence, or jungle.

Previous notice of entry.

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

The Engineer or other person so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid, and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

PART V.

Acquisition of lands.

Acquisition of land.

25. Whenever in the course of proceedings under this Act, save in those cases in which the Collector has proceeded under the provisions of Part III, it appears that land is required for any of the purposes thereof, proceedings shall be forthwith taken for the acquisition of such land in accordance with the provisions of the Land Acquisition Act, X of 1870, or any other law for the time being for the acquisition of lands for public purposes.

When land taken, proclamation to be published.

26. Whenever any land shall have been taken or used under the provisions of Part III, the Collector shall cause a proclamation to be issued in form in Schedule (C) annexed to this Act at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

Contents of proclamation.

27. Such proclamation shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of issuing the proclamation), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Further notice to be served on certain parties.

28. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Proceedings after notice.

29. After service of such notice proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, in accordance with the provisions of the Land Acquisition Act, X of 1870, or any other law for the time being in force for the acquisition of land for public purposes.

Compensation for consequential damage.

30. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such property or right is vested may prefer a claim by petition to the Collector for compensation.

Application to be made within two years.

31. No claim shall be entertained which shall be made later than two years next after the completion of the work by which such right is injuriously affected.

Procedure for such compensation.

32. When any such claim is made, proceedings shall be taken in view to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, in accordance with the provisions of the Land Acquisition Act, X of 1870, or any other law for the time being in force for the acquisition of land for public purposes.

Matters to be considered in determining compensation.

33. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

First, the market value of the property or right injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property or right;

Thirdly, the consequent diminution of the market value of the property or right injuriously affected at the time of acquiring the land.

Matters not to be considered in determining compensation.

But the Judge or Assessors shall not take into consideration—

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Land, &c., taken possession of to vest in Government.

34. All buildings, land, earth, pathways, sluices, gates, bermes, hedges, belonging to, or forming part of, any embankment or watercourse, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Government, and shall be held on behalf of the Government in respect of the embankments mentioned in Schedule (D) annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of Section 63; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &C.

1. *Ascertainment thereof.*

Embankments in Schedule (D).

35. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (D) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Section 4, Clause 7, or Section 20 of this Act; or to any of such embankments as may hereafter be erected for the protection of lands which at the time of the passing of this Act are protected by the embankments mentioned in the aforesaid Schedule, save so far as the erection of such embankments may protect lands not protected by the embankments mentioned in the aforesaid Schedule. All sums payable in respect of any works or repairs executed therein, or in relation to the embankments mentioned in the aforesaid Schedule except under the provisions of Section 4, Clause 7, or Section 20 of this Act, shall be paid by the Government.

Exclusion from Schedule.

If at any time after the passing of this Act, on inquiry made by the Collector as far as possible in accordance with the provisions of Part II of this Act, it shall be found that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (D), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the Lieutenant-Governor may restore the same to the said schedule if on any subsequent inquiry similarly conducted it shall appear to the Lieutenant-Governor that it is necessary so to do.

Addition to Schedule.

The Lieutenant-Governor may at any time after the passing of this Act, by a notification published in the *Calcutta Gazette*, direct that any embankment not mentioned in Schedule (D) be included in the said schedule, and the provisions of this section shall apply to such embankment.

Contribution of public money towards the maintenance of the embankments in the pergunnahs entered in Schedule (F) to be continued.

36. In accordance with the custom heretofore in force in respect of the pergunnahs entered in Schedule (E) annexed to this Act, the Government shall continue to contribute annually the sum noted therein for each pergunnah respectively towards the maintenance of the embankments thereof.

If such embankments are declared to be public, Collector to keep a separate account.

If the embankments maintained in any such pergunnah shall at any time be declared to be public embankments under the provisions of Section 4, the Collector shall, from the date of such declaration, keep a separate account for such pergunnah, in which the aforesaid sum shall be credited at the commencement of each financial year. The unexpended balance at the close of each year shall be carried on to the credit of the account in the next succeeding year, and shall be available for the cost of repairing or erecting all the embankments which it may be deemed necessary to maintain in such pergunnah.

Contribution may be discontinued if it be found unnecessary for the public interest to maintain the embankments.

If at any time after the passing of this Act, on an inquiry made by the Collector as far as possible in accordance with the provisions of Part II, it shall be found that it is unnecessary for the public interest to retain any embankment in either of the said pergunnahs, the Lieutenant-Governor may direct that such contribution shall cease in respect of such pergunnah. Provided that such contribution shall again be made in accordance with the provisions hereinbefore contained, if it shall appear to the Lieutenant-Governor, on the report of an inquiry similarly conducted, that the maintenance of any embankment in such pergunnah has again become necessary for the public interest.

Estimates and specifications to be prepared.

37. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for, or likely to be affected by, the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection to the Commissioner of division whose decision shall be final.

Preparation and settlement of accounts.

38. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses, and the names of the estates chargeable for, and of the estates and villages affected by, the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages, and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall inquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector to the Commissioner of division whose decision shall be final.

Total sum payable.

39. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts II and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Section 4, Clause 5, and Sections 19 and 20, the persons by whom, or in respect, of other works the estates in respect of which, the same is payable to him. If the order is made in respect of work done under Section 4, Clause 5, and Sections 19 and 20, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained.

Interest.

Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per centum per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

40. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule (D), and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 45. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

2. *Apportionment thereof.*

Notice to be given before apportionment.

41. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 38. Every such notice shall specify

the estates and villages aforesaid, and that an inquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Mode of inquiry as to the proportion chargeable to each estate.

42. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said inquiry. In making this inquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

43. In any such inquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the inquiry till such date.

Apportionment amongst zemindars.

44. At such or any subsequently adjourned inquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, rateably in proportion to the respective benefits derived by such estates from such works or repairs; or in proportion to the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or with the sanction of the local Government in proportion to the amount of revenue respectively payable for such estates, if, before the passing of this Act, such proportion has been usually adopted.

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates.

Proviso in respect of the pergunnahs in Schedule (E.)

Provided also that the sum standing to the credit of a pergunnah in Schedule (E) in the account kept by the Collector, at the time when the total amount payable is fixed under the provisions of Section 39, shall be deducted from the total amount payable in respect of such portion of any embankment as is situated in such pergunnah; and that the zemindars of the estates situated therein shall be charged only with the balance of the amount (if any) which may remain payable.

Apportionment amongst proprietors.

45. The Collector shall, in like manner, apportion, except in respect of the said Gunduk embankments, the amount payable in respect of each estate amongst all the tenures therein rateably in the proportion of benefit so received or area so benefited or protected, first deducting therefrom such sum as, on the like principle of proportion, is payable in respect of such portion of the estate as is not included within any tenure.

Apportionment where the lands held without payment of rent, not being estates on the register of revenue-free tenures.

46. All lands held without payment of rent not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall, by an order under his seal and signature, declare.

Amount apportioned payable by instalments.

47. The amount apportioned to any estate or tenure shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of the same becoming due until payment thereof at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor shall from time to time determine.

Final order of apportionment.

48. On the completion of the apportionment the Collector shall make an order specifying the estates and tenures, and the several sums payable in respect thereof, the instalments of such sums, and the dates on which the same are payable.

3. *Recovery thereof.*

Orders for payment.

49. The Collector shall, within thirty days from the final order of apportionment, make and serve for every estate therein mentioned an order, stating the amount with interest due in respect thereof, and that the same is payable to him, and the date or dates at which such amount or instalments thereof shall become payable to him.

Recovery from zemindars.

50. If such sum or any instalment thereof be not, pursuant to the said order, paid, the same with interest shall be recoverable as arrears of a demand under the provisions of Bengal Act VII of 1868 (*to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue*).

Recovery by zemindars or proprietors.

51. Every zemindar or proprietor to whom any sum or instalment thereof is payable under the said order, may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of Clauses 2 and 3 of Section 8, Sections 9, 10, 14, 15, and Clauses 1, 2, and 3 of Section 17 of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865; provided that the right or interest of any person holding from the proprietor of such tenure shall not be affected by any sale held under these provisions.

PART VII.

Miscellaneous.

Penalty for obstructing persons in exercise of powers of Act.

52. Whoever wilfully obstructs any person duly authorized under this Act in removing or levelling any embankment, house, hut, or other building, or in the lawful exercise of any of the powers in this Act conferred, shall, in case such obstruction shall not amount to an offence within the provisions of the Indian Penal Code, be liable to imprisonment of either description for any period not exceeding six months, at the discretion of the Magistrate, or to fine not exceeding two hundred rupees, commutable, if not paid, to a period of imprisonment not exceeding six months.

Penalty on unauthorized interference with embankments or drainage.

53. Every person who, without the previous permission of the Engineer, shall erect, or cause or wilfully permit to be erected, any new embankment, or shall obstruct or divert, or cause or wilfully permit to be obstructed or diverted, any watercourse, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, or shall abet any such act, shall be liable on conviction to a fine not exceeding five hundred rupees, or in default of payment, to imprisonment of either description for a period not exceeding six months.

Penalties for injuring works under Act.

54. No person shall, without due authority, cut through, or attempt to cut through, any public embankment, or destroy, or attempt to destroy any such embankment, or open or shut, or obstruct any sluice in any such embankment, or any public watercourse; and every person who shall commit any breach of the provisions of this section shall, in case the act shall not amount to mischief within the meaning of the Indian Penal Code, be liable to imprisonment of either description for a term not exceeding one month, or to a fine not exceeding two hundred rupees.

Penalties for diverting rivers or permitting cattle to graze on embankments.

55. Every person who shall make any dam or other obstruction for the purpose of diverting or opposing the current of a river, wherein or whereon there are public embankments, without the permission of the officer in immediate charge of the embankments, or shall refuse or neglect to remove any such dam or obstruction when so required by the Engineer, or shall cut or otherwise alter the banks of any embanked river, or shall remove the earth from any public embankment, or shall drive stakes into it, or by any other wilful act destroy or diminish the efficiency of such embankment; and every person who shall cause or knowingly and wilfully permit any cattle to graze upon any such embankment, or shall tether, or cause or wilfully permit any cattle to be tethered upon any such embankment, or who shall root up any grass or other vegetation growing on any such embankment, shall be liable to imprisonment of either description for a term not exceeding six months, or to a fine not exceeding two hundred rupees.

Obstructions to be removed and damage repaired.

56. Whenever any person is convicted of an offence under either of the three last preceding sections, the convicting Magistrate may order that he shall remove the embankment or obstruction, or repair the damage, in respect of which the conviction is held, within a period to be fixed in such order. If such person neglects or refuses to obey such order within the fixed period, the Engineer may remove such embankment or obstruction or repair such damage, and the cost of such removal or repair shall be levied from such person in addition to any other penalty in the manner provided in Section 307 of the Code of Criminal Procedure.

Service.

57. Every proclamation, notice or order in and by this Act required to be served may, unless when otherwise provided, be served—

(1) by delivering a copy of the same to the person to whom it is directed, or on failure of such service by posting a copy on some conspicuous part of the house in which the said person resides, or by delivering a copy to any agent authorized to appear generally for the person to whom such proclamation, notice or order is directed; or

(2) by sending a registered letter containing a copy of such proclamation, notice or order directed to the said person at his usual place of abode, or at the place where he may be known to reside; or

(3) by posting a copy of the proclamation, notice or order at the mal-cutcherry of the estate, village or tenure to which the same relates; or if no such mal-cutcherry be found, on some conspicuous place on the said estate, village or tenure, and by delivering, in the case of estates paying their annual revenue by four instalments, another copy thereof to the agent who shall have paid an instalment of revenue next before or after the preparation of such proclamation, notice or order. In all cases where two or more persons are holders of an estate, village or tenure service under this clause shall be deemed to be good and sufficient service on each and all of such persons.

No proceedings to be impeached for want of form.

58. No proceedings under this Act shall be impeached or affected by reason of any mistake in the name of any person thereby rendered liable to pay any sum of money, or in the description of any estate or tenure or land in respect of which he is rendered liable to pay; provided the directions of this Act be in substance and effect complied with; and no proceedings under this Act shall for want of form be quashed or set aside in any Court of Justice.

Appeal from orders made on objection.

59. Every order passed by the Collector in respect to applications under Section 4, Clauses 6 and 7, or under Sections 8, 39, and 48, shall be appealable to the Commissioner of Revenue, and every order of the Commissioner, except when otherwise directed by this Act, shall be appealable to the Board of Revenue, but no appeal shall lie under this section against any order unless the same be presented within one month from the date of the order.

Orders to be final.

60. Subject to the right of appeal above-mentioned and to the order and control of Government, every order passed under the provisions aforesaid shall be final, and shall not be open to revision by any Civil Court.

Powers on inquiry and appeal.

61. In any inquiry or appeal held under this Act, the Collector and the Commissioner shall respectively have the same powers

as those conferred on Courts by the Code of Civil Procedure of summoning and examining witnesses and compelling the production of documents.

General control of Commissioner and Government.

62. All the powers of a Collector under this Act shall be exercised under the general control and orders of the Commissioner of the Division, and all the powers of Collectors and Commissioners shall be exercised subject to the general control and orders of the Board of Revenue and of the Government.

Disposal of lands no longer required for embankments.

63. Whenever the maintenance of any public embankment, or the retention of any land appropriated to the purposes thereof, may no longer be required, and the permanent relinquishment of the same may be deemed expedient, such land shall be conveyed by the Collector to the proprietor of the land, within the limits of which it may be situated, on payment of the compensation, if any, which was paid for such land when the same was taken for the purpose of the embankment. If the proprietor of such lands refuse or neglect to pay such price within a reasonable time after demand, the same shall be sold by the Collector for such price as he can obtain for the same. All sums obtained for the conveyance of lands under the provisions of this section shall, after the payment of all expenses incurred on account of the same, be applied to the payment of the cost of any new embankment or drainage works affecting the said lands, and in such case the residue only of the cost of such new works shall be charged upon the zemindars of estates benefited as hereinbefore provided.

Collector may delegate any of his powers to a Deputy Collector.

64. A Collector may delegate any of his powers under this Act to a Deputy Collector, but from any order passed by a Deputy Collector to whom powers have been so delegated, an appeal shall lie to the Collector if presented within thirty days of the date of the order.

Jurisdiction.

65. All offences created by this Act shall be inquired into and tried by a Magistrate of the first or second class.

Saving of Bengal Act V of 1871.

66. Nothing in this Act shall affect the provisions of "the Hooghly and Burdwan Drainage Act 1871."

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations, and was referred to a Select Committee who are to report thereon in a month :—

A Bill to provide for the Voluntary Registration of Mahomedan Marriages and Divorces.

WHEREAS it is expedient to make provision for the voluntary registration of Mahomedan marriages and divorces within the provinces under the control of the Lieutenant-Governor of Bengal; and whereas it is expedient that Registrars of such marriages and divorces should be recognised and licensed by the Local Government, it is enacted as follows :—

1. It shall be lawful for the Lieutenant-Governor of Bengal to issue a license to any person being a Mahomedan, either by name or as holding any office for the time being, authorising him to act as Registrar of Mahomedan marriages and divorces.

2. Such licenses may be given on the recommendation of the Magistrate of the district, or in Calcutta, of the Commissioner of Police, to any member of any Mahomedan sect who can show that he is usually resorted to as a professional witness in such cases by his co-religionists, or that he has practised the duties of Kazi, and that he is well versed in Mahomedan law, provided always that satisfactory evidence is produced of his being a person of good moral character.

3. No Mahomedan marriage or divorce which would otherwise be valid shall be held to be invalid merely by reason of its not having been registered before a Registrar licensed under this Act.

4. Each licensed Registrar under this Act shall keep a Register Book in a form to be laid down by the Local Government in which he shall enter all marriages and divorces,—the parties to which shall desire to have them so registered. He shall also, if requested at the time, give an extract of any entry affecting them to either of the parties to such entry.

5. The entry of any marriage or divorce in the Register Book shall be signed by the Registrar, and signed, sealed, or marked by the persons married or divorced, and shall be attested by at least two credible witnesses who were present at the ceremony, and every such entry shall be made in order from the beginning to the end of the book, and any extract of any entry given to the parties shall be numbered to correspond with the number of the entry in the Register Book, and shall be authenticated by signature of the Registrar.

6. The Registrar shall keep safely the said Register Book until the same shall be filled, and shall then, or if he shall leave the district, make over the same to the District Registrar of Assurances for safe custody.

7. Any Registrar who shall discover any error to have been committed in the form or substance of any such entry may, within one month next after the discovery of such error, in the presence of the parties married, or divorced, or in case of their death or absence, in the presence of two other credible witnesses, who shall respectively

attest the same, correct the erroneous entry according to the truth of the case by entry in the margin without any alteration of the original entry, and shall sign the marginal entry, and add thereunto the day of the month and year when such correction shall be made, and shall if possible give or cause to be delivered a corrected copy of the extract to the parties to the original entry.

8. Every Registrar shall at all reasonable times, and on the payment of such fees as may be agreed upon, search or permit search to be made in any such Register Books, and shall give a copy under his hand of any entry or entries in the same.

9. Every certified extract of any entry in any Register Book purporting to be signed by the licensed Registrar, shall be received as evidence of the marriage or divorce purporting to be so entered or of the facts purporting to be so certified therein, without further proof of such Register Book or extract, unless and until the genuineness of such entry or extract or the truth of the facts set out in it be disproved.

10. Whoever shall wilfully destroy or injure or cause to be destroyed or injured any such Register Book or any part thereof, or any such authenticated extract as aforesaid, or shall wilfully insert or cause to be inserted any false entry in any such Register Book or authenticated extract, shall be punished with imprisonment of either description, as defined in the Indian Penal Code, for a term which may extend to seven years, and shall also be liable to fine.

11. It shall be lawful for the Lieutenant-Governor to draw up rules and prescribe forms for giving effect to the provisions of this Act, and to charge a fee not exceeding Rs. 2 for each license granted under the Act, provided always that no rule shall be laid down to interfere with the taking by any licensed Registrar from the parties to any marriage or divorce of any fee, which custom or his position may entitle him to demand.

STATEMENT OF OBJECTS AND REASONS.

The attention of the Government has for some time past been drawn to the increasing number of offences against marriage shown in the criminal returns, especially in the eastern and Mahomedan districts. The remarkably small number of convictions obtained in such cases taken together with their increasing numbers, seemed to indicate the existence of a grievance which the Criminal Courts are at present unable to redress. Inquiry has proved that this is in fact the case. The loose notions regarding the marriage tie prevalent among the lower orders of Mahomedans lead to the frequent institution of criminal charges, while the absence of any authorized system of registration of marriage and divorce (since the office of Kazi ceased to be recognized by law) makes it difficult to furnish the amount of proof which the Criminal Courts require to warrant their taking action.

It appears to the Government that the legal recognition of an authorized system of registering Mahomedan marriages and divorces will go far to supply the existing want, and this Bill provides such a system. The Registrar will, as regards such registration, take the place which was filled by the old Kazis, and certified copies of extracts from his register are made *primâ facie* proof of the facts recited therein. But the registration of marriages and divorces is left optional with the parties concerned, and all questions of remuneration are left to be settled between the Registrar and the parties who avail themselves of his services.

EMIGRATION TO THE LABOR DISTRICTS.

THE further consideration of the Bill to amend the law relating to the emigration of laborers to the districts of Assam, Cachar and Sylhet, and to regulate contract labor and service, in order to the settlement of its clauses, was resumed.

THE HON'BLE THE ADVOCATE-GENERAL said he had to move a few verbal amendments in order to render the terms of the Act homogeneous, namely, to express, as far as possible, throughout the Bill the same idea by the same words. The first amendment he had to move was a verbal one, to substitute the word "contracts" for "a contract" in line 4 of Section 3.

The motion was agreed to.

The following amendments were also made on the motion of the Advocate-General :—

In Section 7, line 5, the words "and executed according to the provisions of" were substituted for "in accordance with."

In Section 49, line 13, "a depôt in a place approved of" were substituted for "the depôt registered": depôts not being registered but approved of under Section 35.

In Section 109, line 5, the word "are" was inserted after "or any of them," to complete the grammatical construction of the sentence.

In Section 122, which was a new section, there were two kinds of seizure of deserters spoken of. The term "apprehend" was used where an employer apprehended a deserter upon his own motion under the provisions of the law. The term "arrest" was used where the apprehension was made under a warrant. The words "or arrested" were, on the motion of the Advocate-General inserted after "apprehended" throughout the 5th clause of the section so as to make it more clear that the fine might be imposed or the compensation awarded in both classes of cases, that was to say, where either the apprehension or arrest was made without sufficient cause.

The first clause of Section 5 stood as follows:

"Every contract made with an emigrant, and all arrear of wages due under any such contract, and all fines imposed on any employer under the provisions of this Act, shall be a charge on the lands upon which such laborer has been engaged to work."

THE HON'BLE THE ADVOCATE-GENERAL said it was quite obvious that the word "emigrant" there used meant a laborer as defined under the Bill. The emigrant became a laborer after he got up to the tea districts. He did not think it was intended to give emigrants contracting outside the Act a lien on the estate: such a person would have whatever rights he acquired under his contract outside the Act. The Advocate-General moved the substitution of "laborer" for "emigrant" in line 1.

HIS HONOR THE PRESIDENT said there was no doubt that the amendment which the Advocate-General proposed was somewhat confusing; but inasmuch as the words "every contract made with an emigrant" would operate only as regards emigrants outside the Act under one-year contracts, the section as it stood would not apply to the ordinary laborers under the Act. The result of the amendment would be to put contracts made outside the Act on the footing of any other ordinary contract. HIS HONOR'S only doubt was whether there might not be some obscurity involved in the section as proposed to be amended, because under the definition a man was an emigrant until he arrived in the labor districts.

THE HON'BLE THE ADVOCATE-GENERAL said the contract was made with an "emigrant." When he got up to the labor districts he became a "laborer." As was suggested to the Advocate-General by the Hon'ble Member on his right (Mr. Dampier), the section might be made clearer by using the words "any contract made under the provisions of this Act," it not being the intention to give contracts made outside the Act any privileges or rights beyond what would be given to them under the law. But if the language of the section was allowed to stand as it was, emigrants with contracts for one year would acquire certain rights and claims upon the land. If an emigrant by his contract got a lien upon the land, well and good; but if he did not get it by the law, he would not get it by this section. The amendments which the Advocate-General would propose in lieu of what he had previously moved, would be as follow:

In line 1 to substitute the words "every contract made according to the provisions of this Act" for "every contract made with an emigrant."

In lines 7 and 8 to substitute the words "any person has been engaged to labor under such contract" for "such laborer has been engaged to work."

In clause 2, line 3, to substitute "person" for "laborer."

His Honor the President said, by the amendments now proposed any laborer under a free contract would not become a special charge upon the land. His position would not depend upon the special provisions of Section 5. It was proposed that a free contract should fall under the operation of the ordinary law, and not under this section.

The motion was then agreed to.

Verbal amendments were, on the motion of the Advocate-General, made in Sections 15 and 78, and in the note to schedule (A).

His Honor the President moved that in Section 89, in the last line but one, the figures "78" be inserted after "76," and in the last line the figures "83" be inserted after "82"; the effect of the amendments would be that the section as amended would run thus:—

"The Magistrate of a district, or of a division of a district, may depute any subordinate Magistrate to exercise the powers and authorities conferred, and perform the duties imposed on a Magistrate under the provisions of Sections 72, 73, 74, 75, 76, 78, 79, 80, 81, 82, 83, 84, and 88."

He might mention that the judicial powers of Magistrates under this Act were entrusted only to Magistrates of the higher grades, those exercising the powers of Magistrates of the 1st and 2nd classes; but under the provisions of this section certain powers which did not require to be exercised by high judicial officers—the executive powers of inspection of vessels and such like, might be deputed by superior Magistrates to subordinate Magistrates of any class. In order to render this procedure uniform His Honor proposed to add these two sections, which were on all fours with the other sections in the list, and to make the rule complete under which certain duties, and certain duties only, could be executed by any subordinate officer who was deputed for the purpose by his superior officer.

The motion was agreed to.

On the motion of the President, verbal amendments were made in Section 122 and in the note to schedule (A).

His Honor the President said, it had been pointed out to him that in some cases it would be inconvenient if a steamer were detained unnecessarily during six hours of daylight at every station in which a Magistrate was posted. We hoped to render the transit of steamers on the Berhampooter more rapid than at present. It might be that a halting station was not a Magistrate's station, and it would be necessary to halt again on reaching the Magistrate's post. We thought it necessary that the Magistrate should have the power proposed of inspecting these emigrant vessels; but it did not seem necessary that practically a whole day should be lost in all cases. We therefore proposed the insertion of certain words which would give a discretion to Magistrates. The first part of the section, with the addition of the words proposed, would read thus:

"Every licensed vessel carrying emigrants shall stop at every place in which a Magistrate is stationed intermediate between the places of embarkation and disembarkation of such emigrants, and shall remain during not less than six hours of daylight, *unless the Magistrate shall permit an earlier departure.*"

The consequence of the amendment would be that, when everything was in order, the Magistrate might go on board for half an hour, and if satisfied that everything was right, might allow the vessel to proceed on its voyage.

The motion was agreed to.

The Hon'ble the Advocate-General moved that the Bill as amended be passed.

The Hon'ble Mr. Robinson said, before the final vote was taken on this Bill, he would trouble the Council with a very few words. On the introduction of the Bill a desire was expressed by him, on behalf of the Tea interest, that ample time should be given for the consideration of the Bill, and full enquiries made upon the effect of the many alterations proposed by it. He was now anxious to say that the promise that was made at that time by the Government that that should be the case had been most fully and completely fulfilled. No Bill that had ever been before the Council had taken, he believed, so long a time to pass,

or had received such ample discussion, or in regard to which so much and such a variety of information had been collected from both official and non-official sources, as in regard to this Bill. And he rejoiced the more that that had been the case, because he thought it must be admitted that the enquiries that had been made tended to show that the planters as a body had treated their laborers fairly and humanely, and had shown every disposition to act in accordance with the law in all matters connected with their business. The Bill, like all Bills, had been finally settled by a series of compromises, and as it would now be passed, he thought that these compromises, having been made in a spirit of fairness, had brought it into a state equitable to the interests concerned. He thought that every question that had been raised had been fully and fairly considered, and there had been every disposition on the part of the Government to consult the interests both of planters and coolies. He trusted that, in the course of a few years, legislation of this kind would be no longer necessary for the Tea districts; that their condition would be so changed that the execution and enforcement of contracts might safely be left to the operation of the ordinary law of the land. Meantime, he earnestly hoped that there would be no further legislation on this subject, which had been now so often and carefully discussed, and that no measure relating to it would again be brought before this or the Supreme Council, unless it was the introduction of a short Act to repeal this Bill entirely.

His Honor the President said, before putting the question to the vote, he thought it right that he should, on the part of the Government, express the very great gratification with which he had listened to the observations of the Hon'ble Member. We did value extremely the testimony that he had been good enough to bear as to the fairness and fullness with which the questions which had been raised had been discussed. His Honor was glad that the Hon'ble Member had been good enough to bear testimony to the fact that ample opportunity for full discussion by all parties had been given. He trusted they had now, by the labors of the Committee and the Council, and more especially by the labors of the learned Advocate-General, who was in charge of this Bill, arrived at a conclusion satisfactory to all parties. He took it that he might receive the expression of opinion which the Hon'ble Member had now given as a testimony to the belief of those whom he represented, as it was our belief, that the compromises to which we had arrived at were the best compromises which the wisdom of this Council could devise; and so far as human foresight could foresee, we hoped that they would work well. His Honor thoroughly endorsed what the Hon'ble Member had said with regard to the enquiries that had been made, that they did show that the planters, as a body, had treated their coolies fairly and well; and he was sure that it was the wish of Government, and of all of us, that we should do the utmost that we could to promote this great Tea industry; to promote the development of those districts which were so lately covered with jungle; to do everything in our power to promote the welfare of these districts, the increase of tea cultivation, and the general development of the productions and the revenue of the country.

In regard to the question which had lately most occupied the attention of the Council, and which had been settled by a compromise, he was more and more sanguine that we had made a fair compromise. Assam was a long way off, and some of the opinions from that district did not arrive until a late stage of our proceedings; but he was happy to find that they went to corroborate and endorse the views the Council had arrived at. He found that in Assam, although the planters were not so sanguine as they were in Cachar, there seemed to be a general concurrence of opinion that it was desirable that free labor should, to some extent, be tried. It was suggested by several experienced planters and others that it was quite possible that free labor might sooner or later find its way into Assam. We were told that recruits for the regiments in Assam came of themselves from various parts of the North-Western Provinces, and it was suggested that when the roads which were now being opened were put into proper order, and resting and cooking-places and other conveniences for travelling provided, free labor would find its way into Assam. That would be an extremely desirable result. His Honor not only concurred in most of the obser-

vations that had been made by the Hon'ble Member, but he thoroughly concurred in the last observation, that he hoped legislation on this subject might not be further necessary. His Honor hoped and trusted that the Bill, which was now about to be passed through its final stage—if the Council should see fit to pass the Bill and it should receive the assent of the Viceroy—might suffice for some time to come, and be beneficial in its results; and he hoped that the next occasion on which legislation might be proposed, it might be in the shape the Hon'ble Member had suggested, namely, that all special legislation be brought to an end, and that the labor districts being fitted for free emigration, might be brought under the operation of the ordinary law of the land.

The motion was agreed to.

REGISTRATION OF MAHOMEDAN MARRIAGES AND DIVORCES.

The Hon'ble Mr. Dampier said the Select Committee on the Bill to provide for the Voluntary Registration of Mahomedan marriages and divorces was required to report within one month. But the Hon'ble Member whose knowledge was most special on the subject had only just returned to his place in Council. It would therefore be impossible to submit a report within the month, and he now asked that the Committee be allowed to report within two months of the date of appointment.

The motion was agreed to.

The Council was adjourned to a day of which notice would be given.

EMIGRATION FROM DISTRESSED DISTRICTS.

Dated Calcutta, the 1st December, 1873.

From—A. Wilson, Esq., Secretary, Landholders' and Commercial Association.
To—The Offg. Secretary to the Government of Bengal, Statistical Department.

I am in receipt of your letter No. 3517 of 19th ultimo, regarding the impending scarcity of food in Bengal, and requesting the Association to favor His Honor the Lieutenant-Governor with any suggestions that the members may be able to make, as to the best mode of promoting emigration to the tea districts during this exceptional season, and as to the terms on which planters may be willing to bear part of the cost of importing emigrants, and agree to employ them as laborers.

2. In reply, I am directed to say that the members of the Association feel deeply the emergency of the present threatened famine, and avail themselves of this opportunity of recording with pleasure their cordial approval of the measures taken by His Honor in conjunction with the Government of India, to avert, so far as human agency can, the impending calamity.

3. After careful consideration, the committee instruct me to submit the following suggestions relative to the emigration of laborers into Assam and Cachar, as one means of relieving to some extent the famine districts of a portion of their surplus population.

4. They are of opinion that if His Honor has decided on promoting the emigration of these laborers, the first point that Government must see to and arrange for at once, is the establishment of central depôts at the principal ghauts on the rivers where steamers and boats usually call on their upward voyage, and where the laborers and their wives and families can be inspected by the planters, or their agents, desirous of employing them. Planters could not enter into any special agreements as proposed with laborers to work on their gardens, until such inspection had been held, and people fitted for the work carefully selected.

5. The committee are of opinion that efficient able-bodied men and women of the *working* class from Behar, would readily find employment on the different gardens in Assam and Cachar, on the condition that the charge per head did not exceed Rs. 15, landed at any of these central depôts referred to above, and that these special agreements between planters and laborers did not determine before the end of the tea season of 1875.

6. I am also instructed to convey to Government the opinion of the committee that an immediate and favorable settlement of the waste land rules, now in abeyance, would enable planters to assist His Honor's Government to a very much greater extent, by the employment of a larger number of people from the famine districts than they can be expected to do at present.

Many planters are now most anxiously waiting for the publication of these new rules, as in several cases, which have been brought to the notice of the Association, serious pecuniary loss has been sustained by *bonâ fide* proprietors of tea gardens, anxious to extend and improve their property, but at present unable to do so.

The committee feel it necessary to refer to His Honor's Resolution of the 25th April, 1872, in which he strongly deprecates sending any Up-country or Hindustani coolies from above Bhaugulpore as laborers to any of the tea districts, on account of their unsuitableness for work in such a climate as that of Assam and Cachar.

The opinion of the majority of planters coincides with that of His Honor, and the committee beg, therefore, that it may be had in remembrance, should any great mortality take place amongst these emigrants, that they were sent to the tea districts under the exceptional circumstances now existing, and engaged by planters with the view to assist Government in its measures for the relief of the districts most seriously threatened with distress from the failure of their crops.

No. 4092, dated Calcutta, the 22nd December, 1873.

From—The Offg. Secretary to the Government of Bengal, Statistical Department.
To—The Secretary to the Landholders' and Commercial Association.

I AM directed to acknowledge the receipt of your letter of the 1st December, offering the suggestions of the Association as to the best mode of promoting emigration to the tea districts during the present season of high prices, and in reply to communicate the following observations made by the Lieutenant-Governor.

2. The last paragraph of your letter, regarding the suitability of the tea districts for Hindustani laborers, raises very important questions. It is the case that after visiting Assam in 1871 the Lieutenant-Governor did, as noticed by the Association, express grave doubts as to the suitability of the Assam climate for this class of laborers. That opinion of His Honor was based on what he heard from planters and others in Assam. The Association now say that the majority of planters coincide in that opinion, and your letter begs that this may be held in remembrance should any great mortality occur among the people whose emgration it is now proposed to promote. Such a suggestion, however, His Honor thinks, lays a very grave responsibility on the Government, and the Lieutenant-Governor has very gravely considered the matter. In consequence of the opinion which the Lieutenant-Governor had formed in 1871, a full inquiry was made into the question whether the tea districts really are unsuitable to the Hindustani constitution. There was a good deal of variety of opinion, but the general result of the opinions of those best qualified to judge and of the most experienced officers of Government, was that if these people are at once sent to remote, jungly, and unhealthy gardens, they do suffer more than other classes, especially in the first year, before they have become acclimated, and have accustomed themselves to a diet different from that they have in their own country. But there was a very general opinion that if they are put on well-cleared and healthy gardens in parts of the country well opened out, where there are bazars and markets, and are carefully acclimatised, and enabled to procure the food they like, they become very good laborers, and thrive just as well as others; and that they do very well for tea-house and such in-door work, and in the cold weather particularly, as well as any other classes of laborers.

3. It is admitted that the classification of laborers for mortuary returns is not very exact or reliable; but still, even allowing for a large margin of errors of classification, the following table seems strongly to militate against the

conclusion that in most large gardens the Hindustani laborers are more unhealthy than others. In his annual report the Commissioner of Assam wrote that—

"The percentage of deaths in 1872 according to nationality was—

Nationality of laborers.	All Assam.		Kameroop.		Bishnath.		Chardooar.		Mungledye.		Nowgong.		Upper Assam.	
	Average number.	Percentage of deaths.	Average number.	Percentage of deaths.	Average number.	Percentage of deaths.	Average number.	Percentage of deaths.	Average number.	Percentage of deaths.	Average number.	Percentage of deaths.	Average number.	Percentage of deaths.

4. The result of the inquiry made in accordance with the orders quoted by your Association was that the Lieutenant-Governor determined not to stop the emigration of people from the Up-country Hindustani districts to the tea districts. At the same time Sir George Campbell quite feels that if in this time of scarcity such emigration is specially promoted, Government must be very careful that Hindustanis from the open cultivated districts of Behar are not bound down to labor in jungly and unhealthy tea gardens. I am therefore to request that in any applications for coolies to be supplied by aided emigration, full particulars regarding the situation and character of the gardens in which they are to be employed may be furnished.

5. Looking to all the circumstances, the Lieutenant-Governor would not like to bind down laborers supplied by aided emigration for a larger term than the one year for which it is proposed to allow free contracts by the new labor districts rule. In addition to the one year the planters will have what may be called the good-will of the coolies, that is, he will have the first chance of re-engaging the people settled in his estate. As regards the proposal for the establishment of river-side depôts, I am to say that it would not be possible to import coolies and then let planters choose or reject from among them, but Government would form depôts in the districts whence they come, and where planters might send agents to satisfy themselves.

7. With reference to paragraph 6 of your letter, I am to say that the Government of India has been moved to publish the new rules for the sale of waste lands as early as possible.

8. The Lieutenant-Governor will be glad to know if the Association thinks that emigration can be advantageously promoted on the terms above set forth.

LIBERALITY OF BABOO JOYKISSEN MOOKERJEA.

THE following papers are published with an expression of the Lieutenant-Governor's satisfaction at Baboo Joykissen Mookerjea's thoughtful liberality to his ryots, and of his confidence that this good example will be followed by many other zemindars in Bengal:—

No. 157, dated Burdwan, the 18th December, 1873.

From—C. T. BUCKLAND, Esq., Commissioner of Burdwan.

To—The Secretary to the Government of Bengal, Statistical Department.

AT the suggestion of the Collector of Hooghly, I have the honor to submit, for the information of Government, extract from a letter from Baboo Joykishen Mookerjea regarding the measures which he proposes to adopt for the alleviation of distress among the ryots on his estates. Mr. Pellew makes the following remarks:—

"It is needless for me to speak of the active benevolence always displayed by Baboo Joykissen Mookerjea in season of need, as it is well known to Government. I think that the publication of his letter may have a good effect in stirring up other zemindars to do their duty."

2. I have requested the Collector to convey my thanks to Baboo Joykissen Mookerjea for his conduct, and trust that it will meet with the further approbation of the Lieutenant-Governor.

Extract from a letter from Baboo JOYKISSEN MOOKERJEA *of Ooterparah to the Collector of Hooghly, dated 10th December,* 1873.

"I BEG leave to add that I have been trying to do, in a humble way, what I can to prevent and mitigiate the distress of the people in those of my villages which are likely to suffer most by the failure of the crops. I have issued orders to my mofussil agents to suspend the collection of more than half the balance of the current year's rent in Dwarbasini, Hasnan, and several other villages. One-half of the portion thus remitted will be realized next year if there be a good amun crop, but the other half will be given up altogether. I have also sent trustworthy agents to visit my estates, and to exempt altogether from the payment of rent all ryots who are too poor to pay and to give advances to those of them who have no food-grain, such advances being recoverable next year without interest if there be a good crop. I also intend to buy large quantities of rice and store them for sale at cost price in those villages where food-grain is likely to be scarce. This last measure will not become necessary before the beginning of February, when in addition to the food-grain I shall have to advance large sums for the cultivation of aus paddy in March."

Rainfall, Weather and State and Prospects of the Crops.

...t showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 20th December 1873.

District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
Western Districts.		
Burdwan, 23rd Dec.* 1873	Nil	Weather fair and cold. Reaping of the late paddy crop is going on; an average five-anna crop is expected. Prospects of winter crops and sugarcane are fair. Grain market shows tendency to rise. Export continues, particularly from Nadunghat in Culna sub-division by boats. Fever in *statu quo*.
Bancoorah, 20th Dec. 1873.	Nil	Dry and clear weather. The reaping of the hymunty or winter paddy is still in progress. The new rice is being extensively sold in the Bancoorah bazar. The price of rice is much the same as last week. The sugarcane and cold weather crops must suffer from the continued want of rain. The harvesting of the teel (oil-seed) has begun in many places.
Beerbhoom, 20th „ „	Nil	Bright and unseasonably warm weather. No change in the prospects of the crops; harvest of late rice approaching completion; sugarcane declining and being cut, immature in some places. Exportation by rail chiefly to Bhaugulpore and Patna Divisions 8,445 maunds.
Midnapore, 20th „ „	Nil	Weather cold and clear. The rain last week is said to have done some damage to the standing rice at Contai, otherwise it has improved the prospects of the cold weather crops. It was confined to the north and eastern portions of the district.
Hooghly, 26th „ „	Nil	Clear weather throughout; wind from north and north-east. The rain of last week has done more good than was expected to the cold weather crops, and ploughing and sowing is going on to some extent. Rice crop is the same as before.
Howrah, 20th „ „	Nil	Fine weather everywhere. The late rice is now about two-thirds reaped. There is no doubt that *at the least* a full eight-anna crop will be gathered. The Shampore and Collooberiah thannahs have a good twelve-anna, but the purchases made by the Calcutta grain dealers are absolutely enormous and seem to be denuding the district of rice. The ryots are selling their crops at Rs. 2 the maund, and the dealers seem to be selling actually all not required for their own households. Towns-folk and the large class of poor people who do not cultivate are bitterly complaining that no food will be left in the district for them.
Central Districts.		
24-Pergunnahs, 23rd† Dec. 1873.	Nil.	The weather has been cooler during the week, but not so cold as it is usually at this time of the year. No rain has fallen. The harvest of the late rice crop is going on rapidly. In Baraset and parts of Diamond Harbour the outturn is better than was expected. In the northern and southern parts of Satkhira, prospects were reported to be bad, and in other parts of the sub-division an eight-anna crop is still expected. Cold weather sowings in Baraset and Barriepore are doing pretty well. The outturn of kalai and khesary pulses in Diamond Harbour has not been good, and the price of the latter has risen to nearly three times its ordinary rate. There has been no change in other sub-divisions of the district since last report. Fever prevails in parts of the south suburban town, Bascerhat, Diamond Harbour, and Barrackpore. It is reported to be abating in Satkhira, Baraset, and Barriepore.
Nuddea, 20th „ „	Nil	Fine weather throughout the week. The reports of the late rice crop from Meherpore and Ranaghat sub-divisions are somewhat more favorable than before, otherwise prospects are unaltered. Arhur (pulse) and teel (oil-seed) appear to have everywhere given a fair outturn. Prices show a tendency to decline except in the sudder sub-division. Public health good.
Jessore, 20th „ „	Nil	Weather cold and clear, no rain has fallen. The *Chotan* paddy is nearly harvested and the *Boran* paddy is coming on well. There is no change in the prospects of the winter crops. Prices of rice remain low. It would appear that there will be at least an eight-anna crop of rice if not more.
Moorshedabad, 20th Dec. 1873.	Nil	The cloudy weather continues, but the clouds disperse without rain. The late rice is nearly all cut. The cutting of mashkalai (pulse) and teel (oil-seed) has also begun with prospects of good crops; the former may yield fourteen annas in some parts. *Boro* paddy seedlings are ready, and the ground has also been prepared for transplantation, but except on the borders of "beels," cultivators are waiting for plantation before transplanting. Sugarcane is in fair condition, but the drought has rain before its juice. It may still yield an average crop. Indigo looks well. For weakened cold weather crops rain is much wanted. Small-pox continues in places the other mentioned in last report, and has also broken out in Sujagunge and Burwa.
Dinagepore, 20th „ „	Nil	No rain, but clouds gathering and looks as if rain would fall soon. No alteration in the state and prospects of crops from last week.

...gram of the 23rd December received on the same day. ...ows rainfall during the seven days immediately preceding.

		Central Districts.—(Contd.)		
RAJSHAHYE DIVN.—(*Contd.*)	11	Maldah, 20th Dec. 1873	Nil	Mornings occasionally foggy, days sunny, and nights cold. Clouds still collect at times. No change in the weather. The winter rice crop, which is being harvested, will not be more than a four-anna crop. The *kalai* crop now ripening will be an average one, and the cold weather crops, wheat, peas, &c., still promise a fair average yield; rain would do these much good. Prices stationary and supplies at local markets more plentiful; work going on on the ordinary district roads and on those newly projected as relief works. Places for storing grain for relief works selected, and arrangements for afore golahs progressing. Rice arriving from Godagari for relief works in Dinagepore.
	12	Rajshahye, 20th „ „	Nil	No change in the weather. There having been no change in the weather, there is very little to be said in addition to last week's report. Urhur and kalai (pulses) and mulberry are still doing well, and there is a promise of a fair crop of indigo. In some parts of Nattore the mustard crops are very good. The other cold weather crops require rain very much. In some parts of Sinigrah there is already a scarcity of water, and it is feared that later this will aggravate in no small degree the sufferings of the poorer class of inhabitants in that tract of country. Every effort is being made to induce these people to sink wells and to improve their tanks. Prices remain steady. A few cases of cholera have occurred in several parts of the districts, chiefly in Nattore.
	13	Rungpore, 20th „ „	Nil	Days becoming colder with fogs occasionally. Cutting of rice crops still progressing; new rice is coming into the market and prices are easier, from Rs. 2-8 to 4 a maund. Sugarcane favorable, mustard generally good; other winter crops are being sown and ploughing going on everywhere.
	14	Bogra, 20th „ „	Nil	No signs of rain. As might be expected no improvement is reported with respect to the late rice crop. Sugarcane in certain parts is doing fairly. Maskalai (pulse) is being gathered in parts. Yield of sesamum (oil-seed) in Dhunat outpost is four annas only.
	15	Pubna, 20th „ „	Nil	Sky clear, weather cold, no rain at all; heavy fogs in the mornings. The ryots are now reaping the *Boro amun* dhan—late paddy. Of the winter crops, moog (pulse) has nearly been collected from the fields. Maskalai (pulse) and teel (oil-seed) have been commenced to be cut. Prospects of sugarcane and turmeric good. Heavy rain is required for the growth of the other winter crops, viz. wheat, barley, gram, and mottor and khesari (pulses) and mustard, which are daily becoming worse for the drought. Fever very prevalent. Many deaths reported from the sub-division, and a very large proportion of the population invalided.
COOCH BEHAR DIVN.	16	Darjeeling, 20th „ „	Nil	Misty and chilly weather, little sunshine, very cold. The hymunty or late rice crop is being reaped and still gives the prospect of a ten-anna outturn; common rice maintains the same price as during previous week, viz. Rs. 4 per maund. Bhoota (Indian-corn) has fallen still lower than last week, being now Rs. 2 per maund.
	17	Julpigoree, 20th „ „	Nil	Clear and fine weather, but decidedly hotter than is usual at this time of the year. The hymunty or late rice crop is rapidly being reaped, three-fourths of it being already cut. Cold weather crops promising well. There is no change of any importance to note, the crop being cut comes up to the estimate previously made. Exportation goes on largely, and the people generally are now consuming new rice. Manufactured jute is selling at twice the price it did this time last year.
		Cooch Behar, 20th „ „	Nil	No signs of rain. The mornings are not so foggy as in other years. There is no improvement in the prospects of the crops since last report. The tobacco and the mustard crops have already suffered from want of rain. Large quantities of rice are still being exported to Rungpore and other districts.
		Eastern Districts.		
DACCA DIVISION.	18	Dacca, 23rd* „ „	Nil	Weather still warm for the season. Heavy dews, prospects of crops fair, rice nearly all cut.
	19	Furreedpore, 20th „ „	Nil	There has been no rain up to date, but some clouds about. The weather is cool and looks to be settled fair. The reports from every side on the cold weather crops are bad, and the condition of the district is not altered except for the worse by another week without rain. Early rice is being sown on the Cachi Chur, or recently formed chur lands. *Boro* paddy is being sown in the beels in the south of the district.
	20	Backergunge, 20th „ „	Nil	Weather clear and cold. State and prospects of the crops are good. The harvest is turning out better than was expected, and the high prices are doing good to the ryots, *i. e.*, to three-fourths of the population.
	21	Mymensing, 20th „ „	Nil	Fine calm weather and considerably colder than last week. Heavy dew at night. Teel (oil-seed) and pulses will be a good average crop. The rice crop is still being harvested, and the accounts from most parts of the district are tolerably favorable. Price of food has fallen somewhat this week. Fever is still reported prevalent in the Attea sub-division.

* Telegram of the 23rd December received on the same day. Shows rainfall during the seven days immediately preceding.

	No.	Station and date of return	Rainfall at Station in inches	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)				
		Eastern Districts.—(*Contd.*)		
DACCA DIVN.—(*Contd.*)	22	Sylhet, 13th Dec. 1873.	Nil	Not so cool as might be expected at this time of the year. Very severe shock of earth-quake at 5-45 A.M. of Tuesday the 9th December. The whole of the *kalaria* and ten annas of the late rice crops reaped. 9,944 maunds of rice and 5,500 maunds of paddy exported from the district. Price of rice falling. Cholera broken out at Lakhai, Laskharpur, and Chattak. Small-pox at Nabigunge.
	23	Cachar, 13th „ „	Nil	Weather cooler, with foggy mornings. Rice crops are being rapidly cut. Price of rice has fallen in the sudder station.
CHITTAGONG DIVISION.	24	Chittagong, 13th „ „	Nil	Weather clear, fine, and seasonable. Paddy is being cut all over the district. Insects are disappearing, and the damage done appears to be slight. Cold weather crops generally doing well. Cholera reported from Meerkaserai, Potea, Rangonia, and fever stationary.
	25	Noakhally, 13th „ „	Nil	Weather fair, still hot during the day. The fair sunny weather is causing the "seni" insects to disappear. The reaping of the late rice is still going on. The prospects of the standing crops are favorable. The cold weather crops,—khesary (pulse) and chillies are doing well. Price of rice has fallen slightly. This is partly due to the in-coming of the new rice. Sporadic cases of cholera are met with in the town and suburbs.
	26	Tipperah, 20th „ „	Nil	Weather fine and cool. No change in the state of the crops to report since last week. Exportations continue very busy without forcing prices. Small winter crops are thriving fairly. Cholera has appeared in many places in the district and more specially in Comillah, where cases have been rather frequent for the last few days.
	27	Chittagong Hill Tracts, 13th Dec. 1873.	Nil	Cool throughout the whole week, foggy in the morning. The cotton is being gathered. Mustard is in flower, prospects of which are good. The outturn of the cotton will not be equal to that of an average year, owing to the early cessation of rain. There is no fear up to date of scarcity. The rain of last week has given an impetus to the mustard and other cold weather crops and has not damaged the standing rice crop.
		Hill Tipperah, 13th „ „	Nil	Weather bright and cold. Reaping of the paddy crops continues; the danger apprehended from insects has passed. Mustard and chillie crops fair.
BEHAR.				
PATNA DIVISION.	28	Patna, 22nd* „ „	·05	A very light rain fell on the night of the 21st December. It is expected to have been heavier to the south. The rice crop is still being cut in Behar, and the reports of the cold weather crops are even more favorable than last week. The insects which were destroying them having in a great measure disappeared. Health of the district good.
	29	Gya, 20th „ „	Nil	Weather cool, no rain fell in any part of the district. The rice crop is being harvested. The prospects of the cold weather crops are better than at first reported. In the western part of the district, where the fields are watered by the canal water, a good crop is expected. Up to 13th December about 9,500 beegahs were irrigated. Health of the district is good.
	30	Shahabad, 20th „ „	Nil	Weather clear, west wind all the week; cloudy, warm, and threatening rain on the 20th December. The cold weather crop which has germinated shows no change for the worse since last week. Rain is required. A slight fall in prices. Private importations of food-grains have considerably fallen.
	31	Tirhoot, 20th „ „	Nil	In the Madhoobani sub-division rice crop is being gathered in now, and it cannot be said that the outturn would be greater than the former estimate, perhaps less. Cold weather crops are withering from lack of rain, and will all perish if rain does not come soon. In Setamarhee there is nothing particularly to report, the prospect of the crop continues same as reported last week. In the Tajpore sub-division the prospects have not materially altered since last week; no more land has been sown, but some of the paddy lands have been prepared. The little paddy that has survived the drought is being cut; everything looks very lean and dry in the north of the sub-division. Prices nearly stationary. In the Durbhangah sub-division three-fourths of the rice crop cut down. By the end of the week the harvest will be pretty right completed. Rahur (pulse) and mustard continue to look well, also janerah (millet), the latter being a fair crop in the Rosserah and a good one in the Nagurbustee police jurisdictions. The small portion of the cold weather crop, *e.g.*, barley, wheat, and peas, which have been sown, looks better in the Durbhangah thannah than in Rosserah. Rain, however, being much wanted in both places. No decadence from last week's position is observable either in those localities or in Baheyrah. The continued drought has had a worse effect in Singhya. The prospects of the Sudder and Hajeepore are the same as reported last week.
	32	Sarun, 20th „ „	Nil	Weather clear and cold during the week, but cloudy on the 20th December. West wind prevailing. The paddy harvest almost completed and in some places yielded fairly, but the outturn for the district has not probably been under estimated at a tenth of an average crop. There has been no change in the state of the cold weather crops except for the worse as regards the crops in the unirrigated fields which are being sickened by the long drought. The cultivators are, however, nowhere backward in irrigating wherever practicable, and the irrigated crops are still doing well. Rahur (pulse) is in full blossom and looks promising. Sugarcane is being manufactured and yielding fairly. There seems to be no scarcity of supplies in the bazars. Prices of food-grains stationary.
	33	Chumparun, 20th „ „	Nil	Weather cool, west-wind and cloudy with a promise of rain. Little or no change in the state of the crops since last week, everything depends upon the next week.

* Telegram of the 22nd December received on the 23rd. Shows rainfall during the seven days including the 22nd idem.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)				
BHAGULPORE DITTO.	34	Monghyr, 20th Dec. 1973	Nil	Weather set fair. The rice crop, such as it is, is being cut and harvested. After visiting every rice pergunnah the Collector finds his first estimate of an average three-anna crop all round generally correct. The part of the district which grows cold weather crops, at least equal to the rice area, is generally looking well, though backward. At present a fair cold weather crop is hoped for, whether rain falls or not.
	35	Bhaugulpore, 23rd* „ „	Nil	Weather seasonable. The cold weather crops still promise to be very good, except in Mudhopoorah, where the seeds have not germinated in parts. General health good.
	36	Purneah, 20th „ „	Nil	No change in the weather. No change from last week's report as regards outturn of rice. All the cold weather crops except mustard in the south wants rain. Importation of grain in the south from Sahebgunge and Rajmehal and in the north from Julpigoree, and the good crop in Kusi is keeping prices down. The tobacco especially wants rain. In the neighbourhood of Kudbah and Kushba Amour insects are said to be destroying the cold weather crops.
	37	Sonthal Pergunnahs, 20th Dec. 1873.	Nil	Cold everywhere, with occasional clouds, but no rain. Rice is being cut everywhere. The crop is stated to be eight or nine annas in the west. *Kurthi* is a little better than was feared some time ago. There is a good deal of fair sugarcane in Deoghur. The rest of the cold weather crops, mustard and pulses, is hardly anything.
ORISSA.				
ORISSA DIVISION.	38	Cuttack, 23rd* „ „	Nil	Seasonable weather. Prospects of crops favorable. Prices have risen very slightly; average of common rice throughout the district 26 seers per rupee. Public health good.
	39	Pooree, 13th „ „	1·5	The weather was cloudy, with north wind during the greater part of the week; rain fell on the 6th and 7th December, and for the last three days it has been fair with changing wind blowing from the south and north. The weather at the time of the report was bright and warm, but rather hazy, but it was variable with tendency to cloudiness. The reaping of the Baghoo or second rice crop is well nigh completed, and the outturn is good. The late rice has ripened and is beginning to be reaped and a fair yield is expected. The sowing of the Dalua (Boro) rice crop has in part commenced. The bad weather which lately prevailed has not done so much injury to the crops as was expected. Stocks of grain are as usual, and the supply is equal to the demand. Purchases are being made by merchants in the town and in the interior for export to Bengal and Madras and foreign ports. Prices are still moderate in the mofussil.
	40	Balasore, 20th „ „	Nil	Seasonable weather. On inquiring from those best calculated to give an opinion, it appears probable that the outturn of rice from the whole district will be twelve annas. The cold weather crops which are only of small extent, except those about Jellasore, where there was no rain last week, are doing well. Rice selling at Balasore town 19 seers per rupee. Bhudruck sub-division.—Harvesting of rice continues. Rice is scarce and difficult to get in many of the markets. The price however has fallen somewhat, 32 seers per rupee of moderately clean rice being procurable at Bhudruck market. Crops have failed in Pergunnah Sosu and its neighbourhood, and relief measures are urgently required there. Public health good, excepting a little fever.
CHOTA NAGPORE.				
		South-West Frontier Agency.		
	41	Hazareebaugh, 20th Dec. 1873.	Nil	Weather clear and bright and cloudy and threatening alternately. The greater portion of the rice crop has now been harvested, and the estimate of outturn is said to be about ten annas. The prospect of the cold weather crops is unfavorable. The small quantity sown is said to be suffering from the drought, and blight caused by the cloudy weather has fallen on the mustard; if rain hold off much longer a short cold weather crop will be inevitable. Prices much the same as last week. There have been no special reports received this week from the south and west. In the Pachamba or Kurrackdilla sub-division, the outturn of the later rice crop in the lower lands has been far better than was expected. In some parts quite up to an ordinary year. Husked rice was this day selling at Pachamba for sixteen seers to the rupee, closier prices being about fourteen seers. The importation from Behar noticed in last week's report have ceased; it was very trifling and possibly owing to unfounded rumours. The kurti and teel crops have been poor. There has been no rain.
	42	Lohardugga, 20th Dec. 1873.	Nil	Weather clear for the greater part of the week. There was a slight shower which appears to have been pretty general over the district. There is little to add to last week's report. The slight shower of rain have done good, but more is very much wanted for the cold weather crops. From Palamow the reports are much the same as before. The paddy having been thrashed out shows an outturn of about five annas for the whole sub-division. There was a little rain on the 10th, but not enough to do much good.
	43	Singbhoom, 13th „ „	0·25	A little rain has fallen. Sky again clear. Days and nights cool and pleasant. Nothing to add to the last report. The paddy has all or nearly all been cut. The late rain will do some good to the musuri pulse and gram still on the ground.

* Telegram of the 23rd December received on the same day. Shows the rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sadder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.—(*Contd.*)			
	South-West Frontier Agency.—(*Contd.*)		
44	Maunbhoom, 20th Dec. 1873.	Nil	Weather cool. Mornings and evenings cold, bright sun during the day. No material change in the prospects of the crops since last week. The rain which fell on the 10th instant appears to have been very partial. In the Chilleama pergunnah the crops have been very bad, and in many villages there is but a two-anna to four-anna crop. All the paddy has now been cut. Wheat and barley are doing well. Public health good.
ASSAM AND ADJACENT HILLS			
45	Goalparah, 13th „ „	Nil	The whole week was fair and bright. The prospects of the late rice which is now being harvested are more or less disheartening everywhere, except the tracts near the Bhootan, Garo, and Kurribaree Hills, where a twelve-anna crop is expected. The outturn in Dhoobree sub-division, where most part was parched up, is six, and in the sudder sub-division eight annas; on the whole eight annas may be obtained.
46	Kamroop, 22nd* „ „	Nil	Mornings raw and misty, days clear and cold; dry wind chiefly north-east and east. Want of rain does not promise favorably for the sugarcane and mustard crops. Late rice is still being reaped, but a fair outturn is not expected. Public health good.
47	Durrung, 13th „ „	Nil	Temperature rather high for this time of the year; heavy fogs in the mornings, little north-east breeze. No change in the state and prospects of the crops since last report. There will be an eight-anna rice crop all round, but in some mouzahs the crop has entirely perished. The cold weather crops also greatly need rain.
48	Nowgong, 13th „ „	Nil	Weather seasonable, with heavy dews at night and foggy mornings. The rice crop being rapidly cut and gathered in. Cold weather crops doing poorly; mustard and sugarcane doing well. Tea operations quite over and bushes being pruned. General health good.
49	Seebsaugor, 13th „ „	Nil	No change in the weather and no rain. No change also in the state and prospects of the crops.
50	Luckimpore, 13th „ „	Nil	No rain during the week, the middle of the day is still hot, but the mornings and evenings are very cold. Nothing new. Cold weather crops continuing promising. Public health improving, but fever still hangs about.
51	Naga Hills, 6th Dec. 1873.	Nil	Weather dry and cool, but warm at noon. The *pathar* crops are now in course of being cut. They are below the average from want of rain. The terrai and joom crops have all been cut and gathered in, and the outturn is reported to have been a remarkably good one.
52	Khasi & Jynteah Hills, 13th Dec. 1873.	Nil	Fine weather. The only crop standing is murwah, which is doing well.
53	Garo Hills, 13th Dec. 1873.	Nil	Weather very hazy; clouds have sometimes collected about the Tura range, but no rain has fallen. Yams and such like are the only crops which remain uncollected. Jooming has been commenced.

* Telegram of the 22nd December received on the 23rd. Shows rainfall during the seven days including the 22nd idem.

The mean barometer, as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

[Second Publication.]

The 17th December 1873.—The following Rules for Native Civil Service Examinations and Civil Service Classes coming into force after the Examination of 1874, are published for general information:—

NATIVE CIVIL SERVICE EXAMINATIONS AND CIVIL SERVICE CLASSES.

[Rules to come into force after the examination of 1874.]

INTRODUCTORY.

Now that there have been held two annual examinations for the Native Civil Service, and that a third examination is to take place in February 1874, the Lieutenant-Governor wishes to place the Native Civil Service examinations and the preparatory classes for those examinations on a permanent footing.

2. All appointments in the Subordinate Executive Service, and all posts of Rs. 50 monthly salary and upwards in the sub-divisional establishments, both in Regulation and Non-Regulation Provinces, will ordinarily be reserved for persons who pass the Native Civil Service examination. Gazetted appointments in the Police and Opium Departments will generally be conferred on persons who pass this examination; but candidates will not be eligible for these departments save under a special certificate, which can only be granted under the orders of the Lieutenant-Governor. A list* of the persons who passed the Native Civil Service examinations of 1872 and 1873 shewing the appointments they now hold, is appended to these rules. Lists of successful examinees will be published in the *Gazette*, so that Commissioners, Magistrates, and Educational Committees may select for ministerial or other appointments passed candidates for whom vacancies in the Native Civil Service may not be immediately available.

* Appendix A.

ELIGIBILITY AND PRELIMINARIES TO THE EXAMINATION.

Admissible to examination.

3. All candidates eligible for appointments under rules 5 and 6 (below), who satisfy the preliminary requirements, will be admitted to the Native Civil Service Examination. No candidate will be admitted to the special examination for the Police, Non-Regulation Service, or the Opium Department without a special certificate, which can only be granted under the orders of the Lieutenant-Governor.

4. The preliminary requirements which all candidates must satisfy are—

(*a*) *Certificate of Character.*

A certificate will be required from every candidate of his character, respectability and general moral fitness, such certificate being signed by two gentlemen of his own nationality, resident in the district of which he is a native or where he usually resides, and also signed by the Judge or Magistrate of such district. The certificate of the two first named is expected to be based upon personal knowledge, and the certificate of the Judge or Magistrate to indicate that the gentlemen who have signed it are qualified by their position and character to give such a certificate, and that the Judge or Magistrate himself knows nothing to the prejudice of the candidate. In the case of the town of Calcutta, instead of the signature of the Judge or Magistrate, the certificate should bear that of any Judge of the High Court, or the Commissioner of Police, or the Commissioner of the Presidency Division.

(*b*) *Certificate of Sound Health.*

Each candidate will be required to produce a certificate from a Government medical officer stating that the candidate is generally a man of sound health, that he has expressed his willingness to serve in any district of the Lower Provinces, and that he (the medical officer) believes him to be capable of doing so, so far as can be judged antecedently.

(c) *Certificate of ability to Ride or Walk.*

Every candidate for the higher appointments will also be required to prove that he can ride, and for this purpose he may apply to the Magistrate of the district, who will either satisfy himself on the point, or select some other person he thinks competent for that purpose. The examiner must satisfy himself from his own personal observation that the candidate can ride not less than 12 miles at a rapid pace, and is in this respect competent for all practical purposes of district work; and if such examiner be not the Magistrate himself, the certificate must be countersigned by the Magistrate.

All the candidates who have not been locally examined will be required to appear before some person in Calcutta who will be selected for the purpose.

Every candidate for an appointment of less than Rs. 100 will be required to prove either that he can ride as above, or that he can walk twelve miles within 3½ hours without difficulty or prostration, to be certified in the same manner as the riding.

Persons eligible for all appointments.

5. The following persons having passed the required standard will be eligible to the Native Civil Service in all appointments:—

(a) Persons who have served Government for six years.

(b) Persons who have passed the Entrance Examination and have served Government for three years.

Provided that they have in cases (a) or (b) attained and have held for not less than one year a responsible permanent appointment, above that of copyist, with a salary not less than Rs. 25 in one of the civil departments of the Government service, and can produce a sufficient certificate of ability, good conduct, and fitness for promotion from their official superiors.

(c) Persons who have taken a University degree in arts, law, medicine, or engineering.

(d) Persons who, having passed the First Arts Examination or an examination of corresponding degree in one of the special colleges, attend the Civil Service classes for one year and acquit themselves well at the Native Civil Service examination.

(e) Persons who having passed the Entrance Examination attend the Civil Service classes for two years and acquit themselves well at the Native Civil Service Examination.

(f) Persons who may be specially declared eligible for all appointments by a certificate under the hand of a Secretary to Government.

Persons eligible for appointments of less than Rs. 100 per mensem.

6. The following persons having passed the required standard will be eligible to the Native Civil Service in appointments of less than Rs. 100 per mensem:—

(a) Persons who have served Government with credit and efficiency for not less than three years, whose thorough facility in the use of the vernacular is certified, and who pass a preliminary examination in English.

(b) Natives of Hindustan, Orissa, and Assam, natives of Bengal of Mahommedan families, and natives of any other districts which may be hereafter specially notified, who have served Government with credit and efficiency for not less than three years, and who can show that they have received a thoroughly good education in the vernacular. This privilege is limited to two years from this date, and it must be understood that such persons cannot expect advancement unless they qualify in English, that being the language of official correspondence in Bengal.

(c) Persons who have passed the Entrance Examination.

(d) Persons who may have been specially declared eligible for appointments of the lower grade by a certificate under the hand of a Secretary to Government.

7. Candidates who have not served Government for three years, and one year of whose service has not been passed in a post such as is described in rule 5 (above) are required to pass in—

The Vernacular.	Drawing.
Chemistry.	Engineering.
Botany.	Surveying.
Law.	Gymnastics.

Candidates who have served Government for three years as above, are required to pass in—

The Vernacular.
Law.
Drawing.
Surveying.

With these latter candidates the other subjects will be optional, but will count for a place in the list of successful candidates.

8. Candidates who produce certificates of having passed the undermentioned examinations will be exempted from liability to pass in the following subjects, namely—

(a) Persons who have passed the University First Arts Examination in chemistry, are exempt from liability to pass in that subject.

(b) Persons who have passed the B. A. Examination, Branch B, group 3 or group 4 (or any corresponding science course to be hereafter notified by Government), will be exempt from liability to pass in chemistry and botany.

(c) Persons who have gained a Civil Engineering College certificate of the overseer's or of any higher grade, will be exempt from liability to examination in drawing, surveying and engineering.

(d) Persons who have taken a degree in Indian law, or who have gained a first grade pleader's certificate, will be exempt from liability to examination in law.

Candidates who are entitled to exemption under this rule will be credited at the examination with two-thirds of full marks for the subject for which such exemption is allowed.

PROCEDURE TO GAIN ADMISSION.

9. Applications for admission to the Native Civil Service examination may be made—

(a) By persons who attend Civil Service classes to the Principal of the College where the classes may be held.

(b) By persons who have not attended Civil Service classes to the Magistrate of any one of the following districts:—

Alipore,	Rajshahye,	Chittagong,	Purneah,
Kishnagurh,	Rungpore,	Comillah,	Cuttack,
Jessore,	Julpigoree,	Patna,	Ranchee,
Burdwan,	Dacca,	Gya,	Gowhatty,
Hooghly,	Furreedpore,	Arrah,	Durrung,
Midnapore,	Burrisaul,	Mozufferpore,	Debroogurh,
Berhampore,	Mymensing,	Chuprah,	
Dinagepore,	Sylhet,	Bhaugulpore,	

where the medical officers will also examine candidates and grant certificates of sound health under Appendix B.

Fees.

10. Every candidate when submitting his application for admission to examination should state the subjects in which he desires to be examined, and annex certificates in any subjects in which he is required or permitted by these rules to show that he is duly qualified. He must at the same time tender a fee for each subject in which he has to be examined, computed according to the scale given below, if he is a candidate for the higher class of appointments:—

	Rs.
Elementary English examination for European candidates ...	8
Law	8
Surveying and engineering	8
Each vernacular	4
Medical examination	4
Riding or walking examination	4

Candidates for appointments of less than Rs. 100 per mensem will pay fees at half the above rates.

11. The authority receiving the application, if he is satisfied that the candidate is admissible to the examination under these rules, shall receive and credit the fees, will desire the candidate to undergo the required medical and riding or walking examination, if he has not already obtained certificates thereof, and when all certificates are complete, shall forward the application with the certificates of health, character, &c., riding or walking, of payment of fees, and certificates in any subject described in Rule 8, to the Under-Secretary to the Government of Bengal (Examination Department). No fee is required when a certificate is sufficient and is produced.

Preliminary examination of native candidates at outstations.

12. A preliminary examination in English and the vernacular of those candidates who have not already qualified in those subjects, will be held. Persons who have passed the First Arts Examination, or the Entrance Examination in the first division, or who possess a University degree or certificate in Law or Engineering, will not be liable to the preliminary examination in English. Persons who have gained vernacular scholarships, or who have served with credit in vernacular offices, will not be liable to the preliminary examination in the vernacular. The preliminary examinations will be held on some date in December, to be locally notified by the Magistrate of the District, at the stations named in Rule 9 (above).

ANNUAL EXAMINATION AT CENTRES.

Date of examination.

13. The annual examination of candidates for admission into the roll of persons qualified for admission into the Native Civil Service under this Government will be held on some day in the month of January, 1875, not later than the 20th of that month, at Hooghly, Dacca, Patna, Cuttack, and Gowhatty. There will, if need be, be special examinations for the Police, the Non-Regulation

Provinces, and the Opium Department. For the ordinary branches of the service there will be two standards—one higher, qualifying for all appointments, and another lower, qualifying for appointments of less than Rs. 100 per mensem only.

Preliminary examination of European candidates in English at the centres.

14. Previous to the other examinations, European candidates who have not passed any University examination will be required, besides passing an examination in English, to show that they possess a thorough knowledge of writing and arithmetic. They must be able to write well, quickly, and correctly, from dictation, to compose a report, and to do all ordinary arithmetic correctly and quickly, which must be duly certified by the examiners.

By European is meant any person whose native language is English or any other European tongue.

Examination subjects.

15. The Native Civil Service examination on the subjects named in rule 6 will be conducted so as to test the knowledge of the candidates as follow :—

Examination in the Vernacular.

Vernacular examination for native candidates.

16. All native candidates will be required to show that they can read and write office papers and orders in the vernacular with complete facility.

Vernacular examination for European candidates.

All European candidates will be examined as to their ability to speak and understand a vernacular language, to read it in print, and translate it. Their knowledge of it must be sufficient to enable them to do business easily immediately on appointment.

Vernacular languages.

The vernacular language in which candidates will be required to pass under the two preceding rules may be either Bengali or Hindustani, Ooriah or Assamese.

Candidates who pass in Bengali only will not be eligible for vacancies in Behar, nor will candidates who pass in Hindustani only be eligible for vacancies in Bengal or Orissa.

Examination in Drawing, Surveying, and Engineering.

17. Candidates will be examined in the following subjects :—

I.—*Drawing.*

II.—*Surveying, in which are included*—

1.—Mensuration.
2.—Surveying with chain, and with compass and chain.
3.—Levelling.
4.—Construction of field-book, plotting, tracing on the ground.
5.—Construction and use of scales.

III.—*Engineering, in which are included*—

1.—General knowledge of properties of building materials in most common use, and of constructive trades.
2.—Estimating for a simple building or bridge.
3.—Construction of simple buildings.
4.—Construction of simple roof and bridge trusses for small spans.
5.—Elements of road-making (including the construction of culverts and small bridges).

Examination in Law.

18. Candidates will be examined in the elements of the law prevailing in Bengal in the following branches :—

(*a*) To qualify for the Police and Non-Regulation appointments—

Criminal Law.

Penal Code.
New Code of Criminal Procedure.
Police Act V of 1861.

In this examination books will be allowed.

(*b*) To qualify for Subordinate Executive Service and other civil appointments—

1. Criminal Law as in (*a*).
2. Revenue and General Law as follows :—

Regulations I, VIII, and XLVIII of 1793, and XII of 1817.
Ditto I, II, and VIII of 1819.
Ditto VII of 1822, IX and XI of 1825, and IX of 1833.

Acts IX of 1847, XXXI of 1858, and IV (B.C.) of 1868.
" XI of 1859.
" VII (B.C.) of 1868 and VIII (B.C.) of 1869.
" XXI of 1856, XXIII of 1860, and modifying Act of the Bengal Council.
" V of 1861.
" VIII of 1871.
" X (B.C.) of 1871.

Municipal Acts in force in Lower Bengal.

In the examination in Revenue and General Law books will not be allowed.

(c) To qualify for the Opium Department—

Act XXI of 1856.
" XIII of 1857.

The Board's Rules for the guidance of officers in the Opium Department.

In this examination books will not be allowed.

19. The examination papers for candidates for both grades of the service will be the same; but the passing marks will be considerably higher for the higher than for the lower grade; Candidates for the higher grade of appointments must do their papers in English; candidates for the lower grade may write their answers in their vernacular. A candidate who passes for the lower grade only will not be eligible for promotion to the higher grade of appointments until he passes for the higher grade at some future examination in at least two of the following subjects:—(1) Law, (2) Chemistry with Botany, (3) Drawing, Surveying and Engineering. Candidates who pass for the higher grade will be subject to no further examination except the higher standard departmental examination, and the opium laws examination for those candidates who are appointed to the Opium Department without having taken the opium papers.

At each examination the passed candidates will be ranked in order of merit in each subject and on the whole.

Certificate of qualification.

20. To every candidate who passes the examinations above prescribed, a certificate will be given, stating the subjects and the grade in which he has passed, and the place which he held in each subject and on the whole. But appointments can only be given to successful candidates as vacancies occur, and the Government does not guarantee that every successful candidate shall get an appointment.

NATIVE CIVIL SERVICE CLASSES.

Two kinds of Civil Service Classes.

21. As some of the subjects required for the Native Civil Service examination are not taught in the ordinary course of Bengal colleges, the Lieutenant-Governor has arranged for instructing persons who desire to qualify for that examination. Under the foregoing rules there are two classes of persons eligible for the higher class of Native Civil Service appointments, namely—

Non-service holders.

(1) Young men who have not served Government for three or more years in responsible posts.

Service-holders.

(2) Men who have served Government for three or more years.

The former class of candidates have to pass in more subjects than the latter. For those who have not served the Lieutenant-Governor would establish a Civil Service course at the Hooghly and Patna Colleges; and for those who have served special classes will, if there be a sufficient number of candidates, be established at the Presidency, Hooghly, and Patna Colleges.

22. For candidates who have passed the F. A. or B. A. examination, or any corresponding examination in the special colleges, there will be a one-year Civil Service course, which will include—

(1) The Chemistry lectures being delivered to the II year students reading for the F. A. examination.
(2) The Botany lectures being delivered to the III or IV year students.
(3) A special course of law lectures from the Civil Service classes lecturer.
(4) A special course of teaching from the teacher of surveying, &c.

The students of this one-year Civil Service course will have to go up for the ordinary University F.A. and B.A. examination papers in chemistry and botany; and will be examined in law and surveying, &c., at the Native Civil Service examination.

23. From candidates who have passed only the Entrance Examination a two-year Civil Service course will be required. These candidates will, during their first year, attend the ordinary college lectures for first year students in English, in history, in mathematics, and in natural science; while they will attend special classes in drawing, surveying, &c., in place of learning a second language—or Psychology. They will not be allowed to go on to the second year unless the Principal of the College certifies that they have done creditably in the first year.

During their second year they will join and attend the same lectures as the candidates referred to in the next preceding rule. The students of the two-year Civil Service course will pass the ordinary college examinations at the end of their first year; and at the end of their second year they will go up for the same examinations as the candidates of the one-year course.

24. Candidates who wish to attend the Civil Service classes must join the Civil Service classes not later than the 15th February of each year, and they must attend not less than 75 per cent. of the lectures prescribed for their course. The Principal of the College will not certify candidates who may be irregular at lecture as admissible to the Native Civil Service examination.

25. All scholarships granted by the Bengal Government will be tenable at Civil Service classes just as at any affiliated college. The fees for the Civil Service course will be Rs. 4 a month, besides the fee of Rs. 10 for instruction in riding and gymnastics.

26. For the candidates who have served Government the Lieutenant-Governor will establish a four-months course, from the 15th September to the 15th January at the colleges marginally noted, provided that at least 25 intending candidates for this class present themselves for admission before the 15th September. No admissions to this special class can be made after the 15th September. The Principal will have discretion to admit to this special class any candidate who, holding a University certificate in science, law or engineering, has only a few subjects to prepare for the Native Civil Service examination. The Principal can also admit to this special class any persons who may be declared to be specially eligible either by the Government or by the Commissioner.

Presidency.
Hooghly.
Patna.

27. Service-holders and others intending to enter for this four-months Civil Service course are warned that they will have to practise mensuration and drawing before they come, since they will find it difficult to get through the subjects in four months. They will receive lectures in law from the Civil Service lecturer, and will be instructed in drawing and surveying by the special teacher. Candidates admitted to this class will pay, besides the fee for riding and gymnastics, an entrance fee of Rs. 5, and a monthly fee of Rs. 3 for their lectures.

28. The following detail of the text-books and instruction in the subjects of drawing, surveying, and engineering, is prescribed for the Civil Service course:—

Subject.	Details.	Text-books and mode of acquiring.
	Surveying.	
1. Mensuration	Of the line, superficies, and the simpler solids. Cubical contents of earth-work in cuttings and embankments.	Todhunter's Mensuration.
2. Surveying with chain, and with compass and chain.	To make a survey of a tract of country 2 or 3 square miles in area.	Roorkee Papers on Surveying, chapters II, III. Also practically taught in the field.
3. Levelling	To make all the necessary sections for a supposed road between two given points.	Roorkee Papers on Surveying, chapters XI, XIII. Practical instruction in the field.
4. Construction of field-book, plotting and tracing on the ground.	To lay out the foundations of a simple building on the ground.	Instruction by lecture. Roorkee Papers on Surveying.
	Drawing.	
1. Construction and use of scales ...	Geometrical figures, orthographic projection as applied to the delineation of simple engineering structures.	Ellis Davidson on "Projection." Davidson on "Linear Drawing." Class instruction.
	Engineering.	
1. General knowledge of properties of building materials in most common use, and of constructive trades.	Stone, brick, timber, lime, mortar, cement.	Roorkee Treatise, volume I, chapters 1 2, 4, 5.
2. Estimating of a simple building or bridge.	To design simple drawbridges, culverts, and wooden bridges of small span, and to estimate the quantity and cost thereof.	Instruction principally by lecture.
3. Construction of simple buildings ...	Stone masonry, brick masonry, masonry in arches and foundations.	Roorkee Treatise, volume I, chapters 13, 14, 15, to end of paragraph 299; 16 to end of paragraph 322.
4. Construction of simple roofs and bridge trusses for small spans.	... ...	Instruction by lecture.
5. Elements of road-making, including the construction of culverts and small bridges.	Laying out roads, formation of cuttings and embankments, construction of road surface, drainage, &c.	Roorkee Treatise, volume I, section 5; volume II, section 8.

The service-holder class will receive instruction in surveying, &c., and in drawing only.

29. The Lieutenant-Governor will be particularly glad if heads of offices can give deserving and capable public servants leave of absence on favorable terms for the purpose of qualifying in the above special subjects.

30. Students who, after passing the Entrance Examination, have gone creditably through one year's college course, will be eligible for admission to the one year's Civil Service course, which is to begin from January 1874. Thereafter any young man who has only passed the Entrance Examination, must take the full two years' Civil Service course.

REMITTANCE TO ENGLAND ON THE PUBLIC SERVICE NOT TO BE MADE BY PRIVATE BILLS.

No. 3263.

RESOLUTION.

GOVERNMENT OF INDIA—FINANCIAL DEPARTMENT.

ACCOUNTS.

Fort William, the 27th November 1873.

The Governor-General in Council observes that not unfrequently the Local Governments, or even individual public officers, remit money to England for public purposes by private bills.

2. Such a practice is altogether irregular, and it should cease without exception.

3. No money should be paid in England on account of the public service in India except through the Secretary of State, whether that service be chargeable to imperial, provincial, or local funds.

4. Nor, ordinarily, ought there to be any direct transactions, on the public service, between officers or authorities in India and firms or persons in England, which entail payment of money to the latter; for, as a rule, books or stores obtained from England have to be procured through the Secretary of State for India, and in the cases where the strict rules on this head are observed there can be no occasion for remittances from India.

5. When a remittance to England on the public service is necessary, it should in no case be made by private bills, but invariably through the Government of India, who will arrange for the payment of the money by the Secretary of State for India, and for the settlement of the loss by exchange if the remittance be on account of a foreign administration, or for a local fund, &c.

ORDERED that a copy of this Resolution be sent to the several Secretariats of the Government of India, to the Local Governments and Administrations, the Comptroller-General, the Accountants-General, the Deputy Accountants-General in independent charge, the Director-General of the Post Office, and the Mint Master.

R. B. CHAPMAN,
Secretary to the Govt. of India.

NOTIFICATION.

The 18th December 1873.—In continuation of the Notification dated 1st March 1873, regarding the planting and cutting of trees, and the cutting of branches which interfere with telegraph wires, published at pages 335-36 of the *Calcutta Gazette*, the attention of all officers subordinate to the Government of Bengal is drawn to the following orders contained in a Resolution recorded in the Public Works Department of the Government of India, dated 23rd October 1873, No. 1551—77SR, on the subject of cutting trees which interfere with the construction of railway lines:—

"1. The Government of the Punjab has represented that for 5 miles on the west side of the Grand Trunk Road in the Goojrat District the trees planted and reared with the utmost trouble and great expense have been cut down by the orders of the officials of the Railway and Telegraph Departments. The Lieutenant-Governor, believing this wholesale destruction to have been unnecessary, trusts that no trees will in future be destroyed without the permission of the Deputy Commissioner of the District. On receiving this communication the Government of India ordered that inquiry should be instituted concerning the circumstances under which the trees were injured.

"2. The Telegraph Department explain that their wires were for the use of the railway, and that they believed the trees were in charge of the Railway Officers, whose permission being obtained, only such trees were removed or pruned as obstructed the setting up of the telegraph wires.

"3. The Superintendent of Works on the Chenab Bridge believes that the actual amount of damage caused by the Railway and Telegraph Officers has not been so great as is supposed. He explains that all the trees were young and too close together to permit their

roper development, so that the pruning was an improvement. He says that it was osolutely necessary to remove trees which stood on places now occupied by the ballast of he line. He describes the growth near the railway as keekur bushes, and says that in many f the curves drivers of engines could not have obtained a sufficiently clear look-out if they ad been allowed to remain, and that the removal of some trees was also desirable to prevent ccidents in the case of their being blown down across the railway.

"4. The Chief Engineer of the Punjab Northern (State) Railway states that he is mpressed with the importance of protecting trees in the Punjab as much as possible, and he egrets that the Superintendent of Works did not place himself in communication with the Deputy Commissioner. The Chief Engineer also observes that it was clearly wrong to cut he trees before it became absolutely necessary to do so.

"5. The Officiating Chief Engineer of the Punjab Northern (State) Railway has further epresented the damage done to trees by the camp followers with troops marching along the oad. This matter appears to require the attention of the military authorities.

"6. The Governor-General in Council believing the removal of the trees to have been unnecessary before locomotive engines were placed on the Railway, is of opinion that the Railway Officers must have acted with undue precipitancy when they pruned and cleared away the young trees along the Grand Trunk Road in the vicinity of the Railway without consulting the civil authorities. The Government of India desire to encourage the growth of trees throughout the Punjab in every way possible, and the Governor-General in Council expects that all Railway and other Officials will act in concert with the civil authorities in the preservation of trees. Circular No. 74T on this subject has been issued to the Officers of the Telegraph Department, and His Excellency in Council desires that Officers in charge of Railways will in future consider these orders applicable to themselves in principle and spirit."

No. 3937.—*Fort William, the* 24*th December* 1873.—*Accounts.*—The following Resolution is published for general information :—

The Governor-General in Council having reason to believe that the Government Savings Bank in Bombay was being employed for purposes which it was not intended to serve, caused enquiries to be made as to the character of the more recent accounts, the classes by whom deposits were made, and the way in which the accounts were worked.

From these enquiries it appears that there are numerous accounts, many of them recently opened, in which the maximum sum allowed has been deposited at once; and that the limit prescribed as to the amount of each account has been in practice evaded, the same person having opened more than one account.

The object of Government Savings Banks is to afford to the industrial classes and to persons of limited means, facilities for the accumulation of small savings. The essential character of the class of accounts that it is desirable to encourage is, that they are growing accounts. It was not the intention of Government to encourage the deposit at Savings Bank rate of interest of considerable sums of money.

In order, therefore, to ensure that Savings Banks shall be used only for legitimate purposes, His Excellency in Council is pleased to rule as follows :—

1*st.*—Without the special permission of the head of the office, which should be very sparingly given, no one may deposit in any Government Savings Bank in India more than Rs. 500 in one year or more than Rs. 1,000 in all.

2*nd.*—Ordinarily, no one may open for himself or the members of his family more than one account.

NOTIFICATION.

The 30th December 1873.—The period of one month having elapsed since the publication of the plan of lighting certain specified streets of the town of Howrah with gas in the *Calcutta Gazette* of the 26th November, and no objections having been raised to it, the Lieutenant-Governor is pleased to notify his sanction to the plan, and, in accordance with the provisions of Section 2, Act V of 1873 of the Bengal Council, to publish it hereby for general information :—

Under the provisions of Section 2 of Act V (B. C.) of 1873, the following plan for the future lighting of that area of the Town of Howrah which is at present lighted with gas is hereby published for general information by order of the Lieutenant-Governor of Bengal.

PLAN.

1. The portion of the town which is lighted is bounded as follows :—

On the north by Hurrogunge Road, on the south by Ramkistopore Ghaut Road, on the east by the River Hooghly, and on the west by the Grand Trunk Road. A map of this portion is herewith submitted, on which is shown in blue lines the streets which are lighted, and in red lines those which the Commissioners propose to light on receipt of His Honor's sanction.

2. The following are the names of the streets and the number of lamps in each at present lighted, as also the names of the streets proposed to be lighted and the number of lamps in each.

Names of the streets and the number of lamps in each at present lighted.

Grand Trunk Road	52	Brought forward ..	114
Ramkistopore Ghaut Road ..	7	Ghoosery Road	4
Telkul Ghaut Road	12	Golabaree Road	8
Avenue Road	7	Baptist Burial Ground Road ..	9
Church Road	5	New Street	1
Chandmarree Road	8	Ross Road	4
Tindal Garden Road	9	Seal's New Lane	2
Lall Diggee Road	4	Hurrogunge Road	12
King's Road	4	Howrah Road	44
Rosemarree Lane	3	Howrah Ghaut Road	3
Salt Gola Lane	3		
Carried over ..	114	Total ..	201

Names of the streets and the number of lamps in each proposed to be lighted.

Khetter Mitter's Lane	10	Brought forward	33
Watkins' Lane	5	Mackenzie's Lane	2
Dobson's Lane	15	Ticcaparrah and Jelleaparrah Lane	4
Strand Road	3	Total	39
Carried over	33		

3. It will be observed from the map* that when the last named streets are lighted, *all* the public roads within the portion of the town described in paragraph 2 will be lighted; that is to say, all the highways which are vested in the Commissioners, and over which they have control.

* *Vide* note deposited in the Bengal Office.

4. The outlay in erecting the lamps at present lighted, numbering 201, was Rs. 10,628, and the estimated cost of erecting the 39 lamps which are required to complete the lighted area is Rs. 2,437-8.

5. The cost of erecting the existing lamps was met from general funds, and the Commissioners propose to pay for the erection of the extra lamps from the saving which will be effected in the allotment for lighting charges for the months of January, February, and March next. This of course is calculated on the principle that His Honor the Lieutenant-Governor will be pleased to authorize the Commissioners to levy the rate from the 4th quarter of the current year 1873-74, viz. January to March 1874, the Commissioners, on their part, undertaking that the extra lamps shall be ready for lighting from 1st January.

6. The cost of lighting the 240 lamps will be Rs. 24,000 per annum. To this cost the Commissioners are bound by the existing contract with the Gas Company, from which they have no escape. The contract has still 18 years to run. To this is to be added a sum of Rs. 1,200 for contingent charges of repairs to lamps, making a total of Rs. 25,200 per annum.

7. The total valuation of buildings and lands situated within the area is Rs. 8,72,867. A rate of 3 per cent. on this valuation would yield Rs. 26,186 per annum, and if from this sum a deduction is made of, say, Rs. 486 on account of collection charges, there would remain a net income of Rs. 25,700, which would cover the expenses of lighting and maintaining the lamps within the portion of the town in which it is proposed to levy the rate for the present.

NOTIFICATION.

The 22nd December 1873.—With reference to the Notification of the 11th instant, published at page 1400 of the *Calcutta Gazette* of the 17th idem, and other previous Notifications of the kind, the Lieutenant-Governor desires it to be distinctly understood that the powers thereby vested in Joint-Magistrates or other Senior Assistant Magistrates, of hearing appeals from convictions by Magistrates of the Second and Third Classes, are to last for six months only. His Honor is wholly opposed to giving appellate powers to any but very high and competent officers or Courts, and has always refused to recognize that the hearing of criminal appeals entails undue labor on Magistrates of districts. In the instances above referred to these powers have been given only temporarily, as a very special case, in distressed districts in order that there may be no shadow of reason for supposing that the District Magistrates are tied down by work at Head-quarters.

NOTIFICATION.

The 18th December 1873.—Under the provisions of Section 3, Act III of 1864 of the Bengal Council, the Lieutenant-Governor is pleased to notify that from and after the 1st April 1874 the limits of the Darjeeling Municipality, in supersession of those specified in Notification* of the 29th April 1865, shall be as follows:—

* Published in the *Calcutta Gazette* of the 10th May 1865, page 874.

Beginning from the junction of the Rungbee and cart roads the south boundary of the Goompahar forest reserve to a point due south of the south-west angle of the boundary of the municipal grazing ground, thence a line through the reserve joining the two points above mentioned, thence the west and north boundaries of the municipal grazing ground to the cart road; thence the cart road to the boundary of location No. 99 (Rose Bank), with the south and west boundaries of which the municipal boundary will coincide. From the north-west angle of the Rose Bank boundary the municipal boundary will be a straight line to the south-west angle of location No. 121. From here it will coincide with the west boundaries of locations Nos. 121, 98, 100, 139, 77, 80, 79, and 78, to the north-west angle of the last mentioned location. Thence straight line to the south-west angle of No. 107. Thence the west boundary of that location, and the south and west boundaries

of No. 122; from the north-west angle of No. 122 a straight line to the south-west angle of No. 142. Thence the boundary of that location to its north-west angle, thence a straight line to a point two hundred yards due west of the north-western angle of location No. 136. Thence a line connecting the above points to the north and east boundaries of that location. From the south-east angle of No. 136 a line to the north-east angle of No. 141; thence the east boundary of that location. From the south-east angle of the boundary of No. 141 a line to the north-east angle of No. 110, then the east boundary of that location, then a line connecting its south-east angle with the north-east angle of location No. 43, then the north-east boundary of that location. Thence a line from its eastern angle in a south direction to the Birch Hill road. Thence that road to its junction with the Lebong road, the Lebong road to its junction with the Runjeet road, and the Runjeet road to the Bundum Jobro. Thence a straight line to the Chowrasta, thence the Calcutta road to its junction with the Cantonment road, and thence a straight line to the point where the Rungbee road cuts the eastern boundary of Harrington Location, thence the east boundary of Harrington Location as far as the north boundary of Graham's Town Location, thence the south and east boundaries of Graham's Town Location and the east boundary of Enfield Location to the cart road. Thence the west boundary of the cart road reverse to the junction of the Rungbee and cart roads.

A. MACKENZIE,
Junior Secy. to the Govt. of Bengal.

[Second Publication.]

The 23rd December 1873.—The following Rules framed under Section 69 of the Indian Registration Act, 1871, are published for general information:—

Changes of incumbency to be reported.

1. Registrars and Sub-Registrars, on giving or receiving charge of their respective offices, shall report the fact to the Inspector-General. In the case of Sub-Registrars, such reports shall be made through the District Registrar.

Temporary appointments to be reported.

2. Whenever a District Registrar makes a temporary appointment under section 12, he shall at once report the fact to the Inspector-General.

3. The report referred to in section 13 shall be submitted to Government by the Inspector-General at the end of each month.

4. Head-quarter Sub-Registrars having been permanently placed in charge of district registry offices, special appointments under section 11 are no longer necessary.

Registrar may assume charge of the office of absent sub-registrar.

5. When a Sub-Registrar is absent, or his office is temporarily vacant, if the District Registrar is unable to appoint a suitable substitute, he may himself assume charge of the sub-registry office, until the return of the Sub-Registrar or appointment of a successor; and, in such cases, the extra or additional fee chargeable for registration by a Registrar under section 30 (a) shall not be charged upon registrations effected during the absence of the Sub-Registrar.

Leave to rural sub-registrars.

6. Rural Sub-Registrars are not subject to the uncovenanted leave rules. Leave should not generally be granted to them. But in cases of urgent necessity, leave may be granted to them and substitutes appointed by the Registrar. But no leave exceeding one month shall be granted without the previous sanction of the Inspector-General. All leave granted to rural Sub-Registrars shall be at once reported to the Inspector-General and included by him in the monthly report submitted under rule 3.

Section 15.

7. The seals of District Registrars and Deputy Registrars made under section 12 of Act VI of 1864 shall be taken to be seals of Registrars and Sub-Registrars under this Act.

Seals.

8. The seal shall always remain in the personal custody of the registering officer.

Languages commonly used—section 19.

9. The following languages shall be considered to be commonly used in the districts named, viz.—

In the Patna Division and the districts of Bhaugulpore and Monghyr—English, Hindi, and Hindustani.

In the Chota Nagpore and Cooch Behar Divisions, and in the district of Purneah and the Southal Pergunnahs—English, Hindi, Hindustani, and Bengali.

In the Burdwan, Presidency, Rajshahye, Dacca, and Chittagong Divisions—English, Bengali, and Hindustani.

In the Orissa Division—English, Bengali, Hindustani, and Uriya.

In the Assam Division—English, Bengali, Hindustani, and Assamese.

Copies of Bengali, Uriya, or Assamese documents sent to other presidencies.

10. When a copy of a Bengali, Uriya, or Assamese document is forwarded under section 65 of the Act to a Registrar in another presidency, it shall be accompanied by information in English respecting the names and additions of all persons executing and claiming under it, and a description of the property situated in the Registrar's district sufficient for its identification.

11. A power of attorney intended for use in another presidency, if authenticated in Bengali, Uriya, or Assamese, by an officer unacquainted with English, may, if the parties desire it, be forwarded by him to the District Registrar for the endorsement on it of an English translation of the authentication.

12. A power of attorney authenticated in a language unknown to a registering officer, to whom it may be presented, may, if the parties desire it, be by him submitted to the Registrar or Inspector-General of Registration, Bengal, as the case may be, who will procure an English translation of the authentication.

Interlineations, &c.,—section 20.

13. When the executant of any document appears personally, he shall be required to attest all interlineations, &c. When he appears by agent, &c., the attestation of such agent, &c., shall be accepted unless the interlineations, &c., are of an important character. A registering officer shall also be at liberty on due cause being shown to accept the attestation of an agent, &c., in case of important interlineations, &c.

Territorial divisions.

14. The territorial divisions to be recognized under section 21 (b) shall be registration districts, sub-districts, and thanahs; also parganahs and mauzahs, where they are known, and collectorate districts if different from registration districts.

Maps and plans.

15. Copies of maps or plans shall be attested by the signatures of the persons executing the document or their agents; and the original map or plan contained in the document shall at the time of registration be signed and sealed by the registering officer.

16. Whenever under section 30 (b) the Registrar of Calcutta registers a document accompanied by a map relating to property, no part of which lies within his own district, a copy of the map shall be supplied for record in his own office in addition to the number required by section 21 (c).

17. When a document containing a map or plan is presented for re-registration under the proviso to section 23, it shall not be necessary for the parties to deposit fresh copies of the map or plan under section 21 (c). But the registering officer shall certify against the copy in the register book that the map or plan attached to the document is the same as that which was attached to it on its first presentation.

Documents presented or admitted after four months, —sections 24 and 34.

18. When a document is presented or admitted more than four months after execution, the Registrar may either register it himself, in which case an extra fee under heading K, as well as the penalty under heading O, shall be levied, or he may direct its registration (on payment of the penalty under heading O) by any Sub-Registrar in whose office it could have been registered if presented within four months. In such cases the date on which the application was made to the Registrar shall be regarded as the date of presentation.

Daily sittings, holidays, —section 26.

19. Every Sub-Registrar shall sit daily during certain hours which shall be approved by the Registrar, and made known to the public by a notice in some conspicuous place outside the office. The holidays to be observed in registration offices shall be the days on which the Bank of Bengal is closed by notification in the *Calcutta Gazette*.

Commissions, under sections 33 and 38.

20. A commission shall ordinarily be issued by a registering officer to some salaried member of his establishment, and the order shall be briefly endorsed on the document in words to this effect :—

"A commission is hereby issued under section 33 (or 38) of the Indian Registration Act, 1871, to (name and designation of the officer) for the purpose of inquiring whether the within power (or document) has been executed by A B, son of C D of , by whom it purports to have been executed."

21. If the person to be examined under section 38 be not resident within the district or sub-district of the registering officer, a commission shall be directed to the Registrar of the district in which such person resides, who may redirect it to the Sub-Registrar, who may, if he cannot personally attend, redirect it to any officer of his establishment.

22. When the commission has been executed, the commissioner shall return the document to the office from which it was issued, with a report which shall be endorsed upon the document in the following terms :—"Having visited the residence of A B, son of C D, at , I have this day examined the said A B, who has been identified to my satisfaction by E F, son of G H, &c., residents of , and the said A B admitted (or denied) the execution of the within power (or document).

Full signature of executant.
Full signature of witnesses.
Full signature of commissioner.

Sections 33 and 38, and Section 180 of Act VIII of 1859.

23. A commissioner may examine witnesses in the same manner as a registering officer, and persons refusing to give testimony to a commissioner, on being required to do so, shall be subject to the same penalties and punishments which they would incur for the same offence if committed in a registration office.

Idem.

24. It shall be competent to a registering officer to examine the commissioner personally in his office, touching any of the matters referred to by him or mentioned in his report, or the manner in which he may have conducted the investigation.

25. All applications for visits under section 31, 33 or 38, or for the issue of commissions under section 33 or 38, shall be accompanied by the amount of fees chargeable as well as the amount of travelling allowance claimable by the registering officer or commissioner.

26. A separate commission fee shall be charged upon every signature which requires attestation, but travelling allowance shall only be charged for the actual distance travelled. Provided that where two or more persons who execute the same document or documents relating to the same transaction reside together, only one commission fee shall be charged so far as those persons are concerned.

27. The distances for which travelling allowance is charged shall be calculated according to the table which is drawn up in the Collector's office for the service of processes. A copy of this table shall be exhibited in every registration office.

Powers of attorney.

28. The form of authentication of powers of attorney shall be as follows :—

(1)—When the principal executing the power appears at the registration office—

"Executed in my presence on the day of 18 , by A B, son of C D, of , who is personally known to me (or whose identity was proved by the testimony of E F, son of G H, of), and recorded as No. for 18 ."

Full signature of principal.
Full signature of witness or witnesses.
Seal and signature of registering officer and date.

(2)—When the principal is exempted from appearance—

"Having visited and examined at his (or her) residence the principal A B, who is personally known to me (or whose identity was proved by the evidence of C D, son of E F, of), I am satisfied that this power of attorney has been voluntarily executed by him (or her), and I accordingly authenticate it under section 33 of Act VIII of 1871, and record it as No. for 187 ."

Full signature of principal.
Full signature of witnesses.
Seal and signature of registering officer.

When the Sub-Registrar himself does not examine the executant, he should make the following endorsement below the report of the commissioner as provided for in Rule 22 :—

"From the above report, I am satisfied, &c." (as above).

29. Interlineations, blanks, erasures, or alterations in powers of attorney authenticated under section 35, should be attested by a note under the Sub-Registrar's signature at the time of authentication. When there are no interlineations, &c., the fact should be noted in the same way.

30. General powers of attorney are available under this Act, if they contain or imply an authority to appear in a registration office, and are executed in accordance with section 33. Powers already executed may be made available by the execution, in accordance with section 33, of an additional clause empowering an attorney to appear in a registry office.

31. If an authority to register be included in a document to be registered, the document must of course bear the additional stamp duty chargeable on the power of attorney.

32. Powers which do not contain or imply an authority to appear in a registration office shall not be authenticated under section 33.

33. Whenever a power of attorney is used in a registration office, an endorsement shall be made upon it in the following form :—

Presented this day.

Date (Sd.) A. B.,
Seal *Registrar or Sub-Registrar of*

34. All powers of attorney shall be returned when no longer required to the parties by whom they were presented.

Issue of process.

35. The summonses referred to in sections 36 and 37 shall be executed through the revenue authorities, and the peon's fee shall be regulated according to the rules for the service of processes by such authorities. Provided that when, for special reasons, the local Government shall so direct, the processes required in any particular office may be executed through the court of the moonsiff within whose jurisdiction such office lies. In such cases the peon's fee shall be regulated by the rules for the service of processes in civil court.

36. If the summons be addressed to a person who is alleged to have executed the document, it shall require him to attend in person, or by agent; if it be addressed to any person whose evidence is required to prove a fact, it shall require him to attend in person.

37. Every application for summons must be accompanied by the amount of expenses payable to the witness, as well as the amount of peon's fees usually chargeable by the revenue authority or civil court through which the summons is to be issued; and in forwarding for compliance an application for summons, the registering officer shall also forward the witnesses' expenses and the peon's fee.

38. In case of a person summoned under section 37 neglecting to appear, or if a summons under that section cannot be served, the registering officer may call upon the revenue officer or civil court through whom his summonses are served to take any further action authorized by the law for the time being in force for the purpose of securing the attendance of the person whose evidence is required, and such a requisition must be accompanied by the proper fee. It rests with the registering officer to specify the form of action to be taken.

39. No Rural Sub-Registrar shall issue a requisition under the preceding rule without the previous sanction of the District Registrar, or (in the case of an additional Sub-Registrar) of the ex-officio Sub-Registrar to whose sub-district he is attached.

Wills deposited under section 42.

40. A will shall not be received for deposit otherwise than in the manner laid down in section 42. A will received through the post office shall be returned to the testator *bearing*.

41. Every entry made in Book V under the provisions of section 43 shall be signed in full and dated by the Registrar.

42. When a sealed cover is withdrawn under section 44, the fact shall be noted in register No. V, and the entry shall be signed by the person by whom the withdrawal is made as well as by the Registrar.

43. When a sealed cover is opened under section 45, the fact shall be noted in register V, and the entry signed by the Registrar. If a cover is opened under order of a civil court, this shall be mentioned in the entry.

Wills called for by a civil court under section 46.

44. When a will is forwarded to any court under section 46, it shall be accompanied by a memorandum of the fee for opening the cover and copying charges, and it shall be the duty of the court to levy and remit such fee and charges to the Registrar.

Wills to be examined.

45. Sealed covers deposited with a Registrar under section 42 shall be examined monthly, and their condition reported to the Inspector-General.

46. On the presentation of a document for registration, the registering officer shall first satisfy himself—

(1) That it has been presented at the proper office (sections 28, 29, and 30);

(2) That it bears the proper stamp;
and if it purport to be, or is known to be, a counterpart—
That it is "available" under the proviso of article 16, Schedule II of the General Stamp Act, 1869.

(3) That it is in the usual language of the district, or is accompanied by a translation and a true copy (section 19);

(4) That in the case of important interlineations section 20 and rule 13 have been complied with;

(5) That (if the document refers to immovable property) the description is sufficient (section 21);

(6) That it has been presented within the proper time (sections 23, 25, and 26);

(7) That it has been presented by a person authorized to do so (section 32).

Certificate of admissibility.

47. If the requirements of the law have been complied with in all these particulars, the following certificate shall be entered on the face of the deed:—

Admissible under rule 46. Correctly stamped under the General Stamp Act, schedule , No. .

Levy of fee,—section 78.

48. After entry of the certificate under rule 47, the registering officer shall receive the fee or any fine payable under section 24, and enter the amount on the document close to such certificate, and at the same time the requisite entry shall be made in the fee book.

First endorsement.

49. The document shall now be endorsed to the following effect:—

"Presented for registration at A.M. (or P.M.) on the day of 187 , at the sub-registry office (or elsewhere), by A B, son of C D, of [attorney for E F, one of the claimants under a power (No. for 187) executed in the presence of Sub-Registrar of]." (Sd.) A. B.

50. The amount of the fee paid shall be entered on the receipt given under section 52.

Documents inadmissible on presentation.

51. If [rule 46 (1)] the deed has not been presented in the proper office, it shall be simply returned to the presenting party. In this case no entry need be made in Book II.

52. If [rule 46 (2)] the stamp is incorrect, the deed shall be impounded and forwarded to the Collector (section 23 of the General Stamp Act).

NOTE.—If the executant of a deed who is in doubt about the proper stamp consults a registering officer on the subject before formal presentation, the required information may be given to him without impounding the deed. But any deed formally presented with an insufficient stamp must be impounded.

53. If Rules 46 (3) to (7) have not been complied with, or if the presenting party refuses to pay the proper fee, the deed must be returned to the presenting party with the endorsement

"Registration refused,"

an entry being made at the same time in Book II.

NOTE.—Orders under this rule may be deferred at the request of the parties in order to enable them to comply with the requirements of the law, or for a reference to the Registrar under section 24. But in such cases an order of refusal shall be passed if the requirements of the law have not been complied with within eight months from the date of execution.

Fines under sections 24 and 34.

54. When a fine has already been paid under section 24, a second fine shall not be levied under section 34.

Second endorsement.

55. The endorsement under section 58 shall be to the following effect :—

"Execution is admitted by A B, son of C D, of , zamindar (or cultivator, &c.,) by caste—

(Sd.) A. B.

Identified by E F, son of G H, of , zamindar (or cultivator, &c.,) by caste—
The of 18

(Sd.) E. F.,
Sub-Registrar of .

When execution is admitted by an agent, the following words shall be added :—

"Agent for K L, under a power of attorney (No. for 187) executed in the presence of the Sub-Registrar of ."

When the executant or his agent is personally known to the registering officer, the words "personally known to me," should be substituted for the identification clause.

When receipt of consideration is acknowledged, the following clause should be added :—

"The receipt of rupees as consideration is admitted by the above A B"

56. The endorsement referred to in the preceding rule shall invariably be recorded in the handwriting of the registering officer.

57. When a person who cannot write signs his name by means of a mark, his name shall be recorded at length, and the writer of the name shall also sign his own name in attestation that the said mark was affixed in his presence.

58. Whenever a registering officer administers an oath, he shall separately record the evidence of the witness examined.

59. When a document is presented which has only been executed by some of the parties to it, the other executants may attend and execute the document and admit their execution without the payment of any further fee, so long as the certificate of registration under section 60 has not been endorsed thereon; but if the registration of the document has been completed, it must be presented afresh for re-registration and a second fee shall be payable.

Document to be copied after admission.

60. When all the persons executing a document, or their representatives, assigns or agents, have appeared and admitted its execution, the document shall be copied in the register.

61. When two or more copies of the same document are brought for registration at the same time, it shall not be necessary to enter the document more than once in the register, but all the endorsements shall be written upon each copy.

62. All endorsements shall be made in red ink, excepting signatures, which may be made in black ink.

63. When there is not room on a document for the necessary endorsements, they shall be made on a separate quarter sheet of hand-laid medium paper which should be supplied by the office and attached to the document, a note being at the same time made on the document itself and signed by the registering officer.

Final endorsement.

64. When a document has been copied, the registering officer shall proceed to make in the following form the endorsement required by section 60 :—

"Registered in Book , Volume
Page Being No. for 18 ."

Copyist and comparer to sign their name.

65. The register copy of every document shall be compared with the original by some person other than the copyist, and both the copyist and the comparer shall append their signatures. The registering officer shall authenticate by his initials all corrections in the copy and all notes which may be necessary under section 20 of the Act. He shall also affix his initials to each page, and shall certify with his full signature each copy to be a true one.

66. No erasures shall be made with a knife in any register book, but mistakes shall be corrected when necessary with the pen, and shall invariably be attested by the registering officer.

67. The register books shall have two margins. On the left hand margin shall be copied in red ink the value of the stamp and all the endorsements made in the office; in the centre shall be copied the deed itself in black ink, and the right hand margin shall be left vacant for notes under section 20 and rule 13.

68. Several volumes of Books I and IV may, if necessary, be kept in use simultaneously when the documents registered are so numerous as to make this course necessary. Books II, III, and V shall be continued from year to year until they are full, and in small offices where the number of documents registered is inconsiderable, the same volume of Books I and IV may also be used for two or more years.

Certificate of closure.

69. When a book is closed, a certificate to that effect shall be appended at the close of the written portion, and a certificate showing the number of pages written upon shall be entered on the first page.

70. When, owing to omission or error in any document which has been registered, a supplementary document rectifying such mistake or omission is presented for registration, a note of such rectification shall be made in the margin of the register in which the original document is registered.

71. When a document occupies more than one sheet of paper, the seal and the signature of the registering officer shall be attached to every sheet.

Refusal of duly presented documents.

72. The circumstances under which a document should at once be refused on presentation are given in rules 51—53. A document duly presented and accepted for the purpose of enquiry, will not be admitted to registration under the following circumstances :—

(1) If one or more of the executing parties deny execution.
(2) If one or more of the executing parties fail to appear and to admit execution.
(3) If a person by whom the document purports to be executed be dead, and his representative or assign deny execution. (Section 35.)
(4) If a person purporting to have executed the document appear to be a minor, an idiot or a lunatic. (Section 35.)
(5) If the registering officer be not satisfied of the identity of any person appearing before him and alleging that he executed the document. (Section 35.)
(6) If the registering officer be not satisfied as to the truth of the allegation that a person who executed the document is dead. (Section 35.)
(7) If the admitting agent's power of attorney has not been made in accordance with the Act; or if an alleged representative or assign has failed to prove his *status*. (Section 35.)

73. In cases (1) and (4) registration must be at once refused. In cases (2), (3), (5), (6), (7) the order of refusal should ordinarily be deferred till eight months have elapsed from the date of execution. But if the parties declare their inability to comply with the requirements of the law, or for any other reason wish that the document should at once be refused and returned to them, this may be done. The reasons of refusal must be given in Book II.

Reasons of refusal to be clearly stated.

74. In recording the reasons for refusal to register, the particulars should be fully and clearly stated in each particular case. When one out of several executants declines to comply with the requirements of the law, his name should be given; when the registering officer is doubtful as to the identity of a party admitting execution, the grounds of his suspicion should be stated.

Section 70.

75. Applications for the remission of fines under section 70 may be filed with the registering officer, but no such application shall be received until the fine has been paid. The application shall be forwarded to the Inspector-General with any remarks which the registering officer may wish to make.

Copies and memoranda.

76. In addition to the bound volume of Book I, every registering officer shall keep a file in which he will file copies and memoranda of registered documents which have been forwarded to his office under sections 64, 65, 66 or 67 of the Act. This file shall be bound into a volume or volumes of convenient size at the end of the year. The entries in this volume shall be numbered consecutively, but in a series distinct from that of original registrations in Book I.

77. These copies shall be made on paper of the same size and description as the sheets of the bound books. Memoranda shall be drawn up in the prescribed form.

78. Memoranda for sub-districts in another district shall be enclosed to the Registrar of that district, together with the copy for his own office; but no memorandum need make mention of any property other than that which is situated in the sub-district to which the memorandum is to be sent.

79. When a copy of a document is sent to the Registrar of another district under sections 65—67 of the Act, a memorandum need not be sent to any Sub-Registrar whose office has been amalgamated with that of the Registrar of such district.

80. The date on which copies and memoranda are despatched under the last rule, shall be entered in the right-hand margin of the book in which the document has been copied.

Receipts for copies and memoranda.

81. When a memorandum or copy under sections 64—67 is transmitted from one office to another, it shall be accompanied by a receipt in the prescribed printed form, which shall at once be signed and returned by the receiving officer. If delay occurs in the return of the receipt, the despatching officer should takeed for it. All such receipts when returned should be filed separately.

Copies and translations of documents in foreign language.

82. The copies and translations of documents required to be filed under sections 19 and 62 shall be made upon hand-laid medium paper. They shall be kept in a separate file, a reference being made to this in the right-hand margin of the page on which the translation is copied in the register book. The file shall be bound from time to time, when it contains a sufficient number of copies and translations to form a volume. For the purposes of this rule the requisite paper may be sold to the public at one anna per sheet.

Index of persons.

83. The personal index No. I shall contain the following headings :—

1. Name of person.
2. Addition.
3. Interest in the transaction, as purchaser, mortgagee, decree-holder, &c.
4. Office of registration.

5. Serial number.
6. Book.
7. Volume.
8. Page.

Index of places.

84. The local index No. II shall contain the following headings:—

1. Name of property or of mauzah; or, in towns, of street.
2. Name of parganah or thanah.
3. Sub-district in which the property is situated.
4. Nature of the transaction, as sale of land, decree for possession of house, &c.
5. Office of registration.
6. Serial number.
7. Book.
8. Volume.
9. Page.

Index III.

85. Index III shall contain the same headings as No. I.

86. Except in rural offices, all indexes shall be kept in English.

Arrangement of entries.

87. English indexes shall be kept according to the letters of the alphabet, the entries under each letter being arranged according to the vowel of the first syllable, if the word begins with a consonant; or according to the second vowel in the word if it begins with a vowel.

Translation.

88. If the documents to be indexed are written or executed in English, the names of the persons and places shall be spelt in the same way in which they are written in the documents. If the documents are written or executed in a vernacular language, the spelling shall be regulated according to Professor H. H. Wilson's system of transliteration, as modified by the Syndicate of the Calcutta University.

Family name.

89. In the case of Europeans and of those Hindus who have hereditary family names, the surname or family name shall be taken as the index word. In all other cases native names shall be indexed as they stand. A mere title or designation of caste shall not be taken as the index word.

90. When a document is executed on behalf or in favour of Government, the index entry shall be made under G., *Government*, the name of the officer executing the document being entered in the column headed *Addition*; if on behalf or in favour of the Court of Wards, under *W., Wards, Court of*; and in the case of any other Court, under *C.* The names of companies shall be entered as they stand, the article only being omitted; thus—*Land Mortgage Bank of India, Limited*, under *L.*; *Ganges Steam Navigation Company, Limited*, under G.

91. The name of the depositor of a sealed cover shall be entered in index I.

Two or more names in one document to be entered separately.

92. When there are two or more executants or claimants, their names shall be separately entered in index I or III. Similarly, when two or more properties are conveyed by a single document, they shall be separately entered in Index II. But no Sub-Registrar need enter in his Index II any property which does not lie in his own sub-district.

93. Copies and memoranda of documents shall be indexed in the same way as original documents, but the entries relating to them shall be made in red ink.

94. In rural offices, the indexes shall be kept in the vernacular, the names being merely arranged according to their first letters. One copy of indexes I, II, and III, shall be made for office use in a bound volume; and a duplicate of the entries made each month in indexes I and II shall be submitted at its close to the Sub-divisional Sub-Registrar. In the Head Quarters Sub-division, and wherever the Sub-divisional system has not yet been introduced, the duplicate will be sent to the Registrar. Rules 83, 84, 85, 89, 90, and 92, above, apply to the indexes of Rural Sub-Registrars.

95. The Sub-Registrar, on receiving the indexes I and II from the Rural Sub-Registrars, shall translate the same, and incorporate them in his own indexes, noting the place of registration of each document. He shall also, at the end of each year, or at such shorter intervals as the Registrar shall direct, prepare on hand-laid medium paper a copy of the incorporated index, and submit it to the Registrar.

Duplicate indexes of amalgamated offices.

96. Where the office of a Registrar has been amalgamated with that of a Sub-Registrar, the duplicate copy of the Sub-Registrar's indexes shall be sent for safe custody to the office of the Registrar of Calcutta, or to such other place as the Inspector-General may direct.

One office of record in each district.

97. The Registrar's office shall be a central office of record for each district, and the books and papers of subordinate offices (which are not to be destroyed) shall be transferred to it from time to time.

Old records to be permanently preserved.

98. The following records belonging to the period anterior to the enactment of Act XVI of 1864 shall be henceforward permanently preserved in district registry offices:—

All registers of documents and their indexes.

Duplicate copies of documents required to be filed under Regulation XX of 1812.

Registers of powers of attorney.
Original powers required to be filed under Regulation XX of 1812.
Kazis' records.

Books to be kept in all offices.

99. Besides register books I, II, III, and IV, and indexes I, II, and III, the following records shall be kept in all registry offices :—

A register of powers of attorney in the prescribed form.
A register of visits and commissions in the prescribed form.
A fee book in the prescribed form.
A cash book in the form prescribed by the Accountant-General.
A catalogue in the prescribed form
A chalan book in the prescribed form.
A file of receipts given under section 52 and returned on delivery of registered documents.
A file of receipts for copies and memoranda under rule 81.

Additional books in district offices.

100. The following additional books shall be kept in all district offices :—

Book V.
A register of letters received.
A register of letters despatched.

Transfer of books.

101. In January of each year the following records for the previous year shall be transferred from sub-registry offices to the district office :—

Book I (including the file of copies), and book IV under Act VIII of 1871, and index III.
Copies and translations filed under section 19.

102. Books II and III, and the register of attested powers of attorney, shall be transferred to the district office as soon as they are filled.

103. In the case of all rural offices, and wherever the sub-registry office is not a masonry building, each volume of the register books shall be forwarded to the district office as soon as it has been filled and indexed without waiting till the end of the year.

Records to be preserved in perpetuity.

104. For the period since Act XVI of 1864 came into force the following records shall be preserved in perpetuity in all district offices :—

All register books and their indexes prescribed by Acts XVI of 1864 and XX of 1866 and VIII of 1871, as well those of the district registry offices as those received from the sub-registry offices.
Registers of powers of attorney.
Catalogue.
Cash book.
Fee book.
Reports of the destruction of records, and lists of the papers destroyed.

105. The following records shall be preserved in perpetuity in all sub-registry offices :—

Book III, under Act XVI of 1864, and Book V, under Act XX of 1866.
The rough indexes, under Act XVI of 1864.
Original indexes I and II, under Acts XX of 1866 and VIII of 1871.
Catalogue.
Cash book.
Fee book.

Section 83.

106. When a registered document is destroyed under section 83, a note to that effect shall be made in the book in which it is registered.

Records to be destroyed after three years.

107. The following records may be destroyed after the expiration of three full years from the period to which they relate :—

Registers of visits and commissions.
Chalan books.
The receipts referred to in section 52.
Receipts referred to in rule 81.
All correspondence, whether in English or in the vernacular, which is of an ordinary routine character, and which the Registrar considers may be destroyed.
Monthly returns, petitions, and other records and papers not otherwise specified.

108. No books or papers whatever shall be destroyed at a sub-registry office without the previous sanction of the Inspector-General.

109. The register books and indexes of the general registry offices under Act XVI of 1864 and Act XX of 1866, shall be preserved in the Calcutta Registry Office.

110. All applications for search or for copies should be made to the registering officer himself.

Applications for search or copies.

If an application is made in writing, the registering officer should initial it at once, giving the date. If an application is made *vivâ voce*, the registering officer should write on a slip of paper, "Give copy," or some

such brief order, adding his initials and date. All such applications and orders should be preserved on a separate file, the date on which a search has been made or copy completed being noted. Applications made through Sub-Regsitrars for copies from registers deposited in the district office must be in writing, and should be at once transmitted to the Registrar for compliance. No stamp is required on applications for searches or copies.

111. Registrars shall permit search and grant copies of entries in the registers kept up previous to the enactment of Act VIII of 1871, at the same rate of fees, and to the same extent as in the case of registers under that Act.

112. A call for information from any court or revenue authority shall, if it necessitates search in the registers, be accompanied by the necessary fee for search. Officers of Government shall be permitted to inspect the registers without fee; but if the production of a register book in any court is required, it shall be produced by an officer of the registration establishment deputed for that purpose, who will be entitled to claim payment of his expenses like any other witness.

113. Registering officers shall take care that their clerks have no dealings with the public, except in their presence. They shall themselves receive documents which are tendered for registration; and when they are registered, shall return them with their own hands.

114. The serial number of the last document in each book completed and ready for return shall be daily notified in some conspicuous place outside every office.

Catalogue.

115. A catalogue in the prescribed form shall be kept up and permanently preserved in every registry office. On the occasion of every permanent change in the incumbency, the officer receiving charge should compare his books with the catalogue, and certify therein that he has found them correct.

Table of fees.

116. A printed table of fees in English and the vernacular of the district shall be suspended in some conspicuous place in every registry office.

117. Columns 1, 7, and 13 in the fee book should be filled up as soon as any document is presented, except in the case of documents presented at the wrong office and returned under rule 51; columns 8 and 9 should be filled up as soon as a document is admitted or refused; columns 10 and 11, as soon as registration has been completed; column 12, as soon as the document has been delivered and column 14, as soon as the required copies and memoranda have been despatched.

118. Where the Sub-Registrar is a salaried officer, and only receives commission, in addition to his salary, he should remit the fees to the treasury daily. Remittances to the treasury should be accompanied by the Chalan Book duly filled up in duplicate. One copy of each chalan will then be kept by the treasury officer and the other returned with his signature.

119. Before the 1st of September of each year, every Sub-Registrar shall submit to the Registrar to whom he is subordinate, an indent in the prescribed form for all register books and other registration forms which will be required in his office during the following calendar year.

Indent for register books or other forms.

120. Every Registrar shall submit to the Inspector-General before the 15th September of each year an indent in quadruplicate in the prescribed form for all register books, and other registration forms which will be required for his own office, and those of the Sub-Registrars subordinate to him during the following calendar year. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom he is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such Sub-Registrars should be submitted separately in quadruplicate with the Registrar's endorsement instead of being embodied in the Registrar's indent.

121. When delay occurs in supplying register books and other registration forms, reminders should be addressed, not to the Inspector-General of Registration, but to the Superintendent of the Alipore Jail Press, the number of the Stationery office order being quoted. Reminders are useless without it.

122. Indents for the forms enumerated in the margin which have been prescribed by the Accountant-General should be submitted in triplicate in March of each year direct to the Superintendent of Stationery.

1A. Accountant-General's form indent form.
116. Commission list of Sub-Registrars.
117. Salary list of gazetted officers of the Registration Department.
118. Salary list of sanctioned establishments of the Registration Department.
119. Bill for contingent charges of the Registration Department.
120. Travelling allowance of Registrars.
121. Travelling allowance of ministerial officers of the Registration Department.
126. Refund of registration fees.
127. Bill for refund of registration fees for sudder sub-registry office.
128. Bill for refund of registration fee for sub-divisional and rural sub-registry office.
138. Detailed bill of contingent charges for countersignature.
141. Leave statement.
183. Cash book of registration.
184. Acquittance roll of establishment.
200. Monthly chalan of officers paid by fees only.

123. Rural Sub-Registrars may be supplied with registration ink and other stationery from the district office at cost price, which should be ascertained from the Superintendent of Stationery. The hand-laid medium paper required for copies under sections 64 and 65 will be supplied to them gratis.

Indents for stationery:

JUNE.—Patna, Bhaugulpore, and Rajshahye Divisions, except the district of Rajshahye.

JULY.—Dacca, Cooch Behar, and Assam Divisions.

AUGUST.—Calcutta offices, viz., those belonging to the Judicial, Revenue, Financial, Public Works, Telegraph, and Post Office Departments.

SEPTEMBER.—Calcutta offices, viz., the Secretariat Offices, and those belonging to the Military, Ecclesiastical, and Marine Departments, and all not included in the foregoing.

OCTOBER.—Burmah, Straits Settlements, Tenasserim, Arracan, and the Chittagong Divisions.

NOVEMBER.—Presidency and Burdwan Divisions, and the Rajshahye district (Rampore Beauleah).

DECEMBER.—Chota Nagpore, Cuttack, and Hyderabad.

124. Before the several dates noted in the margin all District Registrars should send to the Superintendent of Stationery an indent in duplicate in the prescribed form for the stationery (including registration ink) which will be required for the registry offices in their districts during the next twelve months; indents from Sub-Registrars should be submitted to the district office at least 15 days before these dates. The Registrar's indent should include all ink and other stationery likely to be required by rural Sub-Registrars under rule 123 above.

125. All official letters and covers sent by post from any Sub-Registry or District Registry office must be prepaid by service labels. These labels will be supplied to Sub-Registrars (on application) by District Registrars who will disallow unreasonable and excessive demands. A monthly statement of the distribution of service postage labels should be submitted by each District Registrar for the information of the Inspector General. A permanent advance of Rs. 20 for postal charges is allowed to District Registrars. All bills for bearing covers must be accompanied by the covers on which the payments were made as vouchers. Service labels will be purchased by District Registrars as they require them, the expenditure being included in their monthly postal bill supported by the treasury officer's receipts as vouchers.

126. When an officer is temporarily placed in charge of the office of a special Sub-Registrar during his absence on inspection duty in the interior of his district, he is not entitled to draw commission which the Special Sub-Registrar retains.

127. The security bonds of head-clerks should be examined at the close of each financial year, the result being reported to the Inspector-General.

128. The receipts entered in the fee book need not be entered in detail in the cash book. Their daily totals will be sufficient. But all other receipts and all payments whatsoever must be entered in full detail in the cash book. All cash received must at once be entered either in the fee book or in the cash book. No money should under any circumstances be kept out of account. The cash book should be balanced every day, and signed after careful examination by the registering officer.

129. All permanent advances must be repaid into the treasury on the 31st of March of each year, and drawn again in the following month.

130. Registrars and Sub-Registrars who are paid by fixed salaries will draw their pay in Accountant-General's form No. 117, and the bill may be paid without the countersignature of superior authority.

131. Salaried Sub-Registrars who are also entitled to a percentage on the fees, will draw their commission at the end of each month in Accountant-General's form No. 116, at such rate as may have been sanctioned by Government, but upon such fees only as shall have been actually paid into the treasury during the month. No commission is payable on fines, or on the extra fees for registration by a Registrar, or on the receipts for the sale of paper. Commission bills require the Registrar's countersignature before payment.

132. Sub-Registrars who are paid by fees only, and receive 50 per cent. and upwards of those fees will retain them until the end of each month, and then remit the Government share of them to the treasury, with an account current in duplicate in the prescribed form A. G. B. No. 200.

133. Salary bills for permanent establishments will be drawn in Accountant-General's form No. 118, by the head of the office. They do not require the countersignature of higher authority.

134. Bills for extra establishments paid by salary may be drawn in the same way as those for fixed establishments, the orders sanctioning their entertainment being always quoted in the bill.

135. Bills for wages of extra writers paid at contract rates require the countersignature of the Inspector-General before payment.

136. Travelling allowances of registering officers and their clerks will be drawn in Accountant-General's form Nos. 120 and 121 respectively; and in both cases they must invariably be submitted to the Inspector-General for countersignature before payment, whatever may be the amount of the bill.

137. When ministerial officers of the department are deputed to give evidence or to produce records before any court, their travelling expenses will be paid by the court.

138. House and office rent sanctioned by Government may be drawn by the head of the office without the countersignature of higher authority, the number and date of the Government order being always quoted in the bill.

139. Office furniture must not be purchased without the sanction of the Inspector-General. An estimate of the probable cost should accompany all applications for such sanction.

140. The salary of sweepers cannot be charged to contingencies. The wages of pankha-pullers may be so charged when their employment has been sanctioned.

141. No charges for printing may be incurred without the special sanction of the Inspector-General. Such printed forms as are necessary will be printed at the Alipore Jail Press under the authority of the Inspector-General.

142. English stationery procurable from the Stationery Office may not be purchased in the local market, but charges for petty articles, such as sealing-ink, paste, thread, country paper, &c., may be included in the monthly contingent bill.

143. Sub-Registrars' contingent bills should be presented for payment at the end of each month, and if the total charge does not exceed Rs. 10, the Registrar's countersignature is sufficient for audit.

144. Registrars' contingent bills not exceeding Rs. 10 in amount, do not require countersignature.

145. A permanent advance of Rs. 10 is allowed to all Registrars and ex-officio Sub-Registrars for ordinary contingent charges. When the expenditure during any month on account of contingencies in any Registrar's or ex-officio Sub-Registrar's office exceeds the amount of the permanent advance the amount expended may be drawn by an abstract bill or bills (see Accountant-General's form No. 119) submitted during the month under the Registrar's signature or countersignature. But in such cases a detailed bill (see Accountant-General's form No. 138) accompanied by vouchers must also be submitted at the end of the month.

146. A duplicate bill should never be submitted unless the original is lost in transit or otherwise, in which case a certificate should be attached to the effect that the bill has not been cashed at the treasury.

147. Bills, monthly returns, and regular indents, should not be accompanied by covering letters. The envelopes containing them should be marked "Returns." Letters and urgent indents should be separately sent.

The following are the conditions of Sale:—

1. The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertized for sale shall remain unsold, the sale may, at the discretion of the Member in charge, be resumed on the next day following (not being Sunday or a public holiday) at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertized shall not be sold on the day appointed, the Member in charge may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Member in charge shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale, and in case any lots of such Opium shall not be so paid

for and adjusted, then the cash deposit made under the fifth Condition or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale book or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

11. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue: No. 1, certificate of the Opium advertized for sale; No. 2, report of the examination of such Opium.

16. The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1872-73, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

18. It is hereby further notified that under the 8th Article of the Convention between Great Britain and France, dated the 7th March, 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1874, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided however that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 45,000 chests of

	Chests.
Behar	26,244
Benares	18,756
Total	45,000

Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in Opium, it is agreed between the high contracting parties that at each of the periodical sales of that article, there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christain Majesty, or by the persons duly appointed by them, the number of chests so supplied for provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christain Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for Opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."—By order of the Member in charge.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the undermentioned plots of lands, no longer required by the Government, situated in the district of Bhaugulpore, will be put up to sale at the Collector's Office, at Bhaugulpore, at 12 o'clock on Monday, the 2nd February 1874, corresponding with 21st Maug *B.S.*

The purchasers of these plots will be subject to the following conditions:—

1*st.*—If the amount of purchase money does not exceed Rs. 100, the whole amount to be paid down at once.

2*nd.*—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

3*rd.*—The plots will be sold revenue-free to the highest bidders.

4*th.*—The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings.

Admission of Stock other than for competition.—By special permission of the Managing Committee, persons desirous of exhibiting horse stock (not intended to compete for prizes) will be permitted to do so on a payment of Rs. 16 per head, provided stabling can be found for them.

4. Intending Exhibitors must apply for stalls by post in an envelope addressed—

"TO THE JOINT SECRETARIES,
Calcutta Horse Show, 1874."

so as to be received by them not later than the 15th December 1873. On receipt of such applications printed forms will be furnished to the Owners or Exhibitors, to be filled in by them and returned at once to the Joint Secretaries, who will then allot stalls or boxes for the horses described.

5. *Superintendent.*—A Superintendent and four European Assistants will be appointed by the Managing Committee to undertake the stable management of the Show-yard. It will be his duty to point out the stalls allotted to the Exhibitors, and to see that all orders issued by the Committee are thoroughly and promptly carried out.

6. *Date of receipt of Horses.*—Horses sent for exhibition will be received by a Veterinary Surgeon and the Superintendent of the Horse Show on Wednesday, the 7th of January 1874, any time before *noon* of that day.

7. *Health Certificate.*—A health certificate, signed by a Veterinary Surgeon, must accompany every horse when first brought to the Horse Show lines. The Veterinary Surgeon attending on the part of Government will also inspect each horse before being finally admitted.

8. *Grooms.*—Exhibitors are required to engage a reliable groom (syce) for each horse, and it is expected that either the attendant or a substitute will remain night and day at his post.

9. *Attention to Regulations.*—All attendants must conform to the rules and regulations issued by the Managing Committee; copies will be furnished to the Exhibitors, and will also be posted on the walls of the stables.

10. *Complaints.*—Complaints may be lodged at any time at the office of the Superintendent, either verbally or in writing, in a book to be kept for the purpose.

11. *Complaint Book.*—Persons able to read and write will have to enter their complaints in the book; minor complaints will be settled by the Superintendent on the spot; those of a more serious nature will be treated by the Managing Committee.

12. *Illness of Horses.*—In case of illness of any horse the Owner or Exhibitor must provide medical attendance.

13. All the horses will be daily inspected by a Veterinary Surgeon.

14. All possible care will be taken of horses exhibited, but the Superintendent cannot be held responsible for any injury or accident which may occur.

15. *Forage and Grain.*—Forage, grain, and water for the stock will be provided by the Exhibitors.

16. *Smoking prohibited.*—Smoking is strictly prohibited in the stables; particular attention is requested to this rule, which is considered imperatively necessary for the safety of the cattle.

17. *Stabling.*—A loose stall or box will be provided for each animal so exhibited.

18. *Location of Mares.*—Every lot of six mares will be stabled close to each other.

19. *Inspection by Judges.*—The Judges will inspect and examine horses entered for prize competition on Thursday 8th, Friday 9th, and Saturday 10th, of January 1874.

20. *Exclusion of Visitors during inspection by Judges.*—Under no circumstances will any person be permitted to be within the precincts of the premises at the time of inspection, except grooms (syces) who will be appointed by the Judges to bring up each horse for examination.

21. *Owners and Exhibitors similarly excluded.*—Owners and Exhibitors are debarred from the privilege of being present as much as the public generally.

22. *Horses how to be inspected.*—The horses will be brought up without clothing, so that they may not be recognized by any initials or distinctive marks.

23. *Judges how guided in arriving at decision.*—Exhibitors are informed that Judges in arriving at their decision will be guided by the following points:—

1*st.*—That under the terms of Military Department Government Notification of the 4th of February last, no prize will be given unless the horses exhibited come up to a high standard of excellence. Importers and competitors are informed that the Judges will be considerably guided by good measurement of girth and leg and blood, combined with power; animals wanting in such essential points will have no chance of obtaining a prize.

2*nd.*—The horses will be judged as to their merits under the several heads of:—

A. Soundness.
B. Blood and power.
C. General conformation.
D. Action.
E. Condition.

The maximum number of marks being 100.

3*rd.*—"*The best horse*" must be perfectly sound, but any serious blemish, the result of accident, will be weighed by the Judges.

4*th.*—Each mare of every lot must be sound for all working and brood purposes.

5*th.*—If any mis-information is furnished by an Exhibitor in respect of the animals owned or exhibited by him, the whole of his stock will be disqualified for prizes, and will be at once removed from the Show premises. Admission to the Show will be refused to any person coming within the terms of this rule.

6*th.*—The decision of Judges to be final.

24. *Judges' Report.*—The Judges' report of their inspection will be prepared and printed by Saturday evening, the 10th of January 1874, but will be confidential until read to His Excellency the Viceroy on the formal opening of the Show.

25. *Necessity of Exhibitors' servants attending to Rules.*—Particular attention must be given by all Exhibitors to the necessity of their servants carrying out all the rules which may be laid down for efficient sanitary arrangements.

26. *Fire Engine.*—A fire engine, and a party to work it, will be on the premises during the Exhibition.

27. *Police arrangements.*—The Commissioner of Police will arrange with the Managing Committee (Judges) for such number of Police as may be requisite for the protection of property and the preservation of order.

28. *Lights other than those supplied by Committee prohibited.*—Stable lanterns will be provided by the Committee and placed under the orders of the Superintendent. Other lights or lanterns or fire of any kind will not be permitted within the stabling.

29. *Removal of horses if attacked with disease.*—The Managing Committee are empowered, if they deem it necessary, to direct the removal of a horse attacked with any contagious disease.

30. *Removal of horses when prohibited.*—No horse brought for exhibition, even in the event of its having been sold, will be allowed to be removed until the Exhibition is closed.

31. *Final removal from Show.*—Horses must be removed the day following the closing of the Exhibition.

32. *Objections.*—Any objection to horses exhibited must be made and proved to the satisfaction of the Stewards the day before the prizes are awarded.

33. *Objection made after award of prize.*—Objections made after the award of prizes will not be attended to during the present Show, but will be recorded against future exhibition of the horses objected to.

34. *Onus of proving objection.*—The onus of proving an objection will be wholly and entirely on the person making it. All objections must be made in writing.

By Order of the Committee,

M. J. TURNBULL, *Colonel*,
J. A. CRAWFORD, } *Joint Secretaries.*

1*st December* 1873.

Notice.

In addition to the Prizes already advertised to be given by the Government of India, at the Horse Show, to be held in Calcutta, on the 12th January 1874, the following Prizes will be given by

HIS EXCELLENCY THE VICEROY AND GOVERNOR GENERAL OF INDIA, G.M.S.I.

For the best Country-bred or Country Horse, of either sex ...	700
For the second best ditto ditto ditto	300
For the third best ditto ditto ditto	150

No Arab over 10 years old will be allowed to compete.

The Country-bred and Country Horses must be between the ages of 4 and 7 years.

Horses exhibited for these Prizes will be subject to all the Rules as to right of pre-emption on the part of Government Entrances, &c., as published in the Notification of the Government of India, Military Department, dated 4th February 1873.

Applications for Stalls will be received up to the 1st January 1874, and should be addressed to

J. A. CRAWFORD, ESQ.,
Joint-Secy., Govt. Horse Show, Custom House, Calcutta.

A detailed descriptive Roll of the Horse to be exhibited, giving breed, sex, age, color, height pedigree, sire and dam, performances if any, and price, should accompany the application for Stalls.

In the event of the stock exhibited in either of the above classes not being considered of sufficient quality, power is reserved to the Judges to withhold the Prize or Prizes in such class.

M. J. TURNBULL, *Col.*,
J. A. CRAWFORD,
Joint Honorary Secretaries, Government Horse Show.

4. Second-hand weights and scales will not be objected to if in good order.

G. TOYNBEE, C.S., *on Special Duty.*

Notice

Is hereby given that in consequence of the construction of the new road from Giridi on the Karharbari Branch of the East Indian Railway to Hazaribaugh, all goods can most conveniently be sent to Hazaribaugh by that route instead of by the railway to Barakar only. The undersigned therefore invites all Government officers, tradesmen and other gentlemen who may not be specially instructed to the contrary by their consignees, and who do not avail themselves of the Government parcel post, to send their consignments and goods to the care of the Station Master, Giridi

This request is made as the transport agency has been removed from the Barakar, and the route by Giridi is shorter and less expensive.

HAZARIBAUGH, the 9th December 1873. HENRY BEADON, *Offg. Dy. Commissioner.*

Commissioners for making Improvements in the Port of Calcutta.

NOTICE.

CALCUTTA, 22nd December 1873. (486—2) J. C. MACGREGOR, *Official Assignee.*

The Calcutta Gazette.

WEDNESDAY, DECEMBER 31, 1873.

PART III.

Acts of the Bengal Council.

Government of Bengal.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 2nd December 1873, and having been assented to by His Excellency the Governor General on the 20th idem, is hereby promulgated for general information :—

ACT No. VI OF 1873.

An Act to amend the law relating to Embankments and Watercourses.

WHEREAS it is expedient that provision should be made for the better construction, maintenance, and management of embankments and watercourses in the territories subject to the Lieutenant-Governor of Bengal; It is enacted as follows :—

PART I.

Preliminary.

1. This Act may be called "The Bengal Embankment Act, 1873."

It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal, except the province of Orissa and the Soonderbuns as defined under the provisions of Clause 2, Section 13, Regulation III of 1828.

And it shall come into force on the day of the passing thereof.

Repeal of former Acts.

2. From such day Act No. XXXII of 1855 (*relating to embankments*) and Bengal Act No. VII of 1866 (*to make better provision for the acquisition of land for embankments and other matters relating thereto*) shall, except so far as relates to the province of Orissa and the said Soonderbuns, be repealed.

Interpretation.

3. The following words shall, for the purposes of this Act, have the meanings hereby declared, save where, from the context, a contrary intention appears :—

"Estate."

"Estate" means—(1) Any land or share in land subject to the payment to Government of an annual sum, in respect of which the name of a proprietor is entered on the register, known as the general register of all revenue-paying estates, or in respect of which a separate account may, in pursuance of Section 10, or Section 11 of Act XI of 1859, have been opened;

(2) Any land entered in the register of revenue-free tenures;

(3) Any land acquired under any rules issued by or under authority of Government for the sale, grant, or clearance of waste lands.

"Embankment."

"Embankment" includes every bank, dam, wall, and dyke, made or used for excluding water from, or for retaining water upon, any land, and every sluice, spur, groyne, training wall, or other work annexed to or portion of any such embankment, and every bank, dam, dyke, wall, groyne or spur made or erected for the protection of any such embankment or of any land from erosion or overflow by or of rivers, tides, waves, or waters; and also all buildings intended for purposes of inspection and supervision.

"Watercourse."

"Watercourse" includes a line of drainage, weir, culvert, pipe, or other channel for the passage of water, whether natural or artificial.

"Zemindar."

"Zemindar" means all or any of the holders of an estate; and where two or more zemindars are jointly holders thereof, they shall be jointly and severally liable under this Act.

"Tenure." "Tenure" includes all interests in land other than estates as above defined, held permanently at a fixed rental, or held lakhiraj.

"Proprietor." "Proprietor" means the holder of a tenure.

"Public Embankment." "Public Embankment" means an embankment maintained by the officers of Government.

"Public watercourse." "Public watercourse" means any watercourse under the charge of the officers of Government.

"The Engineer." "The Engineer" means the District Engineer or any Engineer specially appointed by the Lieutenant-Governor of Bengal to perform the functions of an Engineer under this Act.

"Collector." "Collector" means any Collector, Deputy Collector or other Revenue Officer in independent charge of any district or portion of a district, or specially appointed by the Lieutenant-Governor of Bengal to perform the functions of a Collector under this Act.

"District." "District" means the portion of territory throughout which any person vested with the powers of a Collector is authorized to exercise such powers.

"Land." "Land" includes interests in land and benefits arising out of land and things attached to the earth or permanently fastened to anything attached to the earth.

PART II.

Powers of Collector and procedure thereon.

Powers of Collector. 4. Under the conditions and in the manner hereinafter provided—

Power to take charge of embankments. (1.) The Collector may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or watercourse which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and maintained by the officers of Government.

Power to remove embankments and obstructions. (2.) The Collector may cause to be removed or altered any embankment which endangers the stability of a public embankment, or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to change line of embankment. (3.) The Collector may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

Power to improve drainage. (4.) The Collector may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health, or for the protection of any village or cultivable land.

Power to alter roads and construct watercourses. (5.) The Collector may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Collector shall prescribe, the said Collector may cause the road to be altered, or a watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road, so far as the same shall have been incurred on account of insufficient provision having been made at the time of the construction of the said road for the natural drainage then existing.

Applications for sluices to be made to Collector. (6.) If any landholder, farmer, or cultivator be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Collector of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Collector to judge of the advantage which may be derived from the work. The Collector shall decide whether it is expedient that such application shall be granted.

Application for new embankment or drainage to be made to Collector. (7.) Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such work is likely to interfere with, counteract, or impede any public embankment or any public watercourse, he shall apply to the Collector, and at the time of making such application shall deposit with him a statement of the proposed work. The Collector shall decide whether it is expedient that such application shall be granted.

Procedure. 5. When it shall appear expedient to the Collector that any of the works specified in the last preceding section should be executed, he shall cause to be prepared plans, specifications, and estimates of the proposed works, together with a copy of the survey map showing the boundaries of the villages of the various estates likely to be affected by the said works, and he shall cause a proclamation to be issued giving notice of his intention to cause such works to be executed. Such proclamation shall be in the form, and state the particulars mentioned in Schedule (A) annexed to this Act; and the plans, specifications, and estimates of the proposed works, together with a copy of the survey map as aforesaid, shall be kept at the office of the Collector and shall be open to the inspection of any interested persons who shall be allowed to take copies thereof. The Collector shall not commence any of such works until final order made in respect thereto under the provisions of Sections 8, 59, and 60 of this Act.

Publication of proclamation. 6. Every such proclamation shall be published by affixing the same at the cutcherry of the Collector, and in the manner provided in the third clause of Section 57.

Proclamation to be published for thirty days. 7. Every such proclamation shall be published not less than thirty days before the day appointed for hearing the persons interested.

Hearing of objections to works.

8. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing shall be adjourned, hear the objections of any persons who may appear, and, after recording any evidence which they may adduce, shall pass an order in regard to the execution of the proposed works. Notice of such order shall be served on such persons as may have appeared in pursuance of the proclamation.

Authority to take proceedings where lands likely to be affected by the works are in different districts.

9. If the lands, which are likely to be affected by any such proposed works, are situated within the limits of different districts, the Collector of any district, within which any portion of such lands is situated, shall apply to the Commissioner of the division for authority to proceed in such matter; and the Commissioner of the division, if all the lands are situated within his division, may give authority to such Collector, or to any other Collector within whose district any portion of such lands is situated, to proceed in respect of all the lands likely to be affected by such works.

or different divisions.

If the districts, within which the lands likely to be affected by any such works are situated, are subject to the Commissioners of different divisions, the Collector shall apply to the Commissioner of the division within which his district is situated, and such Commissioner may, with the concurrence of the Commissioner to whom the other district is subject, give authority to proceed in such matter.

The Collector may delegate certain powers to Engineer.

10. All the powers vested in the Collector by Section 4 of this Act, may be exercised by the Engineer in cases referred to him by the Collector subject to the general orders of the Collector.

PART III.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

11. Whenever the Collector shall be of opinion that the proceedings commenced by notice under Sections 5 to 8 of this Act would cause delay in the exercise of any of the powers conferred upon him by Clauses 2, 3, and 4 of Section 4, likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to commence to exercise such powers. Provided that he shall forthwith cause to be prepared the plans, specifications, and estimates of the proposed works, together with a copy of the survey map as provided in Section 5, and shall cause a proclamation to be issued as provided in that section giving notice that the work mentioned therein has already been commenced, and thereupon such proceedings and inquiries shall be had as in and by Part II of this Act are directed.

Power to take possession of land.

12. Whenever any land, or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of Section 18 in cases where the Collector shall be of opinion that proceedings for the acquisition of such land according to the provisions hereinafter contained in Section 25, would cause delay as aforesaid, the Collector shall cause a proclamation to be issued in form in Schedule (B) annexed to this Act, giving notice thereof at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes.

Compensation for standing crops and trees.

13. The Collector shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of Section 29.

Power to Engineer to act in absence of Collector.

14. The Collector may depute to the Engineer the powers described in Sections 11, 12, and 13 subject to his own general orders, and in that case when the Collector is not present the Engineer may, if he shall be of opinion that delay for the purpose of obtaining the orders of the Collector would be attended with grave and imminent danger to life or property, exercise the powers conferred on him by the Collector.

Power to restore embankments, &c.

15. Whenever, upon an inquiry had under the provisions of this Part, it has been determined in the final order to be passed on such inquiry that anything done by the Collector, or by the Engineer under the last preceding section was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Collector commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed according to the provisions contained in Part V of this Act.

Section 9 to apply to proceedings under this Part.

16. The provisions of Section 9 shall be applicable to proceedings taken under this Part.

PART IV.

Powers of Engineer.

Engineer subject to control of Collector.

17. The power conferred on the Engineer under this Part shall be exercised subject to the general control and orders of the Collector.

Power to make repairs.

18. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to alter railroads or construct watercourses.

19. The Engineer may call upon the manager, or other person in charge of any railroad which interferes with the drainage of any tract of land, to alter such railroad or or to construct any watercourse under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be

altered, or a watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager, or other person in charge of the said railroad, so far as the same shall have been incurred on account of insufficient provision having been made at the time of the construction of the said railroad for the natural drainage then existing.

Power to make temporary roadway, watercourse or dam.

20. Whenever any person is desirous that a temporary roadway should be made over, or that a temporary watercourse should be made through, any public embankment, or that a temporary dam should be constructed in any embanked river or public watercourse, he shall apply to the Engineer, who shall communicate the application to the Collector, and the Collector shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the Engineer to be necessary to defray the expenses of, and incidental to, making and removing such roadway, or of, and incidental to, making and closing or removing such watercourse or dam. If the amount deposited is found insufficient, the Engineer shall recover from the said applicant the further amount required; and if it exceeds the amount required, such excess shall be returned to the said applicant.

Power to remove houses.

21. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings, situated between a public embankment and the river, is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the district in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated; and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, in accordance with the provisions of "The Land Acquisition Act, X of 1870," or other law for the time being for the acquisition of land for public purposes, for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Collector be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Sluices to be opened or shut under authority of the Engineer.

22. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to appropriate land or earth for embanked towpath.

23. In any case where an embanked towpath has heretofore been maintained by Government alongside any canal, river, khal, or channel, the Engineer shall be entitled to appropriate without payment, as heretofore, land or earth for the maintenance, repair, or re-construction of such embanked towpath. If in any case the Engineer shall consider it necessary for the purposes of towing to enlarge an existing towpath, or to construct a new towpath, proceedings shall be taken in accordance with the subsequent provisions of this Act relating thereto.

Power to enter and survey land, &c.

24. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,

to enter upon, and survey, and take levels of any land;

to dig or bore into the sub-soil;

to do all other acts necessary to ascertain whether the land is adapted to the purpose projected by such Engineer; or by the Collector;

Power to mark out line.

to set out the boundaries of the land proposed to be taken, and the intended line of the work proposed to be made thereon;

to mark such levels, boundaries, and line, by placing marks and cutting trenches;

Power to clear land.

and, where otherwise the survey cannot be completed or the levels taken, to cut down and clear away any part of any standing crop, fence, or jungle.

Previous notice of entry.

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

The Engineer or other person so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid, and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

PART V.

Acquisition of lands.

Acquisition of land.

25. Whenever in the course of proceedings under this Act, save in those cases in which the Collector has proceeded under the provisions of Part III, it appears that land is required for any of the purposes thereof, proceedings shall be forthwith taken for the acquisition of such land in accordance with the provisions of the Land Acquisition Act, X of 1870, or any other law for the time being for the acquisition of lands for public purposes.

When land taken, proclamation to be published.

26. Whenever any land shall have been taken or used under the provisions of Part III, the Collector shall cause a proclamation to be issued in form in Schedule (C) annexed to this Act at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

Contents of proclamation.

27. Such proclamation shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of issuing the proclamation), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Further notice to be served on certain parties.

28. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Proceedings after notice.

29. After service of such notice proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, in accordance with the provisions of the Land Acquisition Act, X of 1870, or any other law for the time being in force for the acquisition of land for public purposes.

Compensation for consequential damage.

30. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such property or right is vested may prefer a claim by petition to the Collector for compensation.

Application to be made within two years.

31. No claim shall be entertained which shall be made later than two years next after the completion of the work by which such right is injuriously affected.

Procedure for such compensation.

32. When any such claim is made, proceedings shall be taken in view to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, in accordance with the provisions of the Land Acquisition Act, X of 1870, or any other law for the time being in force for the acquisition of land for public purposes.

Matters to be considered in determining compensation.

33. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

First, the market value of the property or right injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property or right;

Thirdly, the consequent diminution of the market value of the property or right injuriously affected at the time of acquiring the land.

Matters not to be considered in determining compensation.

But the Judge or Assessors shall not take into consideration—

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Land, &c., taken possession of to vest in Government.

34. All buildings, land, earth, pathways, sluices, gates, bermes, hedges, belonging to, or forming part of, any embankment or water-course, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Government, and shall be held on behalf of the Government in respect of the embankments mentioned in Schedule (D) annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of Section 63; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &C.

1. *Ascertainment thereof.*

Embankments in Schedule (D).

35. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (D) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Section 4, Clause 7, or Section 20 of this Act; or to any of such embankments as may hereafter be erected for the protection of lands which at the time of the passing of this Act are protected by the embankments mentioned in the aforesaid Schedule, save so far as the erection of such embankments may protect lands not protected by the embankments mentioned in the aforesaid Schedule. All sums payable in respect of any works or repairs executed therein, or in relation to the embankments mentioned in the aforesaid Schedule except under the provisions of Section 4, Clause 7, or Section 20 of this Act, shall be paid by the Government.

Exclusion from Schedule.

If at any time after the passing of this Act, on inquiry made by the Collector as far as possible in accordance with the provisions of Part II of this Act, it shall be found that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (D), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the Lieutenant-Governor may restore the same to the said schedule if on any subsequent inquiry similarly conducted it shall appear to the Lieutenant-Governor that it is necessary so to do.

Addition to Schedule.

The Lieutenant-Governor may at any time after the passing of this Act, by a notification published in the *Calcutta Gazette*, direct that any embankment not mentioned in Schedule (D) be included in the said schedule, and the provisions of this section shall apply to such embankment.

Contribution of public money towards the maintenance of the embankments in the pergunnahs entered in Schedule (F) to be continued.

36. In accordance with the custom heretofore in force in respect of the pergunnahs entered in Schedule (E) annexed to this Act, the Government shall continue to contribute annually the sum noted therein for each pergunnah respectively towards the maintenance of the embankments thereof.

If the embankments maintained in any such pergunnah shall at any time be declared to be public embankments under the provisions of Section 4, the Collector shall, from the date of such declaration, keep a separate account for such pergunnah, in which the aforesaid sum shall be credited at the commencement of each financial year. The unexpended balance at the close of each year shall be carried on to the credit of the account in the next succeeding year, and shall be available for the cost of repairing or erecting all the embankments which it may be deemed necessary to maintain in such pergunnah.

If such embankments are declared to be public, Collector to keep a separate account.

If at any time after the passing of this Act, on an inquiry made by the Collector as far as possible in accordance with the provisions of Part II, it shall be found that it is unnecessary for the public interest to retain any embankment in either of the said pergunnahs, the Lieutenant-Governor may direct that such contribution shall cease in respect of such pergunnah. Provided that such contribution shall again be made in accordance with the provisions hereinbefore contained, if it shall appear to the Lieutenant-Governor, on the report of an inquiry similarly conducted, that the maintenance of any embankment in such pergunnah has again become necessary for the public interest.

Contribution may be discontinued if it be found unnecessary for the public interest to maintain the embankments.

37. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for, or likely to be affected by, the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection to the Commissioner of division whose decision shall be final.

Estimates and specifications to be prepared.

38. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses, and the names of the estates chargeable for, and of the estates and villages affected by, the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages, and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall inquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector to the Commissioner of division whose decision shall be final.

Preparation and settlement of accounts.

39. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts II and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Section 4, Clause 5, and Sections 19 and 20, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. If the order is made in respect of work done under Section 4, Clause 5, and Sections 19 and 20, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained.

Total sum payable.

Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per centum per annum, as the Lieutenant-Governor may direct.

Interest.

40. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule (D), and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Parties liable to pay.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 45. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

2. *Apportionment thereof.*

41. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 38. Every such notice shall specify

Notice to be given before apportionment.

the estates and villages aforesaid, and that an inquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Mode of inquiry as to the proportion chargeable to each estate.

42. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said inquiry. In making this inquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

43. In any such inquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the inquiry till such date.

Apportionment amongst zemindars.

44. At such or any subsequently adjourned inquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, rateably in proportion to the respective benefits derived by such estates from such works or repairs; or in proportion to the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or with the sanction of the local Government in proportion to the amount of revenue respectively payable for such estates, if, before the passing of this Act, such proportion has been usually adopted.

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates.

Proviso in respect of the pergunnahs in Schedule (E.)

Provided also that the sum standing to the credit of a pergunnah in Schedule (E) in the account kept by the Collector, at the time when the total amount payable is fixed under the provisions of Section 39, shall be deducted from the total amount payable in respect of such portion of any embankment as is situated in such pergunnah; and that the zemindars of the estates situated therein shall be charged only with the balance of the amount (if any) which may remain payable.

Apportionment amongst proprietors.

45. The Collector shall, in like manner, apportion, except in respect of the said Gunduk embankments, the amount payable in respect of each estate amongst all the tenures therein rateably in the proportion of benefit so received or area so benefited or protected, first deducting therefrom such sum as, on the like principle of proportion, is payable in respect of such portion of the estate as is not included within any tenure.

Apportionment where the lands held without payment of rent, not being estates on the register of revenue-free tenures.

46. All lands held without payment of rent not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall, by an order under his seal and signature, declare.

Amount apportioned payable by instalments.

47. The amount apportioned to any estate or tenure shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of the same becoming due until payment thereof at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor shall from time to time determine.

Final order of apportionment.

48. On the completion of the apportionment the Collector shall make an order specifying the estates and tenures, and the several sums payable in respect thereof, the instalments of such sums, and the dates on which the same are payable.

3. *Recovery thereof.*

Orders for payment.

49. The Collector shall, within thirty days from the final order of apportionment, make and serve for every estate therein mentioned an order, stating the amount with interest due in respect thereof, and that the same is payable to him, and the date or dates at which such amount or instalments thereof shall become payable to him.

Recovery from zemindars.

50. If such sum or any instalment thereof be not, pursuant to the said order, paid, the same with interest shall be recoverable as arrears of a demand under the provisions of Bengal Act VII of 1868 (*to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue*).

Recovery by zemindars or proprietors.

51. Every zemindar or proprietor to whom any sum or instalment thereof is payable under the said order, may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of Clauses 2 and 3 of Section 8, Sections 9, 10, 14, 15, and Clauses 1, 2, and 3 of Section 17 of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865; provided that the right or interest of any person holding from the proprietor of such tenure shall not be affected by any sale held under these provisions.

PART VII.

Miscellaneous.

Penalty for obstructing persons in exercise of powers of Act.

52. Whoever wilfully obstructs any person duly authorized under this Act in removing or levelling any embankment, house, hut, or other building, or in the lawful exercise of any of the powers in this Act conferred, shall, in case such obstruction shall not amount to an offence within the provisions of the Indian Penal Code, be liable to imprisonment of either description for any period not exceeding six months, at the discretion of the Magistrate, or to fine not exceeding two hundred rupees, commutable, if not paid, to a period of imprisonment not exceeding six months.

Penalty on unauthorized interference with embankments or drainage.

53. Every person who, without the previous permission of the Engineer, shall erect, or cause or wilfully permit to be erected, any new embankment, or shall obstruct or divert, or cause or wilfully permit to be obstructed or diverted, any watercourse, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, or shall abet any such act, shall be liable on conviction to a fine not exceeding five hundred rupees, or in default of payment, to imprisonment of either description for a period not exceeding six months.

Penalties for injuring works under Act.

54. No person shall, without due authority, cut through, or attempt to cut through, any public embankment, or destroy, or attempt to destroy any such embankment, or open or shut, or obstruct any sluice in any such embankment, or any public watercourse; and every person who shall commit any breach of the provisions of this section shall, in case the act shall not amount to mischief within the meaning of the Indian Penal Code, be liable to imprisonment of either description for a term not exceeding one month, or to a fine not exceeding two hundred rupees.

Penalties for diverting rivers or permitting cattle to graze on embankments.

55. Every person who shall make any dam or other obstruction for the purpose of diverting or opposing the current of a river, wherein or whereon there are public embankments, without the permission of the officer in immediate charge of the embankments, or shall refuse or neglect to remove any such dam or obstruction when so required by the Engineer, or shall cut or otherwise alter the banks of any embanked river, or shall remove the earth from any public embankment, or shall drive stakes into it, or by any other wilful act destroy or diminish the efficiency of such embankment; and every person who shall cause or knowingly and wilfully permit any cattle to graze upon any such embankment, or shall tether, or cause or wilfully permit any cattle to be tethered upon any such embankment, or who shall root up any grass or other vegetation growing on any such embankment, shall be liable to imprisonment of either description for a term not exceeding six months, or to a fine not exceeding two hundred rupees.

Obstructions to be removed and damage repaired.

56. Whenever any person is convicted of an offence under either of the three last preceding sections, the convicting Magistrate may order that he shall remove the embankment or obstruction, or repair the damage, in respect of which the conviction is held, within a period to be fixed in such order. If such person neglects or refuses to obey such order within the fixed period, the Engineer may remove such embankment or obstruction or repair such damage, and the cost of such removal or repair shall be levied from such person in addition to any other penalty in the manner provided in Section 307 of the Code of Criminal Procedure.

Service.

57. Every proclamation, notice or order in said by this Act required to be served may, unless when otherwise provided, be served—

(1) by delivering a copy of the same to the person to whom it is directed, or on failure of such service by posting a copy on some conspicuous part of the house in which the said person resides, or by delivering a copy to any agent authorized to appear generally for the person to whom such proclamation, notice or order is directed; or

(2) by sending a registered letter containing a copy of such proclamation, notice or order directed to the said person at his usual place of abode, or at the place where he may be known to reside; or

(3) by posting a copy of the proclamation, notice or order at the mal-cutcherry of the estate, village or tenure to which the same relates; or if no such mal-cutcherry be found, on some conspicuous place on the said estate, village or tenure, and by delivering, in the case of estates paying their annual revenue by four instalments, another copy thereof to the agent who shall have paid an instalment of revenue next before or after the preparation of such proclamation, notice or order. In all cases where two or more persons are holders of an estate, village or tenure service under this clause shall be deemed to be good and sufficient service on each and all of such persons.

No proceedings to be impeached for want of form.

58. No proceedings under this Act shall be impeached or affected by reason of any mistake in the name of any person thereby rendered liable to pay any sum of money, or in the description of any estate or tenure or land in respect of which he is rendered liable to pay; provided the directions of this Act be in substance and effect complied with; and no proceedings under this Act shall for want of form be quashed or set aside in any Court of Justice.

Appeal from orders made on objection.

59. Every order passed by the Collector in respect to applications under Section 4, Clauses 6 and 7, or under Sections 8, 39, and 48, shall be appealable to the Commissioner of Revenue, and every order of the Commissioner, except when otherwise directed by this Act, shall be appealable to the Board of Revenue, but no appeal shall lie under this section against any order unless the same be presented within one month from the date of the order.

Orders to be final.

60. Subject to the right of appeal above-mentioned and to the order and control of Government, every order passed under the provisions aforesaid shall be final, and shall not be open to revision by any Civil Court.

Powers on inquiry and appeal.

61. In any inquiry or appeal held under this Act, the Collector and the Commissioner shall respectively have the same powers

as those conferred on Courts by the Code of Civil Procedure of summoning and examining witnesses and compelling the production of documents.

General control of Commissioner and Government.

62. All the powers of a Collector under this Act shall be exercised under the general control and orders of the Commissioner of the Division, and all the powers of Collectors and Commissioners shall be exercised subject to the general control and orders of the Board of Revenue and of the Government.

Disposal of lands no longer required for embankments.

63. Whenever the maintenance of any public embankment, or the retention of any land appropriated to the purposes thereof, may no longer be required, and the permanent relinquishment of the same may be deemed expedient, such land shall be conveyed by the Collector to the proprietor of the land, within the limits of which it may be situated, on payment of the compensation, if any, which was paid for such land when the same was taken for the purpose of the embankment. If the proprietor of such lands refuse or neglect to pay such price within a reasonable time after demand, the same shall be sold by the Collector for such price as he can obtain for the same. All sums obtained for the conveyance of lands under the provisions of this section shall, after the payment of all expenses incurred on account of the same, be applied to the payment of the cost of any new embankment or drainage works affecting the said lands, and in such case the residue only of the cost of such new works shall be charged upon the zemindars of estates benefited as hereinbefore provided.

Collector may delegate any of his powers to a Deputy Collector.

64. A Collector may delegate any of his powers under this Act to a Deputy Collector, but from any order passed by a Deputy Collector to whom powers have been so delegated, an appeal shall lie to the Collector if presented within thirty days of the date of the order.

Jurisdiction.

65. All offences created by this Act shall be inquired into and tried by a Magistrate of the first or second class.

Saving of Bengal Act V of 1871.

66. Nothing in this Act shall affect the provisions of "the Hooghly and Burdwan Drainage Act 1871."

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Seventh Publication.]

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations, and was referred to a Select Committee who are to report thereon in a month :—

A Bill to provide for the Voluntary Registration of Mahomedan Marriages and Divorces.

WHEREAS it is expedient to make provision for the voluntary registration of Mahomedan marriages and divorces within the provinces under the control of the Lieutenant-Governor of Bengal; and whereas it is expedient that Registrars of such marriages and divorces should be recognised and licensed by the Local Government, it is enacted as follows :—

1. It shall be lawful for the Lieutenant-Governor of Bengal to issue a license to any person being a Mahomedan, either by name or as holding any office for the time being, authorising him to act as Registrar of Mahomedan marriages and divorces.

2. Such licenses may be given on the recommendation of the Magistrate of the district, or in Calcutta, of the Commissioner of Police, to any member of any Mahomedan sect who can show that he is usually resorted to as a professional witness in such cases by his co-religionists, or that he has practised the duties of Kazi, and that he is well versed in Mahomedan law, provided always that satisfactory evidence is produced of his being a person of good moral character.

3. No Mahomedan marriage or divorce which would otherwise be valid shall be held to be invalid merely by reason of its not having been registered before a Registrar licensed under this Act.

4. Each licensed Registrar under this Act shall keep a Register Book in a form to be laid down by the Local Government in which he shall enter all marriages and divorces,—the parties to which shall desire to have them so registered. He shall also, if requested at the time, give an extract of any entry affecting them to either of the parties to such entry.

5. The entry of any marriage or divorce in the Register Book shall be signed by the Registrar, and signed, sealed, or marked by the persons married or divorced, and shall be attested by at least two credible witnesses who were present at the ceremony, and every such entry shall be made in order from the beginning to the end of the book, and any extract of any entry given to the parties shall be numbered to correspond with the number of the entry in the Register Book, and shall be authenticated by signature of the Registrar.

6. The Registrar shall keep safely the said Register Book until the same shall be filled, and shall then, or if he shall leave the district, make over the same to the District Registrar of Assurances for safe custody.

7. Any Registrar who shall discover any error to have been committed in the form or substance of any such entry may, within one month next after the discovery of such error, in the presence of the parties married, or divorced, or in case of their death or absence, in the presence of two other credible witnesses, who shall respectively

attest the same, correct the erroneous entry according to the truth of the case by entry in the margin without any alteration of the original entry, and shall sign the marginal entry, and add thereunto the day of the month and year when such correction shall be made, and shall if possible give or cause to be delivered a corrected copy of the extract to the parties to the original entry.

8. Every Registrar shall at all reasonable times, and on the payment of such fees as may be agreed upon, search or permit search to be made in any such Register Books, and shall give a copy under his hand of any entry or entries in the same.

9. Every certified extract of any entry in any Register Book purporting to be signed by the licensed Registrar, shall be received as evidence of the marriage or divorce purporting to be so entered or of the facts purporting to be so certified therein, without further proof of such Register Book or extract, unless and until the genuineness of such entry or extract or the truth of the facts set out in it be disproved.

10. Whoever shall wilfully destroy or injure or cause to be destroyed or injured any such Register Book or any part thereof, or any such authenticated extract as aforesaid, or shall wilfully insert or cause to be inserted any false entry in any such Register Book or authenticated extract, shall be punished with imprisonment of either description, as defined in the Indian Penal Code, for a term which may extend to seven years, and shall also be liable to fine.

11. It shall be lawful for the Lieutenant-Governor to draw up rules and prescribe forms for giving effect to the provisions of this Act, and to charge a fee not exceeding Rs. 2 for each license granted under the Act, provided always that no rule shall be laid down to interfere with the taking by any licensed Registrar from the parties to any marriage or divorce of any fee, which custom or his position may entitle him to demand.

STATEMENT OF OBJECTS AND REASONS.

The attention of the Government has for some time past been drawn to the increasing number of offences against marriage shown in the criminal returns, especially in the eastern and Mahomedan districts. The remarkably small number of convictions obtained in such cases taken together with their increasing numbers, seemed to indicate the existence of a grievance which the Criminal Courts are at present unable to redress. Inquiry has proved that this is in fact the case. The loose notions regarding the marriage tie prevalent among the lower orders of Mahomedans lead to the frequent institution of criminal charges, while the absence of any authorized system of registration of marriage and divorce (since the office of Kazi ceased to be recognized by law) makes it difficult to furnish the amount of proof which the Criminal Courts require to warrant their taking action.

It appears to the Government that the legal recognition of an authorized system of registering Mahomedan marriages and divorces will go far to supply the existing want, and this Bill provides such a system. The Registrar will, as regards such registration, take the place which was filled by the old Kazis, and certified copies of extracts from his register are made *primâ facie* proof of the facts recited therein. But the registration of marriages and divorces is left optional with the parties concerned, and all questions of remuneration are left to be settled between the Registrar and the parties who avail themselves of his services.

EXEMPLARY LIBERALITY OF THE RANI OF BOBBILI, OF VIZAGAPATAM.

THE following papers are published with an expression of the Lieutenant-Governor's hope that the zemindars of Bengal will emulate the example of this liberal lady of Madras, who is giving 40,000 maunds of rice for gratuitous distribution in the famine-stricken districts of Bengal :—

No. 1364, dated Fort St. George, the 6th December 1873.

FROM—D. F. CARMICHAEL, ESQ., Secretary to Government, Revenue Department, Fort St. George,

To—The Secretary to the Government of India, Financial Department.

No. 1363, dated the 6th December 1873.

I AM directed to submit, for the information of the Government of India, copy of the Proceedings of this Government desiring the Collector of Vizagapatam to ship to Calcutta 40,000 maunds of paddy, which the Rani of Bobbili, a zemindar in that district, has offered to deliver about the middle of February as her contribution to the sufferers from the famine in portions of Bengal.

No. 1818, dated Vizianagram, the 26th November 1873.

FROM—J. R. DANIEL, ESQ., Acting Collector of Vizagapatam,

To—D. F. CARMICHAEL, ESQ., Secretary to Government, Revenue Department, Fort St. George.

THE Rani of Bobbili has addressed me a letter in which she expresses her intention of placing at the disposal of Government, for gratuitous distribution in the famine-stricken districts of Bengal, 40,000 maunds of paddy. I have therefore the honor to solicit the orders of Government in regard to this munificent offer on the part of the Rani. Should

Government be pleased to accept it, the Rani wishes me to state that the paddy can be ready any time after the 15th February 1874, and can then be taken for shipment at either the port of Bimlipatam or Calingapatam.

No. 1363, dated the 6th December 1873.

Order thereon by the Government of Madras.

THE Governor in Council accepts with cordial thanks the very liberal and benevolent offer which has been made by the Rani of Bobbili. The Collector will arrange for the conveyance of the paddy to port and shipment to Calcutta at Government expense as soon as may be. The bills of lading should be forwarded to the Master Attendant, Calcutta, to whom a telegram should be sent as the shipments are completed.

2. Copy of these proceedings will be furnished to the Government of India.

No. 669, dated Calcutta, the 23rd December 1873.

From—A. P. HOWELL, Esq., Deputy Secretary to the Government of India, Department of Agriculture, Revenue and Commerce,

To—The Chief Secretary to the Government of Madras.

IN reply to your letter No. 1364, dated 6th instant, I am directed to request that the acknowledgments of the Governor-General in Council may be conveyed to the Rani of Bobbili for her benevolent contribution to the relief of sufferers from the threatened scarcity in Bengal. Should there be any difficulty in the matter of freight, possibly the Collector of Vizagapatam can arrange to have the paddy husked prior to shipment.

Rainfall, Weather and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 27th December 1873.

	District and date of return.	Rainfall at Sadder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
	Western Districts.		
1	Burdwan, 30th* Dec. 1873.	Nil	Weather cold and occasionally cloudy. Late rice nearly reaped in Cutwa. Boro paddy is being transplanted from seed beds. Prospects of sugarcane and winter crops fair. Exports as before. Price of rice little higher. Fever stationary.
2	Bancoorah, 27th „ „	Nil	Weather dry and cold. Rice crop nearly reaped. No change in prices since last week. Cold weather crop doing well in the extreme north of the district and wherever water has been obtainable. Rice is being both imported and exported, but the importations are reported to be in excess of the out-goings.
3	Beerbhoom, 27th „ „	Nil	Dry, bright weather. No change since last report; rice harvest nearly home. Export by rail of week ending 20th December, 7,600 maunds to Bhaugulpore and Patna divisions.
4	Midnapore, 27th „ „	Nil	Fine and dry weather. *Boro* rice is being sown over a wider area than usual. A great deal will depend on indigo crop for the ensuing year, which is at present sown in a very few places, and on the next mulberry crop. Exportation is going on over the whole district, and prices are now entirely regulated by the Calcutta market, and the cost of carriage from the place of purchase to Calcutta. This exportation threatens serious consequences in the west of the district where the crop is worse than in other places, and no stocks of last year's crop are held to any appreciable extent. The late rain unfortunately did not extend to this portion of the district where it would have been most useful.
5	Hooghly, 27th „ „	Nil	Clear and dry weather; heavy dews. Wind north and north-east. Ploughing and sowing for the cold weather crops are still going on. Rice crop is being reaped.
	Howrah, 27th „ „	Nil	Fair weather everywhere. There is an average eight-anna late rice crop throughout the district. Outturn of the cold weather crop is expected to be very scanty this year. Seedlings of boro paddy are yet in their nursery.
	Central Districts.		
6	24-Pergunnahs, 30th† Dec. 1873.	Nil.	Pretty cold, with winds blowing from the north. There has been no change since last report. The harvest of the late rice crop is going on rapidly. Tobacco and other cold weather crops where sown progressing fairly. Fever prevails in some parts of Dum-Dum, and continues in parts of Baseerhaut. It is reported to be decreasing in Barriepore, Sudder, and Bazaset. A few cases of cholera reported at Diamond Harbour.
7	Nuddea, 27th „ „	Nil	Fine throughout the week. No alteration in the prospects of the crops. Prices nearly the same as last week. There is considerable importation of rice from Jessore.
8	Jessore, 27th „ „	Nil	Clear, bright and cold. Boro paddy is favorably reported on. There is no change in the prospects of the winter crops since last week, nor has any rise of price of rice worth mentioning occurred. The estimated outturn of the rice crop is as before reported.
9	Moorshedabad, 27th Dec. 1873.	Nil	No rain; cool and pleasant weather. No improvement since last week. From personal observation the Collector thinks that the cold weather crops in the south-eastern thannahs are better than he had been led to believe. The chief food-grains, however, such as wheat, barley, and gram, are scanty and very backward from want of rain. Urhur (pulse) is very good. Prices are almost stationary. Small-pox continues in Suti and in parts of the sudder sub-division.
10	Dinagepore, 27th „ „	Nil	Every part of the week cloudy. On the 27th December the north-west wind, dry and cold, was blowing stronger than ever. A fall of rain reported some days ago to the east. Prospects remain unchanged. The yield in some places is said to fall below the expected outturn. Prices stationary.
11	Maldah, 27th „ „	Nil	The weather remained unchanged during the week; a few drops of rain, nothing to speak of, fell in one or two places on the 22nd December, after which the weather was clear and cold; wind westerly, mornings foggy. Rain fell on the night of the 27th December, and the weather was very threatening, with rain. The winter rice crop is almost harvested; the outturn is not expected to be more than previously estimated. The pulse crop has been fairly good on moist lands. Mustard is also fairly good in places. The cold weather crops, such as wheat, barley, &c., still look well near the Ganges, but require rain. Prices stationary. Supplies plentiful; grain coming in and being stored for relief works. Works on district roads going on. The rain which began falling at the end of the week will do much good to the young crops and not much harm to mustard which is ripening in most places.

	RAJSHAHYE DIVN.—(Contd.)		
12	Rajsuahye, 27th Dec. 1873	Nil	There was very slight rain in Beauleah and to the westward on the 22nd December, insufficient to do any good to the crops. In the Bhurind tract, the young plants of boro paddy are suffering a good deal through want of moisture. The sugarcane and maskalai (pulse), the cutting of which is now going on, have yielded a good outturn. The mustard crop is less extensive than usual, but such as there is has grown well and is of good quality. Urhur (pulse) is safe to be a good average crop, rain or no rain, but the same cannot be said of the following crops which are affected by the continued drought: barley, wheat, peas, gram, and khesaree (pulse). This does not apply equally to dearah lands on which all the above are thriving better than elsewhere. Cheena (millet) is being sown. Prices are generally stationary, and there has been a rise in two places only during the last fortnight. In Poothea (the town) the price of rice has fallen to the extent of four and half seers, probably owing to the operation of a private relief association which has been organized there.
13	Rungpore, 27th „ „	Small amount of rain fell on the 22nd December.	Small amount of rain fell on the 22nd in the sudder, but the fall was greater towards the west and has done good. Days becoming colder, with fogs occasionally. The late rice has all been harvested, the general outturn is from three to four annas. The winter crops are looking fair. Prices of rice continue much the same, if any thing rather higher, from Rs. 3 to 4 per maund. No special cases of distress known, but more are coming to the relief works than before.
14	Bogra, 27th „ „	Nil	Pretty cool. Late rice is being cut. Potatoes and maskalai (pulse) are being gathered. Mustard in Dhunat and Panchbibi is ripening, and motor and khesaree (pulses) are growing up, but they are in need of rain. Mulberry is doing pretty well still. Sugarcane very good; urhur (pulse) in Panchbibi and Modhupur is reported to be looking fair. Common rice at sudder station, 12 seers 12 chittacks per rupee.
15	Pubna, 27th „ „	Nil	Sky clear; weather cold; no rain; heavy fogs in the morning. The harvesting of the late rice is not yet ended. The teel (oil-seed) is being reaped, and the gathering of the mash and moog (pulses) and reaping of sugarcane have begun. The long and continued drought is making it unfavorable for wheat, barley, linseed, and moshuree (pulse). Cheena (millet) is being sown to considerable extent. The young plants look well, but the prospect of a good yield depends upon a heavy fall of rain at an early period.
	COOCH BEHAR DIVN.		
16	Darjeeling, 27th „ „	Nil	Foggy and very cloudy; a fall of snow may be looked for soon. The greater portion of the rice crop has been harvested; the outturn throughout the district has been an average of ten annas in the rupee. The price of common rice and bhoota (millet), the chief articles of consumption, continue much the same as last week, viz. Rs. 4 per maund for the former, and Rs. 2 for the latter.
17	Julpigoree, 27th „ „	Nil	The last few days cloudless, with north-easterly wind, more like the usual weather at this time of year. A fall of ·15 inches of rain on the night of the 28th December has since been telegraphed. There is no change to report. The greater portion of the hymunti or late rice is cut, and, as far as can be known, is much as was estimated. Of old paddy, there is little, if any, in this district; all has been exported. New rice is now generally being eaten; the poorer people already commencing to eat the new late rice as it is cut. New rice is coming into the markets and being rapidly bought up for exportation. The people are so short-sighted that they willingly part with what they have got for a small temporary profit, and it is feared that the rate at which export goes on may cause distress where there was no reason before to anticipate it. Kyas and traders in cloth in this district, who never before thought of grain, have now gone into the grain market. Biparies (traders) from Kishengunge in Purneah, from Rungpore, Dinagepore, and Darjeeling, are to be found at all the marts buying up whatever rice is for sale, and by outbidding those, who usually at this time purchase and lay in a stock, they are rapidly reducing the resources of the district. Tobacco and other cold weather crops promising well, but in the south of the district these crops need rain.
	Cooch Behar, 27th „ „	Nil	No rain. Not so cold as in other years. Crops same as last week.
	Eastern Districts.		
	DACCA DIVISION.		
18	Dacca, 30th* „ „	Nil	Weather cooler than last week; heavy dews; clouds on the 29th December. Prospects of crops fair. Fever abating at Manickgunge.
19	Furreedpore, 27th „ „	Nil	Bright and sunny throughout the week; the want of rain is seriously affecting the winter crops which have not improved, and the absence of moisture in the soil will, it is feared, make them a poor one under any circumstances. All over the district about 13,400 beegahs have been sown with boro paddy, and it is expected that the outturn next March, at the rate of 4 maunds per beegah, will be, say, 53,600 maunds. Besides the above about 3,000 beegahs have been also sown with early paddy on recently formed chur lands, which will come to maturity in April, and will yield about 15,000 maunds, at 5 maunds per beegah. New rice and paddy are now selling in all the markets; prices of the former range from 16 to 20 seers per rupee, and of the latter from 45 to 80 seers, according to situation. In places inland, whence rice cannot easily be exported by boat, the rates are low and prices cheap; the same holds good in regard to pulses, which sell from 16 to 25 seers per rupee according to quality, meong being 16 seers per rupee, and khesaree and other coarser kinds 25 seers, inland.

BENGAL.—(Contd.)			
	Eastern Districts.—(Contd.)		
DACCA DIVN.—(Contd.)			Fish this season everywhere, excepting at Gopalgunge and Kotralipara, where large inland fisheries exist, is neither cheap nor abundant, but in some parts of the district skirting the large rivers, it is good, but dear; fishermen having combined as a set-off to charge high prices for the enhanced rates of rice and other food-grains which prevail. This is given as a reason for the high prices of fish, but I believe the rates to be attributable principally to there not having been any great flood this year. Fish are always abundant in proportion as the inundation is high. The only fruit now obtainable is plantain, which however is not plentiful, as the drought has greatly affected the outturn. The usual area sown with cucumber, melons, and pumpkins has been laid down; the plants have everywhere germinated and as yet promise well, but rain is wanted to give them a start and to make them yield their usual produce. The area devoted to these crops is very limited, and the soil required by them being sandy, they are generally grown on alluvial land and places affording facilities for irrigation as banks of rivers. A general feeling of anxiety pervades all classes of the people on account of the high prices ruling for all kinds of food and edibles, and in consequence of the prospects of the winter crops being far from satisfactory at present. The ryots, in tracts where the late rice harvest was fair, tempted by the high prices of rice, are parting with all surplus grain after reserving sufficient for their own consumption; this state of things prevails especially in the southern part of the district where the late rice is grown.
	20 Backergunge, 27th Dec. 1873.	Nil	Weather cold. About one-third of the late rice crop has been reaped. The transplantation of *boro* paddy has been finished, but this crop is of little importance in this district.
	21 Mymensing, 27th „ „	Nil	No present signs of rain, and the weather is considerably colder than last week. Accounts of the cold weather crops are generally favorable from all parts of the district. Cutting of the rice crop is nearly completed. Price of food in the sudder station has risen during the week, but not in the interior. Fever is still prevalent in the Atica sub-division.
	22 Sylhet, 20th „ „	Nil	Not so cold as it ought to be at this time of the year. About 4 to 5 annas of the late rice crops remains to be cut. Boro paddy ready for transplantation next month. Nearly 5,000 maunds of rice exported last week, of which about 2,000 maunds have gone to Cachar and Shillong. In the 32 pergunnahs of Zillah Latu the outturn is estimated at just over 6,00,000 maunds, of which 70,000 maunds will be available for exportation, not including nearly 30,000 maunds of last year's store. The outturn in Latu has been a full ten-anna crop. Price of rice fallen in the district. A little cholera and small-pox about the district. Telegram of the 29th.—Rainfall ·64, will benefit cold weather crops. Weather stormy.
	23 Cachar, 20th „ „	Nil	A good deal cooler, especially at night, the mornings are occasionally foggy. No prospect of rain. Almost half the paddy has been cut. It has turned out well so far. Price of rice in the sudder station about the same. It has fallen a good deal in Hylakandy. At the thannah bazar it sells for Rs. 1-4 per maund. The outturn of the crop is now estimated at twelve annas of an ordinary crop throughout the district.
CHITTAGONG DIVISION.	24 Chittagong, 20th „ „	Nil	Fine and seasonable weather. Paddy cutting rapidly progressing. Insects have disappeared from Sudder Sub-division. Cold weather crops promising well. Cholera reported from Town, Potia, Raojan, and Rangonia stations.
	25 Noakhally, 20th „ „	Nil	Clear and seasonable weather. In Sudharam, Bamni, Hatea, Ramgunge, and Luckipore, the greater part of the standing crop has now been reaped. The prospects of the remainder are favorable. Complaints of damage by insects have ceased. The ordinary cold weather crops, such as khesary and kalai (pulses), are doing well. Prices vary with the demand for rice for exportation, but are a little lower on the whole.
	26 Tipperah	.....	Return not received.
	27 Chittagong Hill Tracts, 20th Dec. 1873.	Nil	Cool, both night and day; foggy in the morning. About three-fourths of the cotton crop has been gathered; the outturn has not been so good as was expected. The prospects of the mustard and other cold weather crops are good. There is no fear of any distress.
	Hill Tipperah, 20th „ „	Nil	Cold and bright, with northerly wind. No change to report. The paddy crop has nearly been harvested. Only that on very low lands remains. Mustard, chillies, &c., are fair. Prices have a tendency to fall.
BEHAR.			
PATNA DIVISION.	28 Patna, 29th* „ „	·03	Exceedingly cold; clouds hanging about; a slight shower of rain on the night of the 27th December. Report of the spring crops most promising, though rain is wanted. Health of the district good.
	29 Gya, 27th „ „	Nil	Weather cool. There was a shower of rain in the Jehanabad sub-division on the 20th and in the Aurungabad sub-division on the 21st December. The rice crop is being reaped. The outturn is estimated at 6 annas. The prospects of the cold weather crops are good. In the tract of the country between the Soane and the Panpun, where about 20,847 beegahs have been irrigated, the yield is expected to be more than an average one. Sowings of barley and cheena (millet) continue in this tract. Health of the district good.

BEHAR.—(*Contd.*)				
PATNA DIVISION.—(*Contd.*)	30	Shahabad, 27th Dec., 1873	Nil	Slight rain reported from all parts of the district except Sasseram sub-division, on the 21st December. The rain has done a certain amount of good to the cold weather crops, but in most parts it was too slight to have much effect. The reports mention the country near Chowsa as receiving the heaviest fall, and at Durgantee it is said to have moistened the soil to the depth of an inch; the dews have also been very heavy lately. A slight rise in prices at Sasseram. Near Chand in Bhuboosh sub-division, the poorer classes are said to be using unripe cold weather crops for food.
	31	Tirhoot, 27th " "	Nil	Cold and seasonable, and at times cloudy. It was reported on the 27th December that there has been heavy rain near Seraiah, in the Paro thannah jurisdiction. The weather very cloudy, with every appearance of rain. The rice crop is now nearly all gathered in. The outturn is not more than two to three annas as previously estimated. The cold weather crops are very badly in want of rain, especially in the Madhubani sub-division, and of late they have made very little progress indeed.
	32	Sarun, 27th " "	A little rain on the night of the 21st December, hardly enough to lay the dust.	Weather clear and cold during the week, west wind prevailing; a little rain on the night of the 21st December, pretty general over the district, but not enough to do much good. The irrigated crops are still doing well. Poppy has germinated satisfactorily, the crops in the unirrigated fields are suffering severely from drought, and the water supply from which lands have been hitherto irrigated has begun to fail in many parts. There seems to be no scarcity of supplies in the bazar. Prices of food-grains stationary. People are being largely employed on relief works.
	33	Chumparun, 27th " "	Nil	Weather cool. West wind and cloudy; every appearance of rain on the 27th instant. The continued drought is acting injuriously on the cold weather crop; that on the high lands is dying for want of moisture.
BHAGULPORE DIVN.	34	Monghyr, 27th " "	Nil	The cold weather crops are generally looking well, and if rain falls soon a good crop generally is expected. The jenera (millet) now being cut is a good one, but bears a very small proportion to the other crops, probably not more than one per cent. The rice is nearly all cut and carried; the outturn has been not more than was expected.
	35	Bhaugulpore, 30th* " "	·35	Slight rain has fallen in many parts of the district, but not enough to be of much good except in the sudder sub-division. To the south of the Ganges the cold weather crops promise well still. Koorthi reaped, and kalai (pulses) being now gathered. General health remarkably good.
	36	Purneah, 27th " "	Nil	No change in the weather. ·37 inches of rainfall telegraphed on the 28th December and more expected. The late rice crop is now nearly all cut. Mustard is looking well in all parts, but tobacco, wheat, pulse, and linseed require rain. Insects are attacking the wheat, and the pulses are said to be stunted in growth. Rice is more plentiful in the hâts. Prices are a little lower than last week, and distress is not yet felt.
	37	Sonthal Pergunnahs, 27th Dec. 1873.	Nil	Dry and fairly cold everywhere till the evening of the 26th December, when clouds with thunder and lightning came up from the south. A few drops of rain fell in the sudder station on the morning of the 27th instant, but there must have been heavy rain in the hills to the south-west. The rice is nearly all cut about Doomka. It seems to be as good a crop as has been reported up to this.
ORISSA.				
ORISSA DIVISION.	38	Cuttack, 30th* " "	Nil	Weather very cool. Crops excellent. Public health generally good.
	39	Pooree, 20th " "	Nil	Fair and cool for the most part of the week; latter part rather warm. The harvest of the laghu or second rice crop has been completed, and has yielded a good outturn. The reaping of the late rice crop is proceeding rapidly with a fair yield. One-fourth of the dolwa rice crop has been sown. The cold weather crops are growing well. Rice market has been stationary, though purchases for export still continue on the same scale as before. The exporting merchants are buying large quantities of the new loghu rice which has not yet found its way into the regular market. The supply is equal to the demand. Prices are yet moderate in the mofussil. The mustard crop has been very poor.
	40	Balasore, 27th " "	Nil	Seasonable weather. The reaping of paddy continues. Cold weather crop promises well. Coarse rice is selling at 32 seers per rupee in Pergunnah Sosoh, where there has been a total failure of crops.
CHOTA NAGPORE.				
		South-West Frontier Agency.		
	41	Hazareebaugh, 27th Dec. 1873.	Nil	Cloudy during the first portion of the week; cold and clear during the latter portion. At Padumba heavy wind accompanied by a little rain. Ploughing put in hand at once for sugarcane. The prospect of the crops has in no respect improved since last report. Christmas has passed without its usual rain, and the cold weather crop is reported everywhere to be suffering from drought. The price of grain has slightly improved.

CHOTA NAGPORE.—(*Contd.*)			
	South-West Frontier Agency.—(*Contd.*)		
42	Lohardugga, 27th Dec. 1873.	Nil	Clear and bright weather, but warm for the season. Still no rain, and what cold weather crops there are are suffering accordingly. There will scarcely be a four-anna crop now. The outturn of the rice crop in the south and eastern parts of the Palamow sub-division has been better than was expected. It is feared that the cold weather crop will be entirely lost if rain does not come soon.
43	Singbhoom, 20th „ „	Nil	Cool and very pleasant weather; some rain also fell last week in the west of the district which must have benefited the gram crop. In other respects the same as last week. Prices stationary.
44	Maunbhoom, 27th „ „	Nil	Cloudy in the mornings of the 22nd and 23rd December last; since then the weather has been clear; mornings and evenings cold. Since the 24th bright sun during the day. No material change in the prospects of crops since last week; wheat and barley are still looking well, but require rain soon. Common rice is being sold at the rate of 16 to 18 seers to the rupee. Public health good.
ASSAM AND ADJACENT HILLS			
45	Goalparah, 20th „ „	Nil	Seasonable weather; days clear; mornings generally foggy. No change in the state of the crops except that the cold weather crops are somewhat improved by the heavy dews. Telegram of 29th.—Slight showers on 18th, ·11 at head-quarters, and ·65 at Dhoobree; will benefit millets, but harm mustard and pulses.
46	Kamroop, 29th* „ „	Nil	Days more or less clear, with cold north-west wind. Late rice is being reaped; the outturn will probably be below the average. Sugarcane and mustard do not promise well for want of rain. Public health good.
47	Durrung, 20th „ „	Nil	Frequent fogs, little north-east breeze, and heavy dews. No change in the condition of the crops. The mustard crop is greatly in want of rain. In some parts of the district the late rice of the current year is being brought out into the markets; the average for the district will give about an eight-anna crop.
48	Nowgong, 20th „ „	Nil	Weather cold and seasonable, with very heavy dews at night and foggy mornings. The late rice crop nearly all cut. The heavy night dews benefiting the pulse and mustard crops. Sugarcane doing well. Tea operations closed, and pruning of bushes actively carried on. General health good; a fresh case of small-pox in the town.
49	Seebsaugor, 20th „ „	Nil	Nights and mornings are cold; the latter are also foggy. No indication of rain. The reaping of the paddy continues. Owing to want of rain the mustard crop will be a poor one. Sugarcane tolerable.
50	Luckimpore, 20th „ „	Nil	The weather has been dry and cold, with hot sun in the day time. The rice crops are being fast got in. Rain looked for very much as the excessive drought is very unseasonable. Public health good.
51	Naga Hills, 13th „ „	Nil	Warm and dry in the day, but cold at night. All the rice crops in the hills are gathered and cotton is now being got in, which is not a very good one. The rice crop, however, has been a very good one on the hills, but bad on the plains.
52	Khasi & Jynteah Hills, 20th Dec. 1873.	Nil	Bright sun. Prospects of the murwa (millet) crop continue good. All other food-crops have been reaped.
53	Garo Hills, 20th Dec. 1873.	Nil	Seasonably cold. On Monday a few drops of rain. Hazy throughout the week. During Friday and Saturday a few clouds collected over Tura range, but no rain fell. Jooming is going on. A small portion of cotton remains uncollected.
